Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, NOVEMBER 1, 1867. No. 156.

Shadows.

All things earthly vanish and pass,
Vanish as hues of the morn;
All pass away as the glimmer of day,
While others as fleet are born.
Hush, hush! thou too must fall
Under thy coffin'd shroud.
Stay, stay! thy funeral pall
Is imaged in yonder cloud!
All things vanish and pass away,
Like shadows that flit at close of day.

The flowers that bloom in the azure deeps—
The golden stars—must fall;
There is ever a time they cease to climb
O'er the steps of heaven's blue wall.
Hush, hush! one now goes down
Into the soundless sea;
Fleet, fleet as that star hath flown
Are the days of thy destiny.
Like Autumn's shadow, or evening sigh,
Each star of darkness but gleams to die.

The blossoms that shine in the fields of spring
Like jewels sown in the grass,
Have a fate like ours which their glory fling
And bloom but to wither and pass.
Look, look! as the leaves grow white,
And the buds but wither and fade,
The flowers which glimmered in spring so bright
Have perished in Autumn's shade.
As the voice of the sick when they sink to die,
So feeble and faint do the blossoms lie.

Look down on the infant, whose laughing eyes
Seem mirrors of heavenly bliss;
Look down on him now as he sickens and dies,
Neath the breath of a parent's kiss!
Hush, hush! we are hastening fast
O'er ripples of time's dark wave;
And ere we arrive where our hopes are cast,
We are deep in the silent grave!
So pause and consider, nor tread so fast;
The moment which follows may be—your last.

Tales of Bank Officers.

The correspondent of the New York of the Mobile *Advertiser* relates the following of what he calls the honest cashier:

Not long ago the cashier of a well known bank informed the directors that he wished to resign. He was supposed to be a poor man in the comparative sense, and they asked him if he could afford to resign.

"Yes," said the cashier, "if I could not I would not."

"How is it that? We thought you had nothing but your salary?"

"Gentlemen," said he, perfectly cool and frank. "I have used the money of the bank—used it literally. But the bank has not lost anything, I saw chances—made the best of them, and returned every dollar I took. I have enough now and want to resign. Have the books examined—you will find everything straight. It may have been wrong to use the money, but there's nothing lost and it's not worth your while to make any trouble."

They did not make any trouble, and the lucky cashier is now a member of the best society in New York.

The Philadelphia *Ledger*, commenting upon the above, relates the following:

Something akin to the above is a fact in the life of a newly elected bank director in this city, as the same was told us by the individual himself. He was a staid active business man, a member of the Society of Friends, and, like the most of that unobtrusive sect, rarely took part in affairs outside of his own store. Being a man of means, and keeping a good bank account, one of our oldest banks solicited him to become a director. It being a grave question with him, he said he would think of it, and after consultation with his wife, who, being a little ambitious, insisted that he should accept it, and he did. At the first meeting of the Board thereafter he took his seat, and after the disposal of the business before it, some cigars, as usual, were brought in, and those who desired, helped themselves and smoked, leaving at the time of adjournment a dozen or more in the glass tumbler containing them. At the Board was another quiet, straight-faced old Friend, who, remaining behind his fellows, our new director saw him give a quick glance around the room to assure himself that he was unobserved, and then stealthily whip the remaining cigars in his pocket. In alarm, our new director walked directly home, and to the surprise of his wife, informed her that he meant to forthwith resign his office, and related what he had seen, and he thought there must be something in the air of a bank to create an itching palm, and make men dishonest. True to his word he did resign, and has never since taken a seat at a Board of Bank Directors.

The Fenians.

AN ARMORY SACKED BY FENIANS.

A despatch from Reedham to Reuter's sets forth, that at midnight, on Oct. 14, a Fenian mob attacked the armory of the Twelfth Norfolk Rifle Volunteers, situated at Reepham. Sixty rifles and 10,000 ball catridges were carried away. Pistols also were exchanged, some policemen wounded, and the armorer in charge is mortally wounded. There was great excitement in the district. The Fenians had retired to Foxley Wood, pursued by the police and volunteers, under the command of General Sutton. A troop of cavalry had been sent for from Norwich.

An American, being asked why he chewed tobacco, replied: "To keep a nasty taste out of my mouth."

The Bank Negotiations.

MINUTES OF, AND SOME PARTICULARS CONNECTED WITH THE METING OF BANKERS HELD AT THE BANK OF B. N. AMERICA, ON MONDAY, THE 21ST OCTOBER, 1867, WITH A VIEW TO DEVISE SOME MEANS OF AIDING THE COMMERCIAL BANK.

The amount asked as necessary to sustain the Bank was $750,000.

It was proposed to raise this amount by a loan or advance from sundry banks equal to six per cent upon their respective capitals.

Mr. King from the first refused to join in this plan, or in any other, of lending direct to the Commercial Bank. He said he would lend the other banks, and they might advance the Commercial, thus keeping between himself and the Commercial the guarantee of the other banks. This proposition the other banks indignantly declined, feeling themselves, as they said, quite willing and able to make their own proportion of the advance out of their own means, and stating that they could see no reason why Mr. King should claim for the Bank of Montreal any privileged position, or exemption from the same liability which they, the other banks, were willing to assume.

Mr. King then reminded the meeting that the Bank of Montreal had already made an advance of $300,000 to the Commercial.

To this it was replied that the other banks would consider *that* as a portion of the loan now required from the Bank of Montreal, and it would be asked for no more until the other banks reached a figure which, in proportion to their capital, would be equal to that sum, Mr. King of course putting the security which he held against this loan into the general fund of securities for all the banks.

This he positively declined. He was then asked if the meeting would consent to allow him to hold the special securities for the three hundred thousand dollars, and to consider it as so much of the loan required now, if he would consent to join the plan proposed, and loan the remainder of what might be required over the three hundred thousand dollars, say sixty thousand dollars, three hundred and sixty thousand being his proportion.

This also he most positively refused to do, adding: "There is no use talking, I have given my *ultimatum*."

Shortly after this he rose to leave the meeting. This was about half-past ten o'clock, A. M.

As he was proceeding to go out of the room, Mr Cartwright, President of the Commercial Bank, arose and went to him at the door, and alluding to some remark Mr. King had made indicating prompt action on his part *as to using the telegraph wires*, and other indications unfriendly to the Commercial Bank, he (Mr. Cartwright) enjoined on Mr. King to do nothing unfriendly or injurious to the Commercial Bank, or embarrassing to it, before hearing the issue of the meeting then in session, to which request Mr. King assented.

Mr. King kept this agreement in a remarkable way that is, he went directly over to the Bank of Montreal and then broke it.

The exchanges were not sent in as usual to the other banks, it being more safe to keep the other banks creditors than debtors, as in the former case a cheque on the Commercial Bank might be convenient to hand them in payment.

Mr. King kept his word, also, not to do any act embarrassing or unfriendly to the Commercial Bank, by sending down to the Montreal agency immediately, demanding under threatened protest if refused, the daily balance amounting to thirty-five thousand dollars ($35,000,) which had to be paid to him instantly to avoid protest—and this, too, whilst the meeting to which he had pledged his word was still in session. Comment is needless.

WILLIAM WORKMAN,
Pres. of the City Bank, Montreal.
JAMES G. WORTS,
V. P. Bank of Toronto.

I have read the minutes of the meeting, as above taken, and say that they are substantially correct.

J. WOODSIDE,
Cashier Royal Canadian Bank.
October 23d, 1867.

Manifesto of the Florence Revolutionists.

The Florence Central Committee, established in aid of the Roman insurrection, have issued the following address:

ITALIANS!—You have responded and will continue to respond to our appeal, which was none other than a cry from the soul, revealing duty. The feeling which animated us was shared by all. For us sons and soldiers of the people, members of a Parliament which has declared Rome to be the capital of Italy, conscious that that vote expressed the will of the nation, the invitation was simple, as it should be. Fighting and death were going on; the September convention was already broken in blood, the time for argument was at an end. What, then, remained? To aid those who are burying the temporal power of the Popes so that it may no longer taint the air. Now we declare that the die cast by the insurgents has been taken up by Italy, and Italy, under pain of death, must speedily fulfil the duty enjoined upon her by so many centuries of misfortune by all her thinkers, by all her martyrs. In order that the plebiscitum may not be a vain thing, that the reasons and pretexts for squandering may cease, that administrative anarchy may perish, that reaction may be driven from its haunt, and that conscience may again be held sacred to the world.—Italians to Rome! What money—what blood will ever bear more fruitful result than this! Show that the cry of Garibaldi is the voice of the national conscience.—He is a prisoner in his Island—a fault and a misfortune—but his soul is everywhere. It now calls the Romans to assemble in their piazzas and invites Italy to reach the capital. Victory lies in clearly defining the object of the battle, and we desire that the Pope may remain Pope for those who believe in him. Rapidity of action is also necessary. And will not Italy speedily furnish every means? Men who know how to die abound among us. But that is not sufficient; material resources are required in order that there may not be a vain hecatomb of so many precious lives, that the love of country may not be punished by hunger and abandonment, and that the sick and wounded may be properly attended.

Italians, succour the combatants.

Florence, Oct. 11. THE COMMITTEE.

☞SEE FOURTH PAGE.

COMMERCIAL BILLS.—Brokers in Belleville are paying to-day 85 cents in bills and 87 in silver for Commercial Bills. In Toronto they were selling at 80 to 83 cents.

BISHOP STRACHAN.—It appears that the announcement by telegram yesterday afternoon of Bishop Strachan's death was premature. A telegram this morning stated that he still lived, though his recovery was considered hopeless.

WATER LIME.—The Napanee *Standard* says H. M. Wright, Esq., Napanee "has made a discovery which is likely to prove of greater value than all the gold fields of Madoc." The discovery consists of water lime stone, which, when tested, was found to be of a very rich color, and hardened quicker and was as firm as the best of American water lime. A kiln has been erected and Mr. Wright intends to go extensively into the manufacture of water lime, which he can sell 25 per cent. less than the American article.

FINANCES AT MONTREAL.—The *Gazette* of yesterday says; "There was, we are glad to say, a decidedly better feeling noticeable in financial circles to-day, due in great part to the expectations entertained at the meeting of the shareholders of the Commercial Bank, held yesterday. The Banks are meeting the wants of the customers with comparative freedom, but outsiders find it difficult to obtain accommodation on the streets except at exorbitant rates."

A Local Bank.

The suggestion contained in the letter of Hon. Billa Flint, to establish a Local Bank, has been acted upon so far as to give notice of an Act of Incorporation, which will be applied for at the next Legislature. The promoters of the scheme are men of means, and men who are determined to carry out the project. In a wealthy County like Hastings, with deposits from farmers and business men in the banks, to the extent of $500,000, and with a large surplus capital which could be made available, there is no reason why our busines men should be compelled to get on their knees to the Montreal or any other mammoth Bank to ask for accomodation. The operations of the proposed Bank would be confined to the legitimate business of the County; every business man would have an interest in it, and would keep his deposits there; the means of the Bank would be employed only in the business of the County, and there could be no question, in the hands of safe men, that it would pay a handsome divi dend to stockholders. It is proposed to make the capital $250,000, with power to increase that amount.

To the Editor of the Daily Intelligencer.

DEAR SIR,—I observe that the battens on the inner side of the Lower Bridge are being torn off by the hubs of the wheels. Would it not be well for the city fathers to get a plank spiked over them, all along each side of the carriage way, at the same height, before they are all gone. VIATOR.

—The lumber production of Maine this year is estimated at 666,000,000 feet.

The Other Side.

To-day we publish an important document signed by three of the gentlemen who attended the Bank meeting at Montreal on the 21st of October, which puts the character of Mr. King in a new and unenviable light. There is this much new about the statement, that it represents Mr. King as refusing to offer directly any assistance beyond the $300,000 which it had advanced some time before at the request of the Government, and for which special security had been given, besides the general security of the Bank itself. Not even the paltry sum of $60,000, additional to the $300,000 would he give to save the Bank from ruin, but insolently told the gentlemen present at the meeting that "there was no use talking, I have given my *ultimatum*," and left the room. And when urged by Mr. Cartwright, who had strong hopes of making some arrangement, not to do anything injurious to the Bank until the meeting was over, he gave his promise that he would not, and went directly to his own Bank and broke it. What a most humiliating position for the head of the Banking interest of the Province to be placed in. Is it any wonder in view of all the circumstances connected with the failure of the Commercial Bank, that Mr. King should be charged with deliberately conspiring to break the Bank? Is it any wonder that the distressing sacrifices, the ruined homes, the derangement of business, the convulsion and distrust which the failure of the Bank has produced in Canada, should be laid at the door of this dogmatic and overbearing Bank Manager? Is it any wonder, in view of the statement to which Messrs. WILLIAM WORKMAN, JAS, G. WORTS and J. WOODSIDE append their signatures, and in view of his extraordinary and mysterious conduct towards the Royal Canadian Bank, that Mr. King should be charged with endeavoring to destroy that Bank also, and for that matter the other Banks, so that his pet Bank might do the whole business of the country? These charges have been made against Mr. King, and who will say they are wholly unwarranted? It is gratifying to know that there is but one feeling amongst the press of Ontario respecting the conduct of Mr. King, and that feeling is one of unmixed disapprobation of the course he has pursued. The press of Montreal, with one or two exceptions, take the same high ground, and for the very good reason that a general disaster in Ontario would be as seriously felt in that city as in this Province. Respecting this point the Montreal *Gazette* says:

"There may arise an argument on the term, common object. And we have heard it stated that bankers in Ontario had the greatest interest to preserve confidence in the banks in their province, from the instinct of self-preservation, in their present expanded state. This may be true, and it would not have required the panic in Ontario to go much further to produce a general smash. But has Montreal no interest in this? If there was a general disaster in Ontario, payments due to Montreal could not be made, and Ontario takes probably two-thirds of all the imports that come into Montreal. We, therefore think that the preservation of confidence was a common and a public object. Mr. Paton evidently thought this, when he joined with other bankers, after Mr. King had left the meeting, in a proposition of common aid to the Commercial Bank."

The Kingston Assizes.

The Jury in the case of Saxie Allen, after an absence of an hour, returned a verdict of guilty, with a recommendation for mercy. The evidence in this case did not differ materially from that taken at the Coroner's Inquest, which has already appeared in the INTELLIGENCER. The Judge in his charge to the Jury, said "if the evidence depended solely on the testimony of Whalen, unsupported by any other testimony, it should be received with great caution; such evidence should alway be received with a good deal of precaution, and when unsupported should not be believed. But the case did not rest solely on the testimony of Whalen; a policeman swore that Allen told him he had struck the blow, but that there was no intention to kill. A portion of the stolen property had been found in the prisoner's possession, and those acting with him. Had Whalen's evidence never been given, there was still a good deal of other reliable testimony to depend on. It was not essential to see a thing done; the property had been traced and found on persons who had been seen at the place of the murder. The Counsel for the defence had said a good deal about malice aforethought, and he was compelled to notice this allegation. Every man is supposed to be reponsible for and to mean the natural effect of his own act. If a man take up a gun and fire into a crowd and kill one—that is murder; if a person fired at the jury box and killed any one within range—that would be murder: if two or three men go to rob a house or commit any unlawful act, and are opposed by the master of the house, and some one is struck with a weapon which would cause death—that is murder. He wished them to give their most careful attention to the evidence, and not to trouble themselves with the consequences; with the latter they had nothing to do. They must ask themselves if they had any doubt that Driscoll had come to his death by the injuries he received? If so, who killed him? There was no doubt that the blow had been struck by the prisoner; and great stress had been laid on the fact that the prisoner did not intend to kill. He noticed that there were proofs of the money having been found on the prisoner. Were they satisfied that the property had been traced. Great care had been taken to select a jury for the case, and from the careful attention they had given to the trial, he was satisfied that they would do what was right. They were to give the prisoner the benefit of any doubts. They had a solemn duty to perform. There was not a shadow of doubt but that a fearful crime had been committed by somebody. If they thought the case was proved, that it was a very clear one, they then had but one course to pursue, one duty to perform."

When the jury returned a verdict of guilty with recommendation to mercy, His Lordship asked on what grounds they had based their recommendation; the reply was that they had no grounds. Sensible Jury, that.

On Thursday, the trial of Howard and Gemmel for the same murder was commenced, and continued during the entire day.

Telegraphic News.

BY ATLANTIC CABLE.

LIVERPOOL, Oct. 31.—The United States naval squadron, under command of Admiral Farragut, has arrived.

BERLIN, Oct. 31.—The objections of Prussia having been removed, Bavaria and Wurtemburg have joined the Zollverein. Both kingdoms have also concluded a military alliance with the North German Confederation.

LONDON, Oct. 31, eve.—The official statement shows the decrease of bullion in the Bank of England to be £89,000 for the week.

LIVERPOOL, Oct. 31, eve.—To-morrow will be observed as a holiday, and business will be generally suspended here and in London. The markets in Antwerp will also be closed to-morrow.

FLORENCE, Oct. 31, eve.—The Pontifical troops have all been withdrawn from the country, and are concentrated within the fortifications of Rome. The Gariboldians have taken possession of a portion of the railway between Rome and Civita Vecchia and torn up the rails. The army of King Victor Emmanuel is advancing.

PARIS, Oct. 31.—The *Liberte* newspaper says the Emperor of Austria has given his assent to the proposed general conference for the settlement of the Roman question, but absolutely refuses to be a party to it, and England and Russia are reported to have declined the invitation of France to join the conference.

The returns of the Bank of France show an increase of 250,000 francs in the metallic reserve of the institution.

Several of the official evening journals say the advance of the Italian troops into the Papal provinces was ordered by the Italian Government without the consent of France, and this, they declare, has brought about a crisis in the relations between the two countries which is dangerous to peace.

It is authoritatively stated that no treaty of alliance has been concluded between the Emperors Napoleon and Francis Joseph, but the *entente cordiale* established between France and Austria is complete.

LONDON, Oct. 31, midnight.—No further advices have been received from Rome. The means of direct communication have been destroyed by the cutting of telegraph wires and tearing up of railroads. The latest news from Rome comes almost exclusively by way of Florence.

DUBLIN, Oct. 31, eve.—Buckley, one of the Fenians captured at Dungarvin, has turned Queen's evidence. He testified against the prisoner Warren, and gave a complete account of the expedition which ended with the landing.

LONDONDERRY, Oct. 31.—The steamship "Europa," which left New York on the 19th, touched at Moville this morning.

DUBLIN, Oct. 31.—At the session yesterday of the special commission for the trial of the Fenian prisoners, a motion was made by the counsel for the defence that the accused be tried by a mixed panel composed in equal numbers of Catholic and Protestant jurymen the motion was denied by the judges, the prisoner Gen. Warren declined the services of counsel, and declared that he was a citizen of the United States and refused to acknowledge the jurisdiction of the court in his actions.

Two policemen were shot last night and instantly killed, the murders are directly charged upon the Fenians, and energetic efforts are being made to discover the perpetrators.

LONDON, October 31.—The Fenian Colonel Kelly, who was rescued at Manchester, has escaped from England. It is reported that he is in France, and that he will soon leave for America.

PARIS, October 31.—By order of the Imperial commission, the International Exhibition will be closed on the 3rd of November.

LONDON, October 31.—Details of the news from Rio Janeiro have been received. The war on the Parana was languishing. President Lopez, of Paraguay, had renewed his offers to the allied powers to negotiate for peace. No reply had been returned when the mail steamer sailed from Rio. Dissatisfaction with the war continued to be manifested in Brazil and the Argentine States.

PARIS, October 31.—It is said that should no general European Conference be held on the Roman question an arrangement will be made for a joint occupation of the city of Rome by the Catholic powers.

LONDON, Nov. 1, noon.—Consols 94¼; Bonds 79½; Erie 47¾; I C 80¾.

LIVERPOOL, November 1, noon.—Cotton dull at 8¾ for uplands; 9 for Orleans. Sales of the week 69,000 bales. Stock in port 637,000 bales, of which 151,000 are American. Breadstuffs quiet.

American Despatches.

NEW YORK, Oct. 31.—This morning about 4,000 Fenians assembled at the *Masonic Hall*, on 13th street, and forming a procession, advanced down Broadway and *Broome* street, drawing up in front of the Metropolitan Hotel, where Capt. Deasey, who was rescued from the police at Manchester, has been staying since his arrival in this city. The Band played several Irish national airs, when Capt. Deasey came forward and in a few brief words thanked his friends for their kindness. The procession then filed off, cheering for Capt. Deasey and the men of Manchester.

CHICAGO, Oct. 31.—Flour dull and declined 25c; Spring ex. $8 50 to $10 00. Wheat dull and declined 1c on No. 1, and 2c to 3c on other grades; sales at $1 87½ to $1 88 for No. 1.—Corn dull and declined 1c to 1¼c; sales at $1 02 to $1 03¼ for No. 2 in store. Oats lower at 54c to 54½ in store. Rye quiet, at $1 27 to $1 28 for No. 1, and $1 24 to $1 25 for No. 2. Barley unchanged. Mess Pork $30 00 for new; $21 00 for extra heavy. Lard dull, at 12c to 12¾c.—Beef Cattle steady at $5 50 to $6 00 for fair to good shipping. Hogs less active at $5 50 to $6 for good to choice. Receipts—9,500 bbls flour; 9,000 bus wheat; 54,000 bush corn; 69,000 bush oats; 6,500 hogs. Shipments—5,000 bbls flour; 100,000 bush wheat; 95,000 bush corn; 50,000 bush. oats. Freights active but steady.

HAVANA, Nov. 1.—Advices from the city of Mexico up to the 19th ult., have been received. By a recent decree all citizens are required to serve in the army for five years. Duties on foreign and native cotton 5c per 100 pounds, when entered for consumption in Mexico.

European News.

The Inman steamer *City of Paris*, Liverpool 16th, and Queenstown 17th, has arrived at New York. We give below our usual summary of her news and extracts from her mails, more particularly as regards the Italian question, the most important of European questions.

When the *City of Paris* sailed, the Garibaldian insurgents were completing their plans for an attack on the city of Rome.

The London *Times*, in a leader, says that since his closer acquaintance with German feeling had dispelled his last illusion the Emperor Napoleon's voice has been consistently raised in favor of peace. His utterance at the next imperial sitting in the Senate will clear any doubt that may still linger in men's minds; but in the meanwhile "we seek no better guarantees for the continuance of peace than the result of that very journey to Salzburg, which has given rise to so vast amount of equivocation. Before Salzburg the Emperor had evidently no sufficient confidence in his own forces, and was on the lookout for alliances. After Salzburg the Emperor gave up all hopes of alliances and fell back on his own forces."

The obsequies of M. Fould took place on October 14, in the Church of the Oratoire, Rue St. Honore, Paris. The following reflections are suggested to M. de Boissiere, in the weekly *feuilleton* of the *Gazette de France*, by the death of M. Fould:

M. Fould had only the age of the present century, and might have hoped to live longer. He will be regretted all the more that he was useful. From the golden tree described by Virgil, as each branch fell another of the same succeeded. With men the case is different; after the fall of those who seemed to be of gold, others come out that are not even of copper. All the good servants of the Emperor pass away one after another, and each of them has had, like Alexander, successors far inferior to them. If in a drama the actors who have made it successful grow tired of the parts they play, they cede their places to other aspirants, so that it still lives, though diminished in the recollections of past triumph. Thus on the political stage scholars succeed the masters, and the little the great. If I am one of those who deplore the sterility of present times, I am also of those who believe in the fecundity of the future. Who knows what *surprise* the future reserves for us in the things which it must destroy and the men it must create?

The Anglo-Abysinnian reconnoitering party, under command of Colonel Morewether, left Bombay in three steamers on September 17th. It consists of one hundred, rank and file. Twenty-first Bombay native infantry, and forty troopers Third Bombay cavalry, with officers of engineers, &c. The party were expecting to leave Aden on the 29th of September for Massowah. The principal objects are to find a suitable harbor and shore for debarkation and location of some two hundred steamers and transports, and a good route and post inland on the high land, some sixty miles from shore. It is probable that the landing place will be fixed in Amnesty Bay, which is some distance south of Massowah.

The engagements in the English freight market stimulated by the Abyssinian war, and the great demand for grain continued upon a large scale alike for sailing vessels as well as steamers, at firm rates.

— A celebrated dentist says that in the United States in a population of 80,000,000, there are 20,000,000 of teeth lost annually by decay—all caused by the use of bolted wheat, which deprives the system of the lime needed in the human teeth.

BUY YOUR TEA

DIRECT FROM

THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages. Black Tea weigh, ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

The English Hop Markets.

The following, on the hop markets of England, is from a London circular of October 7 :—

We have now the pleasure of acquainting you with the probable extent and character of this season's growth of hops, both at home and abroad ; and, as the foreign growth must this year have the greatest influence on prices, we have satisfaction in stating that it is most abundant and of very excellent quality. We look for an import equal to £130,000, old duty. The prices which now rules we consider perfectly safe to buy at, but sound judgment must be exercised in avoiding the purchase of adulterated parcels. The state of alarm as to the English plantation, which prevailed in August has not been justified by the result of the picking, our estimate of the home growth reaching to £140,000 ; and this conclusion is based on what we believe to be most reliable information. Very extreme prices for Sussex and Weald Kents have been demanded by the growers, but which prices the merchants refused to purchase ; and, although a reduction of 30s. to 40s. per cwt. has been submitted to, only quite a retail business is yet doing. These remarks apply equally to the Worcester growth.

The "Fat Contributor" on Farm Life.

Being invited recently to deliver an agricultural address before a Harvest Home Association in Central New York, on the occasion of their annual festival, the "Fat Contributor" consented. We make the following eloquent extract from his address :

Although fortune (or perhaps the want of it) cast my lot amid the struggling multitude of a great city where you wouldn't see a farm in a walk of several squares, where there are no meadows with their waving potatoe tops, or wheat fields ripe for the woodman's axe, yet I have alway felt a deep interest for the farming classes, and I flatter myself that I know something of the noble pursuit you follow. I will say here that it has been the ambition of my whole life to be an honest old farmer—to earn my bread by the sweat of a hired man's brow. How delightful life on a farm must be. I can imagine what vigor is imparted to the frame, and what strength to the muscles, by reclining in shade and watching the mowers as they gaily swing their threshing machines, and then what an appetite one must acquire for the noontide lunch by observing the merry reapers at work digging their potatoes and their—fall apples.

How often, in imagination, I have followed you, as you went forth of a summer's morning, when the dew was on the grass seed, neatly attired in white linen suits with patent leather boots, with your corn-shellers swung lightly over your shoulders, to cut your winter's wood. I have seemed to hear your merry songs sweeping up from the meadows, as you gathered your water melons and turnips into your—corn houses, while mingled with the busy hum of your sorghum evaporators, came the musical bleating of your cattle, and the lowing of your sheep and poultry.

Then, when winter comes, and the sun prevents you from continuing your haying, and the cold north wind shakes off your ripening strawberries, I picture your sitting by your gas stoves, mending your fanning mills, in preparation for your spring plowing, or amusing yourself with books on agriculture.

Winter on a farm; how delightful!—What a pleasure it must be to fodder the chickens in the dairy, and to hear the musical clucking of the pigs as they clamor for their oats and hay. Then, when the winter evening comes, and the robins and bobolink have ceased their song and gone to roost on the well sweep, I can imagine no greater delight than to gather around the blazing fireplace, regardless of the fascinations of the storm without, and amuse yourself with apple paring, knitting, base ball, seven up, and other athletic games.

I envy not then, the pale dyspeptic who bends from morning till night over his sordid ledger in the crowded marts of trade, or the child of idleness and affluence, who grows prematurely old amid the dissipations of the city. They know nothing of the pleasure of a life like yours; which I believe I have in no way overdrawn, if they did they would transport their cities into the country, or transform them into agricultural communities by act of the Legislature.

Honesty is prized and temptation resisted in the Hebridge. A remarkable case of honesty is recorded in a recent report on education in those islands, the statement being that a cask of whiskey, driven ashore from a wreck, was carefully returned unopened to the distillery of which it bore the brand.

A Quaker gentleman, riding in a carriage with fashionable lady decked with a profusion of jewelry, heard her complain of the cold. Shivering in her lace bonnet and shawl as light as a cobweb, she exclaimed : "What shall I do to get warm ?" "I really don't know," replied the Quaker solemnly, "unless thee should put on *another breastpin*."

The following is the nub of a yarn which is told about a big whiskey guzzling fellow, who came home drunk one night and sat down by the fire to warm his feet, which were regular "worm killers," says the legend. After dozing some time, he awoke chilly ; the embers were entirely hid from view, and seeing his feet, he mistook them for his little boy, when, with a majestic side-wave of the hand, he said : "Stand aside, my little son, and let your poor father warm himself."

FURNITURE WAREHOUSE.

QUEEN

INSURANCE COMPANY

CAPITAL, - - - - $10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

SYNOPSIS

GOLD MINING ACT OF 1864,

27 and 28 Vic. Chap. 9. and the

Gold Mining Amendment Act 1865,

29 Vic. Chap. 9.

THE Gold Mining Act of 1864 provides that Governor in Council may erect Gold Mining Divisions.

Governor may appoint Officers for Divisions.

Two Divisions erected in Lower Canada ; "Chaudiere Gold Mining Division" Richard Pope, Esq., Gold Mining Inspector, St. Francis de la Beauce, and "St. Francis Gold Mining Division," J. K. Gilman, Esq., Gold Mining Inspector, Stanstead ; 16th July, 1864, amended 30th July, 1864 and 23rd Sept., 1865.

One Division erected in Upper Canada by Proclamation 31st March, 1867 : "Quinte Gold Mining Division," constituting the Townships of Barrie, Clarendon, Palmerston, Miller and North and South Camonto, in the County of Frontenac, the Townships in the County of Renfrew, situated north of the Townships of Miller and Camonto, the Townships in the County of Addington situated north of the Townships of Sheffield and Barrie, the Townships in the County of Hastings, situated north of the Townships of Sidney, Thurlow and Tyendinaga, the Township of Belmont, and the Township in the County of Peterborough situated north of the Township of Belmont, Alfred Argyle Campbell, Esq., of Belleville Inspector.

No person to mine without a license.

Two kinds of licenses, one "Crown Lands Gold License," $2 per month, for unsold Crown Lands, and the other "Private Lands Gold License," $1 per month, for private lands, the miner first obtaining consent of the proprietor.

Crown Lands Gold Licencee may stake out and work claim on unsold Crown Lands as follows :

ALLUVIAL MINES.

On a river or large creek, 20 feet front by 80 from the water's edge. On small creeks, 40 by 80 from centre of stream. In gully, 60 feet along same, and from hill to hill. On surface or hill side, 60 feet square. In case of hill tunnel, officer may grant larger claim. In bed of river officer to determine size and position of claim.

QUARTZ MINES.

To each miner, 100 feet along lead by 100 on each side from the centre of the lead. For companies, 25 feet additional along lead for every additional miner, but not to exceed 500 feet altogether.

Claims to be classed by the officer, and to be laid out in quadrilateral and rectangular shapes, horizontal, and bounded under the surface by lines vertical to the horizon.

Crown lands licencee to work continuously and renew licence.

No person to occupy more than one claim on Crown Lands at one time.

Discoverer entitled to free licence for one year in manner provided by Act.

Party wails to be left between claims on Crown Lands, party removing party wall to construct a new mode of access to water.

Crown Lands licencees not to cause damage to others.

General use of water reserved opposite claim on Crown Lands.

Registration of claim on Crown Lands temporarily inworkable, allowed for $1. Previso : claim to be marked.

Penalty provided for removal of stakes on claims.

All licencees to make returns.

Quartz crushing machines to be licensed. Fee $5 per month. Books to be kept and returns furnished.

Act extends to parties mining near Gold Mining Divisions.

Sale of liquor prohibited except under licence, monthly fee, $6.

Provisions made for appointment of constables and policemen, and for preservation of peace.

Persons working under Gold Mining Patents to furnish returns and pay royalty, &c. (only one such patent exists, viz. : for the Seigniory of Rigaud-Vaudreuil, in the Chaudiere—one of the Divisions—and royalty since commuted to fees under Gold Mining Act).

Governor in Council may make regulations.

Officers may convict on view.

THE GOLD MINING AMENDMENT ACT OF 1865.

Repeals clause in Gold Mining Act of 1864, providing that no lands to be sold for exploring for gold until the precious metal is discovered.

Enacts that Tavern Licence provision in previous Act may be applied to territory covered by Mining Patents.

And that disputes between masters and laborers &c., in Gold Mining Division may be determined by officer of division.

INFERIOR METALS AND SALE OF MINERAL LANDS.

The following are the Regulations :—

DEPARTMENT OF CROWN LANDS.
Ottawa, 13th July, 1866.

REGULATIONS for the sale of Mineral Lands, approved by His Excellency the Governor General in Council.

INFERIOR METALS.

1. That each regular mining tract in unsurveyed territory shall consist of blocks of two hundred or four hundred acres.

2. That the dimensions of each regular mining tract of four hundred acres be forty chains in front by one hundred chains in depth, and smaller tracts, except on lakes and rivers, in the same proportion. The bearings of the outlines to be North and South, and East and West astronomically, in the unorganized territories of Upper Canada and parallel to the outlines of the Townships elsewhere.

3. That mining tracts bordering upon lakes and rivers shall have their frontage upon such rivers and shall be bounded in all cases by the public lands in navigable or floatable waters; and that mining tracts, so situated, shall have a mean depth of one hundred chains back from such river or lake, (exclusive of road allowance of one chain in width, which shall be reserved along the margin of such river or lake) in conformity with the above mentioned bearings.

4. That mining tracts in unsurveyed territory shall be surveyed by a Provincial Land Surveyor, and connected with some known point in previous surveys (so that the tract may be laid down on the office maps of the territory) at the cost of the applicants, who shall be required to furnish, with their application the surveyor's plan, field, notes and descriptions thereof in accordance with the foregoing regulations, and to the satisfaction of the Department, and pay the price of one dollar per acre, into the Department of Crown Lands at the time of making application.

5. That in surveyed townships, lots presenting indications of minerals be sold on the above conditions, but at not less than one dollar per acre in any township and at the same price as the other lands in the township when it is more than one dollar per acre.

6. That mining lands in surveyed townships be sold by the local agents for cash, but all lands in unsurveyed territory shall be sold by the department.

7. The above regulations do not apply to mines of gold and silver.

GOLD AND SILVER.

8. That in selling the lands in the gold mining divisions the department is to determine as far as practicable between purchasers for actual settlement, *bona fide*, and those for mining or speculative purposes ; selling to the former for the present prices and terms (subject to an increase to $2 an acre, under the order of 8th August, 1864, when actually worked for gold), and to the latter for one dollar an acre, cash.

9. That in all Letters Patent for lands, the clause reserving all mines of gold and silver be omitted.

10. All previous regulations inconsistent with the above are cancelled.

A. CAMPBELL,
Commissioner

BROWN'S FOUNDRY

AND

MACHINE SHOP,

FRONT STREET, BELLEVILLE

G. & J. BROWN,

Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with

FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns ; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months ; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows :

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail ; and $2 50 if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING :

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

"BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

LET THERE BE HARMONY IN THINGS ESSENTIAL.—LIBERALITY IN THINGS NOT ESSENTIAL.—CHARITY IN ALL.

VOL. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, NOVEMBER 2, 1867. No. 157.

Forty Years Ago.

Within the old home looking-glass,
Another face I see
Than the one that forty years ago
Looked laughingly at me.
The eyes are somewhat dimmer now,
The cheeks have lost the glow
That spoke the flush of health and youth,
Some Forty Years Ago.

Is this the boy of bygone years—
This old and wrinkled form—
Who though, with all youth's careless ease,
To take the world by storm!
Is this the head, white with the flakes
Of age's falling snow,
That shone with wealth of golden curls
Some Forty Years Ago.

How rich and happy ignorance
Of the great world's care and strife,
When climbing—with high heart and hope—
The sunny slopes of life!
Now, standing near the mountain top,
The green vales stretch below,
Where once I roamed with happy mates,
Some Forty Years Ago.

But up the steep and toilsome path,
With hearts and hands together,
Some dear old friends still climb with me
Through fair and stormy weather.
Others have fallen by my side,
And rest in peace below;
How changed the faces that I knew,
Some Forty Years Ago.

And forty years have passed away
Since moments seemed divine,
When one fair form, in trembling trust,
Placed her dear hand in mind.
And, leaning her full heart on mine;
In love's tones whispered low,
"I'll travel life's steep path with thee,"—
Some Forty Years Ago.

And there she sits beyond the fire,
And still I think her fair.
For the sake of all our girls and boys
That clambered round her chair;
A deeper and serener love
Now bathes our hearts, I know,
Than the rapture wild that fired the breast,
Some Forty Years Ago.

And though the path was rough and steep,
And strewed with joy and pain,
For all the happiness I've met
I'd tread that path again;
And though I see with other eyes
Life's panoramic show,
It's better than the world I knew
Some Forty Years Ago.

October woods are beautiful,
As are the leaves of spring,
And if the years old joys entomb,
The years new pleasures bring;
Life's music's now a measured chant,
And not the lyric flow,
To which the dancing pulse beat time,
Some Forty Years Ago.

But what although the head turns white,
And cheeks grow pale and thin,
The light of love's perennial youth
May still shine bright within;
The small harebell in beauty blooms
Amid the Alpine snow—
Hearts may be as fresh, if not so young,
As Forty Years Ago.

Old Age.

An English magazine writer observes: Old age is but a mask; let us not call the mask the face. Is the acorn old because its cup dries and drops it from its hold—because its skin has grown brown and cracks in the earth? Then only is a man grown old when he ceases to have sympathy with the young. That is a sign that his heart has begun to wither. And that is a dreadful kind of old age. The heart needs never be old. Indeed, it should be always growing younger. Some of us feel younger, do we not, than when we were nine or ten? Is it not necessary to be able to play at leap-frog to enjoy the game. There are young creatures whose turn it is, and perhaps whose duty it would be, to play at leap-frog if there was any necessity for putting the matter in that light; and for us, we have the privilege, or if we will not accept the privilege, then I say we have the duty, of enjoying their leap-frog. But if we must withdraw in a measure from sociable relations with our fellows, let it be as the wise creatures that creep aside and wrap themselves up and lay themselves by that their wings may grow and put on the lovely hues of their coming resurrection. Such a withdrawing is the name of youth. And while it is pleasant—no one knows how pleasant except him who experiences it—to sit apart and see the drama of life going on around him, while his feelings are calm and free, his vision clear, and his judgment righteous, the old man must ever be ready, should the sweep of action catch him in its skirts, to get on his tottering old legs, and go with brave hearts to do the work of a true man, none the less true that his hands tremble, and that he would gladly return to his chimney corner.

Vanity will make a man endure almost as much as zeal.

Why is iron like a band of robbers? Because it's united to steel.

The trouble with low legged men is that they are always going on benders.

A gentleman's comforter—a pretty wife with an amiable disposition.

A young man was recently chilled by a frown. Rather tender young man.

Cheap—good advice, lip salve and promises.

Generally observed—Tilting skirts, waterfalls and other people's business.

Why is love like the letter R? Because it makes many a Mary marry.

Daily Intelligencer.

BELLEVILLE, SATURDAY, NOV. 2.

☞SEE FOURTH PAGE.

PENNY-READINGS.—The second of the series of these now popular entertainments, was held in Ontario Hall, on Thursday evening, Oct. 31st, before a large and appreciative audience, there being between five and six hundred persons present. Anson Northrup, Esq., occupied the chair. The Readings by Messrs. T. C. Holden, Alex. Robertson, and Wm. Tilley were well received, and the performances of the choir really creditable.

Bank Stocks.

The Montreal *Gazette* of the 1st November, says banks are beginning to discount more freely.

COMMERCIAL BANK.—"Commercial Bank "stock is looking up. There is reason to "believe that the efforts about to be made to "resuscitate its business will prove successful, and acting under this belief holders decline to sell under 25. There are buyers at "15, but no sellers under 25. The recuscitation of the Bank is confidently looked for." Bill holders and depositors will bear in mind that if the stock is worth anything at all they must be safe, because the stock is responsible for every dollar which the Bank owes.

ROYAL CANADIAN.—Immediately after the refusal of the bills of the Royal Canadian, its stock was pressed for sale, and at one time was offered at 85. It afterwards became known that it had been appointed Bank of the Government of Ontario, and an advance of six to seven per cent. took place, with transactions at 90½, 91, and 92, closing firm at 91½ to 92½.

BANK OF MONTREAL.—The most noticable feature in the market is the decline in the Montreal Bank stock, which has fallen from 2½ to 3 per cent., "closing with buyers at 130½ to 131."

ONTARIO BANK.—After falling nearly ten per cent to 95, has rallied and closes firm and in demand at 99 to 100.

BANK OF BRITISH NORTH AMERICA.—No stock in market.

CITY BANK.—Has been in demand throughout the week; latest sales were 104½.

PEOPLES' BANK—Has been dealt in to some extent at 106½, which is the closing price.

MOLSON'S BANK—Is asked for at quotations—107½ to 108½.

MERCHANTS' BANK.—Buyers offer 107, but there are no sellers at this price.

BANK OF TORONTO.—No transactions reported.

LA BANQUE JACQUES CARTIER—Is asked for at 109½ with sellers at 110.

GORE BANK—Is offered at 85 without finding buyers.

QUEBEC BANK—Has declined to 102½.

LA BANQUE NATIONALE—No transactions ex dividend.

EASTERN TOWNSHIPS BANK.—Quotations are nominal.

UNION BANK OF LOWER CANADA—Is asked for at 102½.

MECHANICS' BANK—Books open to-morrow. No transactions ex-dividend.

Kingston Assizes.

The trial of Gemmell and Howard occupied the whole day Thursday. Allen, who was convicted of murder, was put into the witness box, and swore that the clapping of Gemmell's hands as a signal for him (Allen) to strike the watchman, never took place. He also swore that Gemmell never brought him a jimmy from the office to strike the deceased. Whalen was the man who brought him the jimmy. Allen contradicted Whalen in other particulars, and admitted that it was himself who dealt the fatal blow, saying he only struck deceased once and if other wounds appeared on him he must have received them from some other person or cause. The jury went out about a quarter to nine and returned about a quarter to twelve with a verdict of manslaughter against Gemmell and Howard. Gemmell was sentenced ten years and Howard nine years to the Penitentiary.—Whalen was sentenced to five years for burglary, Allen was sentenced to be hanged on the 11th December. On being asked what he had to say why the sentence of death should not be pronounced upon him, Allen, with great deliberation replied to the Judge, that the jury in recommending him to mercy, meant that the death penalty should not be imposed. He said the jury intended to say that he was not guilty of killing the deceased with malice aforethought, and that he should not be hanged. The Judge said that he would forward the recommendation of the jury to the Executive, but held out no hope of pardon to the prisoner, and told him to prepare for his doom.

Death of Bishop Strachan.

The venerable Bishop Strachan died on Friday morning, the 1st November, at the age of eighty-nine years. The following facts connected with the Bishop's life we copy from the Toronto *Telegraph:*

"The venerable Bishop was born in Aberdeen, on the 12th April, 1778, and was educated at the grammer school of that ancient city. In the year 1793 he matriculated at King's College of that University, where subsequently took the degree of A. M. He then removed to the University of St. Andrew's to prosecute his studies, and in 1797 commenced to teach in the little village of King's Kittie. It was at this time that he received the offer through the Hon. R. Cartwright and Robert Hamilton, to proceed to Canada to organize and take charge of a College or University, which Gov. Simcoe had determined on establishing at the seat of Government of Upper Canada, in order that the youth of the Province might enjoy the benefits of a sound education. This office was first tendered to the afterwards celebrated Dr. Chalmers, at that time studying at St. Andrews; he declined it, but recommended Mr. Strachan who accepted it. His first connection with Canada dates back to August, 1799, when he came to Canada in pursuance of the above offer. But Governor Simcoe being appointed to another Governorship had left the Province, and been succeeded by another, and thus the plans fell to the ground. He afterwards opened a school in Kingston, remained there three years, and under the advice and instruction of the late Stuart, Archdeacon of Upper Canada, prepared to enter the Church of England. He was accordingly ordained deacon by the Right Reverend Dr. Mountain, first bishop of Quebec, and appointed to the mission to Cornwall. He also opened a grammar school at the latter place, and among his pupils were the late Sir J. B. Robertson, Sir J. B. Macaulay, and the late Hon. Jonas Jones. It is unnecessary here to inquire into the cause of this change of denominational persuasion by Mr. Strachan. In 1807 the University of St. Andrew's conferred on Mr. Strachan the degree of L.L.D., and in the same year the University of Aberdeen also conferred on him that of D.D. In 1812 Dr. Strachan was appointed Rector of York; in 1839 he resigned his seat in the Executive Council; in 1839 he was created Bishop of the Diocese of Toronto; in 1840 he resigned his place as a member of the Legislative Council.

The news of his death will occasion universal sorrow throughout the land for he was a man respected and loved by all classes and all denominations, for his genuine piety, his untiring zeal in the cause of Christianity, the deep interest he always took in everything pertaining to the welfare and progress of Canada, and his intimate connection with the affairs of this country for a period of nearly three-quarters of a century. He was known not only here, but abroad, and was, we believe, the oldest bishop of the church in the world. In his death the country, as well as the church, suffers a loss which will long be felt, and which will occasion more earnest sorrow throughout the land than any similar event has ever caused.

La Crosse Match.

CIVILIANS vs. VOLUNTEERS.

The first "match" of this manly field game came off yesterday afternoon, on the race course, between the civilian and volunteer members of the Belleville La Crosse Club. The following is a list of the players on the different sides:

CIVILIANS—Wm. H. Garratt, *Captain;* Messrs. Benjamin, Dickson, Hayward, Henry, Chisholm, Moore, Eagan, Price, Graham, and Kelso.

VOLUNTEERS—Fred. L. Bogart, *Captain;* Messrs. Hulme, Robertson, Diamond, Nantes, Roy, Stephens, Jones, L. Crozier, Henderson, J. Crozier, and McDonald.

UMPIRES—Jas. Blacklock, and R. C. Patterson, for civilians. Col. Campbell and L. H. Henderson, for the volunteers.

The ball was "faced" at four o'clock, when the sport began. The sides being pretty evenly balanced, the contest promised to be exciting. After considerable sparring, during which the ball was passed several times from one gaol to the other, and was nearly thrown through the volunteer's goal; but finally the ball again approached the civilian's goal, which it was taken by Robertson and beautifully thrown "home." Time, 6 minutes.

After a few minutes respite the civilians became clamorous for the next combat. The contest having begun, was most exciting. A number of times the ball almost passed into either "goal," when some lucky "crosse" would send it flying into the middle of the field. Some nimble champion would secure the ball on his "crosse" and "strike for home," but unfortunately, his "check" was at hand, which obliged him to "crosse" it to his friend. At length the second game was won in 16 minutes by the civilians, Garratt throwing it "home" amid the cheers of the spectators.

The third game was very closely contested, but was beautifully won by the civilians in about twenty-five minutes, the ball again passing "home" from the "crosse" of the captain.

The fourth game, after about twenty minutes play was declared "drawn" by the umpires, as it was so dark the ball could scarcely be seen. The match was consequently undecided, as only three games out of five could secure the victory. Quite a number of spectators witnessed the game, among whom were a number of ladies, whose presence, of course, added a charm to the sports of the day. The Belleville "boys" play well for amateurs, and will soon be able to produce their twelve.—COM.

—Reports from the seaboard still come in telling a sad tale of loss of life by shipwreck in the recent storms. The schooner *Naked Truth* struck Scatterie Island, and all hands on board perished. The brig *Half Moon* was lost off Cape Sable. Not a soul survives. The schooner *Juliet M. Tilden*, with eighteen souls on board, was cast away; all perished.

To the Editor of the Daily Intelligencer.

The Present Bank Crisis and its Remedy.

MR. EDITOR,—I find by THE INTELLIGENCER of this evening, that the first step has been taken in the right direction to remedy the inconvenience under which our business men rest, by a notice of application to the Legislature, for an Act to incorporate a Local Bank in Belleville. So far, so good, I hope, however, that it will not stop with a notice—now is the time for action. Our Members will soon be leaving for Ottawa, all of whom, I believe, will do all in their power to obtain a charter for our Local Bank, as well as urging upon the present Ministry, the necessity of placing all our Banks on an equal footing, so as to prevent one Bank from making a run upon another. Let action be taken immediately; let a public meeting be called for Monday evening, in order that the members may attend before leaving for Ottawa. This, if accomplished, will be the second step. At that meeting let a strong Committee be appointed to take further steps to secure the object we have in view, and all will be well.

I have read the statement of Messrs. W. Workman, Worts, and Woodside, gentlemen of character, and standing in a position to know what was done by Mr. King, and their statement fully corroborates what I heard stated on good authority while in Montreal, and the facts brought to light by their statements, show plainly that it is not only high time for the business men of Hastings to move, but also for those of every county in Ontario, in order to remedy the evils of our present Banking system.

I will now proceed to show the relative position of the Commercial Bank and the Bank of Montreal, on the 30th September, only twenty-one days before the suspension of the former. The Commercial Bank shows assets to the amount of $9,140,982; liabilities, $4,657,048. Deducting that amount leaves balance of assets, $4,480,934. The Bank of Montreal shows, assets, $19,957,040; liabilities, $13,259,146. Assets over liabilities, $7,697,894. By this statement it is shown that the Commercial Bank only lacked $176,114 of having double the amount of assets over liabilities, while the Bank of Montreal lacked $4,561,252 of having double the amount of assets over liabilities. This shows, while the Commercial Bank had within $337,528 of half the amount of capital of the Bank of Montreal, that the liabilities of the latter exceeded those of the Commercial by $4,385,138, or according to the assets, nearly $4,000,000 in excess of the Commercial. From these figures could there be anything more certain than that by the official statement of the 30th September last, the Commercial stood on as safe footing as the Montreal itself.

It is true that the statement of Messrs. Holton and others shows that the Commercial had a large amount locked up in the Detroit and Milwaukee Railroad, say $1,800,000, together with a large amount of bad debts; that they advised a depreciation of the stock from 100 to 60 per cent per share, in order to insure the stockholders a dividend of four per cent on the depreciated stock, yet this was no reason why the bills of the Bank or its deposit receipts were not good. It only showed that these gentlemen in their report wished to deal fairly by the stockholders, who could be the only losers in case of the failure of the Bank and the winding up of its concerns. Their course was an honorable one, and should commend them to the public, and their frank, open report ought to have given confidence to bill holders and depositors, instead of causing a panic and a run upon the Bank. But throwing out the Detroit and Milwaukee bonds as wholly useless, the Commercial would still stand on as good a footing, as to assets, as the Montreal Bank.

While we have an open and frank statement of the affairs of the Commercial Bank, the public are in the dark as to what the assets of the Bank of Montreal are made up of. The public does not know but they are in as bad a state as the Detroit and Milwaukee bonds; that the other bad debts are as numerous in proportion to the assets of the Bank as those of the Commercial. Of these we know nothing, therefore the public stand in no safer position to-day as regards the Bank of Montreal than they did six weeks ago in reference to the Commercial itself.

Should a run be made on the Bank of Montreal from all parts of Ontario and Quebec, could it stand the pressure? Would not the withdrawal of a large share of its deposits depreciate the value of its stock, and could the bank succeed in keeping up its stock at par value? Would they not be obliged to sacrifice their Government and other securities? Could they induce the Government to come to their aid by a loan of eight or nine millions issue of Provincial notes? I think not. The Government would not dare to assume the responsibility, and the people's representatives would never give their sanction to such aid.

True, the Depositors by withdrawing their funds from the Bank in Provincial notes so far as they went, together with any gold the Bank had to spare, would be so far safe, but after these men had withdrawn, what would become of the remaining depositors and creditors? These are questions for grave consideration. What a fearful calamity would fall upon our country. Some may say there is no danger of the Bank of Montreal, that it is perfectly sound. I do not say that it is not. I did not say, nor could I believe, that the Commercial Bank was not sound, but I cannot shut my eyes to what has taken place in the stoppage of the Bank by the foolish run made on it by the bill holders and depositors. What has happened to the Commercial, might befall the Montreal, or any other Bank. It is true, so far as Belleville is concerned, financially, our business men would not feel the loss of the Montreal, for it is of little or no use to them, as it locks up all its deposits, or uses them in other places than Belleville. Its position towards Ontario, or at least to this part of the Province, is one of antagonism rather than assistance, and unless they again open their doors to the public, and use the deposits made by the people of the County for the benefit of the trade of the County, unless they act in unison with the business men of Belleville and of the County, they should feel under no obligations to the Bank in building up one great monopoly to the injury of the business of our Town and County, and of the Province in general. Is it right for monied men to furnish that Bank capital by deposits, while its principal manager in Montreal snaps his fingers at us; while he disregards the wants of business men in Ontario, and while he takes the very moneys which are deposited here from our own doors, to speculate on in New York, and other places foreign to Belleville. Self-preservation on our part, demands of us to do all in our power to prevent the capital of the Town and County from being invested when it can and will be diverted from benefitting the general community, and that man is recreant to the best interests of the country and to himself, who either aids or submits to such a state of things. We must pursue our trade.—The Commercial Bank cannot help us; the Montreal Bank will not help us. Then let us rouse to immediate action, the means is in the County; let us show that we have the will and the ability to make those means available, and that we are able to help ourselves. Yours, &c.,

BILLA FLINT.

Belleville, Nov. 1st, 1867.

Editorial Summary.

—The Empress Carlotta is improving.

—Counterfeit 20 gold pieces are circulating in Central Canada.

—The St. John *Globe* complains of emigration from New Brunswick to the Western States.

—They are advocating the establishment of free public baths in Halifax.

—Bonner is said to realize over $150,000 a year out of the *Ledger*.

—Josh Billings says he don't care how much a man talks, if he says it in a few words. Good idea for those who write to the newspapers.

—A man named Joseph Gahan, of Truro, N. S., fell backwards an a circular saw, and was cut in two and eviscerated.

—In Alexandria, not long ago, a negro ate eighty biscuits on a wager, and was carried, not quite dead, by the spectators in triumph.

—Joseph Schultz, a lunatic, jumped from the fourth story of a hotel in St. Louis on Saturday morning, to the pavement, but received only a trifling injury in the spine. He ran like a deer for some distance, just after making the terrible leap.

—A circular has been sent to the sheriffs of the various counties in Nova Scotia by the Provincial Secretary of that Province, asking returns of the number of registered voters, and the number of votes polled and not polled in each district on the day of the last election.

—An English author and compiler asserts that he has made one of the most important discoveries of the present age, namely, that of demonstrating the identity of the Great Pyramid of Egypt with the ancient Biblical Tower of Babel; and proving, by conclusive evidence, that the Mosaic Deluge was a local flood, produced by the bursting of an ancient African lake, the remains of which he points out, and also indicates in detail the cause of the great catastrophe.

—The Papal army has never been large. In 1859 it consisted of 15,239 men and 1,200 horses, and although increased the next year to 25,000, it was dispersed at the battle of Castelfidardo, and has since been only partly reorganized. There are three fortresses—Civita Vecchia, Borto d'Anzo and the citadel of Saint Angelo within the walls of Rome. Much of the present small force of the Papal soldiery is on duty in the garrisons, and cannot be employed against the forces of the Party of Action, now moving on Rome.

A new and valuable agent, whereby surgical operations are painlessly performed, without the risk which has hitherto attended chloroform, has been discovered, and freely published for the public good, by Dr. Richardson, in an account of two severe operations by Mr. Spencer Wells. In the current number of the *Medical Times* it is stated that in the first case perfect insensibility was produced in four minutes, in the second case in about six minutes; in both instances the patients glided, so to speak, into complete anæthesia without a struggle. This valuable remedy is the bichloride of methylene, which differs from chloroform in the rapidity with which it produces perfect insensibility. In one case where it was used in a warm room the vaporization of the fluid was so rapid that frost was produced on the inhaler.

A NIGHT IN THE LONDON PARKS.—Of all the public domorities, the largest and best is the mall of St. James' Park. There are canopies of foliage to keep off the rain, and those of the benches that have backs or a tree close behind them are at a premium. On an average, each tree has three occupants. Some prefer to recline at full length, others rest with outstretched legs, pocketed hands, heads well down, buttoned-up coats, and hats half-way over their noses. Lads combined in a heap, and towards dawn, rise to share their wits together, and enjoy a stimulating stretch. Not only from the lowest class are the guests recruited. Many of the sleepers are dressed tidily, almost well; and conjecture may busy itself as to the cause of their *al fresco* slumber.—*Once a week.*

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 1st, 3.30 p.m.—Telegraphic despatches from Florence, giving the situation of affairs at Rome, have just been received. The French troops, which were debarked at Civita Vecchia a few days since, arrived at the Holy City. There were no demonstrations whatever. The city was perfectly quiet, and the French were received with profound silence.

Garibaldi, whose force was constantly increasing, still held his position on the outskirts of Rome. The Papal troops were to move out of their intrenchments and attack him to-day.

BERLIN, November 1.—The *Provincial Correspondent*, a journal of semi-official character, says that Prussia will intervene in the Roman difficulty should such action on her part be necessary to preserve the peace of Europe.

LONDON, Nov. 1.—Lord William Ross, the celebrated astronomer, died yesterday in the 67th year of his age.

DUBLIN, Nov. 1.—Great excitement has been created here by the wanton shooting of the two policemen on Wednesday night. A proclamation has been issued by the Government, offering a reward of £1,000 for the arrest of the assassins. The police in this city and throughout the island are searching for the murderers. Two suspected persons have been already apprehended, and are now in custody awaiting examination.

LONDON, Nov. 1.—As the last mail steamer was leaving Rio Janeiro, a report had reached that city that the Brazilian troops had captured the town of Pilas, called by the natives Membucu, the chief port of Paraguay. It was also reported that many prisoners and a great quantity of military stores had fallen into their hands.

FLORENCE, Nov. 1, evening.—The Italian army which has entered the Papal States is under the command of Gen. Cialdni.

ST. PETERSBURG, Nov. 1.—The marriage of King George of Greece and the Princess Olga, took place to-day with great pomp and ceremony.

PARIS, Nov. 1, evening.—The *Moniteur* of to-day says the Emperor Napoleon has demanded of King Victor Emmanuel an explanation of the invasion of the Roman territory by the Italian forces.

FLORENCE, Nov. 1, evening.—At the last accounts from the South, Garibaldi remained at Monte Rotundo with a force estimated at 5,000 strong.

Second Despatch.

MANCHESTER, Nov. 1, eve.—The trial of Allen and four other prisoners was concluded to-day before the special commission. They were convicted of murder, and have received the sentence of death. The cases of the rest of the accused will be tried on Monday, to which day the Court has adjourned. The proceedings cause extraordinary interest here.

DUBLIN, Nov. 1, eve.—The trial of Gen. Warren is now progressing before the commission.

LONDON, Nov. 1, eve.—The holiday has been generally observed here and on the continent. But little business has been transacted here or in Liverpool, and the markets closed early. The commercial despatch sent from London and Liverpool at 2 p. m. contains the closing quotations of the day.

NEW YORK, Nov. 2.—The *Herald's* special dated from Garibaldi's camp, Castle Yonibilero, 5 miles from Rome, Oct. 30th, says: On this day (Wednesday) in the morning Garibaldi had at his headquarters, under his immediate command, 3,000 revolutionary soldiers. The men are well armed and have plenty of provisions, but no artillery, except two troop guns taken from the Papal soldiers during the fight at Monte Rotundo. They have no tents, and there is very little discipline maintained. Garibaldi's headquarters in the field is placed at a point facing Rome, and in full view of the Eternal City. There are no Papal troops between us and Rome, as the soldiers of the Pope, who have been steadily falling back, have retreated within the line of the fortifications of the city. Before their retirement from the field, they burned all the buildings in their rear. The Roman peasants take no interest in the progress of affairs. They are engaged at the plough and tending their flocks as usual. Garibaldi's men do not interfere with them, and respect their property. They do not take away sheep or oxen, or any of the agricultural products or chattels in the vicinity of the camp or on the roads leading thereto, with the exception of the fences. They behave indeed well. Eight men of the Garibaldian army are to be shot to-morrow by sentence of a court-martial, having been convicted of thieving at Monte Rotundo. The men of the force are very enthusiastic in their hopes as to the result of the movement on Rome, but the nights are very cold, and this tests their patriotism not a little. Arms and provisions are had in large quantities in the province of Feroni, in anticipation of a fight with the Papal Government. There has been no actual engagement since the fights at Viterbo and Monte Rotundo. The priests fought bravely at Monte Rotundo. After the fight at Monte Rotundo, Garibaldi's officers begged of him to shoot at once all the prisoners taken in the action, but he refused promptly, and with

determination. The French have not arrived at Rome yet. Signor Acerbi was not killed at Viterbo, as first reported. Garibaldi's sons, Menotti and Ricotti, are both in camp with their father. We all sleep on the floor of an old monastery. Garibaldi will not advance nearer to Rome until he has twenty thousand at least under his command. He is to-day engaged in making an examination of the bridges destroyed by fire by the Papal troops. In camp the General retires at eight o'clock in the evening and rises from his pallet on the floor at 5 in the morning. It is said that he intends to occupy Monte Mario immediately. Two thousand papal troops, well officered and handled in the field, could destroy Garibaldi's force by an assault on the rear of his position. The members of the insurrectionary committee are here, consulting with Garibaldi. The General would be reckless to attack Rome with the force just now under his command. There are large supplies of food and ammunition at Monte Rotundo and Corezzi. The Italian troops posted on the frontier are in a mutinous condition.

ROME, Oct. 31.—All the Garibaldian force left here to day, escorting the Papal military prisoners taken in the late action *en route* towards Florence. Some confusion ensued among the prisoners, but the Italian police restored order.

FLORENCE, Oct. 31.—A battalion of Italian Garibaldian volunteers from this city, which had just marched for the frontier, has been stopped at La Rono, on the way, by the Italian troops. The King's Government has ordered that the revolutionary relief committees, both here and in the provinces, shall be closed. Garibaldian demonstrations continue to be made daily in all the chief towns of Italy.

QUEENSTOWN, Nov. 2, noon.—The steamship *Cuba*, from Boston, has arrived.

LONDON, Nov. 2, noon.—Consols 94¼; Bonds 70¾.

LIVERPOOL, November 2, noon.—Cotton quiet and steady.

LIVERPOOL, November 2, 2 p. m.—Cotton dull and unchanged. Corn 9s 6d; Lard 52s 9d; Tallow 45s; Sugar firmer at 26s.

American Despatches.

NEW YORK, Nov. 2.—The *Herald's* Boston special says:—A billiard match for the championship of Connecticut was played last evening between Edward Daniels and Wm. A. Tobin—American four ball carom game, 1500 points. It was a very spirited game, and resulted in a decided victory for Daniels, he making 1500 points to 628 for Tobin. Daniels' best runs were 25, 244 and 262, and Tobin's were 101 and 94. The game occupied 3 hours and 19 minutes.

—Dickens asks $1,500 a lecture. He can only deliver a limited number. He will decline all private invitations and hospitalities, which might occupy his time and distract his attention.

A correspondent wants to know why an old maid is like a sucked orange, and then has the assurance to answer his own question by giving the reply,

"Because neither one is worth *squeezing!*"

Such is the blessing of a benevolent heart that, let the world frown as it will it cannot possibly bereave it of all happiness, since it can rejoice in the prosperity of others.

The potato crop in Nova Scotia is not likely to be an average one. The papers tell us that even in districts not much affected by the rot, the yield, owing to some cause, will be light.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman; the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.
MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," and "Nemesis," and "Marion."

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PEMBE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 00
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, payable to the *Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address, L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

How to Have Good Milkers.

No matter what breed of cows you have, something is necessary to reach the highest success in raising milkers. And can farmers ever expect to raise good stock from cows to which, for the purpose of making the milkers, they have been in the habit of using any runt of a bull they could pick up.

It's a great thing to have good blood, whether it be Ayrshire, Jersey, or short horn grades, but, apart from this important advantage, the course of treatment in raising a milker is somewhat different from that in raising a beef animal or animal for labor.

The calf should be well fed and petted while young. Well fed to produce a rapid growth, so as to enable the heifer to come in early; petted to make her gentle and fond of the presence of her keepers.—Fondling helps to create a quiet disposition, so important in a dairy cow, and this education must begin when young.

For a milker, we would have the heifer come in at two years old, and if she has been well kept, so as to have attained a good size, she is then old enough to become a cow. She will give more milk for coming in early. It forms the habit of giving milk, and the habit, you know, is a sort of second nature. An older bull is better.—We use too many young bulls. A three or four year old is far better as a stock getter than a yearling, and many prefer a five or six year old to any other. After the heifer comes in, let her be fed regularly. Clover is preferred to all others for the stall feed. A little oatmeal induces a large flow. Indian meal is rather fattening. In bad weather give her a clean, airy stall.

A cow newly come in should not drink cold water in cold weather, but moderately warm slop. Calves intended for raising should be taken from the cow within a few days, and they will be less liable to suck when old. Feed them first with new milk for a time, then skim milk, then sour milk, taking care that till the changes are gradual by adding only a portion at first, and gradually a little meal.

Calves well fed and taken care of, with a quart or two of meal daily in winter, will be double the size at two years they would have attained by common treatment.

Heifers thus treated may come in at two years old, and will be better than neglected animals at three, and one year of feeding saved.

Heifers dried up too early for calving will always run dry in after years, therefore be very careful to milk closely the first year, until about six weeks before calving.

Hearty eaters are desirable for cows, and they may usually be selected while calves. A dainty calf will likely be a dainty cow.

Heifers should become accustomed to be freely handled before calving and drawing the teats.

They will not then be so difficult to milk. Begin gradually, and be careful not to startle them.

In milking cows, divide the time as nearly as practicable between morning and evening, especially at time of early grass, that the udder may not suffer.

Persons who milk should keep the nails cut short; animals are sometimes hurt with sharp nails, and are unjustly charged with restlessness.

To determine with cows are best for keeping, try their milk separately, and weigh their butter—for sometimes a cow may give much milk and little butter, and *vice versa*.—*Coleman's Rural World.*

WANTED TO FIX HER SKIRTS.—As a family in Detroit were at dinner one day last week, a young man happened to go into the hall, and saw a woman there. She seemed rather embarrassed, and gave as an excuse for her presence there that she wanted to fix her skirts, and the modest youth left her, intending to go back into the dining-room while she hauled out the loosened rigging. No sooner had he turned his back than the women ran like the "Flying Scud" around the corner, and he, suspecting something, followed in her wake, keeping her in sight until she entered a house; then returned and told his story. His father suggested a search in the upper rooms of the house, to discover whether anything was missing. The suggestion was carried out, and it was found that the room of a young lady up stairs had been entered, and one of the drawers of a bureau robbed of jewelry, consisting of a gold watch, pins and ear rings, and other articles, to the amount of $500. The detectives were informed of the affair, and went in search of the woman, who at last accounts, had not been found.

Dear—A pretty wife, her "love of a bonnet," good whiskey and piety.

Who has ever seen a cow that had calves no her legs.

A teacher of penmanship, in twelve lessons, taught a lawyer to read his own writing.

Well, wife, you can't say I never contracted bad habits. No, sir; you generally expanded them.

Worth makes the man. Just so; a man is unusually valued in exact proportion to what he is worth.

A great brute of a husband advertised in the morning papers for a strong, able-bodied man to hold his wife's tongue.

"Toby, what did the Israelites do when they crossed the Red Sea?" "I dunno, but I gueth they dried themselves."

A thrifty wife wonders why the men can't manage to do something useful. Might they not as well amuse themselves smoking hams as smoking cigars.

Sidney Smith advised young writers, in composing, as a general rule to run their pen through every other word. He says: "You have no idea what vigor it will give to your style."

India & China Tea Company.

HOME DEPOTS—London and Liverpool.
CANADA DEPOT—32 Hospital Street, Montreal.

PURE and GENUINE TEAS of splendid natural flavour, imported direct from the Company's Plantations in ASSAM, and on the slopes of the HIMALAYAS, blended with the finest products of CHINA.

BUY YOUR TEA
DIRECT FROM
THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

QUEEN
INSURANCE COMPANY

CAPITAL, - - - - $10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,
in connection with
FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-u

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, MONDAY EVENING, NOVEMBER 4, 1867. No. 158.

Get along with your Nonsense.

A maiden sat in her bower so small,
Sing ri fol lol, and ri fol lay,
In her bower atop of her dwelling house tall,
It wasn't next door, so you needn't call,
And it wasn't over the way.

The maiden sat and the maiden sighed,
Sing heigh, alas! and oh dear me!
"I've a bonnet to finish ere eventide,
"And its' shameful, and that's what it is," she cried,
And she said "I won't" said she.

The maiden went to the top of the stair,
Sing what you like if it comes in well,
And she sung out "Mary! are you down there?"
And she called for Mary again, I declare,
Instead of ringing the bell!

The maiden stood as I said before,
Sing re, mi fa sol, la, si, do,
And she called for Mary again once more
The number of times might be half a score
But I didn't count, so I can't be *shore* [sure],
And it's paiuful to add that the maiden swore,
And then she went in and slammed the door—
And that's all about her I know.

A Big Bridge.

Mr. Lowell, in his charming poem of "Sir Launfall," tells of an organist who built "a bridge from dreamland for his lay," and Tom Hood constructed the "Bridge of Sighs," but neither of these poets, nor, so far as we are aware, has any of human kind produced so stupendous a conception as a writer in a recent number of the *Circular*. This writer proposes a railroad to Europe. His route is not by way of Behring's Straits, but straight across the Atlantic Ocean. His plan is so ingenious that it is but just that the description of it should be given in his own words, to wit:

"A railroad from America to Europe across the Atlantic Ocean! How can it be made? Answer. By removing the unnecessary mountains and rocks of the continents to a surveyed and definite locality. The combined navies of the world, or, at least, such as would otherwise be employed as belligerents, could convey materials for the road to the proper destination. * * I need not be asked for the full details of the plan, for those belong to the engineer, who in this time finds ways to accomplish seeming impossibilities. He will show you the number of cubic yards of solid rock necessary to form a track foundation. Suppose it to be, when completed, one mile in width at the surface of the water, and drawn into half a mile, in which, at two hundred feet high, sufficiently numerous openings should be spanned by suspension bridges, to allow the North and South commerce of the ocean to go on unobstructed. Then the half mile width of the surface grade would be sufficient for any desired amount of rail or other road tracks and for telegraph lines, leaving a margin for houses, gardens, etc. A river of fresh water should be carried along nearly or the whole length of this road-bed, being conveyed from both ends and emptying into the ocean midway. Of course it would be imperative to take water from some higher locality; perhaps from the highest sources on the earth, and conduct it properly in its course."

The plan is both novel and feasible, and if the Government would but take hold of it as it has done of the Pacific Railroad, there seems to be no reason why it should not be executed. Perhaps it would be sufficient if the Radicals would embrace the project. They are just in want of a platform, having worn out the one upon which they have stood for the past ten years, and why not stand upon a bridge across the Atlantic? The author of the plan naively observes that "free public discussion should be had, and plans and proposals invited," all of which are peculiarly appropriate for the party in question. It professes to believe in "free public discussion," is perfectly at home in making "plans," and is thoroughly acquainted with every kind of "proposals," from furnishing stationery to the United States Senate, to repairing canals in New York State. By all means, then, let us have a bridge across the Atlantic, and, to quote again from the words of the projector, "as almost every public work is found to be made too small when finished and has to be enlarged afterwards, don't be penurious in forming the working plans of this job."—*New York World.*

A conceited man, who had builta small house in a sequestered part of his grounds for private study, showed it to a friend, remarking, "Here I sit reading from morning till night, and nobody a bit the wiser."

A French genealogist has discovered that Maximillian is descended from Philip of Macedon, father of Alexander the Great; but to allay all jealousy, he kindly declares that all European sovereigns are descended from the same ancestors.

Henry Turn recently married his cousin of the same name. When interrogated why he did so, he replied that it had always been a maxim of his that "one good Turn deserves another.

It is related that a subscriber to a country paper of long standing, who had never paid a dollar of his subscription, told the collector, when he called upon him for his little bill, that he had no funds: "He only subscribed for the thing in order to encourage the undertaking."

On and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.
This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioners Street, Montreal.

Foreign Items.

The winter is severe and premature in Scotland.

Robert Browning is to give us a new poem, before spring, of fifteen thousand lines.

The most fashionable color of the day is a yellowish *cuir*, called "Bismarck in-a-rage."

There are 500 iron mines in Sweden, yielding half a million tons of ore.

The International Ocean Telegraph will shortly extend its line to Florida.

In Paris it was recently shown that duck-rearing is nearly three times more profitable than hen rearing.

At Aleppo there has been an immense fire burning up 600 houses—a calamity which the inhabitants endured with Oriental indifference.

The new opera house in Paris is to have five hundred marble pillars, twenty-six feet high, and colored in five different hues.

A fire took place in Dundee recently, which destroyed a shipyard and property, worth $800,000, besides throwing 200 men out of employment.

In Hartlepool, a feminine mesmerist, who had been lecturing and juggling there, committed a violent assault upon a reporter who had given a disparaging account of her performances.

James Harrington of Flamborough, has received a medal from the King of Sweden and Norway for meritorious services in saving four men from drowning, and at the same time was presented with a purse containing £38.

The West Sussex *Gazette* states, not on its own authority, but on that of a correspondent, that Mr. Stephen is about to retire from the representation of Shoreham, and that Ex-Governor Eyre is to be brought forward as a candidate!

In England not long since, a ferret killed in one night 32 fine turkeys, 12 chickens and 16 ducks; arranged the fowls in a circle, and was caught asleep in the centre of it.

The *Lancet* tells of an old man who has brought up five children on fifteen shillings a week, and of another who has been thirty years in the employ of the city, and brought up nine children on similar wages.

The Bismarck family have just held a meeting at Berlin and presented the Count with an album containing photographs of each of the members and a splendid gold cup.

The Court of Russia has returned to St. Petersburg for the winter. It is the first time the Czar and his family have been so long abroad away from the seat of government.

Loyal and Gratifying—On hearing that several flying columns were ordered for service in Ireland, the Nelson's statute and the Duke of York's instantly sent in to know if their columns could be of any use.

An Austrian paper complains of the names which are given to places in that country, such as Black Bob's Creek, Scabby Flat, Monk's Trunky Creek, Deadman's Flat, Fryingpan, &c.

The Austrian and Hungarian Government have decided that the merchant vessels of the two countries shall be under the common Austrian flag, but that the Hungarians may, if they please, add to it some distinguishing emblem.

An afflicted editor, who is troubled with hand organs under his window, longs for the "evil days" mentioned in Ecclesiastes, when the grinders shall cease because they are few, and the sound of the grinding shall be low.'

A precious artistic relic—no less than the piano of Bethoven—is about to be put up to sale by its present proprietor, an inhabitant of Transylvania. This instrument, which was made about seventy years ago, is in a very fine state of preservation.

The Ocean Race from China.

Intelligence received by John M'Cunn, Esq., Greenock, intimates the arrival in the Downs, on Sunday, of his clipper ship Sir Lancelot, in 96 days from Shanghae.—This is a somewhat remarkable passage from the fact that Shanghae is about 600 miles farther away than Foo-choo-foo, and the Sir Lancelot did not leave till the middle of June, while the Maitland, Serica, Fiery Cross, Whiteadder, Ziba, Taitsang, Flying Spur, and Black Prince, all left Foo-choo-foo between the 31st May and 10th June, and none of the vessels have yet come in. Even the Taeping and Ariel have been left in the shade by the passage of the Sir Lancelot. The Sir Lancelot is a vessel of 885 tons, and was built by Messrs. Steele in 1865. She is commanded by Captain Robinson, formerly of the Fiery Cross. On the outward passage, in going down Channel, she lost some of her spars, and had to go into Falmouth to refit. The voyage from Falmouth to Shanghae and back to London has only occupied seven months and twenty days, including detention in the country. Other two of these clippers have since arrived at Gravesend. The Fiery Cross, 800 tons, Capt. Kirkup, built by Challoner & Co. at Liverppol in 1860, arrived on Sunday night; and the Ariel, 750 tons, Capt. Keay, built by Steele & Co. in 1865, arrived on Monday. The Fiery Cross left Foo-choo-foo on the 5th June, and the Ariel the same port on the 13th June. The Taeping and the Ariel have thus made the passage in the same number of days, the former having left nine days before the latter, and arrived nine days before her. The following report by Captain Robinson, of the Sir Lancelot, shows that her unprecedented passage was not owing to her having the advantage of more favorable winds than the other vessels, but to the rare sailing capacities of the vessel and the ability of her commander.—She passed four of the competing clippers on the passage:—The Chinaman, Aug. 3; the Flying Spur, Aug. 11; Zillah, Aug. 13; Min, Aug. 14—all from Foo-choo foo for London. The Sir Lancelot left Shanghae, a week's sail farther away than Foo-choo-foo, on June 16th.

BELLEVILLE, MONDAY, NOV. 4.

☞ SEE FOURTH PAGE.

STR. "ST. GEORGE."—A telegram from Father Point to-day states that the steamship "St. George" arrived inwards this morning.

SALE OF LANDS FOR TAXES.—Our readers are reminded of the sale of lands for Taxes, which takes place to-morrow forenoon at the Court House.

LOCAL BANK.—It will be seen by advertisement that a meeting of business men will be held to-morrow afternoon at Nelson's Hall, to take preliminary steps towards the establishment of a local Bank. We hope there will be a good attendance.

"BABEL."—A lecture on this subject will be delivered on Friday evening next at Nelson's Hall, by Rev. JOSEPH WILD, M. A. The subject is an interesting one, and the well-known popularity of the lecturer will no doubt secure him a full house.

SOLICITOR GENERAL RICHARDS.—The St. Catharines *Constitutional* thus enlightens the public: "We learn that a constituency has been secured for Mr. Stephen Richards, where his return by acclamation is almost certain. We shall not at present name it, but as it is not more than 1,000 miles from Lincoln, our readers will be able to exercise their ingenuity in guessing the location."

IMPORTANT DENIAL.—The Ottawa special correspondent of the *Leader* says: "The *Globe's* statement that the Hon. Mr. Howland agreed not to assist any bank without Mr. King's consent is entirely untrue. It is also untrue that the Government became responsible for the loan advanced by the Montreal Bank to the Commercial." We are glad to learn that such is the case. The making of such a promise was too humiliating.

MILITIA BILL.—The *Globe's* Ottawa correspondent gives us the following piece of information. We give it for what it is worth, premising that the *Globe* is not the best nor most reliable source from which to obtain correct information as to the policy to be pursued by the Ministry: "A new Militia Bill has been carefully prepared, mainly by Adjutant-General McDougal, who has for the past six months been engaged in the work. This Bill is in print and in Mr. Cartier's hands. It is said that the measure embraces the volunteer and conscription ideas. In so far as that when a district furnishes its first quota on the volunteer principle, no other call will be made on it. Where that is not done, conscription will, it is said, be resorted to. It is a mistake to suppose that the Bill fixes any number of day's drills or prescribes the number of troops to be drilled. The Bill has not yet, it is said, been considered in Council by the Ministers, and it is not expected to be distributed among the members until after the holidays. The Government intend to canvass the members carefully in order to find out by how large a vote for militia purposes they will be sustained on the estimates. They have really no policy at all as yet. Two millions of dollars have been spent during the last year on the militia."

The Cheese and Butter Market.

In the Commercial article of the Montreal *Gazette*, we find the following excellent remarks respecting the manufacture of Butter and Cheese, which we commend to the attention of our farmers.

"In reference to our recent remarks on the annual consumption of Cheese in Great Britain, and the enormous market within our reach if a little unusual care is taken in the manufacture of the article, we find, on referring to the British Board of Trade returns for 1865—the latest we can readily lay our hands upon—that in that year 95,567,024 pounds of Cheese were imported into the United Kingdom. British North America, one of the finest dairy countries in the world, occupied a very unsatisfactory position with regard to the quantity which it furnished towards this great quota of the food of the British people, for the whole of its cheese export to Britain during the same year only amounted to 1,146,096 lbs—a figure remarkably trivial compared with the vastness and resources of this country. The extent of our Butter export was equally unsatisfactory.—The returns already referred to show that in 1865 Great Britain imported 121,376,304 lbs of butter, 3,541,216 lbs of which came from "British North America." These figures should command the earnest attention of every cheese and butter manufacturer in Canada. They have only to use a little extra care and attention, and see that a uniform quality of good flavour is placed on the English market in order to take high rank on a market so vast that it can never be monopolised. They would also do well to remember that one county alone in the State of New York—Herkimer, and not the best grazing one either—sells butter and cheese to the amount of four millions annually, simply because its manufacturers spared no expense to produce a good article, and have now begun to receive their reward."

The Banking Subject.

The Montreal *Gazette* copies the Hon. BILLA FLINT'S letter on Banking, but does not express any opinion "either in respect to its tone or argument." It thinks, however, that there is no use in trying to conceal the strong feeling which prevails in Ontario respecting the Bank of Montreal, and says the view entertained by the Hon. Billa Flint is not peculiar to that gentleman, but has reason to believe that it is entertained by many men of influence in Western Canada. In support of that belief the *Gazette* gives the following statement from a source well-informed in the Banking operations of Ontario:

"As a rule in banking accounts throughout he country, the class of borrowers is not the class of lenders. The Bank of Montreal formerly did a large lending business in Upper Canada, and was the popular Bank. In this way it came to have large deposits; and these have remained after the discount business has ceased, or almost ceased, under the system inaugurated by Mr. King. Without having access to the Bank books, I can tell you, generally, that the deposits, or, in other words, the amount of money lent to the Bank of Montreal by the people of Upper Canada, is not less than three million dollars, while its discounts, which are confined principally to a couple of points, do not exceed a million. It follows that if the Bank of Montreal were to retire from Upper Canada altogether, the people would be millions the richer. And what aggravates the feeling is that there is a general impression that this money lent by the people to the Bank of Montreal is taken to New York to speculate with."

The *Gazette* adds that it had this statement in its possession for some days, but kept it back, not wishing to "add to the general excitement, or unnecessarily add to the feeling against the Bank of Montreal." But it found there was no use in trying to conceal an expression of feeling, and concludes by saying: "The people of Montreal, who are so largely dependent on the people of Western Canada for the trade of the city, cannot allow sores to rankle without endeavoring to supply a remedy."

Grand Trunk of Canada.

The report of the Grand Trunk Railway Directors for the half-year ending the 30th June has been published, and from it we gather the following facts: The gross receipts of the whole line for the half-year amounted to £609,121, against £637,420 for the corresponding period of 1866, showing a decrease of £28,304. The working expenses, at 70-53 per cent., amounted to £429,792 for the past half-year, against £403,419 in 1866, showing an increase of £26,373. The renewals in the half-year amounted to £54,973, against 26,286 in the same half of last year, showing an increase of £28,687. After deducting £10,274 for loss by fire, the available net balance was £114,082, against 207,720 in the same half of 1866, showing a decrease of £93,638. To the £114,082 was added £23 from the preceding half-year, making £114,407, out of which 21,554 (the loss on American currency) had to be deducted, leaving a cash balance of £92,-853. From this the postal and military revenue (£18,150) was deducted, leaving 74,702. Against this sum there had been paid or was payable, £16,089 for the interest and Portland sinking fund, £6,051 due to the Champlain Company, £15,424 due to the Buffalo Company, $32,787. Atlantic and St. Lawrence lease (in full), £11,250 Detroit line lease (in full), and £10,779 for equipment bond interest making together £92,379, and leaving a debit balance against the half-year's net revenue of £17,677. As the gross revenue of the second half year had in preceding years averaged 14½ per cent more than the first half, the balance of £17,677 would be carried forward, and the rents and interest on the leased lines and equipment bonds would be paid. It would be observed that but for the increased charge for renewals there would be a balance to the credit of net revenue of £10,990; and, but for the exceptional debt for losses by fire, this would have been increased to £21,769. The traffic returns for the three weeks ending the 21st of September amounted to £90,815, against £85,177 in the corresponding three weeks last year, showing an increase of 7 per cent. Considering the public harvest, there was reason to believe that these favorable returns would be maintained. The defective harvest of 1866 had been the chief reason of the smaller gross earnings of the present year. The directors had been enabled to contract for the delivery of 25 new locomotive engines to meet increase of traffic. In comparing the half-year's working with the corresponding period of 1866, the following facts were arrived at:—1. The gross traffic was less by about £28,000. From this, however, must be deducted a lesser share of receipts due to the postal and military bond holders of £12,000, leaving about £16,000 as a falling off in the "through" traffic. 2. The working expenses were more by about £26,000, due in part to enhanced price of fuel and wages, and in part to the cost and loss of time involved in drilling the company's employees in support of the Queen's authority. 3. The whole of the renewals were charged to revenue. A length of 55½ miles had been relaid. This caused a special deduction of £28,000. 4. The losses already paid in connexion with the fires at Toronto and Sarnia had absorbed £10,000. The claims were resisted by the company, and up to a certain point with success. The whole of the American lines showed heavy decreases for the half-year ending June last.—The loss from 1862 to the 30th of June last in American currency amounted to £311,938. The directors could not refrain from referring to this unforeseen loss as the origin of most of the recent difficulties. A bill has been prepared for submission to the Canadian Parliament during the coming Session. This bill embodied the several matters, but provision was made in it for the existing equipment mortgage bonds to remain in all respects undisturbed and not to form part of any new issue of similar bonds. Power was also taken to consolidate the preference bonds and stocks by conversion into an uniform preference debenture stock, as well as to vary the terms of the agreement with the Champlain and Buffalo and Lake Huron Companies. But the board proposed that the Act should be subject to sanction on the part of the bond and stockholders. It would be simply a permissive Act.

Editorial Summary.

—Hon. Joseph Howe is in Montreal.

—Ex-Governor Andrews, of Massachusetts, died on Wednesday last.

—The funeral of the late Bishop Strachan takes place to-morrow afternoon.

—Commercial Bank stock went up to 25 to 30 on Saturday in Montreal.

—A Lutheran Church is to be built near the battle field of Lime Ridge.

—The str. *Napoleon* is to be sent to the Gulf to assist inward bound vessels.

—The man-of-war *Wolverine* left Montreal for sea on the 1st November.

—A "baby dance" by a hundred small children, is the latest feature in the Black Crook.

—Hon. James Cockburn is spoken of as Speaker for the Commons.

—Some apple trees in Rhode Island are yielding a second crop of fruit.

—Fanny Fern has made over $100,000 by her writings, most of them for the *Ledger*.

—Gold has been found at the village of Industrie, Lower Canada. Quartz at the depth of 95 feet yielded $31 75 per ton.

—Gold mining is likely to become an important enterprise in Virginia, North Carolina and Georgia.

—The Scarboro cheese factory is manufacturing "Stilton" cheese, up to the mark of the English "great original."

—The statement of the Commissioners of Emigration shows that during the year ending Oct. 30, 1867, 208,428 emigrants arrived in New York.

—The rioters arrested in Quebec, for being accessory to the death of a ship carpenter who refused to join the "strikers," have been admitted to bail.

—John Miller & Son, of Toronto, are shipping barley direct to England, for use in the famous breweries of Bass & Co., Burton-upon-Trent.

—In the printed instructions of the Overland Express Company to their agents, occurs the following passage: "Wherever you see an Indian shoot him."

—The Fort Huron (Mich.) *Commercial* says the tug *Wm. Peck*, of Montreal has been seized at that port for smuggling, and will be condemned and sold.

—The Fort Smith *Herald* says the Arkansas river, is so low above that place that last week a drove of cows stopped to drink in it, and they drank it in two.

—As the steamer *Oregon* was passing, a newly-arrived Irishman, belonging to the celebrated O'Regan family, was heard to exclaim: "O-r-e-g-on—O'Regan—oh! be japers! only four weeks in this country, yet, and a steamboat christened after me."

—The London *Economist* of the 19th ult says: "The accounts from nearly all parts of England, as well as from France, in reference to the yield of the new crop of wheat, continue unfavorable. Prices abroad, therefore, show a hardening tendency. The various markets have been rather excited for most kinds of produce, on higher terms.

HEAVY TAXES.—The Buffalo Courier states that the annual taxation for all purposes in the State of New York is more than eleven per cent, upon the assessed valuation of all the real and personal property within its limits; that it amounts to forty-five dollars for each individual man, woman and child, white and black, of the entire population; and that the aggregate annual tax is one hundred and eighty millions of dollars. This is more than double the entire debt of the Dominion of Canada! We are inclined to grumble sometimes about taxation; but when contrasted with our neighbors in the State of New York, we ought to be supremely thankful.

LOVE EFFUSION.—An action for breach of promise—Mercia Carpenter vs. William Henry Carpenter,—was tried at the Assizes at Woodstock last week, and resulted in a verdict for Miss Carpenter of $100. The letters of the unfaithful swain, abounding in original poetic gems, were produced in evidence, from the character of which the penalty was in no comparison with his guilt. The wretch who would inflict the following on a confiding female under false pretences, deserves to be placed in, solitary confinement on a diet of Kennedy's rat exterminator:

"Thares one that lives not far away
rejoices in your smiles
and some night I'D like to stop
and talk with you A. while
thare is not a lady far or neer
so sweet a smile can give
but one that in a shanty lives
she is one I'D like to see
and then to have her for my own
how happy I should bee
if I Was blest with such A face
and such prepossessing grase
eternity to share."

Telegraphic News.

BY ATLANTIC CABLE.

FLORENCE, November 2.—A bulletin, issued by the Italian Relief Committee, says that Garibaldi's arrival in Italy has modified the plans of the insurgents and of the revolutionary party.

The North German Parliament has passed a resolution calling upon the federal Chancellor to introduce at the next session a measure relating to trade, based upon free trade principles.

LONDON, Nov. 2, noon.—There is no longer any doubt that the French troops have entered the Holy City.

The Italian reserve has been called out.

It is reported on good authority, that the Government of Prussia has pledged her support to Italy in the event of a rupture of the friendly relations between that country and France. It is known that there is a crisis in the relations between France and Prussia, which causes much uneasiness and apprehension in monetary circles.

LONDON, Nov. 2, 3 p.m.—General Manabrea, the Prime Minister of Italy, in a note, justifies the advance of the Italian troops into the Papal territories. He says the dignity of the Italian Government and the violation of the September treaty by the French required this movement.

DUBLIN, Nov. 2, noon.—The trial of General Warren, for complicity in Fenianism, was concluded last evening. He was found guilty of treason and felony.

Second Despatch.

FLORENCE, Nov. 2, midnight.—Garibaldi still remains at Monte Rotundo, to which place he retired when he heard of the landing of the French and the advance of the Italian troops, deeming it hazardous to make any attack upon Rome under existing circumstances with the Republican forces under his command. He has brought together all the bands of Volunteers at Monte Rotundo, where he has taken up a strong position and gone into camp. His men have since been actively engaged in throwing up entrenchments, which are now completed. He is prepared for attack. He will await reinforcements and watch the course of events.

To the summons of the King to disarm, Garibaldi replies by refusing to disband his army or give up his enterprise against Rome, unless a change be made in the present reactionary Ministry which will put the Government of Italy in accordance with the national will.

The Emperor Napoleon has made a proposition to the King of Italy to submit to the citizens of Rome and the inhabitants of the Papal Provinces the settlement of the Roman question by popular vote, but the Italian Government declines to accept this plan for the solution of a question in which the interests of the whole nation are so deeply centred.

COPENHAGEN, Nov. 2, eve.—It is again reported that the United States have purchased the Danish West Indian Islands, but the amount to be paid is now stated to be fourteen millions of dollars in gold. Mr. P. Cristensen, formerly Governor of St. Thomas, it is said will be sent by the Danish Government to Washington for the transfer of the islands.

LONDON, Nov. 2.—Brazilian papers say that the allied forces on the Parana will not undertake any action for the siege of the Paraguayan fortifications at Humatia.

LONDON, Nov. 2, midnight.—A farewell dinner was given to Charles Dickens this evening by his literary friends, in anticipation of his approaching departure for the United States. Lord Lytton presided and made a felicitous speech, which was responded to by Mr. Dickens. Several other speeches were made, full of good wishes and good feelings for the distinguished author.

LONDON, Nov. 4, noon.—It now aprears that the proposition to settle the Roman question by a submission to the popular vote of the Papal Provinces, was not suggested by the Emperor Napoleon, but was the spontaneous idea of the Italian, the Prussian and the French Governments.

American Despatches.

NEW YORK, Nov. 4.—The steamer "City of Antwerp," from Liverpool, has arrived.

PORTLAND, Me., Nov. 2.—Walter Brown, the oarsman, ran a foot race this afternoon, against time, accomplishing five miles in 32 minutes and 40 seconds, winning the race.

PLAINFIELD, Conn., Nov. 3.—Weston, the pedestrian, is here. He will leave to-morrow for Hartford, and from thence, on Nov. 6th, he will start on his second trial of one hundred miles.

COLUMBUS, Nov. 3.—A large incendiary fire occurred at the Ohio Penitentiary last evening. Loss $75,000.

CHICAGO, Nov. 2.—Flour dull and unchanged. Wheat dull and declined 1c to 2c; sales of No. 1 at $1 80 to $1 80¼; No. 2 at $1 79½ to $1 80, and closing at $1 79 to $1 80. Corn dull at $1 05 for No. 1, and $1 03 to $1 04 for No. 2. Oats dull at 53½c. Rye quiet, at $1 28 to $1 29 for No. 1, and $1 27 for No. 2. Barley unsettled at $1 03 to $1 05 for No. 2. Pork firm at $20 00 for new, and $19 50 for old. Lard firm but quiet at 12c for new. Beef dull at $6 75 to $7 for first-class shipping. Live Hogs dull at $5 65 to $5 75 for choice to extra. Receipts—117,000 bbls flour; 9,000 bus wheat; 67,000 bush corn; 83,000 bush oats; 5,000 hogs. Shipments—19,000 bbls flour; 200,000 bush wheat; 103,000 bush corn; 87,000 bush. oats. Freights unchanged.

—The foundations of the new Custom House at Portland, Me., are laid 30 feet deep on solid rock.

—They have a geological curiosity in Ottawa. On Wellington street, in front of the Parliament Buildings, a large flat stone, on which is plainly impressed the tread of a moccasined foot. The mark is very clear and distinct, the turning-in of the toes and the rise at the hollow of the foot being quite visible. Across the track run thread-like ridges, which show that the impression could not have been water-worn.

—Some poor idiot, the other day, thought it a clever practical joke to send a bottle afloat at sea containing a slip of paper, on which was written—"Dr. Livingstone, off Zambesi. Not lost at all. Can't think how the report got about." The ignorant donkey was, in point of geography, quite as much at sea as he evidently supposed the great traveler to be.

"What's de difference 'twixt a watch and a fedder bed, Sam?" "Dunno, gib it up," "Cause de ticken ob de watch is on de inside, and de ticken ob de bed on de outside."

GODEY'S LADY'S BOOK For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.

MARION HARLAND,
Authoress of "Alone," "Hidden Path," "Moss Side," and "Nemesis," and "Marston,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PEMBLE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets, PHILADELPHIA.

The Blind Carrier.

The West Surrey *Times*, an English paper, says:

"A stranger passing through Godalming on any day save Sunday, at about noon, could not fail to be struck with the appearance of a cheery-looking old man, with a number of parcels and bundles hung about him in all sorts of impossible ways, and a small, twisted brass horn slung from his neck. On closer inspection he would perceive that this little, hale old man, posting along at a rapid rate, with a stout stick in his hand, but making no uncommon use of it, is blind, although an extraordinary intelligence lightens up the features and takes away that painful and melancholy look which often accompanies blindness in those who are the subjects of that greatest of deprivations. This is old George Marden, who for upwards of twenty years has acted as carrier between Hambledon and Godalming. During the whole of that period he has been totally blind. He is now considerably over seventy years of age, and yet he daily trudges between these places, which are four miles apart, calling wherever he is required, and discharging the responsible duties of his vocation with unerring accuracy. The road which he traverses is exceedingly intricate, being chiefly paths across the commons, and otherwise involved, and he often has to make divergencies to the residences of persons living off the main track. But old George never stumbles.—A blast from his little horn makes known his approach; and whether at the cottage of the humble, or the mansion of the rich, there are few more welcome visitants, for he is a great importer of news and gossip, and never arrives empty-handed.

"During the severe storms of last winter, when the paths which he traversed were completely obliterated, and it would have puzzled the keenest sighted individual to have made the journey, George Marden never missed a day, and it is believed never wandered out of his road an inch; indeed, the old fellow's other perceptive faculties are wonderfully acute, and the inhabitants of Godalming declare that he knows every one of them as he passes, even though they do not speak, a belief which gains strength from the fact that he salutes them by name and never errs. It is said that he makes fewer mistakes than any other carrier in or out of the town; and there is no one who is more implicitly relied on for the performance of those numerous little commissions so often entrusted by the denizens of a village to the carrier to the nearest town. Old George enjoys excellent health, and is reported never to have missed a day since (nearly a quarter of a century ago) he first entered on his career as a carrier.

Albany Lumber Market.

REVIEW FOR THE WEEK ENDING OCT. 30.

The receipts of lumber continue large, and exceed the shipments of the week. The stock in market is ample and the assortment good. Best rived and sawed shingles are however in small supply.

The sales for the week have not been active generally, although some large transactions have been made. Prices remain without change.

Freights to New York $1 50 to $1 75; to New Haven and Bridgeport, $2 25 to $2 50; to Middletown and Norwich, $2 50 to $2 75; to Hartford $3 00 to $3 25; to Providence, $3 00 to $3 25.

The receipts by the Erie and Champlain canals during the 4th week in Oct. in the years named are as follows:

	Boards and Scantling, ft.	Shingles, M.	Timber, c. ft.	Staves, lbs.
1866 -	- 18,989,655	619	986	1,121,009
1867 -	- 19,011,511	1,400	3,229	481,992

The receipts by the Erie and Champlain canals, from the opening of navigation to Oct. 31st, in the years named, were as follows:

	Boards and Scantling, ft.	Shingles, M.	Timber, c. ft.	Staves, lbs.
1866 -	- 280,618,150	36,782	116,019	31,334,545
1867 -	- 341,508,960	24,361	58,053	22,166,929

Only about one month more of canal navigation can, with any degree of confidence, be looked forward to. The figures up to the close of the month of boards and scantling, show an increase of 60,894,310 feet, and a deficiency in shingles of 12,421 M, timber 58,466 c. f., and staves 9,128,616 lbs.

The following table shows the prices current at the principal yards at the date of our report:

Pine, clear, ₱ m.	$55 00 @ $58 00
Pine, fourth quality, ₱ m.	50 00 @ 53 00
Pine, select, ₱ m.	45 00 @ 48 00
Pine, pickings, ₱ m.	00 00 @ 00 00
Pine, good box, ₱ m.	25 00 @ 30 00
Pine, common box, ₱ m.	19 00 to 22 00
Pine, clap boards, strips, ₱ m.	53 00 @ 57 00
Pine, 10 inch plank, each	00 38 to 00 43
Pine, 10 inch plank, culls, each	00 27 to 00 30
Pine, 10 inch boards, each	00 28 @ 00 32
Pine, 10 inch boards, culls, each	00 22 @ 00 23
Pine, 10 inch boards, 16 feet, ₱ m.	27 00 @ 30 00
Pine, 12 inch boards, 16 feet, ₱ m.	28 00 @ 32 00
Pine, 12 inch boards, 13 feet, ₱ m.	36 00 @ 39 00
Pine, 1¼ inch siding, ₱ m.	30 00 @ 40 00
Pine, 1¼ inch siding, selected, ₱ m.	42 00 @ 45 00
Pine, 1¼ inch siding, common, ₱ m.	20 00 @ 22 00
Pine, 1 inch siding, ₱ m.	28 00 @ 33 00
Pine, 9 inch siding selected, ₱ m.	38 00 @ 42 00
Pine, 9 inch siding, common, ₱ m.	18 00 @ 22 00
Spruce, boards, each	00 18 @ 00 20
Spruce, plank, 12 inch, each	00 22 @ 00 23
Spruce, plank, 2 inch, each	00 35 @ 00 40
Hemlock, boards each	00 16 @ 00 17
Hemlock, joist, 4x6, each	00 32 @ 00 34
Hemlock, joist, 3x4, each	00 16 @ 00 18
Hemlock, wall strips, 2x4, each	00 00 @ 00 14
Hemlock, 2 inch, each	00 00 @ 32 00
Black Walnut, good, ₱ m.	55 00 to 65 00
Black Walnut, second quality, ₱ m.	40 00 to 45 00
Black Walnut, ₱ per m	55 00 to 60 00
Sycamore, 1 inch, ₱ m.	00 00 to 43 00
Sycamore, ₱ per m	00 00 to 38 00
White Wood, clear plank, per m	70 00 to 75 00
White Wood, inch, and thick, per m	35 00 to 40 00
White Wood, ₱ per m	30 00 to 40 00
Ash, good, ₱ m.	38 00 @ 40 00
Ash second quality, ₱ m.	30 00 @ 35 00
Oak, good, ₱ m.	40 00 @ 43 00
Oak, second quality, ₱ m.	35 00 @ 40 00
Cherry, good, ₱ m.	60 00 @ 65 00
Cherry, second quality, ₱ m.	35 00 @ 40 00
Birch, ₱ m.	25 00 @ 35 00
Beech, ₱ m.	25 00 @ 35 00
Basswood, per m.	23 00 @ 28 00
Hickory, per m.	40 00 @ 45 00
Maple, per m.	25 00 @ 35 00
Chestnut, per m.	45 00 @ 55 00
Shingles, first quality, shaved pine, ₱ m.	8 50 @ 9 00
Shingles, 2nd quality, shaved pine, ₱ m.	7 00 @ 7 50
Shingles, extra quality, sawed pine, ₱ m.	7 00 @ 7 50
Shingles, clear sawed pine, ₱ m.	6 00 to 6 50
Shingles, cedar, ₱ m.	4 00 to 6 25
Shingles, sawed hemlock, ₱ m.	3 00 to 3 75

QUEEN
INSURANCE COMPANY

CAPITAL, - - - - $10,000,000.

FIRE and LIFE.

LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with

FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, Interior Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, TUESDAY EVENING, NOVEMBER 5, 1867. No. 159.

Taking it Coolly.

We were never more impressed with the dignity of labor, than while witnessing, a few days since, a group of "down trodden working men" engaged in setting up some machinery, says a writer in a Boston journal. There were five of them, or rather, four men and a boy, and at the time they came under our notice, 5:30 p.m., one was engaged in slowly turning over the contents of a box in search of a screw, two were looking with much interest for the result of the labors of No. 1, the fourth was slowly scratching a piece of iron with a file, and the boy was scratching his head. No. 1 finally found a screw to suit him, but during the search his pipe had gone out. Laying down the screw, he began to investigate his pocket for a match. Nos. 2 and 3 searched theirs in sympathy, while the filer paused to see the result. Finally, No. 2 found a match, ignited it, and handed it to No. 1, who, having accomplished a light, smoked for a few minutes to assure himself of the fact, while the boy went to the other end of the room to look at the clock. No 1 then looked at his watch, and compared time with No. 3. Time 5:40. No. 1 then leisurely put the screw into position to fasten a bar. No. 2 held the bar, No. 3 squinted at it from the other side of the machine, No. 4 inspected the whole operation reflectively, as he slowly resumed his filing, and the boy wiped the oil from his fingers. Time 5:45. The entire labor was now suspended, while the boy went across the room for a necessary tool. Just then it occurred to No. 2 that a chew of tobacco was necessary to his comfort, and, as his supply was out, he applied to No. 3 for the weed, and to No. 4 for a knife to cut it with. No. 1 consulted his watch again. Time 5:50. And labor was resumed, the screw was turned home, No. 1 tried the bar, Nos. 2 and 3 indulged in a playful scuffle, and the boy looked on with a grin of admiration. The filer laid down his work and looked at the watch, and announced six o'clock. Tools were instantly dropped, and the five having accomplished the work of two ordinary men, went cheerfully home.

Oysters.

An oyster famine is imminent in Europe. The ravenous maws of Londoners and Parisians have encouraged such vandalism by oyster fishers, that nearly all the discovered salt water beds upon which these molluses have been wont to repose have been invaded and ravished. In the year 1864, 700,000,000 oysters were devoured in London alone. In 1867-68, London and all England are promised hardly 300,000,000 bivalves. Oysters are now 2d or 3d each, and not easily to be had on those terms. The Cancale beds, which gave the name to a famous Paris Cafe, used to yield about 50,000,000 a year as late as 1850. Four years ago the crop had fallen to 4,000,000, and is now probably nothing. A bed on the Irish coast, which gave work to 2,000 fishermen and produced in the season £1,000 per week, is worth scarcely £300 a year. The merchants and fishermen of both France and England, having suddenly discovered the lack of supply, have gone to oyster farming. It takes four years for the "spawn" or "spat" to develop into edibles. Sometimes there is no spawn, no crop and no produce. The uncertainties of the trade are formidable. What are the people of Great Britain and modern Gaul to do for oysters in the meantime?

The Europeans, whose appetite for the most delicious bivalve in the world is thus liable to be disappointed for one or two seasons, really never knew anything about an oyster, and have apparently not thought, even in this their extremity, about the advantage of transplanting, instead of cultivating him upon his native subterranean soil. The people of New York have long tasted and enjoyed the delicious flavor of oysters transplanted from the Virginia sea shore, and cultivated in the most northern latitude. Even the Californians, who are furnished with a luscious, but very small oyster, fished up within a few miles of the Golden Gate, have lately taken to importing and cultivating a larger and more "coppery" mollusc from the neighborhood of San Blas, on the Mexican coast below. Like everything, animate or inanimate, handled by the fingers and subject to the skill of man, the oyster is capable of "improvement."—*N. Y. World.*

Antiquarian researches around Nashville have revealed the sight of an ancient and populous town. Pottery, bones, shell ornaments, images, &c., have been dug up from mounds of elaborate construction.—The search is to be continued.

There is a scarcity and even famine in places in the north of Europe. Thousands on the Gulf of Bothnia are making bread of bark, mosses and other substances, and unless aid reaches them many must perish. Mr. Carlen, the Swedish novelist, has made an appeal for aid.

In Para the River Amazon was formally opened September 7th. The ceremony was performed by the President of the Province of Para. No foreign men of war were present, although invitations had been extended to them to take part in the ceremonies. The town, forts, shipping, etc., were beautifully illuminated.

Richelieu Company!
Roval Mail Through Line
between Montreal and Quebec.

ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—

The Steamer *QUEBEC*, Capt. L. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.

The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.

This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.

Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

Manager.
Office Richelieu Company, 6th May, 1867. 27D6m.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

May 2. 2D-3m

Meeting of the Upper Canada Fruit Growers.

There was a full attendance of members on the 15th inst. at Cooksville. The first item was to examine the vineyard there planted and trained by Mr. DeCourtenay, the vines of which were bending under the rich black clusters of beautiful fruit. After examining the vineyard, the members were invited to partake of a lunch generously provided by Mr. DeCourtenay. This disposed of, the meeting was called to order by Mr. Vice-President Gray. On the tables were some very fine samples of grapes of different sorts, exhibited by Messrs. Goldsmith, Keating, Leslie, and others, and a bottle of wine made by Mr. Fannal, of Cayuga. Considerable discussion was had upon the Ontario grape, particularly as to its origin, but nothing new was elicited.—The Delaware was a general favorite, and has proved hardy at Newmarket and in the vicinity of Ottawa. Clinton was in high estimation as a wine grape, being very hardy and very productive. Concord was also much thought of for its hardiness, size of berry and bunches, beauty of appearance and great productiveness. Rebecca had been found to be delicate. Diana would not ripen generally through the Province, though it does well in favored localities. Mr. Taylor esteems it very fine for wine. Catawba had been ripened by Mr. Cross, but others called it too late.—Hartford Prolific was thought to be a profitable early variety in limited quantity. It had the fault of dropping from the bunch. Iona had been fruited by but few, but they thought it would ripen about with the Delaware. Isabella was a very compact cluster and a good grape. Creveling did not ripen with Dr. Cross until a week after the Hartford Prolific. Others had not fruited it. Adirondac had been fruited by Mr. Beadle, who thought highly of it as an early grape. Roger's Hybrids had been found to be perfectly hardy. Allen's Hybrid was a delicate sort, not suitable for every locality. After the meeting had adjourned and most of the members had started homewards, Mr. Arnold of Paris, arrived with some samples of his new hybrids. They were carefully examined by those who yet remained, pronounced to be grapes of great merit, without pulpiness, sufficiently sweet, and of superior flavor.—Mr. Arnold said they were, perfectly hardy, and Mr. Beadle said he had no doubt they were, for when he visited Mr. Arnold in September, the wood was then perfectly ripened nearly to the extremity of the branches. The next meeting will be held in Hamilton.—*St. Catharines Journal.*

The Press of Madrid has for some time past been publishing articles against bull-fighting, and in their attacks on the sport have given some curious statistics. The number of bull-fights has of late considerably increased, and it is calculated that in a single year (1861) as many as 1,990 of those animals were thus sacrificed. In the same year 3,000 horses worth 600,000 reals are supposed to have perished. The losses in 1866 were still greater, and consisted of 2,3775 bulls and 3,561 horses, representing a total value of about 7,800,000 reals.

BRONCHITIS, OR CHRONIC SORE THROAT.—It is attended with irritation of the bronchial tubes, which convey the air we breathe into the lungs. This irritation produces sore throat, hoarseness, coughing, and sometimes spitting of matter streaked with blood. If it is neglected it will extend down to the lungs, and settle into confirmed Consumption. Allen's Lung Balsam will be found a most valuable remedy for curing this disease, and prevent its running into Consumption.

BISHOPS WHO DID NOT SIGN THE PAN-ANGLICAN ADDRESS.—An English paper says only one prelate of the Northern provinces has signed the address to the faithful, which is the result of the Pan-Anglican Synod at Lambeth—the Bishop of Chester. The others—namely, the Archbishop of York, the Bishop of Durham, the Bishop of Carlisle, the Bishop of Manchester, and the Bishop of Ripon—have declined to sign. The Bishops of the Southern province who have not expressed their concurrence in it are the Bishop of Bath and Wells, the Bishop of Chichester, the Bishop of Exeter, the Bishop of Hereford, and the Bishop of Peterborough. The Irish Bishops who have not signed it are those of Osory and Ferns, Cashel, Downs and Connor, Killaloe, Cork and Tuam. The Bishopric of Derry is vacant. Of the Scottish Bishops two have not signed, namely:—The Bishop of Edinburg and the Bishop of Brechin; the former, probably, having been unable to attend in consequence of his great age.

Read what the editor of the Cincinnati *Times* says of Allen's Lung Balsam.

A Remarkable Cure.—Mr. Samuel Lewis, one of the old Pioneers of Cincinnati, was very long, apparently, in the last stages of Consumption, and given up by physicians, when some kind friend recommended him to use Allen's Lung Balsam. He did so, and immediately commenced recovering, and is now able to attend to business. He says: "In truth, I may say it has saved my life." Mr. Lewis is well known in Cincinnati, and the fullest confidence may be placed in his statements. It is due, therefore, to the community, especially those suffering under this terrible malady, that the fullest publicity be given to such marvelous cures, that other sufferers may avail themselves of the remedy. With pleasure, therefore, we refer to this cure.

From our knowledge of the merits of this excellent Balsam, and what we hear of its merits, we think it should be at once used by all persons suffering from a cough, or any pulmonary complaint. We hear that many far advanced in consumption, have been cured by its use.

—There is an envelope manufactory in Philadelphia which has 90 cutting machines in constant work, 11 printing presses, and 200 founts of type, and by working day and night, they can make 1,400,000 envelopes per diem.

STR. ROCHESTER.—The Str. *Rochester* leaves Flint's wharf to-morrow afternoon, at 1 o'clock for Oswego, touching at Mill Point and Picton.

Daily Intelligencer.

BELLEVILLE, MONDAY, NOV. 4.

☞SEE FOURTH PAGE.

ONTARIO LEGISLATURE.—An extra of the Canada *Gazette* announces the meeting of the Legislature of Ontario on Friday, the thirteenth of December, at Toronto.

GULF FISHERIES.—The Government schooner *Canadienne* arrived in Quebec on Monday from cruising in the gulf. She reports that the catch at the fisheries is middling, but hopes were entertained that it would be better for the next three weeks.

PARLIAMENT.—Parliament opens to-morrow. The *Leader's* Ottawa correspondent telegraphs that there will be only a formal opening on Wednesday. On Thursday the speech from the Throne will be delivered. It is expected that both Houses will then adjourn till Monday.

NEW CHURCH AT MILL POINT.—The Napanee *Express* says: "We are happy to learn that steps have been taken for the erection of a union Church at the above place, and that an efficient committee has been appointed to make the necessary arrangements and obtain subscriptions for the same. We wish them every success."

CANADIAN SECURITIES.—The last number of the Canadian *News*, (London) dated 16th Oct., says:—"Colonial Government bonds have suffered least of any securities. Business has been done in British American stocks and shares at the following prices:—Government Bonds—Canada Sixes, Jan. and July, '77—'84, 102, 101¾; 102, 101¾, ¾, 102, 101¾, 102, 101¾, 102, 101¾; do. Feb. and Aug., 99¾, 100¼; do. March and Sept. 100¾; do. Fives, Jan. and July 89, 88¾, ¾, ½, ¼, ⅝, ¾, ½, ¼, ¾, ⅝; New Brunswick Sixes, Jan. and July, 102, 101½."

WHOLESALE EMIGRATION.—The Quebec *Chronicle* says: "During the past week upwards of 150 individuals left Restigouche for various parts of the States, but chiefly for California. Some have left large farms and comfortable homes." The *Morning Journal* says: "It seems as if some infatuation had seized the people for the moment. Not one has been compelled to leave for want of employment nor for want of plenty to sustain nature. The *Freeman* adds: "The emigration, unfortunately, is not from Restigouche alone. Northumberland is fast losing its population, and St. John has lost more than the whole population of Restigouche within the last two years."

THE HUFFMAN HOUSE.—The Madoc *Mercury* contains a lengthy account of the opening of this new hotel in Madoc. The building has just been completed by Messrs Jones & Jones, and occupies the site between the Grist Mill and the Anstee Block. The *Mercury* says:—"We have seen parlours and sitting-rooms more splendidly, but not more appropriately furnished, in some of the first-class American hotels; while in some of the most noted we have seen bedrooms far inferior in point of furniture and general appearance of comfort to those of the Huffman House." Huffman & Son, the proprietors, are from Peterboro', and have had considerable experience in their business.

MURDEROUS ASSAULT.—On the evening of Thursday, the 31st ult., a respectable young man, a resident of this town, named Joseph Reeves, nephew of Mr. Reeves, harness maker, had a most miraculous escape from assassination. While walking, in company with a friend, towards the Railway Station, about 7 o'clock, he was overtaken by a man, who asked him, "Is your name Joe Reeves?" Upon being told it was, the other replied, "Then you're the chap I want; I'll shoot you," and suiting the action to the word, discharged a revolver at him, the ball taking effect upon the back of his neck and inflicting a slight wound. Fortunately, just as the intended assassin presented the weapon, Reeves stooped, otherwise "saltpetre wouldn't have saved his bacon." Reeves recognized his assailant as being one Ray, who some few years ago resided in this town, but now lives adjacent to Cobourg or Port Hope, and it appears that the motive which prompted him to wreak his vengeance on Reeves was to satisfy an old grudge he bore against him. The police immediately went in pursuit of Ray; but, so far, he has managed to elude their vigilance.

—A strange cargo has arrived at Liverpool from Hamburg. It consists of the largest elephant in Europe, weighing ten tons; two dromedaries, a gorilla, a cab lion, and other zoological specimens. The whole lot is valued at £7,000.

Resignation of Mr. Galt.

The Ottawa correspondent of the *Leader* telegraphs that Hon. Mr. Galt has resigned for "private reasons," and that he will continue to suppport the Government.—The *Leader* says: "The event is much to be regretted; as there is probably no man in the Dominion so capable of grappling with the difficult financial questions which must soon come before Parliament. It is difficult to persuade ourselves that the reasons for Mr. Galt's resignation were wholly of a private nature. But we need not attempt to anticipate the explanations which must so soon be made in Parliament."

Land Tax Sales.

The Treasurer's sale of land for taxes in the County of Hastings, commenced this morning at the Court House, at 10 o'clock. There was a large attendance, mostly residents of the County. Two or three gentlemen from abroad made considerable purchases, chiefly in Marmora. The bidding was kept up with a good deal of spirit, and all the lands in arrears for taxes in Marmora, Madoc, Rawdon, Huntingdon, Hungerford, Elzevir, and in Sidney, with the exception of a College Lot, were disposed of at fair prices. In one instance, four acres of a full lot realized the amount of taxes. In other cases a fourth, half, three-fourths, and in a few instances the whole of the land offered, was knocked down for the taxes. The sale, on the whole, is considered very satisfactory. The remainder of the property advertised, comprising the village lots in Queensboro, will be offered for sale to-morrow, commencing at 10 o'clock a. m.

A Local Bank.

The letter of Hon. BILLA FLINT, on the subject of Banking, has been extensively copied by the Press of the Dominion, and has excited considerable comment. With scarcely an exception, those papers which have referred to the letter, have approved generally of the views advanced by Mr. Flint, and heartily commend the idea of establishing a Local Bank. The Quebec *Chronicle* says the plan set forth by Mr. Flint, "contains much to recommend it."

The Kingston *News* says, "the case of Belleville has its parellel in many other towns throughout Canada; and we commend the example of energetic determination there shown to deal with a pressing question of practical importance. There is no reason why banks of small capital should not be as useful and profitable as large banks. By the system of making one local bank the agent of another bank, they offer equal facilities for the transaction of business with distant points as are offered by branch agencies of larger institutions. They are capable of being managed economically, and are altogether worthy of trial wherever the requisite banking facilities do not already exist."

The Ottawa *Citizen* says "there is much force in the reasoning of the *Intelligencer*. A local bank, sustained by local means, and confining its operations to its own near neighborhood, would probably avoid those hazardous speculations in real estate and Railway finance which crippled the resources of the Bank of Upper Canada and the Commercial Bank. At all events, the actions of a Local Bank's Directors would be under the direct observation of the stockholders, and this fact would practically operate in favor of a cautious policy. The dividend sheets of a Local Bank might not look quite so well as those of Banks engaged in larger fields, but then the majority of stockholders would probably be satisfied to know that a moderate dividend was a good indication of a safe and legitimate business."

The Madoc *Mercury* says: "We have long been of the opinion that there is capital enough in the County to start such a bank, but whenever we have, in conversation, urged such a scheme, the reply has invariably been, that the difficulty would be to get a management in which the public would have full confidence. We believe that the Local Banks, by supplying sufficient currency, were the chief cause of the rapid development of material prosperity in the United States before the civil war broke out, and that the same means would lead to a similar result here; and we shall therefore watch with interest, to see how Mr. Flint's proposition is received. Such a bank, supported by, and enjoying the confidence of the people, and soundly conducted, could be in no danger of being crushed out by the hostility of any other bank, however wealthy and powerful."

Maritime Provinces.

A meeting of gentlemen favorable to Confederation took place at St. Johns, Newfoundland, on the 4th October. Among other things, it was decided that weekly meetings should be held for the purpose of discussing the subject and disseminating accurate information. The question of Confederation has now been long enough before that Province to enable the people to come to a final decision on its merits, and judging from the tone of the press generally, the thinking men of the colony are awakening to the precariousness of their political situation, and are beginning to realize the benefits which must accrue to the country under Confederation. To give an idea of the views entertained respecting the question in intelligent circles, we give the following editorial from the St. John's *Courier*, of a late date: "The conclusion to which we come will decide the weal or woe of Newfoundland. The experience of the past, and the prospect of the future, alike point to a change; and it remains for us to say whether that change will be for the better or the worse. Matters have long been in our own hands; and no one can deny that we are sinking deeper and deeper in the mud without a helping hand to draw us out, and without the capability of self-exertion. Our only resource is failing us gradually. Mismanagement has caused foreign markets to be closed against our fish until even the merchant is succumbing, and the fisherman, with his other difficulties, is feeling the reaction in this. The herring fishery, a mine of wealth in other countries, is almost totally neglected by us; and what else have we to look to? There is money in the country, but there is no enterprise.—We want, then, to be brought into closer communication with the outer world. We want an industrious middle class. We are isolated, and laboring under all the evils incident to such a state. We have no middle class, and apparently not the materials to form one. The best portion of the population are being drawn from us without any means of replacing them, while the infirm and incapable are left a burden on the country. To us it passes comprehension that any one can be blind to the real state of the country, or fail to see that Confederation is the only means of access to an improved condition. That union with the other B. N. A. Provinces is the only hope of Newfoundland is our honest conviction; and when the time has arrived for a settlement of the question, it is earnestly to be hoped that our people will be guided to the same conclusion.

The St. Johns (New Brunswick) papers generally, are advocating the abolition of newspaper postage, and the reduction of postage on letters.

The St. John (N. B.) *Telegraph* says:—There is an impression generally prevalent that the present Local Government will not live many months, or indeed many days after the assembling of the Legislature.

The St. John (N. B.) *Globe* says the crowd of office seekers in that province is very large. It is well known that on late visits to St. John, Messrs. Tilley and Mitchell were followed from place to place, and button-holed and bored until they were almost worn out, and in his two last visits to St. John, Mr. Tilley made his stay as short as possible, and kept himself concealed as well as he could from public gaze.

The Halifax *Recorder* gives the following melancholy tidings from the sea: Daniel Latimer reported at the Police Station last evening that a small piece of wood, in the shape of a boat, was washed ashore at Point Pleasant, with a memorandum in writing, that the brig *Half Moon* was lost off Cape Sable on the 30th September. It said, "God have mercy on our souls," and hoping that it would be picked up.

Disasters to Shipping.

The following disasters to shipping by the gale on Sunday are reported:

"KINGSTON, Nov. 4—The schooner *Mountaineer*, from Toledo, loaded with grain for Ogdensburg, was driven ashore last night on Cedar Island, a few miles below this city.—The cargo will probably prove a total loss.

"PICTON, Nov. 4.—The schooner *Maple Leaf* dragged her anchors and went ashore in South Bay last night."

"PORT COLBORNE, Nov. 4.—The brig *Supply* went ashore here early this morning during the gale. She is loaded with wheat from Chicago for Port Colborne elevator. The cargo will have to be lighted off, as the vessel is hard on the rock reef just east of the piers."

"DUNKIRK, N. Y., Nov. 4.—The propeller *Acme*, belonging to the Western Transportation Company, foundered and sunk 20 miles off Dunkirk this morning. She had a full cargo. No lives lost."

The schooner *Admiral*, with a cargo of 200,000 feet of lumber, bound for Oswego, was driven on the beach at Toronto and went to pieces. One of the hands, named Kelly, was lost.

—Snow fell in Kingston on Sunday.

—In the late gale off Labrador, twenty-seven vessels and thirty-seven souls were lost.

—The gale of Sunday night did considerable damage to shipping.

—The last sell in Perth is to disguise a heifer with antlers, a blanket, and a chignon, and exhibit her as a moose.

—The Buffalo *Express* says Sunday is now actually the important market day of the week in the cattle yards of that city.

—This year's sorghum crop in the United States, compared with the previous ones, is a failure.

—A statistical report shows that every married couple may rejoice in the prospect of having 4,194,300 descendants in 500 years.

—A heavy thunder storm visited Montreal on Saturday. One of the towers of the French Cathedral was struck by lightning, and somewhat damaged.

Great Britain will have another little war with savages, for the Foudheli Arabs have long troubled the British settlement at Aden, and it is now found necessary to force them to deliver up a son of the chief as a hostage. To compel this concession a small force of European and native troops will be formed, and despatched against the Foudheli Arabs from Bombay, whence a similar expedition started to chastise them less than two years ago.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Nov. 4.—The *Moniteur* of this morning contains an authoritative article, asserting that on the 1st of November, M. de Moustier, despatched a note to the French *Charge D'Affairs*, at Florence, in which he said that the Italian advance into the Papal territory was a violation of law and treaty. The Emperor Napoleon, M. Moustier continues, will not approve it by word or silence, and asks an explanation of Italy.

There are only two French regiments in Rome. Large bodies of troops are continually leaving Toulon for Civita Vecchia. The Papal forces will assume the offensive immediately.

LONDON, Nov. 4, 3 p. m.—Late despatches from Florence state that the vote of the towns in the Province of Rome was unanimously for Italy.

It is now reported in Florence that the Emperor Napoleon requires King Victor Emmanuel to expel Garibaldi, and if that is done Napoleon will retire.

BERLIN, Nov. 4, noon.—Count Von Bismarck says officially, to-day, that the Government of Prussia is neutral at present on the Roman question.

LONDON, Nov. 4.—Despatches by the Red Sea cable announces that the war vessels and transports with troops on board, forming the first squadron of the Abyssinian expedition have left Aden, at the mouth of the Red Sea, for the coast of Abyssinia and Ishame Pashe, Viceroy of Egypt, has offered his assistance to England and has despatched a corps of native troops to Abyssinia, to join the British expedition.

ST. PETERSBURG, Nov. 4.—The *Journal De St. Petersburg* prints an official copy of a joint note from Russia, France, Prussia and Italy, to the Sultan of Turkey, on the Eastern question. After rehearsing the diplomatic representation which have from time to time been made to the Sublime Porte by the European powers jointly or singly, are in favour of granting the demands of the Cretans, and for a general amelioration of the condition of Christians in the Ottoman empire, all of which seem to have failed to make any impression. The note declares that the great powers will hold the Sultan answerable for rejecting their advice, and responsible for whatever consequences may follow.

MADRID, Nov. 4.—A royal proclamation has been issued permitting the return of political exiles to Spain, and remitting the penalties pronounced against them.

COPENHAGEN, Nov. 4.—The Island of St. Croix is not included in the reported sale of the Danish possessions in the West Indies to the United States.

LIVERPOOL, Nov. 4.—The alarm about the Fenians in this city does not subside. Troops have been sent here, and others are arriving. Sir Alfred Horsford, who was so active and efficient in suppressing the outbreak in the south of Ireland, is in command of the military forces.

MANCHESTER, Nov. 4.—It is regarded as probable that all the prisoners who have been tried and condemned to death before the Special Commission here, will have their sentences commuted, except the three most prominent ones, Allen, Gould and Larkin, who are shown by the evidence to be the actual murderers of policeman Brett.

DUBLIN, Nov. 4.—The *Nation* and the *Irishman* newspaper declare that the action of the Special Commission in refusing to give General Warren a mixed jury is a *casus belli*. When arraigned for trial to-day before the Commission, General Farlolla entered the plea of guilty. The case of General Nagle has been postponed. The prisoners Castello and Halpine are to day on trial.

LONDON, Nov. 4, evening—Edward James, Q. C., member of Parliament for Manchester, died to-day.

Second Despatch.

PARIS, Nov. 4, eve.—The following intelligence has been received from Rome:

At six o'clock this morning the Papal troops, supported by the French forces, attacked Garibaldi at Monte Rotundo and defeated him. Some say Garibaldi is a prisoner, and some say he is killed. About half an hour after the attack commenced, Garibaldi, finding his retreat cut off, forced his way to the town of Monte Rotundo, where he was reinforced by some Italian troops; but the French coming to the assistance of the Pontifical soldiers, he was beaten.

From another source it is stated that Garibaldi was attacked and defeated on Sunday. He retreated and surrendered.

PARIS, Nov. 4, midnight.—General La Marmora, who was sent to Paris by the King of Italy on a mission, the nature of which did not transpire, has returned to Florence, having failed in accomplishing the object for which he was despatched hither.

The ultimatum of the Emperor Napoleon was presented by the French Charge d'Affairs at Florence to the Italian Government on Sunday, and an immediate reply demanded.

LONDON, Nov. 4, midnight.—Riots have taken place at several points in Paris, but they have been suppressed.

American Despatches.

PROVIDENCE, Nov. 4.—The match between "Lucy" and "Lady Thorne" was won by the latter. Best time 2:28, which was made by "Lucy."

HAVANA, Nov. 4.—During the hurricane of the 29th, the ship "Nuova Apollo" and four coasting lighters were sunk in the bay. Three ships, names, unknown, were dismantled in the gale.

—The United States Court at Detroit, Mich., has collected $40,000 in fines during the past year, chiefly from smugglers.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers. 159-1m

PAIN KILLER CURES SORE THROAT.

A Favorite Medicine with all classes, Is DAVIS' PAIN KILLER.

LECTURE!

BY THE

REV. JOSEPH WILD, M. A.

On FRIDAY Evening, Nov. 8th,

IN

NEILSON'S HALL.

SUBJECT, - - - BABEL

Chair taken at 7:30 o'clock, by H. CORBY, Esq., Mayor.

ADMISSION, - - 12½ Cents.

Proceeds given to the E. M. Ladies Aid Society.

☞ The public are cordially invited.

P. S.—This Lecture will treat of the dispersion of the Races, will show who the Indians are, and where they came from, and that they were not the first inhabitants of this continent. The Time, Place, and Origin of Free Masonry, and other interesting points.

MRS. LYDIA McKAY, PRES.
MRS. MARY J. CARMAN, SEC.
Belleville, Nov. 1st, 1867. 138td

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at **$4 00** per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in Upper Canada, outside of the Toronto Press, advertisers who wish to reach the ear of the West should take advantage of its columns. The *Globe* says of the ADVERTISER:—

"This excellent newspaper now appears in new type, and is one of the neatest papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation—larger than any other journal published in this neighborhood. It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in Upper Canada. Terms, **$1 25** per annum, in advance. The balance of the present year GRATIS! Splendid prizes to getters-up of clubs! Specimen copies and circulars sent on application. Send for Specimens! All letters should be addressed:

JOHN CAMERON.

☞ All claims promptly settled.

OFFICE—In Charters & Webster's Drug Store.
Belleville, June 21, 1867. 48D 19wly

Some of the Sights of Paris.

A correspondent writes:—"There is an exhibition here, which, if not an agreeable one, is at all events very wonderful. A tribe of twenty-six persons, male and female, from Algeria, called the Aissa Houas, are to be seen at the Athletic Ayrena in the Rue Lapelletier, who go through some strange performances, mystic dances, eating fire and swallowing serpents. The tantams beat monotonously during a curious ballet. One of those young Arabs puts a large piece of burning charcoal in his mouth and crushes it with his teeth. A piece which fell down burnt a hole in the floor, so there is no deception. A large piece of window-glass was given to another, which crumbled in his teeth, and was eaten with voracity. The teeth of the fire-eaters are burnt, and the gums calcined. While they eat the fire they make horrible contortions. A box of adders was brought in. An Arab selected one, and while the irritated reptile put out its sting he first bit off its head and then ate it all. You could hear the noise of the eater's teeth, and the blood ran upon his lips. The music of the tanmans and kettledrums accompanied this epicurean feast. There are other similar things to be seen, but this perhaps is enough of them. The name of Aissa Houha, according to *The Dictionary of the Nineteenth Century*, is given in Algeria to men who eat serpents and pass for sorcerers; they also form a Mussulman religious order, founded by Sidi Aissa."

Englishmen and Scotchmen.

An intelligent English writer discourses upon some of the leading characteristics of the Scottish and English minds:

"In England, religion and philosophy are feeling; in Scotland, everything is argument. If an angel descended in London, he would be asked to speak a few gracious words of celestial good will. In Edinburgh, he would be called upon to mend some broken evidence, or reconcile some troublesome contradiction. Yet this generalization is not without exceptions.—For sinewy thought, which dares the judgment and a spirit of disputation which never abated, who is there to compare with Whately, lately English Archbishop of Dublin. Whately never looked at a man but to see if there was an argument in him; but Dr. Chalmers of Scotland had more sweetness and majesty. Whately would seize an argument like a lion, and wave his royal mane in the air as he tore it to pieces; but Chalmers sat, as it were, upon a throne, and judged it; and he had a more conscientious fairness in treating opponents, and make himself personally master of the case, as Whately never did, or could. There is no doubt that the Scotch are cautious to a degree that implies want of self-respect. Crossing the Tweed you pass into a double path. The air is cooler, and the conversational atmosphere is frigid. Talk is a calculation. The Scotchman fences with words. But all this reserve disappears when once he gets into argument. None are braver than the Scotch on this ground. The whole race might be descended from Aristotle. A Scotchman's blood seems to make up a serum and syllogisms. If you pick him, there trickles out an argument."

Miscellaneous Items.

It is stated that the cause of the rupture between the King of Bavaria and the Princess Sophia, was, that the two august *fiances* came to the conviction "that there did not exist between them the sincere inclination, and that entire harmony of heart which alone can guarantee happiness in marriage."

A Ritualist paper, the *Church News*, says in its "Notices to Correspondents:" Cranmer was not only an apostate, traitor, perjurer, robber and persecutor,—so far he merely shared with Ridley, Jewell, Bale, &c.,—but he was a coward and a time server also, and therefore ranks even lower than they.

It has been determined to erect a statute to Mr. Peabody in Liverpool, and over 3,000 pounds have been subscribed. The committee decided by an unanimous vote to extend the work to Mr. Story. Mr. Peabody will give sittings in Rome, and it is expected that the statute which is to be in bronze will be ready within eighteen months.

The price of grain in France continues to advance. The conclusion is that the harvest has been less favorable than was at first supposed. On account of the dearness of wheat, and the consequent distress among the poor, the municipal authorities of several towns have taken on themselves to fix the rate at which bakers shall sell bread.

A rural clergyman in the neighborhood of Ilminster issued a kind of edict to his parishioners lately, ordering them to continue kneeling after each service while he left the church for the vestry. Many of them declined to do so, and among others a young man whose seat happened to lie in the clergyman's way to the vestry. The reverend gentleman convinced him of the eror of his way by smacking his face—a Christian act of chastisement which is to be investigated at the next petty sessions in the district.

The British Conservatives are becoming active in organizing the working men to whom they have extended the suffrage. On the 30th there is to be a Conservative banquet in York with a thousand guests, worthy workingmen and farmers; but it will not be like the Radical banquets, exclusively made up of the working classes. The one hundred and twenty stewards will be noblemen and gentlemen, and there will be no less than fifty members of Parliament. The object of the Conservatives is not to gather parties exclusively composed of workingmen, but to unite all classes in a national party which will represent every social interest. A meeting of one class, denouncing other classes, is felt to be a dangerous experiment.

India & China Tea Company.

HOME DEPOTS---London and Liverpool.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK,
MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Marian,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PHŒBE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued MODEL COTTAGES.—The only magazine in this country that gives those designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music is engraved expressly for it appearance.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 50
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address
L. A. GODEY,

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 31 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3D1t-tf Assistant Commissioner of Customs.

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise, Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, NOVEMBER 6, 1867. No. 160.

Self-Devotion at the Recent Great Fire in Saxony.

A fearful conflagration has destroyed more than 300 houses of the small town of Youngorstard, in Saxony. Two remarkable episodes are related in reference to this fire. On the top of the church tower, in a small room, lived a man with his wife and two children, a boy of twelve and a girl of ten His business was to cry out the hours, to ring the bells for marriages, baptisms, and burials, and to sound the alarm in case of his observing any fire. On the 10th of August he was at his post, with his wife and daughter, when at about nine o'clock in the morning he observed at the end of the town, a thick and ominous-looking cloud of smoke rising from a barn adjoining a small house. The eyes of the whole family were at once turned to this spot.—The bell ringer immediately sounded the alarm, and the fire, stimulated by the wind, and finding an easy prey in houses covered with shingles or thatch, spread with such alarming rapidity that in less than half an hour, twenty houses were destroyed. At this moment the son of the bell-ringer arrived panting with haste, having run home from school like his schoolfellows.—The father, uneasy at the rapid progress of the flames, and thinking of saving his little property, gave the bellrope to his son, and with the help of the mother hastened to put together his modest amount of moveables and carry them to a place of safety. Meantime the fire had reached the houses surrounding the church, and the flames began to lick the sides of the church and even of the tower. The two children saw their danger, their glances roved with terror over a sea of flame and smoke, but they felt a consciousness of duty; they remained at the post which had been entrusted to them. They rang, and rang on. "If men," said they, "do not hear, Heaven will." Suddenly the ringer and his wife returned to the gate of the tower; they tried to enter, but were forced to turn back—the tower, the stairs, the roof, were on fire. They screamed and wrung their hands, when suddenly the tocsin ceased to sound. A fearful crash was heard, and the tower fell, crushing the four victims. The second episode was not less interesting.—An idiot, who was watching languidly the progress of the flames, suddenly heard the cries of a mother who in her distress had forgotten in her blazing dwelling her daughter of three years of age. The flames were at the time bursting through the windows. The poor child was screaming with fright, but no one tried to save her. The idiot rushed into the house, and, seizing the child by her blazing garments, threw her from a window into her mother's arms, and fell a moment after, his scull being fractured by the fall of a blazing beam. His body could not afterwards be discovered, but the idiot at last died a hero.

Don't Be a Bachelor.

Young man, don't live a crusty old bachelor. It is not good for you. It will neither improve your morals, your health, nor your beauty. Marry as you can make it convenient, and you can shape your affairs to support a wife.

But when you marry don't fall in love with a face instead of a woman. Remember that common sense is a rare virtue, much better than silver and gold and fashion. Don't court and marry crinoline and money bags, simply because it is crinoline or gold in plenty; but look for sound practical sense in a woman first: that is the touchstone to try her qualities by. When you have all that, all else comes. Your wife that is to be, if she be full of common sense, will grow to your way of thinking and make you grow to hers. A woman who has womanly love in her heart will find ways to make your love turn towards her and grow as the years go over you both. And another thing needs to be heeded, and that is—a common sense woman is not to be found where fashion insists upon dragging young females into a whirl, where there is simply idle gossip and little brain.

Young man! don't stand looking after that young woman who has the distinguished air, the reputation of a flirt and a belle, and whose father has heaps of cash; for it is possible that while you are looking and straining your eyes in that direction, you may be turning your back upon some unobtrusive little damsel, whom nature has cut out for your other half, and who may be just that pleasant faced, placid tempered, lovely little creature, who will think enough of you to go with you to the end of the world, and stay by and comfort you when you get grey-haired and fidgety.

Marry — young gentlemen — and keep yourselves out of scrapes. Have something to live for. A man alone in the world isn't more than half a man, and the world wants entire men. So mend yourselves and be happy, and you shall have reason to say it was a good thing you resolved to marry, and refused to be a solitary, beer drinking, pipe smoking bachelor—if you succeed as well in your efforts as he who, once a man like you, is now simply the old, contented and comfortable.

Richelieu Company!
Royal Mail Through Line
between Montreal and Quebec.
ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.
This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

Office Richelieu Company, 6th May, 1867. 27D6m.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to Ten per Cent. of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

BELLEVILLE, WEDNESDAY, NOV. 6.

☞SEE FOURTH PAGE.

CATACOMBS OF ROME.—Prof. Delauney will deliver a Lecture in the Belleville College this evening, on the "Catacombs of Rome," illustrated with diagrams.

COMMERCIAL BILLS.—To-day brokers are paying 85 to 87½ in bills for Commercial Bank bills, and 90 in silver. In Montreal they are quoted at 90 to 91. In London 87; at Toronto 85 to 87.

LAND TAX SALE.—The remaining lands comprising the lots in the Village of Queensboro', were sold this morning for watever they would bring. A large number went at the ridiculously low figure of 35 cents, the highest bringing $6 50. The mill reserve was sold $12 00.

U. S. ELECTIONS.—The Republicans have carried Massachusetts by a large majority, but there are some doubts about New York. The Democratic majority in the City was 59,818, and it was thought that the Republican majorities in the Counties would not overcome this majority. New Jersey has gone Democratic.

A SENSIBLE MINISTER.—The Guelph *Advertiser* says: "The pastor of our Wesleyan Church, on Sunday morning gave notice that hereafter he would not make public announcements of tea meetings, lectures, etc., in connection with the town churches. The Press afforded ample means for that publicity, without resorting to such a distasteful and objectionable course."

APPOINTMENTS.—The following appointments were gazetted yesterday: John Fennings Taylor, the elder, Esq., to be Clerk of the Senate of Canada; Rene Kembor, Esq., to be Gentleman Usher of the Black Rod; Robert Lemoine and Fennings Taylor, Esq., to be Masters in Chancery; Wm. Burns Lindsay, Esq., to be Clerk of the House of Commons of Canada; Donald Wm. McDonnell to be sergeant-at-arms of the House of Commons of Canada.

SHIPPING DISASTERS.—In addition to the shipping disasters reported, we learn that the *Mayflower*, of Port Dover, was driven ashore about ten miles below this port. She was loaded with rye, and bound for Oswego. She has since been got off. The *Mary Ann*, of Belleville, was driven ashore on Telegraph Island, but was got off in a leaky condition, and it is thought she will have to lay up for the season. The *Florence Howard* was driven on a bar a short distance above Belleville, but succeeded in getting off without sustaining much damage.

FUNERAL OF BISHOP STRACHAN.—The funeral of the late Bishop Strachan, which took place yesterday, was the most imposing and impressive service that ever took place in Canada. Business was generally suspended, the public schools were closed, several shops were draped with mourning, the bells in the Cathedral, which were muffled, commenced pealing a little before midnight on Monday, and continued to peal a mourning requiem till the body was committed to its last resting place. The funeral procession was over two miles in length.

MAGNESIUM.—Three years ago, all the chemists who had obtained magnesium at all, had not obtained an ounce among them. One year ago, its price was $560 in gold per pound, and now the magnesium wire used by Prof. De Launay is worth $44 per pound in Boston. It produces the most brilliant artificial light known. The Mammoth Cave of Kentucky and the Catacombs are now to be photographed by means of this magnesium. The light produced is of the purest white, soft and diffusive, does not dazzle or pain the eye, gives off no odor nor deleterious vapor, nor is it explosive. We understand that Prof. DeLaunay will visit Belleville shortly and give an exhibition of this wonderful light.

—The Halifax Common Council, by a vote of eight to six, refused to present an Address to General Williams on the eve of his departure. It was the first time such an Address was refused.

—The Brooklyn *Eagle* says of the regular Democratic ticket that "there are men on it who have done the State some service in the penitentiary, and there are others who are believed to have escaped their deserts in escaping that institution."

—The men of H. M. Frigate *Aurora*, lately on service in gun-boats on the upper lakes, returned to Quebec on Saturday morning, and joined their ship, now lying in that harbor.—The *Aurora* is under orders to sail for England to-morrow, Wednesday.

The Bank Meeting.

A public meeting of the business men of Belleville was held yesterday afternoon in Neilson's Hall, to take preliminary steps towards establishing a Local Bank. There was a very good attendance, the principal business firms being represented, and the proposition to establish a Local Bank met with the hearty approbation of all present. His Worship the Mayor was called to the chair, and R. Tannahill, Esq., chosen secretary. The Hon. Billa Flint briefly explained the object for which the meeting had been called, and gave an account of the course he had taken when in Montreal a few days ago, as one of the deputation appointed to secure an agency of some other Bank. He had laid the matter before the Managers of some of the Banks, but in view of the crushing process pursued by the Montreal Bank, there was a delicacy on the part of Managers of other Banks to do anything until matters had quieted down. He had felt so impressed with the necessity and feasibility of establishing a Local Bank, and was so well satisfied that they had the means within themselves to start a Bank upon a secure basis, that he had written a couple of letters in relation thereto, and he was gratified to know that his proposition had been favorably received. In answer to Mr. Kelso, as to what action had been taken by the deputation appointed to obtain an Agency of some other Bank, Mr. Read and Mr. Corby, two members of that deputation, briefly explained that correspondence had been immediately thereafter opened with Mr. Flint, who was then in Montreal, and from him they had heard what steps he had taken. After he returned the run on the Royal Canadian had commenced, and it was felt that in the excited state of the monetary affairs, there was little use of attempting to get an agency of any Bank established here. There was also some talk of the Commercial Bank resuming, and such was the sympathy felt for that Bank, and the confidence they had in its able Manager, Mr Thomson, that they thought best to wait until the question of resumption had been decided. Mr. Read felt confident there was sufficient means in the County to establish a Bank, and all that was necessary was to put their shoulders to the wheel. When it is known that the Commercial Bank in Belleville had done its business upon its deposits, and had made $15,000 a year profit, it showed conclusively they had the means to establish a Bank. John Bell, Esq., had no fault to find with the Montreal Bank; he was its Solicitor, and it was not with any hostility to that Bank that he was advocating the establishment of a Local Bank. Indeed, he felt satisfied such a scheme would not only not meet with any opposition from Mr. King, but that he would extend to it his sympathy and support. He, Mr. Bell, felt that a Local Bank was needed, and he had no doubt it would not only be a safe investment, but a paying investment, and so far as he was able, he was prepared to take stock in it. The opinion of the meeting was unanimous in favor of the scheme, and there is no doubt if it be prosecuted with energy, we shall soon see a Bank in successful operation.

The following are the resolutions adopted at the meeting:

Moved by THOS. WILLS, Esq., seconded by JAMES GLASS, Esq., That it is expedient to establish in this County a Local Bank.—Carried.

Moved by JOHN BELL, Esq., seconded by THOS. KELSO ESQ., That the members of the House of Commons for this County, and the Hon. BILLA FLINT, be requested to procure a charter for a Local Bank in this County, with a capital of two hundred and fifty thousand dollars, and, if possible, it should be arranged that the bank so proposed to be established shall issue the Government legal tender notes.—Carried.

Moved by the Hon. BILLA FLINT, seconded by DR. STEWART, That a Committee consisting of the following gentlemen be appointed to make such arrangements as may be deemed necessary to carry out the foregoing resolutions:—James Glass, E. W. Holton, Robt. Tannahill, Thos. Wills, A. F. Wood, Thos Kelso, J. C. Holden, K. Graham, Dr. Boulter, W. H. Austin, James Cummings, John Sutherland, Henry Corby, Wm. Judd, with power to add to their number.—Carried.

The committee is requested to meet in the Shire Hall, Belleville, on the afternoon of Monday, the 11th instant, at 3 o'clock.

The Stock Market.

The Montreal *Gazette's* commercial article of yesterday says:

The stock market shows a decided improvement, and nearly the entire list has advanced. Bank of Montreal was sold to-day at 133¾, with no sellers now under 133. It is understood that the profits of late have again been very large, amounting to, for the Montreal Branch alone, over four hundred thousand dollars. It is said that the profits in exchange, in New York, have also been large, and will enable the institution to again add considerably to its rest.

Ontario Bank has rapidly advanced. It was sold last week by some frightened investor, at 95, while to-day large sales have been made at 101, at which figure more could be placed.

A further advance has also taken place in Bank of Toronto. Sales to-day were effected at 115 and the market closed at 116 to 117.

Royal Canadian Bank has been the most buoyant and fluctuating, being at one time pressed for sale at 85, and to-day it was not procurable under par.

City Passenger Railroad, is firm; the company is doing well and the profits have increased. Merchants Bank dull—no buyers over 107. The rest of the stock market is firm.

The Foreign Exchanges are firm under a further advance in New York, sales to-day for cash having been made at 8⅝ and 9, and for discount 10⅝.

— Fernando Wood has publicly announced that he shall be the next Mayor of New York. He said that he did not want the place, but he had a duty to perform.

The 5th November.

The 262d anniversary of the frustration of the infamous Gunpowder Plot, was commemorated by the loyal Orangemen of this town, by a dinner at the Anglo-American Hotel. The dinner reflected great credit on Messrs. Holbrook and Palmer, the popular proprietors of the hotel, and was attended by about eighty members of the Orange institution.

Letters of apology and regret were read from Hon. Robert Read, Rev. S. Jones, Lieut-Col. Campbell, James Brown, Esq., M. P., Rev. James Preston, and others; also one from A. R. Dougall, Esq., regretting an unexpected call which took him out of town by the evening's train. Later in the evening the Hon. Robt. Read, *en route* for Ottawa, came into the room and remained until the cry of "all aboard" warned him that the buss was at the door to convey him to the railway station.

George D. Dickson, Esq., County Master of South Hastings, occupied the chair in the absence of M. Bowell, Esq., Grand Master of Central Canada, whose Parliamentary duties required his presence in Ottawa. On the right of the Chairman were Rev. John Grier, H. Corby, Esq., Mayor, and Rev. Joseph Wild; and on his left Rev. Wm. McLaren, K. Graham, Esq., M.L.A., Mr. W. A. Shepard, and A. Robertson, Esq. The Vice chairs were occupied by John G. Moore, Esq., and John T. McCreary, Esq. A blessing having been asked by Rev. Mr. Grier, and ample justice done to the edibles, the usual loyal toasts followed.

The CHAIRMAN in introducing the first toast of the evening, made some happy allusions to the principles upon which Orangeism is founded, and the close connection it had with the Protestant Religion; he might truthfully say that Religion and Loyalty were the key stones of Orangeism.

The toast was drank with enthusiasm and briefly acknowledged by Rev. J. GRIER, who, in the course of his remarks, said there was no place in the world where there is such genuine loyalty as in Canada, in fact, Canadians were far more loyal than Englishmen themselves.

Rev. WM. MCLAREN in speaking to the toast, referred in eloquent terms to the reign of Victoria. No Sovereign ever sat upon the throne of Britain who had received such hearty and loving homage as our beloved Queen, and although he was not prepared, probably, to go as far as Orangemen, if ever the throne should be occupied by a Roman Catholic, it was quite likely his loyalty would come down nearly to zero. When they looked back to the period when Guy Fawkes attempted to destroy the King, Lords, and Parliament, and see what England had come out of, they had reason to thank God for that deliverance. At the time of the Spanish Armada Expedition, you will recollect that Spain was the foremost nation in Europe. A little before that period, England had embraced the Protestant Religion, while Spain rejected it. What was the effect? Spain had gone down, down, down, until she had sunk so low among the nations of the earth, that none were found so base as to do her reverence, while England had advanced in civilization, arts, and sciences, and stands to day the foremost nation in the world.

Rev. JOSEPH WILD acknowledged the sentiment in a very happy manner. Whatever might have been his previous opinions of Orangeism, he could not be blind to the revelations of history, and reading Orangeism in the light of that history, he could not object to the Institution. He had been met with the objection that the Institution was not needed, but here again history compelled him to acknowledge what it had done to secure the civil and religious freedom we enjoy, and that was the best evidence of the value of the Order, and it should be cherished for what it had accomplished. The fact that through its instrumentality they were able to meet in peace and harmony to-night, when twenty years ago it was dangerous for an Orangeman to walk the streets alone at night—the fact that he could go to his home and take and read his Bible, none daring to molest or make him afraid, were evidences of the good the order had accomplished, and because it had done so much, it should be cherished.

The "Governor General" and "The Army, Navy, and Volunteers," were next given.

Captain WILLS responded to the latter toast, referring to the triumphs achieved by British prowess on sea and land from the time of Cromwell to the present period, and congratulating the Dominion of Canada upon having a well-organized army of Volunteers, who whenever called upon were willing to shed their last drop of blood to sustain British supremacy, and prove themselves worthy of their name and country.

The CHAIRMAN next gave "Our Order," making some suitable profatory remarks.

DR. JAMES responded in a brief speech, in which he reviewed the progress of the Order, the principles upon which it was founded, and the achievements it had made.

"The Earl of Enniskillen" and the Grand Lodge of Ireland" was next given and heartily received.

The toast of the "Hon. John H. Cameron, and the Grand Lodge of British America" was responded to in an eloquent and forcible speech from Dr. Potts, one of the Grand Officers. He paid a high compliment to the Grand Master, who with his able assistants had brought the Order out of chaos, and reduced it to a system.

"The Dominion of Canada" was acknowledged in an appropriate manner by Robert Read, Esq., M. P. and by K. Graham, Esq., M. L. A.

"The Mayor and Corporation," was responded to in a happy manner by Henry Corby, Esq.

The Vice Chair next gave "The Press," which was acknowledged by Mr. W. A. Shepard.

Dr. Potts responded to "The Ladies."

Several Volunteer toasts followed, and at about eleven o'clock, the company separated after singing the National Anthem.

—Clover, daisies, and buttercups are growing near Quebec.

From our Ottawa Correspondent.

OTTAWA, Nov. 5th, 1867.

The members are arriving from all parts of the Dominion, and quietly "locating" themselves in various parts of the city.—The feeling, generally, being in favor of private lodgings, though the Russell House, kept by Mr. Gouin, since its enlargement, is exceedingly comfortable, being airy and well kept.

There is much speculation as to the course which the Nova Scotian members will pursue. It has been rumored to-day that they hold a caucus to-night after the arrival of Mr. Howe, to decide upon the course which they shall pursue. Some say they intend to raise the question as to the legality and right they have to take their seats in the Commons of Canada. A proposition so foolish and absurd can scarcely be possible. If they had any doubt upon the subject the better way would have been to remain at home, and thus settle the point in accordance with their own ideas of right and wrong. I need scarcely tell you this is mere rumor, and as much reticence is displayed by them—keeping themselves almost exclusively to themselves—it is impossible to say what course they will pursue.

The resignation of Mr. Galt has been the topic of conversation all day, and various are the causes assigned, but the one most relied upon is, that by the failure of the Commercial Bank he lost heavily, and that more attention to his private affairs was absolutely necessary, while others attribute it to difficulties in the Cabinet. This step on the part of Mr. Galt is much regretted by a large number of the members, many fearing that we have few men to take his place at the present momentous period, when the monetary affairs of the province are engrossing much attention, but as he will give the ministry an outside support, there can be no doubt he will give them the benefit of his experience and talent.

The Ministry have made an unexpected and decidedly unpopular appointment in the person of Mr. Cauchon, who has been elevated to the Senate and made Speaker thereof. That Mr. Cauchon has talent, fitting him for any position in the Ministry, is conceded by all who know him, and it is equally certain that he lacks that suavity of manner, so essential in a chairman. The result is that I have not heard from a single person, whether of the Senate or the Commons, a word of approval, and the "old ladies" are putting up their backs in a feverish state of excitement, at the idea of having a man sent from the Commons to preside over them.

Nothing is yet known, positively, of the Government candidate for the Speakership. It is generally conceded, however, that Mr. Cockburn will be the man. The Hon. Mr. Grey, of New Brunswick, and the Hon. John Rose are freely spoken of, the latter being a great favorite, more particularly among the old members, and if he were selected it would give general satisfaction. From all that I can learn, the Hon. Mr. Cockburn will be the successor to the ex-member for South Hastings.

Members who are here have been busy to-day selecting seats, and making other arrangements, and those who are not here, have had their seats selected for them. In looking over the names nailed upon the seats, I find that no regard has been had to party, if such a thing exists at the present moment, old Conservatives and old Reformers are admirably intermixed. On the left of the Speaker, where it is supposed the opposition "most do congregate," I find the members for your County have found seats, while on the right, or what is supposed to be the ministerial side of the house, you will find Ross of Prince Edward, and so on *ad infinitum*. This will continue I doubt not, until new parties arise out of new questions that must be brought before the House in governing the new Dominion.

There was a slight fall of snow to-night and the weather to-day has been very cold.

QUINTE.

— MRS. Yelverton commences her readings at New York on Thursday.

— They have transplanted an elm in Chicago fifteen inches in diameter.

— The *attaches* of the N. Y. *Herald* are to be uniformed.

—A batteau was upset in the harbor at Quebec on the 4th inst., and three men of the *Wolverine* were drowned.

—Election disturbances took place in New York city yesterday, during which four men were killed.

— The London *Free Press* says the water in the river Thames has never been so low as it is now, within the memory of the "oldest inhabitant."

—The steamer *Bay of Quinte*, on her trip yesterday, reported a schooner aground on the bar between "The Brothers" and Amherst Island, name unknown.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 5.—Serious bread riots occurred in Exeter yesterday and to-day. Every meat and bread shop in the city has been sacked. At the time of the receipt of the last despatches incendiary fires were breaking out in different parts of the town. There was much excitement, and the authorities had petitioned the Government for troops to quell the disorder.

LIVERPOOL, Nov. 5.—The O'Kadus & Co., cotton merchants of this city, have stopped payment.

LONDON, Nov. 5.—Parliament has been called to re-assemble on the 19th of the present month.

GENOA, Nov. 5.—Garibaldi has arrived at Spezzla on board an Italian man-of-war, a prisoner in the hands of the Italian government.

VIENNA, Nov. 5, evening.—The Vienna *Debate*, a semi official journal of this city, states that Baron Von Beust, in a note says that the policy of the Emperor Napoleon and that of Francis Joseph, are same, namely that of peace.

BERLIN, Nov. 5.—It is thought here that the recent defeat of Garibaldi cancels the ultimatum of Napoleon.

LONDON, Nov. 5.—It is said that the Italians have repassed the frontier, also that the Emperor Napoleon has received Gen. Marmora, the Italian Embassador.

Second Despatch.

LONDON, Nov. 5, eve.—Despatches from Dublin state that arrests of supposed Fenians still continue. Gen. Nagle is to be tried at Sligo.

COREZZI, Papal States, Nov. 3, eve.—During the past few days Garibaldi concentrated his forces at Monte Rotundo. Yesterday Signori Corte, Crispi and several ardent supporters of his cause, and a deputation from the Revolutionary Society, begged Garibaldi to withdraw, as the Italian troops had crossed the frontier. Garibaldi refused, saying he did not value his life for such a cause, and that a soldier should not count the number of his enemies. Signor Corte assented to this, but said a General should.

This morning Garibaldi, with 3,000 men and two guns, moved for Tivoli, to join Nicolera, one of his officers. Meantime the Papal Zouaves advancing, had taken Tivoli at the point of the bayonet without loss. Garibaldi's force did not know this, and were marching towards the same point, singing national airs. When they arrived at Metana they were surprised by seven battalions of the Papal army, supported by twelve guns, which took them in front and on their flank. The battle ground was among hills, with a flat country on both sides. The fighting continued fiercely for over an hour. In the hottest part of the engagement Garibaldi had to be dragged away from the battle. His troops suffered much loss and retreated towards Monte Rotundo, pursued by the soldiers of the Pope. Here the fight was renewed, and continued over two hours, when the Garibaldian retreat became an utter rout. It is believed that Garibaldi had 900 men killed and wounded and 1,000 made prisoners. Menotti Garibaldi was slightly wounded. The loss of the Papal troops was not very heavy. Arrived at the Italian frontier, the retreating Garibaldians gave up their arms, except weapons which were their own private property.

Garibaldi left here this morning by a special train for Florence. He made no parting address, and looked old, haggard and disappointed. The revoluionist movement is now broken down all over the territory. No French were engaged in the fight, with the exception of a few who went as volunteers. The Italian troops stationed on the frontier behaved with great judgment in the matter. Many wounded Garibaldians are here and a few at Monte Rotundo.

COUTOLUHO, Nov. 4.—The road between the front and Corezzi is filled with Garibaldian volunteers returning towards Italy unarmed. Their defeat is complete, and it is stated that some of their best men have been killed.

LEMI, Nov. 4, eve.—Hundreds of men are arriving here from the scene of the battle.

The Italian regulars act in a very kindly manner to all. Garibaldi, accompanied by his two sons, Menotti and Ricciotti, passed here this morning *en route* to Florence

ZIGLIOTE, Nov. 4.—When Garibaldi reached here on his way to Florence, the Italian officers told him he must go to Spezzia.—Garibaldi drew a revolver, saying he would not resist the officers, but he would not go willingly. The Italian soldiers then lifted him into the car. His sons would not go with him.

FLORENCE, Nov. 5.—The English minister and embassy here have requested King Victor Emmanuel to treat Garibaldi leniently. This unnecessary trouble being over, there will, it is said, be no collision between the French and Italian forces. Italy is quiet. There are rumors to the effect that Garibaldi's mind is affected.

FLORENCE, Nov. 4.—The movements of the Papal army have been watched for some

days and with great anxiety, as it was reported that the troops of His Holiness would assume an offensive position against Garibaldi immediately after the entry of the French.—This condition of affairs has been brought to a serious crisis by the action of the Pontifical army. Sunday morning a large body of Papal soldiers advanced from the works round Rome to the field, supported by artillery.—They marched on Garibaldi's headquarters, situated between Veroli and Monte Rotundo. An engagement took place immediately. The fight was long and obstinately contested against, many men being killed and wounded on both sides. Garibaldi's force was defeated. The General retreated from the scene of action in good order, taking his wounded volunteers with him; his line of retreat was towards the Italian territory. It is reported that Garibaldi has been arrested by the Italian troops. Signor Nicolera, one of Garibaldi's officers, has withdrawn from his position at Frosinone and gone toward the frontier of the Neapolitan territory. Signor Ascorbi, of the Italian Legislature, a volunteer revolutionary officer, has taken his departure from Viterbo, which place he held for Garibaldi, after levying a forced loan of 8,000 Roman crowns on the inhabitants. Garibaldian volunteers who had crossed the frontier, are returning bodily from all points of the Papal States.

PARIS, Nov. 4, eve.—The Paris *Presse* of this evening says the French Charge d'Affairs at Florence was ordered to present on Sunday to the King's Government an Imperial ultimatum to the effect that the Italian troops which had been marched into the Papal territory should evacuate the States of the Church before Thursday evening, Nov. 7.

EXETER, England, Nov. 4, midnight.—The bread riot which commenced here has extended to Axminster, ten miles distant, where the premises of the corn dealers have been burned. Axminster contains the well-known carpet factories, with buildings for the manufacture of woolen cloths and gloves, and has a very determined population of workingmen. The local militia has been called out and placed under arms in Exeter, and reinforcements of the regular troops have arrived in the city from the naval station at Plymouth. Several arrests have been made, and special constables have been sworn in both in Exeter and Axminster. The Mayor of Exeter has made a speech to the people, but the mob is still in force, and great excitement prevails in the stores, even at this hour.

LONDON, Nov. 6, noon.—Consols 94½; Bonds 70⅝; I C 82¾; Erie 46½.

LONDON, Nov. 6, 2 p.m.—Consols 94¼; Bonds 71; I C 82; Erie 47.

LIVERPOOL, November 6, noon.—Cotton firm; Uplands 8⅛d. Breadstuffs quiet and steady; Corn 49s; Wheat 15s 6d; No. 1 Milwaukee Red 12s 9d; Barley 5s 4d; Oats 3s 11d; Peas 51s. Beef 113s 6d; Pork 72s; Bacon 32s; Lard 52s 9d: Cheese 52s; Sugar 26s 6d. Rosin—8s 3d for common Wilmington; 12s for thin pale; Spirits Turpentine 27s; Petroleum Spirits 1s 6d; Refined 1s 5½d.

LIVERPOOL, November 6, 2 p. m.—Cotton and Breadstuffs unchanged. Bacon 52s 6d; Lard 52s 6d; Cheese 52s; Pork 76s; Tallow 44s 6d; Sugar 26s 6d.

LIVERPOOL, Nov. 6, noon.—The steamship "City of London" has arrived.

NEW YORK STOCK MARKET.

NEW YORK, Nov. 6.

Stocks active.
Gold 149.
The *Post* says the loan market is tranquil, and well supplied at unchanged rates. Stocks dull and unsettled; Governments inert; Railroads generally declined.

—Four gates of lock No. 22 in the Welland Canal were carried away yesterday by the schooner *Merrimac*. It will take two or three days to repair the gates. The vessel is jammed in the lock, and has to be cut out.

A great sale of old coins is taking place in New York. Prices rule low. Pennies of William the Conqueror's day brought $3 25; crowns, George III, $21; halfpenny, same reign, $4.50; crown, George IV, $20; William IV, $34.50; copper coin, Charlemange, $7.; Roman ante-republic, $16; Greek, Antiochus, $7. There are yet to be sold an American dollar of 1804, valued at $500, and an old American cent which cost $400.

It is now well known that the negroes in the South are organizing and arming for some purpose which is not peaceful, and it is also known that some of the district commanders not only permit them to arm, but have furnished them with the necessary equipments. President Johnson has referred the facts in these cases to the head of the War Department, and it is probable that he will increase the military force in the South.

W. J. NORTHGRAVES,
WATCH & CLOCK MAKER,
JEWELLER, SILVERSMITH, &c,

BEGS to announce to the inhabitants of Belleville and vicinity, that he has just received a large addition to his stock of GOLD & SILVER AMERICAN, ENGLISH and SWISS

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at $4 00 per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in Upper Canada, outside of the Toronto Press, advertisers who wish to reach the ear of the West should take advantage of its columns. The *Globe* says of the ADVERTISER:—

"This excellent newspaper now appears in new type, and is one of the neatest papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation—larger than any other journal published in this neighborhood. It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in Upper Canada. Terms, $1 25 per annum, in advance. The balance of the present year GRATIS! Splendid prizes to getters-up of clubs! Specimen copies and circulars sent on application. Send for Specimens! All letters should be addressed to JOHN CAMERON,
ADVERTISER Office, London, Ontario.

J. BESWICK,
RESIDENT PIANO-FORTE TUNER. Orders received at Mr. Harrison's Book Store. 150-1m

LECTURE!
BY THE
REV. JOSEPH WILD, M. A.
On FRIDAY Evening, Nov. 8th,
IN
NEILSON'S HALL.
SUBJECT, - - - BABEL.

Chair taken at 7:30 o'clock, by H. CORBY, Esq., Mayor.

ADMISSION, - - 12½ Cents.

Proceeds given to the E. M. Ladies Aid Society.

☞ The public are cordially invited.

P. S.—This Lecture will treat of the dispersion of the Races, will show who the Indians are, and where they came from, and that they were not the first inhabitants of this continent. The Time, Place, and Origin of Free Masonry, and other interesting points.

The Lake-European Trade.

(From the Detroit Post, Oct. 29.)

The enlargement of the Canadian canals is all that is wanting to open up a trade of large proportions between Detroit and the leading maritime centres of Europe. As a general thing vessels of only four or five hundred tons burden do not find the trade a remunerative one, but when those of a thousand tons burden can have unrestricted passage down the St. Lawrence, there will be a complete revolution in our maritime relations, for while vessels will receive double the amount they can command at present, the cost of making a trip will show a merely nominal increase over the present cost. Michigan has almost inexhaustible quantities of choice timber exactly suited to the wants not only of Great Britain, but of the European continent, particularly Germany. The development of the agricultural resources of our State will be in a ratio with the thinning out of our forest so that there would be no diminution of the trade and Detroit, owing to her admirable location and numberless advantages, would always be a leading mart for this vast commerce, and either the terminus or distributing point for nine-tenths of the freight brought from Europe by the return fleet. All this is certain to be realized, for the enlargement of the above canals is only a question of time, and, in view of the rapidly increasing wants of the West, its consummation cannot be long deferred

Yesterday at the Board of Trade, a leading grain operator made an offer of $10,000 freight—50 cents per bushel—for a vessel that could carry 20,000 bushels of wheat from this port to London. This is a very liberal offer, and will most assuredly be accepted by some of our vessel owners. By its acceptance, a standard vessel could easily be made to pay for herself in eight months time, inasmuch as she would have the advantage of prosecuting the ocean trade throughout the winter after the delivery of her cargo in London, and she would then have no difficulty in obtaining a return cargo, arriving here in June next. Several of our leading merchants who have made heavy importations by this route, assure us that they found it much cheaper than the route *via* New York, Albany, Buffalo, etc., with its numerous transhipments.

We have among our lake marine hundreds of vessels that will challenge comparison with most vaunted ocean clippers, and in trials of speed upon the high seas, our lake craft have invariably carried off the palm. The finest of our vessels are too large to pass the Welland Canal, and there are but few that can get through that channel with over 19,000 bushels, that are fit for an ocean voyage. With the dull condition of the lake transportation interest this year it is somewhat singular that a large number of our lake craft have not sought the ocean service.

SPONTANEOUS COMBUSTION.—A remarkable affair has occurred in Detroit, in consequence of a room in a house having been fumigated with sulphur to kill vermin. Some wood work having caught fire, many of the articles in the house were destroyed by spontaneous combustion, as many as thirty fires breaking out in the course of one day. Several insurance officers assembled to inquire into one of these fires. Two scientific men expressed an opinion that the sulphurous fume, in connection with the gass of the charred wood, had charged the entire house with inflammable gas, which, in some cases by friction, in others by electricity, had been from time to time ignited.

OUTCASTS.—Two wretchedly clad young women were recently arrested at Windsor, England, for vagrancy. From the evidence of the keeper of the Long Walk, it appeared that the parishoners had for some time made the Great Park their home, sleeping at night under the trees or whatever shelter they could find. Their ablutions were performed in the Deer Pond, in which piece of water they had also washed their clothes, and they ran about the park in a semi-nude state while their clothes were drying on the trees. As substitute for combs, they used small pieces of wood or lucifer matches, and their rude toilettes had been performed without shame in the presence of the general public and ladies in carriages as they passed through the park. They were principally supported by the soldiers, who brought them their rations, which they were enabled to take from the barracks without attracting observation by concealing the food within the lining of their caps.

THE BABY.—Who does not know the beautiful group of babe and mother, sacred in nature, now sacred also in the religious associations of half the globe! Welcome to the parents is the puny struggler, strong in his weakness, his little arms more irresistible than the soldier's, his lips touched with persuasion which Chatham and Pericles in manhood had not. The small despot asks so little that all nature and reason are on his side.—All day, between his three or four sleeps, he coos like a pigeon-house, sputters and spurns, and puts on his faces of importance; and when he fasts, the little Pharisee falls not to sound his trumpet before him. Out of blocks, thread spools, cards and checkers, he will build his pyramid with the gravity of Palladio. With an accoustic apparatus of whistle and rattle he explores the laws of sound. But chiefly, like his senior countrymen, the young American studies new and speedier modes of transportation. Mistrusting the cunning of his small legs, he wishes to ride on the necks and shoulders of all flesh. The small enchanter nothing can withstand—no seniority of age, no gravity of character; uncles, aunts, cousins, grandsires, grandams, —all fall an easy prey; he conforms to nobody, all conform to him; all caper and make mouths, and babble and chirrup to him. On the strongest shoulders he rides, and pulls the hair of laurelled heads.—*W. R. Emerson.*

—A man at Lindsay has been fined $5.00 for cursing the Queen.—Good.

India & China Tea Company.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK,
MARION HARLAND,
Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"
who contributes to no other monthly publication, will furnish a new novel for 1868, called "PERMIE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.
DRAWING LESSONS.—In this we are also alone.
ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.
We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 00
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.
Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.
Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.
☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.
How to REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.
Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

FURNITURE WAREHOUSE.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 31 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3D1t-tf Assistant Commissioner of Customs.

Bonds and Mortgages,

Deeds,

Posters,

Placards,

In any Size or in any Colour.

CONSTITUTIONS,

BY-LAWS,

And every other variety of Pamphlets printed neatly and expeditiously.

Book and Job Printing

AT THE

LOWEST RATES.

Parties at a distance from Belleville in want of

Any Description of Printing,

Can have their wants supplied by sending their orders by mail. Their letters will receive prompt and careful attention.

M. BOWELL,
INTELLIGENCER BUILDING,
FRONT STREET, BELLEVILLE.

M6 1D-

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with
FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

INTELLIGENCER BUILDING, Front treet, Belleville.

BILL HEADS,

AND all other kinds of JOB PRINTING executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, NOVEMBER 7, 1867. No. 161.

Reciprocity with Canada.

Since the Congress of the United States of America, and the Parliament of the United Provinces of America will each be in session before the close of the current month, it is certainly a hopeful sign when the journals of both countries voluntarily return to the subject, and advocate the early revival of the commercial treaty which for ten years so rapidly developed the resources of these two neighboring and kindred communities. Although two years have not yet elapsed since the Government at Washington declined to continue in force this mutually beneficial treaty of commerce, we now find a disposition on all sides here to entertain the question afresh. And this state of things has not been brought about without real causes. With the first flush of victory, the dominant and highly protective party of the Republic was exceedingly arrogant and self-willed. This party had taken advantage of the actual monetary necessities of the nation to adopt their highly protective tariffs, and in the hour of victory they as readily took advantage of a popular but transient irritation, to repeal an undoubtedly beneficial treaty. The confiding yeomanry of the country were led to believe that Canadian products were glutting the American markets, and that the foreigner was accordingly reaping the full benefits of their prosperity (!) without sharing any of the burdens of their taxation. The free navigation of the St. Lawrence and the participation in the Atlantic coast fisheries counted as nothing, when compared with the advantages of an American market for Canadian cereals, wool and lumber. It was of no account that the Canadian shipper paid tribute to the Erie Canal and the leading railways of the Eastern and central States of the Republic; of no account that Canadian merchants exchanged their raw materials, and hard earned products of the field and forest for the wooden nutmegs and gaudy fineries of inventive New England, so long as spread-eagle orators—led on by the Secretary of foreign real estate bureau at Washington told the people that the "Canadians were all ripe for annexation," and only required this last gentle commercial pressure to rush to the arms of "Uncle Sam." But how sadly have those confiding listeners been deceived! The New England manufacturer of boots and shoes, "Yankee notions," &c., now finds that offering his wares in Canada is like sending coals to Newcastle. The leather tanneries on the St. Lawrence find a ready and profitable market for all they can produce, some so far south as St. Louis, while the prairie farmer of Illinois is called upon to pay a one-third higher price for his lumber than formerly, while he cannot "swap" his surplus pork with the lumbermen who produce it on the upper waters of the Ottawa. And again, let us return to New England itself. There we find, even in Massachusetts, factories which cost, originally half a million of money—and would have brought a million when busily engaged in producing blankets for the use of the soldier in the field, from the coarse wool supplied abundantly by Canada—now being knocked down under the auctioneer's hammer, for little more than a hundred thousand dollars; while in wool-growing Vermont, the farmer who sold his finer grades for 75 cents per pound in 1865, is now, with difficulty, disposing of the same qualities for 25 to 30c per pound, and showering Paddy's blessings upon the administration. And this is no fancy sketch; for the writer of this article has, within a week, been shown the actual Boston "account of sales" at 28 cents, when wool clipped from the same flocks in 1865 realized 72 cents at the grower's very door. These are but a few of the reasons which prompt such articles as are now appearing in even the Republican protective journals of this country—a specimen of which we insert above. We are glad to observe, however, that the leading men of the Dominion, while they manifest as they ought to do—a disposition to renew reciprocal relations in this country, still assert—as the new Minister of Maine has lately done at Quebec—that "in any new treaty the reciprocal right of registry and coast navigation in the United States for maritime Canada, must form a part of future agreements." The United States must be hereafter just, if not generous, in her dealings with the new Dominion, or she may suddenly be called upon to meet a general free trade policy on her northern frontier that would speedily work a still greater revolution in the minds of the masses of her own enterprising and practicle people.—*N. Y. Albion.*

The *Charivari* publishes a good caricature of Bismarck as the big giant at a fair, his head surrounded by an enormous helmet and a large club in his hand. The Prussian ogre is made to say to a little Danish soldier, whose four limbs have just been cut off, "And now, my friend what about the guarantees?"

The progress of education in Great Britain, within the last twelve years, speaks very favorable for the rising population. In 1855 there were only 3,825 primary schools, attended by 478,000 children; now there is the large number of 8,753 schools, claiming an attendance of 1,287,000.

Richelieu Company!

Royal Mail Through Line
between Montreal and Quebec.

ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—

The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.

The Steamer *MONTREAL*, Capt. R. NELSON, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.

This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.

Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

FINANCE MINISTER.—In consequence of the resignation of the Hon. Mr. Galt, Hon. Mr. Howland will take charge of the Finance Department until other arrangements can be made.

COMMERCIAL BANK.—In London yesterday Commercial Bills were quoted at 88 cts., gold. In Toronto, 87c to 88c. In Montreal 91c to 92c. In Belleville brokers are paying to-day 88c in bills and 90c in silver.

BABEL.—Remember Mr. Wild's lecture to-morrow evening in Neilson's Hall. The subject is a very interesting one. Prof. DeLauney will be present, and at the close of the lecture will burn some of the famous Magnesium composition, &c.

VICTORIA SKATING RINK.—At the annual meeting of the Shareholders of this Rink it was determined to get it incorporated with a capital of $4000. The following officers were elected for the current year: Andrew Thomson, Esq., President; Dr. Stewart, Vice-President; S. S. Lazier, Esq., Sec'y & Treasurer; G. F. LaSerre, Alexander Robertson, J. R. Mason, D. B. Robertson, and J. W. Thompson, Esqs., Directors.

Finance Minister.

It will be seen by the letter of our Ottawa correspondent that the Government has solicited the co-operation of the Hon. John Rose, in carrying on the affairs of the country. Mr. Rose is a gentleman of much ability, and a general favorite in the country. If he accepts, his policy must be different to that of his predecessor, who was too much of a free-trader. Mr. Rose while not a fossil protectionist, is in favor of encouraging industrial pursuits in the country, and not legislating for the benefit of a foreign people. And while we should rejoice at seeing him in the Cabinet, we cannot overlook one important objection at the present moment, when the financial affairs of the country, commercially, are in a deranged state, brought about by the management of the Montreal Bank, of which he is a Director. Would it be good policy to place a Director of that Bank in the Finance Department of the country at the present moment, when legislation is required which may interfere with the power and interests of that Bank. While we believe Mr. Rose would act strictly honest in the administration of the affairs of his office, it would be difficult to convince the people that a man who is a Director of that Bank would do aught to curtail its power.

Bank Meeting at Kingston.

A general meeting of shareholders of the Commercial Bank was held in the Banking House, in Kingston, yesterday, at noon, Mr. C. S. Ross, cashier, in the chair. There was a very large attendance. Ten thousand three hundred and forty shares being represented.

The following is a statement of the liabilities and assets, as estimated by a special committee on the 31st October, 1867:—

LIABILITIES.

Circulation	$1,102,166
Deposits, including balance due Bank of Montreal, drafts unpaid, and items in transitu	2,015,966
Due Local Banks	40,292
Due London Agents	303,259
	$2,461,683

ASSETS.

Specie, Provincial Notes, Notes and Balances due by Local Banks and Foreign Agents	$448,475
Government Debentures	400,000
Real Estate (Committee's valuation)	200,000
Bonds and Mortgages	109,365
Detroit and Milwaukee R. R. Bonds, valued by Committee at 50c	900,000
Notes and Bills discounted, Bills of Exchange and Stamps	3,114,876
Other debts due to Bank	696,539
	$5,869,255

Resolutions were passed authorising the Directors to apply for an Act for the purposes already announced, all of which look to the resumption of business by the Bank.

The "Ottawa Times" and Banking.

The Ottawa *Times* has read and then forgotten the point which we endeavored to bring prominently before our readers in connection with an alleged bargain between Mr. King, of the Montreal Bank, and the Government of Canada. If such obliviousness had not taken place, the following paragraph never would have been penned:

"An article in the Belleville INTELLIGENCER on the engrossing subject of the bank controversy, in which the writer attempts to fix the responsibility of the alliance of the Bank of Montreal with the Government and the so-called extraordinary privileges it enjoys, upon a particular section of the Ministry, has attracted our attention as being founded, in part, on testimony furnished by the *Globe*, which testimony, we have the best reason for saying, is entirely at variance with the truth."

We made no attempt whatever to fix the responsibility upon one member of the Government, but simply to call attention to what was, to us, an important statement made by the *Globe*, "fixing the responsibility" upon Mr. Howland of having made a bargain with Mr. King, not to render assistance to any bank without his sanction. It is well known that the tenor of all the *Globe's* articles has been to saddle Mr. Galt with the responsibility of every act relating to the Government account, and its connection with the Bank of Montreal; and in referring to this fact we pointed out the important admission on the part of the *Globe* that if any such arrangement as that to which it alluded had been made, it was conceived and consummated by one who who had formerly received the favor and support of Mr. Brown and the *Globe*.—There was neither an intention on the part of the writer, nor could there correctly be an inference drawn from the article, of a desire to separate the responsibility from the Cabinet as a whole, and "fix" it upon one member. Nor did we desire to shield the Cabinet from the responsibility of such an act, if it were true, and the *Times* will remember or should remember that we gave no opinion, whatever, upon the correctness of the statement, but expressed an opinion that if it were true, it was reprehensible on the part of any Cabinet to place the country in such an humilitating position, and it was with no little degree of satisfaction we recorded the fact that there was not a word of truth in the *Globe's* charge.

The *Times* is also of opinion, expressed in a somewhat dogmatical style, that too much importance has been attached to the policy of Mr. King, as the manager of the Bank of Montreal, and not ink enough spilled in writing up the Western Banks. It may be true that a good deal has been written in reference to this Bank Manager, but it has become a necessity. This man has no more right to use the power he unfortunately possesses to ruin the other banking institutions than a private individual has to destroy the business reputation of his fellow man; and what the law would do in defending the maligned, so the press must do in defence of the people, when their interests are jeopardized by a man like King, with a powerful monied institution at his back. And it is well for the community that the Press of Canada is not controlled entirely by men who are ever ready to bow in humble submission to magnates, whether of a Cabinet or of a Bank.

From our Ottawa Correspondent.

OTTAWA, Nov. 6th, 1867.

The first Parliament of the New Dominion was opened to-day by the Governor General in person, at 3 o'clock p.m. There was a large attendance of Volunteers on the occasion, but the guides from Montreal and Toronto did not make their appearance. The Senate Chamber was well filled with the *elite* of the city, and very little room was left for any one else.

At 3 o'clock the Usher of the Black Rod made his appearance in the Commons and commanded the attendance of the Members in the Senate Chamber, where they at once proceeded, and were told by the Governor General to go back and elect their Speaker. On the members again taking their seats, Sir John A. McDonald rose, and in a short, but highly complimentary speech, proposed the Hon. James Cockburn as Speaker of the House of Commons. The motion was seconded by the Hon. George E. Cartier, who spoke in French for a few minutes, and was followed by M. Dufresene, who complained of the policy of the Cabinet in proposing a man for Speaker who could neither read nor speak the French language. He also stated that for the first time since the Union, the Governor General had made an announcement from the Throne without repeating it in French. Mr. Cartier replied, instancing a number of Speakers, who, when elected, could not speak the French language. Among the number was the Hon. John S. McDonald, who facetiously replied that if he did not speak French, he could Gallic, which was just as important. The vote being taken, it resulted in a unanimous selection. Mr. Cockburn was then conducted to the Chair by Sir John A. McDonald and the Hon. George E. Cartier. Upon taking the Chair, the Hon. Speaker made a neat little speech. Sir John then moved the adjournment of the House until to-morrow, at half-past two, when the House will again meet, and the Governor deliver the Address.

Most of the Members are present from the different Provinces. Mr. Howe has not taken the seat allotted to the leader of the opposition—a position which it was assumed he would aspire to. The Hon. John S. McDonald has taken that seat, a position which he has occupied for a long time—not as the leader of the opposition, but more as a matter of courtesy—being the oldest Member of the House. Mr. Howe occupies the centre seat on the front row of the opposition benches, and all the Nova Scotians are on that side of the House, with the exception of Dr. Tupper, who separates himself from the anti-Confederate brigade from that Province.

It is expected that there will be a lively debate upon the address, particularly if it commends the new constitution, which it, if necessity, must do, this being the first Parliament of the New Dominion. Such a commendation will bring Mr. Howe to his feet, and then Dr. Tupper will follow, and the war of words will be begun.

Little has transpired as to the successor of Mr. Galt. It is rumored that negotiations are going on between the Cabinet and the Hon. John Rose. It is thought, however, that he will not accept. QUINTE.

Town Council.

WEDNESDAY, Nov. 6, 1867.

PRESENT—His Worship the Mayor, and Messrs. Robertson, Sutherland, Watters, Diamond, Holden, McIntosh, Kennedy, Tannahill, Henderson, and Foster.

A large number of petitions, complaining of over-assessment, were referred to the Court of Revision.

Petition from A. G. Northrup and others, for a sidewalk, was referred to the Committee on Streets and Sidewalks.

Mr. Sutherland, Chairman of the Finance Committee, submitted a report, recommending the payment of several accounts; recommending that the Collectors be permitted to take silver in payment of Taxes to the amount of $10 from each party up to 1st December, and also recommending an appropriation of $1,000 for a drill shed, in accordance with plans before the Committee.

The Council went into Committee on Ways and Means. Mr. Robertson in the Chair.—Respecting the appropriation of $1,000 for a drill shed, Mr. Watters and Mr. Corby thought it imprudent to make it now. There was nothing in the Treasury, and they hoped it would be laid over. It was explained by Mr. Holden and Mr. Henderson, that it was not contemplated to go on with the work now, but unless something was done to give accommodation to the Volunteer Force it would break up. This would be the first step—Though the appropriation was made now, it was not intended to ask for the money until next year. Mr. Sutherland was desirous the appropriation should be made now, in order to show the Government that we were in earnest, and with the aid of our Members at Ottawa, there was a chance of getting the Government to make a more liberal appropriation, and probably of building it altogether. The appropriation was carried, and Report of Committee adopted.

On motion of Mr. Sutherland, seconded by Mr. Robertson, the Harbor and Town Property Committee was requested to appropriate and set apart, a suitable lot on which to build a drill shed, and to report at the next meeting.

A communication from John Roach, Constable, representing that he had been suspended from his police duties for contravening the laws of the Town, and praying for reinstatement. He admitted he was aware of the existence of the By-Law preventing constables from engaging in any other business, but as the business was carried on by his wife, some members of the Council and respectable inhabitants of the Town had advised him to continue it. He regretted that he had violated the law, and promised if re-instated that he would give up the sale of liquor.

A lengthy discussion took place with respect to this petition. It was contended by Mr. Diamond, Mr. Henderson, Mr. Sutherland, Mr. Kennedy, and Mr. Robertson that inasmuch as the business was carried on by Mrs. Roach, and did not interfere with his duties as constable, the spirit of the law was not violated. If he had received a license to sell liquor, which it was contended he had, he had just as much right to carry on that business as a grocery. It was not desirable that constables should be engaged in such a business, and as he had expressed a determination not to continue it, and as he had not wilfully transgressed the law, and had hitherto proved a very valuable officer, they were in favor of complying with the prayer of his petition. Mr. Holden and Mr. Tannahill, on the other hand, contended that Mr. Roach had violated the law, and until it was proved he had a license they could not vote for his reinstatement. In the Treasurer's return of licenses, a few weeks since, Mr. Roach's name did not appear, and that was evidence to them that he had no license. It was monstrous that one of the conservators of the peace should be allowed to openly and flagrantly violate the law. Mr. Diamond called Mr. Holden's attention to the fact that the Treasurer's books did not include all the licenses, and it was a fact that Mr. Roach had entered into bonds for a license, and was acting upon the supposition that he had one. After a long discussion, a motion made by Mr. G. E. Henderson, seconded by Mr. Diamond, to reinstate Mr. Roach, was carried on the following division:

YEAS.—Messrs. Henderson, Sutherland, Kennedy, Diamond and Robertson.

NAYS.—Messrs. Holden, Foster, Watters and Tannahill.

The Committee on Fire, Water and Gas reported that they had accepted the new engine house and had given directions to have the engine and apparatus removed there; they recommended that the sum of $100 be kept back from the contractor until the work was completed. A letter from Mr. Button respecting the engine was submitted, in which he states that he had made three trips to Belleville at considerable expense, that he had made repeated tests of the engine, and considered he had done all and more than he guaranteed—that no better engine has been constructed. If the Council was not satisfied, let them state exactly what they wanted, wherein the engine failed to come up to the guarantee, and he would write them further respecting it. Two clauses of the Report of the Fire, Water and Gas Committee, which did not come under its jurisdiction, were struck out. $50 was substituted in place of $100 to be kept back from the contractor, and as amended the Report was adopted.

Mr. Holden introduced a By-Law to amend By-Law No. 161 respecting butchers, which was read a first time.

On motion of Mr. Sutherland, seconded by Mr. Holden, the Police Magistrate was requested to make a return of the amount of fees paid by him into the County Treasurer's office for the last quarter.

Mr. Tannahill moved, seconded by Mr. Watters,

That whereas the Committee of the whole Council appointed to investigate the pay lists and official conduct of the Street Surveyor have failed to report, that they be discharged, and that a Committee consisting of Messrs. Holden, Sutherland, Watters, Foster and Tannahill be appointed to report on the same subject at the next meeting of this Council.

A lengthy discussion took place upon this motion. Mr. Diamond and others contended that there was no charge against the officer in question, and there was therefore nothing to investigate. The discrepancy in the pay-lists had been satisfactorily explained. Mr. Sutherland said the matter was left to the whole Council, and he would prefer the Council should take action upon the question. He was anxious, as well as other members, to have a meeting of the Council and dispose of it. After considerable discussion the motion of Mr. Tannahill was lost on the following division:

YEAS.—Messrs. Tannahill, Holden, Foster and Watters.

NAYS.—Messrs. Robertson, Diamond, Kennedy, Sutherland and Henderson.

Mr. Diamond moved, seconded by Mr. Holden,

That the next meeting of the Council be held in the new building erected near the upper bridge as an engine house, and that the Council hereafter meet at the hour of half-past seven o'clock, with the usual half hour's grace thereafter, until otherwise ordered by the Council.—Carried.

Mr. Sutherland moved, seconded by Mr. Robertson,

That the Treasurer of the Town of Belleville be requested to transmit to this Council, on as early a day as possible, a statement of the debt and liabilities of this Corporation, showing in detail the amount of the several debts, date of contraction and when payable, and the By-Law or other authority under which they were contracted, together with the names of the creditors. Such statement to be accompanied by a report showing the purposes for which the different amounts were required, and the special rate required for their payment. And that the Clerk of this Council be instructed to give the Treasurer access to the books and records of this Council, and give such other aid to the Treasurer as he may require.—Carried.

The Council adjourned.

LARCENY.—A young girl named Mary Armstrong, from St. Regis, in Lower Canada, stole a valuable gold watch from the residence of Mr. George Ross, in Thurlow, and offered it for sale at the establishment of Mr. Rosenberg, who promptly handed her over to Captain James. She is now in gaol on remand, pending her trial to-morrow.

—It is said the Province of Quebec will keep its account with the Union Bank.

—The President has again directed the return of $40,000 worth of arms to the Fenian agents, the same seized during the Canadian invasion last year.

—"Most ennybody kan write poor sense," says Josh Billings, "but there ain't but few that kan write good nousense; and it olmos takes an eddyckated man to appreciate it after it is writ."

—The news from Arizona represents that the Indians are killing white men on every side, and are running off stock to an unlimited extent. There are not troops enough in the territory to give the settlers any degree of protection.

The coal deposits in Russian America are pronounced worthless, being in very thin seams, much impaired by earth and matter, and by actual trial have been found unfit for steamers, they (the Russian steamers) being forced to use the coal from Nanaimo.

Advices from Washington state that the most alarming accounts reach General Grant's headquarters from all parts of the South, touching the defiance of the negroes in connection with the elections about to take place. It is found that while the whites of the South have been deprived of their arms by various means, the blacks are fully armed and equipped and ready to take the field. The result is that a perfect reign of terror prevails in every Southern family. General Grant has sent orders all through the South to the military commanders to preserve the peace at all hazards.

A correspondent of the San Francisco *Bulletin* speaks of the terrible carnage of the late Taeping rebellion. One district is described which yielded ninety thousand chests of tea per annum before the war, and is now a desert waste. A belt of land four hundred miles long by two hundred miles wide is literally without an inhabitant. The writer says: "The distinguished China traveller and savant, Dr. Macgowan, estimates the loss by the Taeping war at about twenty-five millions souls; but intelligent Chinese I have conversed with say one hundred millions were killed or perished by starvation. There was not much to choose on either side. Whether Imperial or Taeping, the victorious party put men, women and children to the sword. The Grand Canal used to be choked up with dead bodies, and I have seen even the swift flowing Yangtze crimson with the blood of all ages, sexes and conditions in life."

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Nov. 6.—The Emperor of Austria left Paris yesterday for Vienna.

FLORENCE, Nov. 6.—The *Gazette* announces that Garibaldi was arrested by the Italian Government, and that the vote in the towns of the Province of Rome is in favour of union with Italy, but has been disavowed. The Italian troops have been recalled from the Pontifical territory.

FLORENCE, Nov. 6, evening.—Garibaldi is now in prison at Vigevano, in Piedmont. He claims that he is a citizen of the United States, and demands his rights and privileges as such, under the law of nations. The American Minister, Hon. George P. Marsh, left Florence for Vigevano, to visit the General.

PARIS, Nov. 6, evening.—One division of the French troops which entered Rome, has already been withdrawn from the city and has returned to Civita Vecchia, and the rest will soon follow. The whole expedition for the relief of Rome will then remain at Civita Vecchia, and there await the action of Italy.

A call for a general Conference of the European Powers will soon be issued by the French Government.

FLORENCE, Nov. 6, evening.—Gen. Cialdini is in command of the Italian forces, acting as an army of observation on the Papal frontier. He has located his headquarters at Pisa.

MANCHESTER, Nov. 6, evening.—Of the prisoners who were tried before the special Commission yesterday and to-day, Nugent, Branion, Featherstone, Caffy, and Martin, have been acquitted.

FLORENCE, November 6.—On Sunday, Garibaldi, with 3,500 men and two cannon, left his camp near Monte Rotundo, and advanced to the attack of Tivoli, which was held by the Papal troops. He found the latter, to the number of 6,000 men, posted in a strong position, and supported by artillery. The Pontificial troops immediately opened fire with their batteries upon the approaching Garibaldians, and a desperate conflict ensued, which lasted 45 minutes, when Garibaldi retreated. The battle was renewed at Monte Rotundo.—The insurgents fought with great obstinacy, and kept up the conflict at this point for two hours and a half when, exhausted and overwhelmed, they gave way, and were utterly routed. Four hundred and fifty insurgents were killed, and nine hundred were taken prisoners; no idea of the number of wounded can be ascertained. The total loss of the Papal troops engaged was 200 killed and wounded.

American Despatches.

NEW YORK, Nov. 6.—The steamship "Java," from Liverpool on Oct. 26, has arrived.

NEW YORK, Nov. 7.—The *Herald's* Havana special says: A revolution has broken out in Hayti in favor of Mortez, and against the authority of President Salnave.

The steamer "Sarah Newman," from New York' was ashore.

Advices from St. Thomas state that the steamer "Rhone" was lost at Peter Island. The steamer "Conway" went ashore at Tortola. The steamer "Wye" was lost at Buck Island, and the steamer "Derwent" at St. Thomas. The steamers "Solent" and "Tyne" have been dismantled, and all the Company's property is destroyed.

The town of St. Thomas is in ruins, and five steamers and fifty other vessels are ashore.

The loss of life has been terrible. All the officers and engineers of the "Rhone" have been lost, and out of all the passengers of the "Rhone" and the "Wye," only forty have been saved, including Captain Taylor, of the "Wye," and Mr. Hodgson, of Southampton, England. The steamer had 150 passengers, mostly for Southampton, only 12 of whom are known to be saved.

An armed expedition of the partizans of Gen. Baez has landed at Monde Cheysne, in Haytian vessels. They occupied the town of Guayalin, where the revolution against Salnave broke out in September last. The troops of the Dominican Government, however, beat them and suppressed the revolution. The people of St. Domingo are indignant at the treachery of President Salnave, who has for some time been suspected of favoring the schemes of Baez at Port au Prince. They claim that they could march 5,000 troops against the capital of Hayti. It is rumored that Cabral has negotiated a loan of $2,000,000 in London.

The steamer "Eagle" had arrived at Havana from New York. She reports having met the steamer "Hendrick Hudson," with her machinery disabled, and towed her one night, but in the morning her hawser parted and the "Hendrick Hudson" drifted on the coast. Tugs have been sent to her assistance, and she will probably be got off.

The steamer "Elder," from Vera Cruz on the 2nd, has arrived here.

Santa Anna is on board, and is on his way to St. Thomas.

The "Elder" brings intelligence that the Court which was so lenient as to exile the old fellow, has been in turn imprisoned.

The election of Juarez is now reported doubtful, and should he come out victorious the opinion prevails that there will be a revolution within two months.

—At the steeple chase in Montreal, on Tuesday, one of the stands crowded with men, women, and children gave way and precipitated them all to the ground. One man named Stewart was killed, and several others were seriously injured.

The Cleveland *Herald* says: "James Gordon Bennett, Jr., late manager of the New York *Herald*, was arrested on Broadway on Friday morning for drunkenness and disorderly conduct. He resisted the officer, and fought all the way to the station. It is said he has quarrelled with his father, been dismissed from the *Herald*, and has "gone to the bad."

At Lewisburgh, Penn., the other day, a man was engaged in building the bridge. A clergyman happening along, he remarked to him that he was going to see the bridge up. "Yes," replied the minister, interrupting, "if Providence permits." His answer was, "Damn Providence!" and at that instant a rope broke, and down came a stone which was being lifted to its place, and crushed the man to death instantly.

COMMERCIAL.

BELLEVILLE MARKETS

INTELLIGENCER OFFICE,
Belleville, Nov. 7, 1867.

MARRIED.

At Christ Church, Ottawa, October 30th, by the Rev'd J. F. Lauder M. A. Rector, John J. Harrison, Esq., eldest son of Capt. E. Harrison, of Belleville, to Sydney Anne, youngest daughter of the late C. Martin McCarthy, Esq., of St. Johns, Newfoundland.

In Tilsonburg, on the 30th ult., at the residence of S. E. Bain, Esq., by the Rev. W. H. Jones M. A., G. W. McPherson, M. D., of Smithville, Ontario, to Susan, daughter of Mr. James Wallace, Belleville.

DIED.

In West Belleville, on Wednesday, 6th November, Leslie Robert Linton, fourth son of George Chown, Esq., aged four years.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Billious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists.

155-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at **$4 00** per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in Upper Canada, outside of the Toronto Press, advertisers who wish to reach the ear of the West should take advantage of its columns. The *Globe* says of the ADVERTISER:—

"This excellent newspaper now appears in new type, and is one of the neatest papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation—larger than any other journal published in this neighborhood. It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in Upper Canada. Terms, **$1 25** per annum, in advance. The balance of the present year GRATIS! Splendid prizes to getters-up of clubs! Specimen copies and circulars sent on application. Send for Specimens! All letters should be addressed:

Miscellaneous Items.

In the "personal" column of a London journal there recently appeared the following advertisement: "Snacky dear, for Heaven's sake pray write one line to your broken-hearted Snolly." Let us trust that the affection of "Snolly" has been properly rewarded, and that, ere this, he or she has not only heard from, but been united to "Snacky," who is evidently disposed to be rather negligent.

A Paris journal of fashion says that the proper costumes for widows is: black dress, with jet necklets and ear-rings, and golden hair. The latter is absolutely indispensable for a fashionable widow. A lively young lady, in all the glory of early widowhood, recently remarked, that the present costume was calculated to make a wife look forward to her husband's demise with fortitude and pious resignation.

A practical joker residing in Aardorf, Switzerland, lately stated that he was going to Zunich and should bring back the cholera. He went away, not to Zunich at all; but when he came back he was properly put into the *Absonderungshaüs*, fumigated, and for several days kept in a room furnished with a sack of straw only, before he was allowed to mingle with his townsmen.

From the Brazillian seat of war we learn that the iron-clads had successfully forced the passage of the batteries of Cumparaty, and were within range of the chief fort of Humaita. The iron-clads suffered to some extent from the shots fired from the forts at point-blank range. The loss was 33 killed and wounded. The Paraguayans are actively working and strengthening their inner lines of defence. The allies are well supplied, and have fifteen days provisions.

—The New York *Methodist* has been studying the statistics of the denomination, and is surprised to find that the increase of its members is only about one-seventh the number of probationers, year by year, which indicates that much the larger portion of the converts do not hold out for six months preceding their admission to full communion in the church. In ten years, from 1856 to 1866, there were received on probation in the Methodist churches of the United States, the large number of 1,206,145 persons; yet in that time the membership of the church had increased only from 698,317 to 971,113—a net gain of but 172,296 in ten years. The losses by death and excommunication do not account for one-tenth of this difference between the probationers and the gain in the membership. What became of the million converts who are not in the church?

It appears that the gold and silver plate at Windsor Castle, for the use of Her Majesty and the Court, weighs nearly thirty tons, and that its value may be roughly estimated at £3,000,000. It is secured in stone chambers with vaulted ceilings, which form part of the original buildings, and are thoroughly proof against burglars. Among the plate is a single dish, not of silver gilt, but of solid gold made by order of George IV., and representing all the orders, both domestic and foreign, which that sovereign wore, or was entitled to wear; it is estimated at £8,000. Grand and magnificent as the assortment of plate is, our readers will be astonished to hear that very little of it is old or curious, most of the plate used by former sovereigns having been melted down and remodelled by George IV.; very much of it, consequently, is tawdry, and rococo, as might naturally be expected from the author of the Pavillion at Brighton. One exception, however, to the above rather sweeping statement must be made—in favor of the plate which belonged to Frederick, Prince of Wales; this is exceedingly massive, solid, and in good taste; and by some chance or other it was spared by George IV.

TRAINED RATS.—A man in Paris is exhibiting a wonderful collection of trained rats. The name of this Rarey of the rat race is Antione Leonard. If the former succeeded in breaking in the worst tempered brute ever created, Leonard, in three weeks certainly accomplishes the difficult task of inculcating habits of obedience on the biggest rats that ever ran. His favorite scene of action are some cross alleys in the 14th and 15th Arrondissement. His sole theatre is a sort of perch, which he sticks into the ground, and then he takes his *corps de ballet* out of his pocket. At his word of command the rats run up and down the perch, hang on three legs, then on two, stand on their head, and in fact go through a series of gymnastic exercises that would put Blondin himself to the blush. His crack actor is an old grey rat he has had in his troupe for eleven years; this old fellow not only obeys Leonard, but is personally attatched to him. It is a most curious sight to see Leonard put him on the ground, and then walk away. The creature runs after him and invariably catches him, however many turns he may make to avoid him. An Englishman offered $6f. for him about two years ago, but Leonard would not seperate from his old and attatched friend.

THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give a*dditional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.
MARION HARLAND,
Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"
who contributes to no other monthly publication, will furnish a new novel for 1868, called "PEBBLE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued. MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 00
Three copies, one year	7 00
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 31 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
8D1-tf Assistant Commissioner of Customs.

In any Size or in any Colour.

CONSTITUTIONS,

BY-LAWS,

And every other variety of Pamphlets printed neatly and expeditiously.

Book and Job Printing

AT THE

LOWEST RATES.

Parties at a distance from Belleville in want of

Any Description of Printing,

Can have their wants supplied by sending their orders by mail. Their letters will receive prompt and careful attention.

M. BOWELL,
INTELLIGENCER BUILDING,
FRONT STREET, BELLEVILLE.

Ma 1D.

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,

Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with

FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, NOVEMBER 8, 1867. No. 162.

The Dying Child.

I.

Another night's sad withering hours are past,
In fitful sleep the vital tide ebbs fast.
Hush! not a whisper—not the slightest tread
Must wake the slumbering Emmeline!
In breathless silence guard her sacred bed,
In silent prayer appeal to him who said
"Of such my kingdom is." She bows her head
And faintly smiles. Sweet Emmeline!
Perchance she is dreaming
Of heavenly gleaming—
Of angels calling "Emmeline!"

II.

See! the pale cold ray of orient light
Steals flickering thro' the vine-clad casement, bright
Harbinger of morn; throws radiance white
Around the form of Emmeline—
Illumes the golden tress and flossy lash
That veil her marble cheek, and serve to wash
So lavishly her brow with silvery flash,
Beautifying Emmeline.
And as in comes streaming—
That heavenly beaming,
An angel bright seems Emmeline.

III.

Faint, and more faintly now the fleeting breath
Scarce swells her gentle breast. Oh! this is death,
The spoiler Death! whose freezing finger hath
Grasped the warm heart of Emmeline.
The half-oped eyes and pressing hand convey
"Farewell." The trembling lips, now mute essay
Th' endearing words that she was wont to say—
"Kiss me,—your loving Emmeline."
Now that spirit reclining
In Heaven, is shining
An angel of light—blest Emmeline!

The Loss of the "Venus."

The Cape Breton News of last week gives some particulars further than we had previously published, concerning this ill-fated vessel off Halifax harbor. It says:—"The telegraph conveyed sad news to several families here. The despatch announced the loss of the schr Venus, and the drowning of all on board, except a seaman named McLeod, who miraculously escaped death. The melancholy intelligence was received with real sorrow of every one in the community; and was a heavy blow to the parents and relatives of the unfortunate persons who perished in the vessel. The Venus, which left here coal laden, on Wednesday, the 2nd inst, it would appear met the severe gale approaching Halifax harbor with a leading wind, when about 11 o'clock at night breakers were discovered, and the vessel almost instantly was driven against the cliff, and sank in deep water. All on board went down in the ship except James McLeod, of Gabarous, who jumped from the jib-boom to the cliff, and was saved.—On board the vessel were Capt. George Muggah, his brother James Muggah, and Charles McFadden, all of this town; Alex. Campbell, a lad belonging to East Bay, and a son of Mr. Hugh Campbell, of that place; a young man named Norman Ferguson, of Mira Road, Peter Mullin, of Prospect, N S, Mrs King and her daughter aged 9 years, and Mrs Armstrong, of Newfoundland. Beyond those brief details nothing further is known of the melancholy disaster. To all on board it doubtless was a sudden affair. One moment in full expectation of a safe termination to their pleasant voyage; the next to be swallowed up in the surging waters of the ocean within sight of the desired harbor. The bodies of all the victims have been recovered, except those of the mate and the little girl. An affecting incident is connected with the finding of the remains of the two women. Early on the morning after the wreck, a large Newfoundland dog ran up to the nearest house and by his strange conduct induced some persons to follow him to the shore, where they found the body of one of the women. His singular actions being still continued, the men were again guided by his leadership to a more secluded portion of the beach, and here, just beyond the reach of the surf, exposed the remains of the other female. It is supposed by many that the dog had dragged the woman ashore, as one of the bodies was quite warm, although unfortunately dead, when discovered."

M. de Closmadeuc has discovered in a small desert island in the bay of Morbidan, France, more than 60 obelisks of granite, forming a regular circle of 180 metres in circumference. A curious fact is that only one-half of this *cromlech*, which is supposed to have been a drudical altar, is now on dry land, owing to the encroachments of the sea.

Extraordinary Atmospheric Phenomenon.—On the night of the 22nd ult, about 10 o'clock the inhabitants of Thames Ditton, Surrey, were greatly astonished at witnessing what appeared to be a shower of fire. This strange phenomenon lasted about a quarter of an hour, and, while the shower continued, had the appearance of long threads of fire. The next morning it was evident that sulphur must have been the immediate cause of this extraordinary shower, since the puddles and water-butts in the upper part of the village were covered with a thick deposit of sulphur. Some of the water had been preserved in bottles; it is yellow in color, and emits a strong smell of sulphur.

Richelieu Company!
Royal Mail Through Line
between Montreal and Quebec.
On and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.
This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
The principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

Parliament of Canada.

THE GOVERNOR'S SPEECH.

OTTAWA, Nov. 7th, 1867.

His Excellency the Governor General, at three o'clock, p. m., this day, proceeded in state to the Chamber of the Senate, in the Parliament Buildings, and took his seat upon the throne, His Excellency commanding the attendance of the House of Commons. The members of that body, preceded by their Speaker, the Honorable James Cockburn, then informed His Excellency that the choice of the House of Commons had fallen upon him to be their Speaker, and he prayed for the members thereof the customary Parliamentary privileges. His Excellency then delivered the following speech:—

Honorable Gentlemen of the Senate, Gentlemen of the House of Commons:

In addressing for the first time the Parliamentary Representatives of the Dominion of Canada, I desire to give expression to my own deep feeling of gratification that it has been my high privilege to occupy an official position, which has made it my duty to assist at every step taken in the creation of this Great Confederation.

I congratulate you on the Legislative sanction which has been given by the Imperial Parliament to the Act of Union, under the provisions of which we are now assembled, and which has laid the foundation of a new Nationality, that I trust and believe will, ere long, extend its bounds from the Atlantic to the Pacific Ocean.

In the discussions which preceded the introduction of this measure in the Imperial Parliament, between the Members of Her Majesty's Government, on the one side, and the Delegates, who represented the Provinces now united, on the other—it was apparent to all those who took part in those Conferences, that, while Her Majesty's Ministers considered and pressed the principle of Union as a subject of great imperial interest, they allowed to the Provincial Representatives every freedom in arranging the mode in which that principle should be applied.

In a similar spirit of respect for your privileges, as a free and self-governing People, the Act of Union, as adopted by the Imperial Parliament, imposes the duty and confers upon you the right of reducing to practice the system of Government, which it has called into existence, of consolidating its institutions—harmonizing its administrative details, and of making such legislative provisions as will secure to a constitution, in some respects, novel, a full, fair and unprejudiced trial.

With the design of effecting these objects, measures will be laid before you for the amendment and assimilation of the Laws now existing in the several Provinces relating to Currency, Customs, Excise,and Revenue generally,—for the adoption of an uniform Postal System,—for the proper management and maintenance of the Public Works and Properties of the Dominion,—for the adoption of a well considered scheme of Militia Organization and Defence,—for the proper administration of Indian affairs,—for the introduction of uniform Laws respecting Patents of Invention and Discovery,—the Naturalization of Aliens,—and the assimilation of the Criminal Law and the Laws relating to Bankruptcy and Insolvency.

A measure will also be submitted to you, for the performance of the duty imposed upon Canada under the terms of the Union Act, of immediately constructing the Intercolonial Railway.

This great work will add a practical and physical connection to the legislative bond which now unites the provinces comprising the Dominion, and the liberality with which the guarantee for the cost of its construction was given by the Imperial Parliament is a new proof of the hearty interest felt by the British people in your prosperity.

Your consideration will also be invited to the important subject of Western Territorial extension, and your attention will be called to the best means for the protection and development of our Fisheries and Marine interests.

You will also be asked to consider measures defining the privileges of Parliament, and for the establishment of uniform laws relating to Elections, and the trial of Controverted Elections.

Gentlemen of the House of Commons.—

The circumstances under which the Act of Union came into operation, rendered it impossible to obtain the assent of the Legislature to the expenditure necessary for carrying on the ordinary business of the Government.

The expenditure since the first of July has, therefore, been incurred on the responsibility of Ministers of the Crown.

The details of that expenditure will be laid before you, and submitted for your sanction.

I have directed that the estimates for the current and succeeding Financial Year be laid before you. You will find that they have been framed with all the attention to economy, which is compatible with the maintenance of efficiency in the different branches of the public service.

Honorable Gentlemen and Gentlemen:

The general organization and efficiency of the Volunteers and Militia have been greatly improved within the last year, and the whole Volunteer Force of Ontario and Quebec is already, by the liberality of the Imperial Government, armed with the breech-loading rifle.

I am happy to be able to congratulate you on the abundant harvest with which it has pleased Providence to bless the country, and on the general prosperity of the Dominion.

Your new nationality enters on its course backed by the moral support—the material aid—and the most ardent good wishes of the Mother Country. Within your own borders peace, security, and prosperity prevail, and I fervently pray that your aspirations may be directed to such high and patriotic objects, and that you may be endowed with such a spirit of moderation and wisdom as will cause you to render the great work of Union, which has been achieved, a blessing to yourselves and your posterity, and a fresh starting point in the moral, political and material advancement of the people of Canada.

Notices of Motion.

The following notices of motion were given in Parliament yesterday:

Mr. MORRIS—To enquire whether it is the intention of the Government to create a stock, or fund, in which administrators, trustees, corporations, &c, shall invest trust or other monies.

Mr. J. H. CAMERON—To enquire whether the Governmrut intends to introduce in their postal bill a provision for any system of post-office savings banks.

M. BOURASSA—Motion for a select committee for the investigation of all questions relating to fixing of legal values of silver coin.

Mr. MACKENZIE—Motion for returns showing monies paid by Government in connection with the recent general election, aggregate number of votes polled, &c.

COMMERCIAL BANK BILLS.

Daily Intelligencer.

BELLEVILLE, FRIDAY, NOV. 8.

☞ *SEE FOURTH PAGE.*

FROM HAMILTON.

(By Special Telegraph to the Daily Intelligencer.)

HAMILTON, November 8.

The old established firm of G. W. Gates & Co., wholesale dry goods merchants, is reported to have suspended to-day, owing to the failure of the Commercial Bank. It is expected they will meet all liabilities.

ARRESTS.—During the last quarter, ending 30th Sept. last, the Police of Belleville arrested 22 male and 11 female prisoners, 15 of whom could neither read or write. The entire 33 prisoners were summarily disposed of by the Police Magistrate.

FISHERY ACT.—Three of the mill owners on the River Moira have been prosecuted by the chief of police, before the Police Magistrate, and pleaded guilty to a charge of allowing saw dust and mill rubbish to be thrown into the river frequented by pickerel and bass. They were fined $5 each and costs, and have promised to use precautionary measures in future.

GOLD FROM THE BARRY MINE.—Mr. Strong, one of the proprietors of the Barry mine, brought in yesterday several fine samples of quartz with gold in it, from the Barry mine. The shaft now being sunk is fourteen feet from the old shaft, and at a depth of four feet from the surface a lead of white quartz, four feet wide, was struck, in which the gold is distinctly visible. The quartz shown by Mr. Strong was taken from a blast made on Tuesday. Its color is white, and contains considerable gold visible without the aid of a glass. The proprietors believe they have a "good thing," and we hope their most sanguine anticipations may be realized.

MAGNESIUM LIGHT.—Prof. Jules DeLaunay will commence a course of four popular lectures, by means of the Stereopticon, or improved magic lantern, in the Ontario Hall, commencing on Saturday, 9th inst. The pictures used are instantaneous photographs, comprising views of Rome, Paris, Berlin, Italy, Egypt, Spain, Nineveh, Switzerland, beauties of art, magnificent statuary, shown by means of the magnesium light, the brightest artificial illumination known. In order to bring his instructive lectures within the reach of all, Prof. DeL. consents to charge but 10 cents for each evening, and for a reserved seat 50 cents for the four lectures.

"GOING OUT FOR WOOL, &C."—The Ogdensburg *Journal*, under the foregoing heading, has the following respecting the trotting match between "Draco Chief" and "John Moore" at the Belleville Races the other day:—"Several persons of this place and vicinity, just returned from Belleville, Ontario, have illustrated the uncertainty of horse-racing, and come back from a wool gathering trip completely shorn. They took with them the fast trotting horse "Draco Chief." There was entered against him, in the race, an old, ill-looking, ordinary "plug." He was hitched to a dilapidated sulky, with an old harness tied together with strings. The horse looked as though he had been curried with a bramble bush, pulled against the grain of his hair, and the driver was a ragged uncouth fellow, to all appearances just arrived from over the bounds of civilization. The idea that such a turn-out should be entered against "Draco" was absurd to the persons who went up with the Chief, and they went to the extent of their pile in the purchase of pools and backing their favorite. When the horses were sent off on the first heat, they thought they smelt a rat, but it was too late, their money was staked and lost, for the ping took the lead and kept it, winning the race in three straight heats. The scoop was so clean that several of the party were obliged to borrow funds to get back home."

The Governor's Speech.

The Speech from the Throne, at the inauguration of our new Nationality, will very naturally be looked for with considerable interest by the community. In length and style, it does not differ much from preceding documents of a similar character, but the subjects it refers to are of a magnitude and importance with which our Legislatures hitherto have not had to deal. Instead of petty Local legislation for a small Colony, they are called upon to consider the wants and requirements of a vast Dominion, stretching from the Pacific to the Atlantic. Instead of bothering their brains about Local tariffs affecting a few manufactures and interests, and many other matters of comparatively a minor character, they are to regulate the tariffs of several countries, now happily united in one, and affecting all kinds of manufactures and every interest under the sun. The mind no longer "cabined, cribbed and confined" to the territory embaced between Gaspe and Sandwich, must grasp a territory co-extensive with that of the neighboring Republic, and the legislation necessary to set the new machinery in motion will require clear heads, wise deliberation, and the most careful consideration of our representatives. A glance at some of the subjects requiring immediate legislation will give an idea of the important responsibilities devolving upon Parliament. There are measures for the assimilation of the laws now existing in the several Provinces relating to Currency; Customs Excise and Revenue generally; for the adoption of an uniform Postal System; for the proper maintenance of Public Works and Properties of the Dominion; for the adoption of a well-considered Militia Organization and Defence; for the proper administration of Indian Affairs; for the introduction of uniform laws respecting Patents of Invention and discovery, the Naturalization of Aliens and the assimilation of Criminal Law and the laws relating to Bankruptcy and Insolvency.—Then there is the Intercolonial Railway, the Fisheries and Marine Interests, and Western Extension, questions which will give our representatives enough to do for the next twelve months, and to the satisfactory settlement of which Parliament must devote itself most assiduously and wisely, and with an intelligent appreciation of the wants and requirements of the whole country.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 6th, 1867.

To-day at 3 o'clock the Governor General arrived at the Senate Chamber in all the glory and pageantry of royalty.—The Chamber was crowded to excess with the beauty and fashion of the capital.

The speech which you receive with this mail is much longer than the generality of speeches from the Throne, but the circumstances which called it forth are of more than usual importance, and therefore excusable. The subjects brought before the Commons are numerous and highly important, which must receive the serious attention of the people's representatives.

On the return of the members of the Commons to their Chamber the Speaker read the address, when, on motion of Sir John A. McDonald, it was decided to take the Governor's speech into consideration to-morrow.

On the motion for adjournment, Mr. Dorion asked if any vacancies had occurred in the Cabinet, to which Sir John A. replied, that Mr. Archibald, having failed to secure a seat, had sent in his resignation, which had been accepted, and that he only held office until a successor was appointed. Mr. Galt also stated that the Minister of Finance had resigned and that explanations would be made to-morrow.

There is much surmising among the knowing ones as to the successor of Mr. Galt, and the reasons for his retirement.—From what I can learn there are more than private reasons for the course he has pursued. Some say that he was anxious to bring the whole power of the government to the aid of the Commercial Bank and prevent, by the whole resources of the country, the ruin which would follow the failure of that Bank. If this be true, whatever may have been the cause of opposition to such a policy, the people of the west will approve and commend his course.

The general impression to-day is that the Hon. Mr. Tilley will succeed to the office of Minister of Finance, and Mr. Rose succeed Mr. Tilley. An arrangement, which, if carried out, will be found acceptable to the country.

There seems to be some doubt yet as to the proper designation of the members of this House. The Secretary of State, Mr. Langevin, has sent his card to each member of the House as "M. C." This has led to some little discussion among the members, some looking upon the act as an intimation of the manner in which members should sign their names. M. C. is not favorably received. The old designation of M. P. is that which meets most favor, and will, I believe, be generally adopted.

QUINTE.

Post Office Statistics.

Deputy Postmaster General Griffin has furnished the following statistics of letters and newspapers circulated in Canada West and East, from 1863 to 1867 inclusive:

	Letters.	Newspapers.
1863.....	11,000,000	12,500,000
1864.....	11,500,000	12,500,000
1865.....	12,200,000	11,800,000
1866.....	13,000,000	12,8000,00
1867.....	14,200,000	14,000,000

Of the fourteen millions of newspapers for 1867, eight millions were Canadian and the other six for Europe and the States.

FROM MADOC.

From our own Correspondent.

MADOC, Nov. 7th, 1867.

It is some time since I have "dropped you a line," for the simple reason that we have been waiting for the "crushers," and like "hope deferred makes the heart sick." At one time, Oct. 20th, it was to start on Friday; then on Monday; positively on Tuesday; nothing should hinder on Wednesday; friends invited to witness the starting on Thursday, and after all the "blasted thing" has only just got to work. Well, the affairs of crushers like the schemes of men "gang aft glee." But at last the crushing mill of Scott & Taylor is to work and works well. The quartz is pouring in the mill from all quarters, and you may expect to hear something worth noting in a few days.

Notwithstanding the opinion of the 'Geologizers,'we are bound to have gold in this region. The Richardson Mine is very rich, the Barry mine is pronounced its equal, and gold, unmistakeably, is found all over the country. Of its richness and as to how well it will pay, the "crushers will a tale unfold, but like certain pugilists, gold mines seem to have a tendency to get into Chancery. I am told that the Barry is in this unenviable position, with a fair chance of being bled by the lawyers.

In the meantime, shafts are being pushed down with a great deal of vigor all over the country, and judging from the reports of practical miners, with prospects of success. The mines on Moore's farm are very promising, and are being worked, the quartz being piled up waiting for the crushers.

The proposition for a Local Bank, made by the Hon. Billa Flint, meets with a favorable reception in this section, and if stock was asked for, I am sure it would be heavily responded to. There is a strong feeling against the Montreal Bank for the injustice done to the Commercial, and through that Bank the many widows and orphans whose all was in its stock.

I noticed in an issue of the *Intelligencer* some time since, a note referring to the oldest Bible, which was said to bear date 1599. Captain Rowe, of this village, has one bearing date 1595, said Bible having been in the possession of one branch of the family for more than a hundred years. If it has been well read, and it looks like it, the amount of good done by that volume cannot be calculated.

You will hear from me soon again.

GRANITE.

To the Editor of the Daily Intelligencer.

MR. EDITOR,—A short time ago Mr. Keyes, a well-known auctioneer of this town, complained that I did not enter his name on a return of licenses called for by the Council. The reason his name did not appear is easily shown. The return called for, I understood, was for the licenses issued during the current year. The return was asked for in September, and made, I think, on the first day of October.

Auctioneer's licenses are different from other licenses, inasmuch as they all do not expire on a certain day in each year, but the time for which any one of them is issued is reckoned from the date thereof.

Mr. Keyes took out a yearly license on the third day of October, 1866, consequently he had not paid anything during 1867, up to the time the report was handed in, because his old license had not expired. On the 7th of October last, he took out a new license, which will be good for a year from that date. I know of no person who has a license and whose name does not appear on my books.

I am, sir, yours truly,

THOS. WILLS,
Treasurer, Belleville.

November 7th, 1867.

The Stock Market.

The Montreal *Gazette's* commercial article of yesterday, quotes stocks as follows:

Bank of Montreal stock was again sold to-day at 132¾, with buyers still at that price.

Ontario is in good demand at 101¼.

Commercial Bank is somewhat weaker.

Bank of Toronto enquired for at 116¼.

Bank Jacques Cartier was sold to-day at 109¼, and Montreal Telegraph to some extent at 133.

Sales of Richlieu Navigation Co. are reported at 112¾, but no more could be had at that price.

Sales of City Passenger Railway took place at 98. There is a somewhat active demand for this stock at 97.

There is a feeling of increasing confidence prevalent in financial circles with respect to the prospects of the Commercial Bank. It is rumored that the Board of Directors will probably receive the assistance of a well known financier.

Royal Canadian 95 to 100.

Gore Bank 82 to 85.

—A correspondent of the *San Francisco Bulletin*, speaking of the terrible carnage of the Chinese Taeping rebellion says: One district is described which yielded 90,000 chests of tea per annum before the war, and is now a desert waste. A belt of land 400 miles long by 300 miles wide is literally without an inhabitant.

Telegraphic News.

BY ATLANTIC CABLE.

FLORENCE, Nov. 7.—In the recent engagement near Monte Roturdo, the Papal troops were badly beaten until the arrival of the French troops, when the tide of battle was turned.

PARIS, Nov. 7.—There have been serious riots, incited by the party action, in different parts of Italy, particularly at Milan, where it was found necessary to call out the troops to quell the disturbance. Many of the rioters were killed and wounded.

Second Despatch.

LONDON, Nov. 7, noon.—The disturbances caused by want of employment and scarcity of food continue in Devonshire. Riots are reported at Torquay, Exmouth and other places in the county.

By the efforts of the authorities at Exeter, the capital of the county, the troubles were suppressed, and the town is now quiet. Many of the rioters are under arrest.

A Royal Commission to enquire into the Protestant Church Establishment in Ireland has been appointed, with the Earl of Standish as Chairman.

The London *Times* this morning has an editorial on the "Alabama" claims, commenting with much severity on the last despatch on the subject addressed by Secretary Seward to Mr. Adams.

The official returns of the Bank of England show a decrease of £364,000 sterling in the amount of bullion since October 31st.

The Italians assert that 5,000 French soldiers, under the command of General Pohles, belonging to the division which first reached Rome, came to the assistance of the Papal force during their last engagement with the insurgents, and the timely arrival of these reinforcements turned the tide of battle and caused the defeat of Garibaldi.

PARIS, Nov. 8.—The *Monuteur* to-day says the embarkation of soldiers at Toulon has ceased, and that no more troops will leave that port for Italy.

LONDON, Nov. 7.—The *Times* to-day predicts that should Napoleon fail in bringing about a general conference of the European powers, to settle the Roman question, he will abandon the defence of the temporal power of the Pope, and leave Italy free to decide upon the future Pontiff of Rome.

ST. PETERSBURG, Nov. 7.—It is reported here on good authority that the Sultan of Turkey is making unusual military preparations. In support of the report it is stated that 50,000 needle guns have recently been purchased by the Turkish War Department, while large shipments of rifled guns have been made to the Turkish forces. It is also known that the Government has been restoring the citadel, completing the walls and otherwise strengthening the fortifications at Kars.

BERLIN, Nov. 7.—All the towns of Schleswig-Holstein have joined the Zollverein, with the exception of Altona.

The election of deputies to the next Prussian Diet took place here to-day. All the successful candidates belong to the progressive party.

PARIS, Nov. 7, eve.—The financial statement published on the Bourse reports that the metallic reserve of the Bank of France has increased 300,000 francs during the past week.

FLORENCE, Nov. 7, eve.—Accounts of the last engagement near Rome have been received. During the battle on Sunday, Garibaldi brought into action 10,000 men. At one time during the day the Papal troops were beaten, and Garibaldi was gaining ground, when the French came up and turned his victory into a defeat.

It is now reported that the insurgents have lost 800 killed and wounded, and 2,000 were taken prisoners.

PARIS, Nov. 7.—Information has been received from Rome that the Pontifical authorities intend to prosecute those citizens who voted in favor of union with Italy. The French Government has made representations to the Pope, advising him not to allow this purpose to be carried into effect.

MANCHESTER, Nov. 8, eve.—At the session of the Special Commission to-day, the counsel for the Crown abandoned the count of murder in the remaining indictments, and all the prisoners now untried will be proceeded against on the charge of misdemeanour.

American Despatches.

NEW YORK, Nov. 7.—The iron rolling mills of Coriel & Walterton, on Tenth Street, were completely destroyed by fire this evening.

SEDALIA, Nov. 7.—A fire last night consumed property valued at about $200,000.

PITTSBURG, Nov. 7.—McKeown's large oil refinery, near this city, was completely destroyed by fire last night, also 1,500 barrels of oil and 3,000 empty barrels. The assistant fireman, Harry Cook, was burned to death. Another man was badly injured. Loss $500,000.

—Rev. Henry Ward Beecher is in Montreal.

—Commercial Bank Stock was purchased in Montreal yesterday at 25 per cent.

—A number of newspaper editors from St. John and Halifax were present at the opening of Parliament at Ottawa.

—General Sherman is soon to issue a general order announcing the formation of a treaty of peace with the Indians and directing the cessation of all hostilities among the troops in his military division.

—The trial of Mr. Davis has been postponed until the May term of the Richmond Court, at the request of counsel for the government, in order that Chief Justice Chase may preside and also to take measures for framing a new indictment.

—A very severe storm has visited western New York and the region of the lakes, and a number of lives were lost.

—A gentleman in England, who conceals his name, has given $13,500 for the erection of an edifice for a female boarding school at Sierra Leone, believing that Africa must be regenerated by the Africans themselves.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Toothe Ache, Cramp, Spasms, Billious Cholic, in fact all pain, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Excitement in a Circus.

We have laughed heartily over the following ludicrous story, and would not deprive our readers of the same enjoyment:

A number of years ago, when Michigan was a new country, in Livingston, county of———, there lived a family by the name of Clayton, and one called Perkins also, as well as a great many others.

Pete Clayton was a tall, fine looking fellow—a noble specimen of a backwoodsman—standing six feet two.

Pete had taken a shine to Miss Sally Perkins, and it was well known that they were engaged, but the day on which the knot was to be tied had not been divulged.

In the month of August, 1840, a circus came through for the first time, and in fact it was the first circus that had ever passed that way, and there was a great many people who had never seen one. When the important day arrrived, the town was filled to overflowing with a motley crowd, of course, and every young fellow had his Sal. Now Pete wanted to get married on the coming Christmas, but Sally wished to have it put off until the next Spring. When the ticket waggon was opened, the tent was filled in a hurry. Pete and Sally had been looking through the side show, and they were late getting in and the performance had already commenced. They walked around the entire ring, trying to find a seat, and although two thousand people could be seated, every seat was full.

"Never mind," said Sal, "I'd jest as lief stand up."

But the gallant Pete couldn't think of it and said—

"Wait a minit, and I'll get you a chair," and off he started, leaving Sal alone.

Just at this moment the clown came in, dressed in his usual costume, and dancing round the ring, stopped right in front of Sal, and began to sing—

"O Sally is the gal for me.

This caused Sal to blush, for she thought the clown was looking at her. As she stood near the ring, of course she hid the view of those lower seats behind her, and as usual on such occasions, the clown cracks his jokes at the offenders until they take the hint and find a seat, but she said she had rather stand up. At this the clown commenced his jokes, remarking to the ringmaster.

"There's a chance for me now."

"A chance for you!"

"Yes, don't you see that gal has lost her beau, and she is looking at me, I know," and turning three or four somersaults, he stopped in front of Sal, and began to sing,

"O, Sally is the gal for me,
I would not have no other,
And if Sal died to-morrow night,
I'd marry Sally's mother."

This, evidently meant for her, raised Sal's dander, and she burst out with.

"I'm the gal for you, am I? Marry my mother, would yer! You low-lived, spotted scum of the earth! If my feller was here he'd wallop you for that! I won't stay here another minit nor neither would any decent people either!" Saying this she rushed out of the tent amid roars of laughter.

The clown, assuming a comical attitude, remarked to the ringmaster that his grandfather was a remarkable man, and so was his grandmother too, but that gal beat all his forefathers.

At this juncture Pete rushed in, closely followed by Sal, and jumping into the ring he squared off at the clown and said:

"I'll teach you how to insult a female under my charge!" and letting fly at his opponent and taking him plump in the face, sent him to mother earth, at which he jumped on him and commenced kicking unmercifully.

Sally, standing on the outside of the ring clapped her hands and sung out:

"That's it, Pete, give him Jessie and we'll get married Christmas sure!"

At this moment the ringmaster and three or four others caught Pete and commenced to thrash him, when Pete's friends interfered and a general free fight ensued which completely broke up the circus.

Grain at Chicago.

The Chicago *Tribune* has the following remarks in regard to the accumulation of grain at that centre:

"The accumulation of grain, particularly wheat, at this point is attracting the bankers and others in financial circles, and there is a growing disposition to 'shut down' on making loans on grain to be held here for speculative purposes. There must now be fully one and one quarter million bushels wheat here, which represents nearly two millions of dollars. Add the amount loaned on the other grains, and the total sum will foot up in the neighbourhood of three millions—more than one half of the banking capital of the city. The packing season is opening, and some six or seven houses are already at work, and by the middle of the month, all will be in full blast. To meet the requirements of the packers and supply the wants of the mercantile community, is in itself a task of herculean proportions, and in order to do it successfully there must be less money locked up in grain. The balance of trade favors the East, which ought not to be the case at this time. There remains only a short season of navigation—say four weeks at the outside—and every exertion ought to be made to go into winter quarters with a small stock of grain in store. The daily receipts through the winter will steadily enlarge the stock, and at the opening of navigation in the spring we have no doubt there will be a supply of breadstuffs large enough to employ in its movement to the seaboard all the loanable funds at the command of the banks. It is an unwise policy for the banks to carry the present stock until the close of navigation. We hope they will pursue a different course and force the property to the seaboard, instead of keeping it here as a shuttlecock for hazardous operations, and a detriment to all legitimate business."

India & China Tea Company.

BUY YOUR TEA
DIRECT FROM
THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.
MARION HARLAND,
Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Marian,"
who contributes to no other monthly publication, will furnish a new novel for 1868, called "PHŒNIX ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued. MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music progressed expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department,

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department will be printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 50
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.
Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.
Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.
☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

FURNITURE WAREHOUSE.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 29 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THE DAILY INTELLIGENCER
BOOK AND JOB
PRINTING OFFICE.

THE public are informed that in connection with THE DAILY and WEEKLY INTELLIGENCER Newspaper, we have one of the best appointed

JOB DEPARTMENTS

in the country, and our facilities for turning out all kinds of Book and Job Printing are such as should command the attention of every business firm in the County of Hastings.

The Extensive Assortment

OF

TYPE AND POWER PRESSES

Gives us great advantages in the printing of

POSTERS & PROGRAMMES,

And for all kinds of

COMMERCIAL WORK,

SUCH AS

Letter Headings,

Note Headings,

Business Cards,

Bank Cheques,

Bill Heads,

Circulars,

Catalogues,

Receipts,

Pamphlets,

Bonds and Mortgages,

Deeds,

Posters,

Placards,

In any Size or, in any Colour.

CONSTITUTIONS,

BY-LAWS,

And every other variety of Pamphlets printed neatly and expeditiously.

Book and Job Printing

AT THE

LOWEST RATES.

Parties at a distance from Belleville in want of

Any Description of Printing,

Can have their wants supplied by sending their orders by mail. Their letters will receive prompt and careful attention.

M. BOWELL,
INTELLIGENCER BUILDING,
FRONT STREET, BELLEVILLE.

Ma 1D-

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,
in connection with
FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and Improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their "Improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

BILL HEADS,

AND all other kinds of JOB PRINTING, executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, NOVEMBER 9, 1867. No. 163.

In our Boat.

Stars trembling o'er us and sunset before us,
Mountains in shadow, forests asleep;
Down the dim river we float on forever,
Speak not, ah, breathe not—there's peace on the deep.

Come not, pale sorrow, flee till to-morrow,
Rest softly folling o'er eyelids that weep;
While down the river we float on forever,
Speak not, ah, breathe not—there's peace on the deep.

As the waves cover the depths we glide over,
So let the past in forgetfulness sleep,
While down the river we float on forever,
Speak not, ah, breathe not—there's peace on the deep.

Heaven shine above us, bless all that love us,
All whom we love in thy tenderness keep;
While down the river we float on forever,
Speak not, ah, breathe not—there's peace on the deep.

Admiral Hope.

An anecdote has been related of Admiral Hope's Christian firmness in rebuking swearing and improper language when uttered in his presence.

Not many years back, a gentleman in a London omnibus was using very violent language—swearing, and taking the name of the Lord Jesus Christ in vain, when he was quietly rebuked and requested to desist by an elderly gentleman sitting opposite. The first named having resented the interference, the old officer added—

"Well, sir, I am extremely sorry you resent my words, simply requesting you to forbear insulting a very dear and precious name, which I honor and love; and I can only say that, if you are dead to all feeling of consideration or common courtesy, and will persist in using the langnage you have done, you will compel me to do that which I shall be sorry to be obliged to do."

Upon this the angry man broke out afresh and defied him, when the Admiral stopped the omnibus and got out, the other watching him, expecting he would call a policeman, etc.; but seeing him walk quickly away, he remarked to another rider about his impertinence, when the person whom he addressed asked if he knew who it was that had been induced to remonstrate with him.

He replied: "No, nor did he care, except that he was very impertinent for threatening him in that way."

The other remarked that he was mistaken, for there had been no threat, but a meek and courteous remonstrance; that the man was a most kind and benevolent man, and a gallant officer, who was quite incapable of any mean action.

"What right had he to threaten me? Did he not say he would do something if I did not desist?" said the other.

"Yes," replied the gentleman; "but that was no idle threat, and he did what he said he would be obliged to do."

"And what was that?" asked the angry man.

"Why, get out and walk, which his age and infirmities will hardly allow him to do; and he spends a great part of his income in succoring the afflicted and the destitute, and so would not like to throw away even a sixpence."

"You don't mean to say *that* was what he meant?"

"What is his name?"

"I am quite positive it was all he meant," replied the other, "and his name is Admiral Hope—a true hearted, Christian man."

The angry man looked puzzled, then thoughtful, and at last called out, "God forgive me! what a fool I have been! Give me his address, in case I should miss him."

He stopped the omnibus and jumped out to seek his faithful reprover, adding that he hoped it would make a new man of him, for he never should forget the lesson to the last day of his life!

This anecdote was related by the gentleman himself, who became a humble follower of the Lord Jesus, but who has since gone to his rest, trusting only in that blessed name which he had so blasphemed and lightly spoken of. There was another soul to whom this little incident had been so richly blest that it had sunk into his heart and sprung up to everlasting life.

From 12,000 to 14,000 acres of land are included in the rose fields of Adrianople. The value of the ottar of roses made in 1866 was not far from £100,000. The oil is much adulterated before it reaches London, where it sells more readily than if pure.

The Globe tells a good story of an interview between the Bishop and his former friend and brother Presbyterian, Mr Jenkins, of Richmond Hill. Mr Jenkins was, in many respects, as original and possessed of quite as much force of character as his quondam associate, with a great deal more of accurate and extensive scholarship. On one occasion, it is reported, they met, when Dr Strachan, laying his hand on Mr Jenkins' arm, said, significantly, "Your coat is somewhat bare, Mr Jenkins." "Yes," was the reply, with equal significance, "it hasn't been turned yet."

Richelieu Company!
Roval Mail Through Line
between Montreal and Quebec.
ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt. L. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.
This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

Commercial Bank of Canada.

REPORT OF DIRECTORS.

The Directors of the Commercial Bank of Canada beg to submit the statement, showing the position of the Bank on the 31st day October, 1867.

At this moment, when their energies are necessarily concentrated upon the best means of providing for the liabilities of the Bank, and of effecting as favorable a settlement as possible for the Shareholders, the Directors do not deem it advisable to enter into a minute investigation of the immediate causes of the late unfortunate suspension of this institution. It will suffice to say that for a considerable period after the annual meeting of 25th June last, the public mind appeared to be perfectly free from all apprehension as to the solvency of the Bank. No withdrawals of deposits (except such as were distinctly traceable to ordinary business causes) seem to have taken place, until a few weeks prior to the suspension. From that date, however, the demands became daily more and more pressing and continuous, till at last, after an absolute withdrawal of deposits to the amount of one million and a quarter of dollars, and after receiving notice of further removals to the extent of six hundred thousand dollars, it became perfectly evident that nothing but the active intervention of Government, or of the other Banking institutions of the country, would avert the impending disaster. Applications for aid were made accordingly in the above named quarters, but having failed, it became the painful though anxious duty of the Directors, on the common interests of all concerned, to order a suspension of specie payments, in the hope of effecting some arrangements which would enable the Bank to resume business within the sixty days limited by its charter, either singly or in conjunction with some other similar institution.

Notwithstanding these unfavorable circumstances, the Directors while far from seeking to conceal the gravity of the calamity, yet cannot but feel that the position of the shareholders is by no means so desperate as it was at first imagined; and even should the Board be compelled to resort to the extreme measure of going into liquidation, they entertain strong hopes of realizing a considerable surplus.

The Directors have caused the necessary advertisements to be published, of their intention to apply to Parliament for power to enable them to carry into effect such changes in the position of the Bank as may ultimately be decided on; and also for a general meeting of the shareholders to be convened for the purpose of accepting or rejecting the proposed arrangements.

The Directors are strongly of opinion that the course indicated in the preceding paragraph, of applying to Parliament for powers to enable them to make such arrangements as may be necessary, is most desirable to adopt, and would recommend that resolutions to that effect be passed by this meeting.

The whole nevertheless respectfully submitted.

R. J. CARTWRIGHT,
President.

REPORT OF THE SPECIAL COMMITTEE.

To the Directors of the Commercial Bank of Canada :—

Referring to the report on the value of the Assets of the Commercial Bank, presented on the 13th September last, with the important changes which have occurred since that time in the situation of the Bank, and the proceedings consequent thereon, the undersigned deemed it necessary to submit the following supplemented remarks :—

The circumstances which occurred previous to and at the suspension of the Bank, having been recently published at great length in the newspapers, are known to the public. It is to be regretted, that the efforts made to sustain the Bank were not met in a more liberal spirit by the Institutions of a similar kind in the two provinces. If they had been so met, many of the inconveniences which have since occurred to some of these Institutions might have been avoided.

Since the suspension the efforts of the undersigned, in common with the members of the Board, have been directed to saving the property of the Bank, and deciding the various questions arising from day to day in the altered position of the Bank.

Soon after the publication of the report presented in September, in answer to various applications to that effect, a pledge was given by the undersigned that an informal meeting of the Shareholders residing in and near Montreal, would be held previous to the present general meeting, for the purpose of obtaining their views on the position of affairs. It was considered advisable, in consequence of the Suspension, that the meeting should take place, and it was accordingly held on the 29th October. It was largely attended, and a full and free discussion took place, which resulted in the unanimous passing of the following resolutions :

[The resolutions have already been published.]

During the discussion, Mr. E. H. King, the General Manager of the Bank of Montreal, intimated to the meeting that his Bank was now disposed to assist the Commercial Bank to resume business, provided on an examination, by persons appointed by him, of the affairs of the Bank; they proved satisfactory, and that sufficient security was given for the repayment of the amount which would have to be advanced.

The undersigned being determined not to neglect any chance of obtaining the necessary assistance, met at an early hour the following morning and opened a correspondence with the Bank of Montreal, which has continued from day to day. The whole is submitted herewith for the information of the Shareholders.

The undersigned were not long in perceiving that the only terms on which this assistance could be obtained were such as, in their opinion, would not be for the interest of the Shareholders of the Commercial Bank to agree to.

If it had been afforded previous to, and in time to prevent the Suspension, it would have been of the utmost importance, but now, after the credit of the Bank has been so seriously impaired, a mere temporary loan, repayable in a few months, though of little permanent benefit, would be highly desirable, if it could be obtained on suitable terms, and would gladly have been availed of as a means of enabling the Bank to resume business, and affording time to strengthen itself by such measures as seemed most advantageous.

But for permanent purposes it is necessary that fresh Capital, sufficient to restore public confidence, either by new Subscriptions of Stock, or by some other method, must be resorted to, and the undersigned recommend the meeting to-day to pass resolutions similar in character to those adopted in Montreal.

It will then be the duty of the Directors, prior to the meeting of 17th December, to make the best arrangements in their power for the interest of the Shareholders, which arrangements must then be submitted to the General Manager for ratification.

(Signed.) HUGH ALLAN,
L. H. HOLTON,
ALEX. MORRIS.

Montreal Time.

STR. ROCHESTER.—The steamer *Rochester* leaves Flint's Wharf on Monday at one o'clock, for Oswego, touching at Mill Point and Picton.

Daily Intelligencer.

BELLEVILLE, FRIDAY, NOV. 8.

☞ *SEE FOURTH PAGE.*

PENNY READINGS.—These Readings are becoming very popular, and if we are to judge from the audience present last Thursday evening in the Ontario Hall (which was crowded to overflowing), they will not soon lose their popularity. The selections of Mr. W. Hynes, Mr. J. J. B. Flint, and the Rev. Mr. Jones, were well received. The music, as usual, was excellent.

PROPELLOR BURNED.—About seven o'clock yesterday morning, the propellor *North* while wooding at Lambton village, twenty miles down the St. Clair River, was discovered to be on fire. The flames burst out from the fire hold and spread so rapidly that nothing could be done towards saving the vessel or cargo.—She was burned to the water's edge. Loss unknown; cause a mystery.

A CHANCE FOR OUR LA CROSSE PLAYERS.—Dr. Allen, Mayor of Cornwall, offers to back the St. Regis La Crosse Club against any other club in Canada, white or Indian, to the amount of $100, or a gold medal and flags worth that sum. All he asks is that the game shall be played at Cornwall, and twelve players on each side. What do our Belleville players think of the challenge?

ACCIDENT TO THE "KINGSTON."—On Thursday morning at half-past seven o'clock, the steamer *Kingston*, when going up the Gallops Rapids, struck a rock, and made a small hole in her forecastle. She was run ashore at Edwardsburg; they immediately sent for handpumps, and are now repairing the hole. It was expected that she would be able to proceed on her trip the next day.

LA CROSSE.—The match between the Volunteers and Civilians of the Belleville La Crosse Club, was resumed yesterday, when the Civilians won the game easily in about ten minutes.—After the match was decided, a "toss up" game was played, which was well contested on both sides, and some fine playing was exhibited. The Belleville club is improving very rapidly, and will soon be classed among the first in the Dominion.

NOVA SCOTIAN GOVERNMENT.—The following are the members of the Local Government of Nova Scotia, who were sworn in on Thursday: Provincial Secretary, Mr. Yall; Attorney-General, Mr. Wilkins; Commissioner of Mines and Minerals, Mr. Robertson; Treasurer, Mr. Annand; President of the Executive Council, Mr. McHeffey; Members of the Council, Messrs. Troop, Northrup, Flynn and Ferguson; Speaker of the Assembly, Mr. Marshall.

(For the Intelligencer.)

Frisky, lazy and chatterbox too,
Why a-begging dost thou wander!
For the poor, none never knew.

LIKEWISE NO. 2.

On the street for ever gadding—
Mud or sunshine, it matters not—
All you want is the "merchants' trifling,"
To gladden the heart of the Hottentot.

SIMILIBUS NO. 3.

Beauteous creature, free from guile (?)
Man's better half—by half a mile,
Refrain from begging a little while.
At home, at household duties toil
Till the Commercial again strikes oil.

The last effort was penned with a higher view of poesy. Rime clear threw

Yours lovingly,
JEAMES.

Belleville, Nov. 7, 1867.

—Money in the open market in London continues to command only one per cent. Eighteen months ago it was held at ten per cent.

"Mr. Galt and Mr. King."

Under the above heading the *Globe* has devoted a column of editorial to the *Intelligencer*, in which an attempt is made to prove that while attacking Mr. King for the course he pursued in refusing aid to the Commercial Bank, we shielded Mr. Galt from the effects of a scheme which brought about the Bank failure. It is somewhat singular that the *Globe* did not discover this point until we had charged it with an attempt to make political capital out of the misfortunes of a Bank rather than to argue the question upon its merits. It will be remembered that the *Globe* did not at first attempt to direct public opinion upon this question, but waited until the Press had spoken out plainly, when it sided with the popular cry, but lost sight of the real merits of the question, in its endeavor to fasten upon Mr. Galt the ruin which has befallen thousands who held stock in the unfortunate Bank. The relief of those who have been reduced to want, is a matter of small moment to the *Globe*, if a political opponent can be injured, George Brown extolled, and his policy held up to the world as an example to follow.

The *Globe* says, "without conceding that "the *Intelligencer* understands better than "the Managers of the 'other banks' what "they ought to have done fifteen months "since, we may explain to our cotemporary "that it is wrong in speaking of the "Commercial Bank as having taken so "decided a stand against Mr. Galt's scheme. "It was one of the first to cease opposing." We accept the correction with deep humility, but if a reference is had to the journals of the House, it will be found that Mr. Cartwright, the president of the Commercial Bank, continuously opposed the Government scheme, and we have good reasons to know that he regrets it now, believing that had the bank accepted the scheme, the present disaster would not have fallen upon that institution. But, says the *Globe*, "the unwillingness of the "banks to give up the privileges secured "to them by their charters, was the best "possible reason for respecting those pri "vileges—privileges which were based on "the good faith of Parliament. The "charters gave the banks a right to issue "'promissory notes.'" And again, "So "highly did the banks value their right "to issue notes, that they chose to retain "it, even under all the threatened disadvantages. Their decision affords some "evidence how great a wrong was done "them. They would not for a trifle, have "unanimously resolved to brave the power "which Mr. Galt was putting in Mr. "King's hands." And the result has proved that they were wrong. It does not follow by any means, that because a number of chartered institutions will not abandon a privilege they possess, that they act for the public good. Banks are established for two reasons. To facilitate commerce, and for capitalists to make money; the latter being the most important to those who invest in bank stock, and to whose interests bank directors most look. This being the fact, it is not unreasonable to suppose that course is and will be pursued in the management of a bank, which enables the largest dividend to be declared; hence it often follows, that the interests and necessities of the commercial community are not in unison with those of bank stock holders; therefore it is no evidence that a scheme which has for its object the changing of the paper currency is not best suited to the wants and requirements of a trading people, because the banks refuse to accept it. The present crisis is an evidence of the truth of this position.—Had the Commercial Bank joined the Bank of Montreal in withdrawing its own circulation and issuing Provincial bills, there would have been no run upon the Bank, and consequently no failure. Besides, was the course pursued by the "other Banks" that which was most beneficial to the stockholders? If we are to accept facts as they present themselves to us from experience, it was not. What has been the result of the acceptance by the Bank of Montreal of the Government scheme? Its stock has risen from a little above par to between 30 and 40 per cent premium. Ah, says the *Globe*, that proves that the country is paying too much to Mr. King and his Bank, and yet with the same breath declares that it was the interest of the Banks to reject the scheme. The *Globe* may write till doomsday, but it will fail to convince the people that a Dominion currency is not preferable to individual bank paper. The late failures have not been lost upon the people. They have convinced them that it is safer to hold notes issued upon the security of the whole Dominion than upon a precarious security.

The *Globe* also takes exception to our approval of Mr. Galt's manner of raising the funds necessary to meet the requirements of the country, and contends that the Bank of Montreal was compelled to loan a certain amount to the Government. This may be true, but the arrangement made by Mr. Holton, when Finance Minister, we take it, was not for a permanent loan, but to meet the temporary requirements of the Government, and it is well known that that Bank was clamoring for repayment of its advances and if money could be raised in the country, by which the interest would be retained here, and at the same time provide a circulating medium for the requirements of trade, it was the correct policy to pursue. If, says the *Globe*, this money had to be raised, why did not Mr. Galt accept the plan carried out by Mr. Hincks? So he did to a certain extent. Mr. Hincks did raise money to meet the immediate wants of the provincial exchequer by the issue of negotiable debentures and placing them upon the stock market alone. He tried the *Globe's* plan and it failed. The result was that he paid all the government employees with them, who in return had to submit to a discount when disposing of them to provide means to subsist upon. Does the *Globe* desire a return to that state of things? And would not such a scheme have been condemned as vehemently and energetically as that which was proposed by Mr. Galt? The truth is, all the blunders and follies of the past are wasted on such papers as the *Globe*.

The House Yesterday.

The House yesterday, was occupied in considering the Speech from the Throne. Hon. Mr. Fisher, from York, New Brunswick, moved the address, which was seconded by Mr. Desaulniers. Hon. Mr. Howe took the floor after the recess, and made a speech of two hours in length. Of course he took strong ground against Confederation, but his speech disappointed the whole House. It was not so brilliant as his reputation led members to expect, and produced very little effect upon the House. Hon. Mr. Tupper, of Nova Scotia, replied to him in a forcible and effective speech. It is supposed Mr. Howe will move an amendment to the address.

Explanations connected with the retirement of Mr. Galt from the Cabinet were made. Mr. Galt said there were two motives which actuated him in taking the step he did—personal interests and personal feelings. Of the first he should say nothing, but with regard to the second motive, personal feeling, he alluded to the failure which had recently occurred in Ontario. He had not been able to conceal from himself that the tendencies of public sentiment in that great and important province had been adverse to him personally. He had not failed to observe the injustice—if not the injustice the misconstruction, if not the misconstruction the misapprehension—with which his views and actions had been regarded in that province. He had seen in the public press his name coupled with the ruin of confiding shareholders; he had seen it laid at his door that many of those parties had been reduced from competence to penury through his action, and the feeling of injustice which existed against him fastened the responsibility upon him for whatever injury had been done. These things showed to him that his public usefulness was, to a considerable extent impaired. He said that he could not expect to receive the same generous support from members from Ontario which had formerly been accorded to him; he could not reasonably expect that the hon. members would be more favorably disposed towards him than the people whom they represent. He therefore felt that until all the facts connected with the banks were known, and until the sense of Justice returned to the public, his position in the government was one of weakness rather than of strength. He would state, however, on this the first occasion presented to himself as a member of the house, that he had done everything he could as a man and as a minister, to arrest the disaster to which he had alluded. He could point to the directors of the Commercial Bank for testimony to that effect; and more than that, he was happy to be able to say that he could appeal to the gentleman who had been most prominently opposed to his financial policy, the member for Chateauguay, for corroboration of the statement he had made.—He then read a resolution passed on the 23d of Oct. by the Board of Directors of the Commercial Bank, thanking him for his zealous and persevering exertions to avert disaster to that institution. He (Mr. Galt) had no doubt in time justice would be done to him, not only in regard to this but other matters. He preferred to wait for that time in an unofficial position; he no longer desired to assume the burdens of office, and become responsible for the duty of guiding the financial policy of the country.

Mr. CARTWRIGHT said it was a source of great pain to him to hear his honorable friend, Mr. Galt, misrepresented. The failure of the Commercial Bank was owing to the withdrawal of confidence on the part of depositors alone, and had not been caused by the policy of his honorable friend who had always been zealous in his efforts to render assistance to that institution. (Hear, hear.)

Mr. HOLTON said he was in a position to corroborate every word uttered by his hon. friend the Minister of Finance, and the member for Lennox and Addington, who happened to be president of the Commercial Bank of which he (Mr. Holton) was a director, and he could further say that the vote of thanks passed by the Board to the Minister of Finance was not a mere formal acknowledgment of services, but a sincere recognition of the valuable services which he had rendered.

Mr. MORRIS said it would be unbecoming in him if he were not to express his belief that everything which had been stated by his hon. friends the members for Chateauguay and Lennox and Addington, was perfectly true; that no institution, no board of directors, in circumstances of such extreme trial, could have received more aid, countenance and assistance than this one did from his hon. friend the Minister of Finance. He had had full opportunity of judging, and he could say that he believed the fall of the Commercial Bank was not in any wise to be attributed to the legislation of last session.

Lecture on "Babel" by Rev. Joseph Wild.

On last night, Neilson's Hall was crowded by an appreciative audience, anxious to hear the popular Lecturer, Rev. Joseph Wild, on the interesting subject of "Babel." The chair was occupied by the Mayor, Henry Corby, Esq., and the lecture lasted for one hour and a half.

Mr. Wild referred to the recent examinations made at Birs-Nimroud, or Babel, by Layard and other explorers; to the discovery of inscribed tablets that confirmed the sacred writers in their description of the rise and fall of that remarkable city. He explained the discrepancy between the account of the destruction of Babylon by the Persians, as related in Berosus, and that given by the sacred historian. An allusion to the admitted fact, that while Nebuchadnezzar was temporarily banished, his son, Belshazzar, reigned in his stead, brought out the remarkable truth that the promise to make Daniel the *third* ruler, was entirely corroborated by the recent graven stones which, after thousands of years, are now to be seen in the museums of London, Paris, and New York. Mr. Wild, with many other persons, holds the belief that the Continent of America was first peopled by the lost Ten Tribes of Israel; that the descendants of old Father Noah were scattered over the earth, and that the Shemites, or red people, having a Caucasian origin settled in America, travelling thitherward by way of Denmark and Lapland, through Behring Straits. He believed that the wonderful cities of Tumuli and Barrows, found in Mexico, Ohio, and the countries bordering on the Mississippi, had their origin, not with the Indian race, but with the descendants of those men that built Tadmor and Palmyra, and the city of Palestine; that they were the Master Masons of the age; men who could work with instruments of copper, and tin and bronze; men who knew the secrets of dyeing in scarlet and purple, which this age with its science could not reach; and men, whose memorials at the present hour reflect an undying lustre on their history. The Rev. Lecturer inclines to the belief that the Ark, with all its occupants, moved eastward from, probably, South Carolina, or on an island in mid-ocean, and that it still rests on Mount Arrast, covered with everlasting snow; that the land of Ophir must have been situated in some part of this continent, probably at Madoc, and that the Island Atlantis, of the Ancients, was evidently the American world, some centuries subsequently discovered by Columbus. Mr. Wild made a passing allusion to the Mystic brethren; showed that whether amidst the wilds of Australia, the savages of the Pacific, or the backwoods of the red man, the Masonic pass-word and signs were universally recognized.

Professor DeLauny, at the close of the lecture, exhibited the wonderful Magnesium Light.

A vote of thanks to Rev. Joseph Wild for his able and instructive address, proposed by Allan T. Petrie, Esq., and seconded by Dr. Stewart, was unanimously carried, and the crowded meeting dispersed.

It was one of the most interesting and instructive Lectures given by Rev. Mr. Wild, and the talented lecturer was repeatedly applauded during its delivery.

American Despatches.

FATHER POINT, Nov. 9.—The steamship "St. David" passed here at 1 o'clock this morning inward bound.

PITTSBURG, Nov. 8.—An explosion occurred this morning in the mill of Griffin & Dall. About twenty persons were killed and many wounded.

BOSTON, Nov. 8.—The brown gelding "John Stewart" attempted to trot twenty-one miles within an hour to-day for a bet of $2,000. Although he failed to accomplish the feat, he made the best twenty miles time on record, and trotted twenty and a half miles in 59 minutes 31¼ seconds.

NEW YORK, Nov. 9.—Miss Helen Evans yesterday took by mistake a dose of cyanide of potassium. She expired before assistance arrived.

Another exposure of revenue frauds among high parties in this city may be expected shortly.

The *Herald's* Washington special says Henry L. Smythe, Collector of New York, has been tendered the office of Postmaster General or Secretary of the Treasury. Secretary Chandler will resign on December 31st.

The *Times'* special says the Postmaster General's report will show this year a deficiency, instead of a small surplus.

General Grant has issued a circular stating that much property abandoned by rebels during the war, has since been occupied by them without making the required application for its restoration. All such property will be formally taken possession of by the Government on the 1st of January next and rented to refugees and freedmen.

OVER-DRESSING.—The N. Y. *Tribune* alluding to the style of over-dressing which prevails among the ladies of the United States, as well as among those of Canada, to the morning walking-dresses, clanking with jet and resplendent with all kinds of fancy trimming, says truly, that the fair wearers of all this inordinate and inappropriate finery are much mistaken if they imagine that their gaudy costume will "give the same effect of high style as the faultlessly fitting serge suit, serious and simple, with linen collar and cuffs, and plain hat do to the well born English girls who wear them."

—The *Minerve* says Mr. Galt's resignation is caused solely by unfortunate events, exclusively private and personal to himself.

—A canal across the Florida Peninsula is proposed. Such a canal would be less than a hundred miles long, and would shorten the voyage from New Orleans to New York several days, and be the means of avoiding the dangers of the Florida coast.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Teothe Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists.

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

A Sad but True Story.

A young doctor, residing in the suburbs of London, a short time back was aroused from his slumbers by a loud ringing at his bell about one o'clock in the morning. He went down stairs, and on opening the door a spectacle of woe and misery presented itself to his view. There was a human being clinging to the railing for support, covered with rags, shivering from head to foot as the cold wind blew through her tattered garments; but, above all, to add to her misery, she was labouring heavily under the effects of intoxicating liquors, of which she had apparently partaken freely. On speaking to her, she muttered something which he did not understand, and letting go her hold of the railings, she reeled and fell, her head coming in contact with the edge of the curbstone; he immediately picked her up and carried her into the house, laid her on the sofa, and endeavored to apply the usual restoratives, but which she refused; her wound became inflamed, and she died on the following morning in the same brutish state as when brought into the house. But such was not always her condition; for on examining her features, the young doctor recollected seeing her face before at his native village. Fanny R——, for such was her name, was the pride of her parents and the boast of the village. Mothers would hold her up as an example to their children, and every Sunday she was seen supporting and leading her aged parents to the village church. Years rolled by, and she gradually grew up into womanhood; her parents died and were buried in the old churchyard. After their death, she was united to a worthy young man. A family soon gathered around her, and her husband would return with pleasure and joy to his own fireside after the toils and cares of the day, knowing that the bright and cheerful faces of his wife and family would fully recompense him for his labor. But this state of things did not last for ever. One winter work was scarce, painfully did her husband see that his labor did not earn enough for their support, but willingly did the young wife turn out for the first time to obtain a little to add to their store; she was not at a loss for work, as those that knew her eagerly employed her. One day she had a day's washing to do at some little distance; it was a cold, raw morning, but she walked briskly, and on her arrival she was immediately set to work with the blood healthily flowing through her veins. The ladies for whom she was working were pious and kindhearted people, and when they came down, thinking that a glass of spirits would do her good on such a cold morning, they offered it to her. She at first refused, but they pressed her so warmly to partake of it that she drank it, and from that moment she fell, for, when on similiar occasions, she always looked for it, and felt at a loss without it. From one glass a day she got two, and from two to three, till she could go no more without it than she could her daily food. What were the effects of it? Her home became neglected; the children became slovenly and dirty in their appearance; her husband was less frquent at his home; with what anguish of mind did he expostulate with her on the error of her ways; she promised amendment, but those promises were as soon broken as made, and she went on until she became a confirmed drunkard. Her husband died of a broken heart. Her children became the inmates of the parish workhouse, and she became a wanderer and an outcast, and her end has been awfully depicted to you; she was ushered into the presence of her Maker without one moment's reflection. Think not my young friends, that this is a colored picture. It is a thing of almost daily occurrence.

Let us beware, lest by mistaken kindness, we place a stumbling-block in the way of others.—*London, Christian Times.*

Lord Rosse, the astronomer, who died the other day, was born in the year 1800, and succeeded his father to the title in 1841. Lord Rosse devoted himself with great zeal to the study of astronomy. He was created a Knight of the Legion of Honor for his astronomical researches at the close of the French Exhibition in 1855, and was at one time President of the Royal Society. He invented the celebrated telescope which bears his name, and kept up an observatory at his seat in Ireland up to the time of his demise.

ALL NIGHT WITH A SCOUNDREL.—On Wednesday night, about nine o'clock, a stranger—an ill-looking fellow—called at the house of a widow woman, near Richwood station, on the Atlantic and Great Western Railroad, and asked to stay all night. The woman indignantly refused the request, when the fellow deliberately locked the door, and, putting the key in his pocket, he told the woman that he was determined to stay all night and take rest and slumber, as he was almost worn out; and in order to prevent any surprise he would be under the necessity of securing her and her children in one bed—there being two in the room—and he would take the other. The widow and her children then laid down with their clothing on; and their jailer, after placing his revolver and an axe on a table at the head of the other bed, laid down to rest, after threatening to shoot his prisoners it they should attempt to get out of bed. She was too badly scared to sleep much. About four o'clock in the morning the fellow awoke, and directed the widow to get him some breakfast as soon as she possibly could. Of course she obeyed, and after eating a hearty breakfast the scamp thanked his hostess, and, bidding her good by, he left the house, and rushed out into the woods near by and disappeared. This man is said to answer exactly the description of the man who was arrested at Urbana the next day, 24th, on suspicion of being one of the murderers of Mr. Hertzler.—*Dayton (Ohio) Journal.*

BUY YOUR TEA
DIRECT FROM
THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, 5/8 chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and patroness of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.

MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PERMIE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in Godey. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued. MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—Godey's is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 00
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $6 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 29 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, MONDAY EVENING, NOVEMBER 11, 1867. No. 164.

By the Beach.

I heard the solemn flow
Of rhythmic waves upon the stony beach,
I watched them come and go,
Like fleeting thoughts whose depths we fail to reach.

I saw the waste of sea
Looming afar beyond my narrow ken,
Like some deep mystery
Beyond the keen research of thoughtful men.

I watched the billows roll,
Shaping their course in endless tracks of foam,
Like alms that have no goal,
Splitting in froth where'er they yearn to roam.

I heard the dreary cries
And moans of waves that never more depart,
Like sounds of tears and sighs,
Welling from the wild ocean of man's heart.

When low upon the deep
The winged sails of ships dipped peacefully;
Like sudden hopes that sweep
Upon the loneliest and drearest sea.

And then I heard a voice
Of merry children on the noisy beach,
That made the heart rejoice,
And sweetened ocean's and mysterious speech.

And mingled with the sound,
The laughing sailors, boisterous in their mirth
Walked answering glee around,
And drove the soul of melancholy forth.

O pitiless waves afar!
O sorrowing echoes from the mournful sea!
There's music in your jar,
To him who understands your mystery.

So let him only hear,
The purling ebb and flow of happier cries,
So that my spirit's ear
May grasp, and keep earth's sweeter melodies.

Letter from an Italian Countess.

The *Opinion Nationale*, Garibaldian, gives the following letter, which an Italian lady has written to its editor, M. Guerouit:—

"Public opinion in Europe must not be under any misapprehension as to the unanimity of Italian sentiments on the Roman question. The abolition of the temporal power is for all Italy the condition *sine qua non* of the spontaneous return of the population to the religion of their fathers to that religion from which the abuses of the Ecclesiastical Government have made them gradually deviate, and fall into indifferentism. Italy—the cradle of Catholicity, the glorious tomb of the first martyrs of Christianity, the country where we should again light up the torch of the Faith should it ever be in danger of being put out—Italy now sees its soil ravaged by the desolating struggle of the clerical power against liberty. The present century, so fertile in events decided and in questions resolved, witnesses a last crusade of Catholics against Catholics. Where are we to look for the prime mover of this terrible conflict? Alas! it is melancholy to say it—but it is to be found in the venerated head of our Divine Religion—in His Holiness, Pius IX.—in the Spiritual Father of all these men who fall at the gates of that sacred Rome where the voice of the Pontiff must pronounce each day, in the name of the crucified God, "*Pax vobiscum*," to all the people of the earth.

"We Italian women, enlightened by a long and painful experience of the necessities of our country, have been the first to ardently desire the abolition of the temporal power, which, keeping our children from the Church, diminishes in their eyes the august head of our holy religion, giving him the petty proportions of a Prince fallen by the national will, of a Sovereign without a people and without a crown. Our heart admires, without understanding it, the courageous mothers who, attatched by ancient bonds to the traditions of the past, send from the shores of Ireland, from Belgium, and from France, their sons to combat and to die in defence of the fragments of the earthly kingdom of His Holiness; those sons whom they bless in the name of God whom we pray to for our own. These children so dear, of whom the greater number can never return to them, come dazzled by a blind faith to combat our patriots as in other times they combatted the infidels. But let the whole world know that we Italian women, who preserve as a sacred deposit to transmit to our descendants the faith and religion of our fathers; that we, as Italian women, are ready to sacrifice all that is dear to us for the deliverance of our country. We offer ourselves as guarantee for the respect which our children will never cease to show to the sacred head of the spiritual power—to the Vicar of our Lord—to him who soon (as we believe and hope) will stretch forth his hand to bless us, saying, with his Divine Master, "My kingdom is not of this world."

"Countess Marie Montemerli.

"Florence, Oct. 17."

Every man is in danger of becoming a drunkard who is in the habit of drinking ardent spirits on any of the following occasions:—1. When he is warm. 2. When he is cold. 3. When he is wet. 4. When he is dry. 5. When he is dull. 6. When he is lively. 7. When he travels. 8. When he is at home. 9. When he is in company. 10. When he is alone. 11. When he is at work. 12. When he is idle. 13. Before meals. 14. After meals. 15. When he gets up. 16. When he goes to bed. 17. On holidays. 18. On public occasions. 19 On any day: or, 20, On any occasion.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
The principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

SALE AT MONTREAL.—The attention of the trade is directed to the great Catalogue Auction Sale by Benning & Barsalou, on the 20th of November. This will afford an excellent opportunity for Dry Goods Merchants to replenish their stocks.

Mr. King and the Commercial Bank.

A lengthy correspondence, of recent date, between Mr. King and Messrs. L. H. Holton, Hugh Allan, and Alex. Morris, appears in the Montreal papers of Saturday. The correspondence was opened by Messrs. Holton and Allan, in consequence of what passed at the meeting of the shareholders on the 30th October. Their first letter was addressed to Mr. King, enquiring whether the Montreal Bank would, by itself, or in co-operation with other banks, come to the assistance of the Commercial. Mr. King replies that his directors are desirous of assisting the Commercial, but insisted, first, that he or other representatives, might make "such an examination of the liabilities and assets of the Commercial Bank, as they now stand, as would enable them to form their own estimate of the nature and extent of the assistance required and the conditions upon which it could be afforded." To this Messrs. Allan & Co. replied, if they could be assured that proper assistance would be afforded, they would be prepared "to allow as close an examination into its Liabilities and Assets as may be considered necessary."

In reply to this, Mr. King asked for the amount, and assistance they proposed.—The special directors replied that $1,000,000 or $1,250,000 would be required, "with an assumed prospect of maintaining its position," the forms and terms to be discussed in a personal interview. Mr. King answers that he has laid the correspondence before his Board, and that the Directors, while still desirous of assisting the bank, insisted that "the examination of the assets and liabilities referred to should take place before they are in a position finally to say whether the Bank of itself, or in connection with others, afford the full measure of assistance necessary, and before the terms and conditions can be discussed in detail." This was too much of a good thing, and rather more than the Special Directors were prepared to concede, and they replied, "regretting that the Directors of the Bank of Montreal should insist upon an examination into the Liabilities and Assets of the Commercial Bank, not only before they will promise to give the requisite aid, if the result of such examination should be satisfactory, but before they will even discuss the terms and conditions of any possible arrangement. In view of the various plans now under consideration for the rehabilitation of the Commercial Bank, we think it would be in the last degree injurious to its interests to submit its affairs in detail to an officer of another Bank, except with the express understanding that adequate assistance will be forthcoming in the event of the representations on which we propose to found the negotiations being proved on examination to be well founded. There is surely nothing unreasonable in our asking that our representations may be assumed to be accurate until the negotiations reach a point at which their verification would become a matter of practical importance to the parties professing to advance the money required by the Commercial bank. At that point of the negotiations, we repeat, we shall be prepared to submit the Liabilities and Assets of the Bank to as close an examination as may be considered necessary."

The Directors further said that a part of the security offered would be the Detroit and Milwaukee Railway Bonds, which Mr. King had suggested himself, should be the basis of the proposed advance. Mr. King fenced considerably in his answer to these propositions, wishing to take "broader ground," and wanting "something more definite to lay before the Directors," and in anticipation of something "more definite" before four o'clock, had summoned a meeting of his Directors. Messrs. Holton & Co. thanked Mr. King for his promptness, and called his attention to the fact that their object was to secure the early resumption of the Commercial Bank, "not assistance to liquidate, nor the virtual administration of its affairs by another Bank."—They still desired to open up negotiations on the basis they proposed, and desired a personal interview with the Directors of the Montreal Bank, which they thought would greatly accelerate matters. As to security, they proposed to give $75,00000 in Milwaukee Bonds, and the remainder in Bills receivable. Mr. King replies that his Directors had held their meeting, and after considering the proposition, decided that it was one which they could not receive, and then follows a whining regret that the Directors of the Commercial did not meet Mr. King in a better spirit.

And thus fell through a second attempt at negotiation with the Montreal Bank. The correspondence was first opened by the Special Directors of the Commercial Bank, in consequence of some proposition having been made by Mr. King, with a view to resumption. The Directors were willing to submit a statement of their affairs in detail, were willing to allow Mr. King or any of his subordinates to examine their own books, first wanting an assurance that he would give them relief if he found their affairs in a satisfactory condition; in fact, were willing to do almost anything to secure the resumption of the Bank, except to forget that they were men. But Mr. King at once came down with a proposition which, in view of the circumstances that had already taken place, no man nor body of men could accept. The Directors did perfectly right in refusing to submit its affairs in detail to an officer of another Bank, particularly an officer whose mysterious conduct compelled the Commercial to go to the wall, and well nigh produced the ruin of another Bank, except with the express understanding that that assistance should be given if the affairs of the Bank were in a solvent condition. The whole correspondence shows that while professing friendship for the ruined Bank and expressing a warm desire to assist it, all his offers of aid were accompanied with conditions which no man nor body of men, not lost to all self-respect could accept.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 8th, 1867.

Nothing has transpired in reference to the filling of the vacancies in the Cabinet, further than what was stated by Mr. McDonald in the House to-day, during the debate upon the address, which was that negotiations were going on, and that so soon as completed, information would be given to the House.

The House, to-day, sat for half an hour with closed doors, discussing, it was supposed, the question of the opening of the saloon in the Parliament buildings, and the result was, so far as I can learn out of doors, that this resort of tippling and drinking is to be abolished altogether. It is also said that Sir John A. McDonald took the lead in this much needed reform, and that he was followed and supported by the Hon. John S. McDonald, and the Hon. P. J. O. Chauveau, the Premiers from Ontario and Quebec. Members will be enabled only after this to obtain a cup of tea or coffee, but no liquor. If they must have this, they will have to go to the saloons or taverns in the city, or keep it in their flasks. The beginning is a good one, and it is to be hoped that it may be continued.

The Address to the Governor in answer to the speech from the Throne was moved by the Hon. Charles Fisher, from New Brunswick, and seconded by Mr. Desaulniers. Mr. Fisher is what may be termed a very fair speaker; his voice is not strong, but he makes his points well. He is what may be termed a Liberal, but has, like many others, thrown the weight of his influence into the scale of the Union party. Immediately after the speeches of the mover and seconder of the Address, Mr. Galt gave his Ministerial explanations for leaving the Cabinet, which consisted merely of private reasons, but it was evident there was something behind which did not come out. One important fact transpired, however, which fully justifies the course you have taken in reference to this gentleman and the failure of the Commercial Bank. You will see by the report that he, of all the members of the Cabinet, was the most anxious to render assistance to the Bank to prevent the disaster which followed, and it was amusing to watch the countenances of the Grits when Messrs. Cartwright, Morris and Holton confirmed the statement made by Mr. Galt. The first two declared that the financial scheme of last session had nothing whatever to do with the suspension of the Bank, that it arose entirely from a withdrawal of confidence by the people, and a consequent run upon the Bank by the depositors. These testimonies in his favor were evidently gall and wormwood to the great McKenzie, who declared that the feeling in the west was that the failure was caused by the policy of the Financial Minister of last session. No attention was paid to him, and the debate proceeded by Mr. Howe taking the floor. He occupied the attention of the House for an hour and a half, in attempting to prove that the union of the provinces was a wrong and an injustice to Nova Scotia. His arguments were weak, and while the pleasant manner in which he brought them before the House pleased and captivated his hearers, the effect that was intended to be produced fell flat and unprofitable upon it. Those who have read his election speeches delivered in Nova Scotia during the past election know what he said upon this question, as the attempt was a mere repetition of them. His ideal of a Government is evidently that south of the line, and his attempt at belittling our power to defend this and the western territory, even with the aid of the power of England, was not well received by the House, and had such sentiments fallen from the lips of any man, but one whose age and position command a respect, they would have been received in a very different spirit, but there is a respect felt for the "eloquent old man," which I should judge would receive anything which may fall from his lips. He was ably answered by the Hon. Mr. Tupper, the only Unionist elected for Nova Scotia. His speech was forcible, argumentative, and to the point, and had a powerful effect upon the House and the galleries. He pointed out that while the petitions which were presented to the House of Commons, professed to have 40,000 signatures, when counted had but 31,000, and that while the petitions contained 31,000 signatures, the anti Unionists brought to the polls but 19,500 voters out of 47,000 in the country, and that the Unionists polled 15,000, and that by giving the anti's two-thirds of the voters in the country which were not contested, would give them but 7,500 majority in the whole country. He also pointed out the important fact that the question of Union and anti-Union did not come before the people exclusively, but that local questions entered more into the different contests than the question of Union of the Provinces. He told the House that when the Finance Minister brought down the expenditure, it would be found that Nova Scotia would have no cause to complain, but it would be found that the other Provinces would be the ones to find fault. He was loudly applauded when he sat down, and those who followed him were reluctantly listened to.

The House adjourned about twelve o'clock until Monday. QUINTE.

FROM BOSTON.

From our Occasional.

BOSTON, Oct. 30, 1867.

Rain! rain! rain! such is the bill of fare by that mysterious and very much persecuted personage, the clerk of the weather, to the people of this part of the world during the last two days. Commencing yesterday morning, it poured down during the whole of the day, and has continued to do so with very little intermission ever since, to the utter disgust of every one whose business requires them to be out of doors. But however, we should not grumble, by any means; for the weather, during the two weeks preceding the storm, has been all that could be desired—genuine autumn days, warm and hazy.

The election of Governor for the State of Massachusetts takes place on Tuesday next, and there is considerable excitement in regard to it. The contest lies between the present Governor (Bullock) and the Democratic candidate, John Quincy Adams. There is a great deal of interest taken in it by the people, on account of the Maine liquor law, which is now in force in this State. As this measure was instituted by the Republicans, the Democratic party are seeking to upset it, and of course the views of the people in regard to it will be expressed by their vote on Tuesday next. But, as this State has always gone the Republican ticket, I think, from the expressions of those with whom I have conversed on the subject, that it is very doubtful if the Democrats will be able to have their own way. There is a strong party here, however (composed of Democrats and those Republicans to whom the present law is obnoxious), called the P. L. L.'s, or People's Liquor League, a secret society formed for the purpose of upsetting the present liquor law. All the "old soakers" are anxiously awaiting the denoument of the affair, for at present these poor "thirsty souls" have to content themselves with lager, and even that poor consolation is denied them after 9 o'clock every night, except, of course, what they can get on the sly. That liquor can be had in that way there can be no doubt, as I have seen as many as twenty drunken people on the street on a Saturday night.

NOVEMBER 2nd.

The city is to-day in mourning for the loss of ex-Governor Andrew, who died very suddenly on Wednesday last. He was one of the smartest men in the country, and very popular throughout this State. His funeral took place at noon to-day, and was very largely attended. Stores were, as a general thing closed, and flags hung at half-mast throughout the entire city. The people are sad, and all feel as if they had lost a friend.

Some excitement was caused on Thursday by the arrival of Weston, the pedestrian, who is walking from Portland to Chicago for a wager of $10,000, this city being on his route. The street in front of the Parker House, where he put up, was perfectly jammed with people anxious to get a sight at him. He left the city early in the evening, followed up Washington Street by a crowd of men and boys, who had to run rather fast to keep up with him.

That the people of Boston are fond of amusements cannot be doubted by any person that reads the city papers. As the cold weather comes on space, the theatres, concert halls, and everything of that sort prepare to make their harvest. It is a fact spoken of by the Bostonians with pride, that in no city of the United States is the drama better supported or better appreciated than in this city. As I have not devoted any portion of my former letters to this subject, I propose, with your kind permission, Mr. Editor, to devote the remaining portion of this letter to a short article on the amusements of this city, trusting that it may serve to interest at least a few of the many readers of THE INTELLIGENCER. First and foremost in this line stands the

BOSTON THEATRE.

This very fine temple of the drama is acknowledged by all to be the largest and best arranged place of that description in the country. Its magnificent proportions are furnished in good style, and it can comfortably seat several thousand people. It opened for the season in September last, and is under the management of J. B. Booth, brother of the celebrated Edwin Booth, and the late notorious J. Wilkes Booth. The present attractions are the Hanlon Bros., gymnasts. Harry Gurr, the champion swimmer of the world, from London, Eng., who disports himself in a large glass tank on the stage, and can be seen eating, drinking, smoking, &c., entirely covered by water. Petite Ethardo, the spiral ascentionist,—that created great excitement at the Crystal Palace, London, a few months ago,—who performs many novel feats to delighted audiences. On Monday next comes the great Bistori, for a short engagement, opening with Giacametta's drama of "Maric Antoniette," which was written expressly for her, and in which she has just achieved a great triumph in New York. The fine opera troupe of Max Strakosch will appear during November, and will no doubt draw full houses. These with other attractions during the coming winter, combine to make the Boston Theatre a very popular place of resort.

The Boston Museum is another very fine Theatre, and is a very fashionable place of resort. It supports one of the best stock companies in the city, and the production of old English comedies, and novelties of a standard character, is a speciality only to be found at this place. The popular play of "Caste" has lately had a fine run at this Theatre, and was nightly applauded by delighted audiences. In fact, everything put upon the boards is successful, and the most fastidious could not fail to be pleased.

The Continental and Howard, are very popular with the masses, and, as a general thing, "put up" plays of a sensational character.—The reproduction of the "Black Crook" at the former, was very successful, augmented, as it was, by new scenic effects, &c., and drew crowds to witness it. Edwin Forrest, the great tragedian, has also just closed a very successful engagement at this theatre.

The Theatre Comique, as the name signifies, devotes itself to the production of pantomimes, burlesques, etc.

The Morris Brothers Minstrels are very popular, and their comicalities are sure to draw, not only the crowd, but the broad grins on the faces of those who attend. Their principal "forte" is to burlesque the different plays of other theatres; their opera house is a very neat affair, and everything is conducted in the best style.

Notwithstanding the above places of resort, the "bon ton" of the city have long felt the want of a theatre, such an one as they could more especially call their own, where the fashions could be displayed to the best advantage, also, one devoted to pure comedy of the highest standard, which would receive the encouragement of the educated and refined, and thus attain high ends and aims. Such an one they now possess. Two enterprising citizens, Messrs. Follett and Cheney (the former the gallant Commodore of the Boston Yacht Club, mentioned about in one of my former letters), a few short months ago, commenced the erection of a new theatre, to be called Selwyns, after the manager whom they have engaged to conduct it, and it now stands the model theatre of the country.—Although not so large as the Boston, it exceeds that theatre in beauty and style of finish. The symmetry of the whole interior, and the painting and frescoing are really beautiful, amber, blue, and gold being the prevailing tints. The seating capacity of the house is between 1,600 and 1,700. Monday night last witnessed the opening performance, and the scene was very brilliant, in fact, exceeding anything in the memory of that distinguished personage, "the oldest inhabitant."

There are a great many other amusements on the *tapis* for the coming winter, such as concerts, by Parepa, Brignoli, Carl Rosa and others; oratorios, lectures, &c. There are different associations who have their several courses of lectures by such people as Horace Greeley, Chas. Sumner, Wendell Phillips, Henry Ward Beecher, E. H. Chapin, Anna Dickinson, Geo. Vandenhoff (not the one that failed to appear in Belleville a short time ago) and other distinguished personages, which are not only interesting but instructive.

There are also a great many Sunday evening lectures, some of which are, to say the least, questionable, on such subjects as spiritualism, &c. The majority of people who attend such places go for the purpose of being amused, and not of a class who are not in the habit of attending Church. We have also Sunday evening preaching in the Continental Theatre by the Rev. Henry Morgan, who is a sort of city missionary devoting the greater part of his time to the bootblacks and news boys. The Rev. gentleman draws large houses of non church-goers and others, whom he does not fail to amuse, at the rate of fifteen cents a head. When a good hit is made, to use a theatrical phrase, it "brings down the house." And as if that was not enough of that sort of thing, we are to have an anti-temperance lecture next Sunday evening in the Boston Theatre by another Reverend (?)

What the next sensation may be "deponent sayeth not;" and as I am afraid I have already spun this letter to a great length, I will "subside." W.

—The Democratic majority in New York foots up 30,000.

—Fever and small-pox are very prevalent in Toronto.

—Fisk's saw mill, at Sunnidale, was destroyed by fire yesterday. A large quantity of finished lumber was burned.

—We observe by the Canada *Gazette*, that Elijah Horton, of the County of Hastings, has obtained a second-class certificate from the commandant of the School for Military instruction.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Nov. 10, eve.—Garibaldi's friends state that at the recent battle near Monte Rotundo, Garibaldi had only 4,000 men.

The *Standard*, a semi-official journal of this city, says that the sons of Garibaldi have not been captured, but are still at large, though concealed.

FLORENCE, Nov. 10.—Gen. Garibaldi will be tried at Florence.

LIVERPOOL, Nov. 11, noon.—Stock of cotton in port 571,000 bales, of which 133,000 are American. Market opens firmer; Orleans 9d; uplands 8⅝d.

LONDON, Nov. 11, noon.—Consols 94⅜; 5-20's 70⅝; I C 82; Erie 47.

American Despatches.

NEW YORK, Nov. 10.—The *Herald's* Havana special gives additional particulars of the late tornado at St. Thomas. Several American vessels were driven ashore and dismasted, but no mention is made of any lost. Of the vessels destroyed 18 were British, 9 French, 2 Spanish, 8 Danish, 4 Dutch, 4 German, 1 Bremen, 1 Moravian and 4 Venezuelan.

NEW YORK, Nov. 10.—A robbery of jewelry to the amount of $27,000 is reported, but names withheld.

The *Times'* Knoxville special says: An ex-rebel soldier was arrested yesterday, while offering for sale $10,000 worth of jewelry and watches marked "Hampton & Preston." The prisoner claims to have found the articles during the war, buried with other jewelry.

The *Herald's* city of Mexico correspondence of October 18 says: Great preparations are making for the reception of Senor Romero and General Banks, who it was thought had sailed together.

Lopez had published a pamphlet vindicating himself against the charge of treachery. Prince Salm Salm denies Lopez' statements *in toto*, and challenges him to mortal combat as a traitor and murderer.

ST. LOUIS, Nov. 9.—A fire to-night, near the corner of Oliver and Seventh streets, destroyed property to the amount of $25,000.

Government officers recently seized about 3,000 barrels of highwines at Hinchin, Illinois. The owners attempted to rescue it, but failed. It is valued at $300,000.

PHILADELPHIA, Nov. 10.—The steamer "Hendrick Hudson," bound hence for Havana, sank in fifteen fathoms of water twenty miles from Havana. Passengers and crew saved.

The *Herald's* special says: Notwithstanding the determination of the Senior Counsel of the Government to postpone the trial of Jeff. Davis until May, the Chandler Junior Counsel are making great efforts to bring the case to hearing this month.

NEW YORK, Nov. 10.—Advices from Chillave to October 10, says the new Minister of Foreign Affairs had stated in Congress that it was not intended to withdraw any of the demands made by Chili as a basis of settlement with Spain. The war spirit was rampant, and everybody was wishing the Spanish fleet would come to Valparieo, where the defences are still rapidly going on. Statements had been currently reported that a one year's truce between the powers had been agreed upon, but they were not credited. It is now stated that a messenger passed through Havanna just before the bombardment of Valparieo in 1866, bearing instructions from Washington to General Kilpatrick and Commodore Rogers, to prevent the bombardment, and to protect the city. He arrived too late, however. The Chilians propose sending aid to Prado to suppress the revolt in Peru.

NEW YORK, Nov. 10.—The *Herald's* Paris letter of October 30th, says of the Roman expedition as an evidence of the state of intense anxiety and hesitation in which the Emperor had been in this affair, that the order for the departure of the fleet was sent to Toulon on Saturday morning at four o'clock, but that at nine o'clock the Emperor relented and thought he had acted too hastily, and sent a counter-order to Maritime Prefect at Toulon, ordering him to stop the fleet. The Prefect replied that it was too late, as the fleet had sailed three hours previous. It was believed the cause of the transmission of the first order was the arrival in Paris during the night of Friday of an important communication from Florence, giving reasons for the refusal of General Cialdini to attempt to form a new Cabinet.

CHICAGO, Nov. 10.—The Creighton House, outside the city limits, was destroyed by fire yesterday. Loss $30,000. Ten horses were burned to death.

This morning the boilers in Marble's flouring mill, Canal Street, exploded with tremendous violence, tearing the building to fragments, and scattering the *debris* over the entire neighborhood. The iron roof was thrown one hundred feet. The building took fire and was entirely consumed. Loss $75,000. The engineer is supposed to have been buried in the ruins.

A fire this afternoon destroyed the block between Wells and LaSalle Streets. Ten buildings, occupied as saloons and boarding houses, were destroyed. Loss $70,000.

LOUISVILLE, Nov. 10.—The storm of Friday night did considerable damage at Franklin, Kentucky. At Greencastle, Indiana, $25,000 worth of property was destroyed. In the country much valuable timber was blown down and considerable damage done.

SPRINGFIELD, Mass., Nov. 10.—Williams' basket manufactory, at Northampton, was burned this morning. Loss $50,000.

CHICAGO, Nov. 9.—Flour quiet. Wheat quiet; No. 1 at $1 85; No. 2 at $1 74½ to $1 74¾.—Corn dull and declined 1c to 1½c; sales at $1 02 for No. 1, and $1 51 to $1 52 for No. 2. Oats dull at 53c 53½c. Rye quiet, at $1 25 to $1 27. Barley advanced 2c: sales at $1 12 to $1 14 for

No. 2. Provisions quiet, but unchanged. Cattle dull; sales at $6 00 to $6 50 for best shipping. Live Hogs firm; sales at $5 75 to $6 20 for good to extra. Receipts—110,000 bbls flour; 11,000 bus wheat; 70,000 bush corn; 21,000 bush oats; 22,000 hogs. Shipments—7,500 bbls flour; 710,000 bush corn; 31,000 bush. oats. Freights dull but steady.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Toothe Ache, Cramps, Spasms, Bililous Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly occurs you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adult—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS,—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most dangerous PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Food for Fattening Fowls.

The best food for fattening poultry is sweet fresh oatmeal or barley meal, mixed either with scalding milk or water. Cooped fowls should be supplied with fresh food three times a day—namely, at daybreak, or as soon after as possible, at mid-day, and again at roosting time; as much as they can eat should be given to the fowls on each occasion, but no more than can be devoured by the next meal; should any be left, it should be removed and given to the other fowls; as, if kept, it is apt to become sour when the birds will not eat it freely. The troughs for the soft ment should be scalded out daily, which can be done conveniently by having a supply of spare ones.

In addition to soft food, a supply of fresh, clean water must be constantly present,and a little gravel must be given daily, otherwise the grinding action of the gizzard, which is necessary to the due digestion of food, does not go on satisfactorily; the supply of a little green food will be found very advantageous to health; a little shred cabbage or some turnip tops, or green turf to pick at occasionally, being all that is required.

A variation in the diet will be found very conducitve to an increased appetite, and therefore the occasional substitution of a feed of boiled barley for the slaked oatmeal is desirable. Some feeders have divisions in their troughs, or, still better, a small extra trough, which always contains some grains for the fowls to peck at.

Should the birds be required to be very fat, some mutton suet or trimmings of the loins may be chopped up and scalded with the meal, or they may be boiled in the milk or water preparatory to its being poured over the food, and the fat of fowls so fattened will be found exceedingly firm.

In the course of about a fortnight to three weeks at the utmost, a fowl will have attained, under this system of feeding, the highest degree of fatness of which it is capable, and it must then be killed, for if the attempt be made to keep it any longer in that state, it becomes diseased from an inflammatory action being established which renders the flesh hard and even unwholesome.

When the fowls have arrived at a state fit for killing they should be kept for twelve or fifteen hours without food or water, in order that the intestines may be as empty as possible, otherwise the bird turns green and useless in a short time.

In situations where good sweet Indian corn meal can be obtained at a low rate, it will be found to answer quite as well as oatmeal; it contains a very large amount of oil, and is invariably used in the States of America, as a food for all animals put up to fatten. Wheat meal is too expensive, but some small fall wheat is far superior to barley to place in the trough as whole grain for the fowls to peck at.—*London Field.*

Military Intelligence.

LARGE QUANTITES OF AMMUNITION FOR CANADA.

The *Times* of the 22nd October says:

The military store department in Woolwich Arsenal was engaged yesterday and Sunday in shipping at Gravesend on board the steamship St. Lawrence, 400 tons of ammunition, contained in upwards of 13,000 barrels, for transport to Quebec and Montreal.

PROMOTIONS AND APPOINTMENTS IN REGIMENTS SERVING IN CANADA.

13th Hussars—Frank Osborne, gent., to be Cornet, by purchase, vice Walker promoted; Athelstane Robert Pryce, gent., to be Cornet, by purchase, vice Moore promoted. Rifle Brigade—Ensign the Hon. Henry Marsham to be Lieut., purchase, vice George Caulfield, who retires; and Henry James Fitz-Roy, gent., to be Ensign, by purchase, vice the Hon. H. Marsham.

Royal Canadian Rifle Regiment—Staff Assist.-Surg. John Dustan to be Assist.-Surg., vice W. Ramsey, M. D., promoted on the staff.

A Few Facts.

The following are ways in which people render themselves very impolite, annoying and ridiculous:

Boisterous laughing.

Reading while others are engaged in talking.

Leaving strangers without a seat.

A want of reverence for your superiors.

Receiving a present without some manifestation of gratitude.

Making yourself the the topic of conversation.

Laughing at the mistakes of others.

Joking others in company.

Correcting older persons than yourself, especially parents.

Answering questions which are put to others.

Commencing to eat as soon as you get to the table.

Whispering, talking loudly in church, or leaving before it is closed.

Cutting or biting the finger nails in company, or picking the teeth.

Drumming with your feet or fingers, or leaning back in the chair, or putting the feet upon the furniture.

Gazing at strangers, or listening to the conversation of others when not addressed to you.

—A band of twelve gypsies, subject to the command of a queen, who is reported to be remarkably beautiful, is now encamped near Bladensburg. They are doing a good business in fortune telling, and, in the absence of yellow gold, are not averse to taking greenbacks.

—Northwest Indians are advancing a claim to the Hudson's Bay Territory. They recently met at the Portage, Red River, and appointed a deputation to proceed to England in the spring to claim protection from the Imperial authorities.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOKS contain *fourteen* each year, superior (we challenge comparision) to any pubished in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.
MARION HARLAND,
Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"
who contributes to no other monthly publication, will furnish a new novel for 1868, called "PERSIE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued. MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 00
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette.*

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 29 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

Belleville, May 1. 1D-u

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six, lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES" 10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at the Book Stores in Belleville, and at El Dorado. Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

VOL. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, TUESDAY EVENING, NOVEMBER 12, 1867. No. 165.

The Poor Indian at Home.

HOW THEY LIVE, DRESS AND EAT.

In the Cleveland *Plaindealer* of the 29th ult., we find the following interesting communication from a writer who has passed many years among the Indians in the far West:

The dwellings of the wild or roving tribes are termed lodges, and consist generally of buffalo hides, either finely tanned without the hair, as with the Comanches and others, or of raw hides, with reed mattings and various other materials, as with some Osages. If hides are used from nine to twelve in number, on an average, are placed upon a framework of poles, bell shaped. Their interior arrangement is varied by the taste, and the means for its gratification, of the owner, some being very conveniently and comfortably arranged, with bunks or berths of reed matting or of hide, stretched across the walls, while beneath are stowed the various articles of the household or family property. The fire occupies the centre, and the smoke fills the interior, finally wreathing its way upward, and finding exit at the top. Their lodges are not arranged with that order and precision which characterized the "tented field" of our military life, but are scattered here and there. When a marriage occurs among the Comanches, a separate lodge is erected in which to spend the honeymoon, after which its occupants can return to the "paternal homestead."

A single squaw, however, is free to choose any course in life, and, whatever it may be, no disgrace is attached thereto, and, however immoral, it will not interfere with her prospects for marriage, in which event the past is overlooked and becomes a blank, and she is received and respected among the best. In fact, virtue among them is lax, and only controlled by fear, while among Indians generally it is almost unknown and unrecognized. Truthfully, I must say that modesty, delicacy and refinement, and all the noble attributes which blend together manhood and womanhood, cement society, make life happy, purify the world, make us true men and women, and fit us for the sphere we occupy, are to them unknown. In fact, with years of study of the Indian character, I have found but few, and isolated cases, wherein there existed qualities to excite either admiration, esteem or respect, and never to justify the romance found in the emanations from the pen of many writers of sickly sentimentalism. Beauty I never saw among any full-blooded "maidens of the prairie."

The wild Indians subsist mainly upon buffalo meat, having no flour, coffee or sugar, except such as are given them with their annuities, or as an extra feast, and upon the occasion of a council, or such as they obtain by the exchange of their robes and furs, of which they take a great number when buffalo are plenty. They hunt the buffalo with bow and arrow, with which they are very proficient, and so accurate that they will send an arrow into a space as large as one's hand at good pistol range, and strike a piece of coin very frequently. With a bow, which your correspondent could not bend sufficient to shoot with force, they will send an iron-pointed arrow entire through a buffalo.

The dress of the Indians is somewhat varied, many possessing some articles of civilized costume, while others are wholly clad in their native garb. Thus, now and then one will disport a coat, sometime at once *recherche* and fashionable, swallow tail and brass buttons, the pride and glory, in days long past, of some votary of fashion, or the well known uniform of the late "boys in blue;" one will display a hat of shape and fashion long unknown; and so on through the wardrobe. But their native dress rules the majority—leggins of heavy cloth or flannel, with heavy fringe or margin, often ornamented with little bells, beads etc., sometimes a shirt of their own make, or obtained with their annuities or by traffic, blanket or robe around their body, moccasins of different patterns in each tribe, and head bared to the sun and storm.

The dress of the squaws differs little from the above, except a skirt of calico or other light material in summer, and of heavy cloth or strouding in winter; leggings, the same as those of the men, with additional ones of buckskin, tight-fitting like hose and attached to the moccasin; now and then some young squaws are finely dressed and bedecked with finery and ornaments of beads, and of silver brooches as large as a saucer, rings in their ears and on their fingers, &c.

The squaws do all the labor of the camp, bringing water, pitching and strking the lodges when moving, packing and unpacking the animals, curing the buffalo meat, which is done by cutting it into thin slices and drying, and, in fact, doing all the out-door and in-door labor, in addition to the ordinary duties of womanhood, while the "brave" is "lord of all he surveys," and reclines in stolid indifference, if otherwise unemployed.

A carriage factory is to be started in Connecticut, and the leading feature of its business will be the manufacture of coaches and carriages with bodies composed of India rubber, for which a patent has been obtained.

Richelieu Company!
Royal Mail Through Line
between Montreal and Quebec.
ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques-Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. NELSON, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.
This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers. One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

☞ SEE FOURTH PAGE.

Gold News.

(*By Special Telegraph to the Daily Intelligencer.*)

We received this afternoon the following important telegram from Madoc, showing the result of the crushing of one ton of quartz from the El Dorado mine. We understand Scott & Taylor's mill is working admirably :

"MADOC, Nov. 12, 1867.

"Scott & Taylor report to-day from their crushing mill, *fifty-three* dollars in gold from one ton for the El Dorado mine."

PRESENTATION.—We are requested to state that the Sabbath School at Roslin, in connection with the Church of Scotland, presented Rev. J. R. Thompson, who has been filling, temporarily, the place of Rev. J. McCaul, with the sum of Ten Dollars, as a slight token of their appreciation of his services.

RUNAWAY.—A horse and wagon came to grief at the corner of Front and Bridge Streets this afternoon, after tramping it down Murney's Hill and over the bridge at Gilpin pace, the wagon struck the lamp post with such force as to break it off as easily as a boy would a pipe-stem, generally "demoralised" the wagon and threw the horse into a "heap." The horse did not seem to be much the worse after being extricated.—Owner unknown.

PROVINCIAL INSURANCE COMPANY.—Attention is directed to the advertisement of this Company. The company now insures just eight millions of dollars, and although over eighty-six thousand dollars was paid in claims, the Company during the year realized a profit, after the payment of all claims and expenses, of over thirty-seven thousand dollars. The income of the Company is still increasing, and exceeds that of almost every other Insurance Company in Canada, whether English, American or Canadian, and amounted during the past year to more than eighty-seven thousand dollars. The Directors now consist of some of the first merchants in Canada.

RAMPANT.—The Toronto Irish *Canadian*, the Fenian organ in Canada, encourages a lunatic to write as follows: "England stands on a volcano, on a powder magazine. Twenty millions of Irish are ready to assail her within, without, at home, abroad, everywhere—and moreover, the first victory gained would be the signal of revolt to one-third of her navy, one-half of her army, and the majority of her working classes." It's about time there was an end put to this sort of thing. This paper has been for a long time, persistently preaching sedition, and the silence of the authorities only emboldens it to pursue its treasonable course. There is such a thing as too much trifling with treason. The viper we have nursed will give its deadly bite when we least expect, and perchance, when least prepared. The best way is to take the sting out of it by putting its conductor where his fellow conspirators are, breaking stone in the Provincial Penitentiary.

The Disater at St. Thomas.

Late advices from St. Thomas say that nearly 500 lives were lost and the Town nearly destroyed by the tornado. Pieces of wrecked vessels and wrecked material are reported as having been fallen in with, floating around, off Santiago de Cuba. The Bay at St. Thomas was full of wrecks. Five steamers and sixty vessels were destroyed. An official despatch from the Superintendent of the Royal Mail Steamship Company at St. Thomas, to the British Consul in New York, says that all the property of the Company has been destroyed by a terrible tornado which took place on the 29th of October. The steamer Rhone was lost on Peter Island, and the Wye, Capt. Taylor, on Buck Island. The Conway, Capt. Hammack, went ashore on Tortola Island, and the Derivent at St. Thomas. The Solent and the Tyne were dismasted. The town of St. Thomas is in complete ruins. Fifty vessels are ashore. The loss of life has been very great, and the destruction of property immense. The tornado has indeed been a fearful one. All the officers and engineers of the Rhone, and all others on board of her are lost. From the Wyne 40 persons were saved, including Capt. Taylor and Mr. Hodgenson. Of the passengers on board the regular steamer for Southampton, which had sailed with 150 passengers, only 12 were saved. A French steamer was also damaged by the hurricane, and the list of other vessels that received injuries is very large.

A Good Movement.

The action of the House of Commons in prohibiting the sale of liquors within the Parliamentary buildings, will meet with general approbation. There may be a few who won't like it, who will stick up their noses at this Puritanic legislation, as they call it, and call in question the honesty of the motives of those who put their feet upon the neck of this evil. But no one who witnessed the scenes which took place in the Parliamentary Saloon during the late session of the Legislature, and who has any regard for the character of our public men, will disapprove the action of the Commons. Every one knows the power of association, the influence of social qualities, made more attractive and brilliant by sparkling champagne and fiery brandy; and there is no place where that power of association is felt, no place where those social qualities exist and seek kindred companionship to that extent, as at the Capital of any country; no body of men whose situation and circumstances render them so susceptible of becoming affected by exciting influences, as those who compose a legislative body like the Canadian House of Commons. It is well, therefore, that they took the bull by the horns and pitched him into the street. What they have gained will best be known at the end of the session, when a comparison between the past and present is instituted. Apart from the moral good which will have been achieved, the business of the country will feel the beneficial effects of the movement. Time won't be squandered as it has been, and clear heads will be more apt to dispose satisfactorily of the business, than heads fuddled and muddled by nights of debauchery and dissipation.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 11th, 1867.

Saturday is not a parliamentary day.—The House does not sit, consequently members devote themselves to whatever work they have to do, or to resting, if their mental and physical organization requires it.

On that day last week the presentation of prizes to the successful competitors of the Civil Service Regiment took place in front of the main entrance to the parliament buildings. The different articles were presented to the officers and men by Lady Monck, who was accompanied to the dais, erected for that purpose, by Lord Monck and his daughter. Her Ladyship presented the prizes very gracefully, and to the evident satisfaction of the lucky ones.

Upon the Speaker taking the chair, this afternoon, the Hon. John S. McDonald presented a petition against the return of the Hon. J. C. Abbott, member for the county of Argenteuil. Mr. Harrison presented a petition from the merchants of the city of Toronto, in reference to the foreign silver.

Before the address from the Throne was again taken into consideration, Mr. Howe stated that having ascertained that full discussion would be allowed upon every paragraph of the address, he had decided not to move an amendment, but would take the opportunity when it presented itself upon each paragraph, to express his views.

The debate was then resumed by Mr. Blake, who spoke for about an hour and a quarter; during which time he rehashed the *Globe's* articles for the last three months, denouncing the coalition and the immoral effect it must have upon the rising generation. He avowed himself an admirer of the Confederation Act, but an opponent of coalition and combination governments in general. While he is a pleasant speaker he failed in this instance to prove, except to a few rabid grits, that he was correct in the position he had assumed. There was one point which he brought out, and which created a little amusement. He complained of seats being occupied by members on the left of the speaker with whom his party could never combine. He did not consider the still more important fact that there are not seats enough on the right of the speaker for those who will not combine or coalesce with the Blake party, from Ontario, which, for the credit of the province, is very small in numbers.

He was followed by Mr. Cartwright, who spoke for some time upon the general topics mentioned in the address. Mr. Morris also replied to the remarks of Mr. Blake in an effective manner, and took occasion to produce more evidence from Mr. Howe's former speeches to show how fervently he desired a union of the whole British American provinces, and then regretted that the Samson of former days should come into the new Dominion, fettered with narrow and sectional prejudices.

Mr. Smith, the leader of the anti-union party of New Brunswick, defined his position, which was to accept the position as it was at present presented to him, New Brunswick having, by a majority of the electors, declared in favor of union, and, therefore, it was his duty to endeavor to work it out to the best advantage of his province. But he regretted that the Address was so worded as to call forth the opposition of any member. He regretted that Mr. Galt had left the Ministry, as he looked upon him as the best and cleverest financier in the Dominion; having been associated with him upon two important occasions, he had found him true to his trusts, and ever anxious for the rights and interests of the people of Canada.

Hon. Mr. Campbell, from Nova Scotia, defined his position, which was to the effect that he had opposed the Union to the best of his ability, but declared that he would not lend his aid or influence to agitate the repeal of the Union. He was followed by Mr. Savary, also of Nova Scotia, who speaks rapidly, and gave his reasons for opposing the Union. He contended that the Banking interests in Nova Scotia were established upon sounder basis than those of Canada, and therefore the Banking interests of that Province should not be interfered with.—He also objected to the making of the Laws of Marriage and Divorce uniform in all the Provinces. He then contended that Nova Scotia would pay more to the revenue of the Dominion, in proportion to her population, than any other part of the Dominion, and therefore was entitled to a larger representation, and that the members of Nova Scotia would never cease their agitation until the Union shall have been repealed. The remarks of Mr. Tupper, he contended, were based upon a false cry, that they did not contend that 40,000 voters signed the petition to the Imperial Parliament against the Union, but that they were adults, that it was not the unpopular acts of the Nova Scotia Ministry that led to the defeat of the Union cause, because the School Bill was in many counties popular, hence he implored the House not to put too much dependence in what Dr. Tupper had, or might say, in reference to popular opinion in Nova Scotia. He was followed by Mr. Chipman, of Nova Scotia, in a similar strain, making Dr. Tupper his special object of attack, contending that the Commons and Lords in England were deceived, and that those who had been opposed in the first place to the whole scheme, were bought over by seats in the Senate, and amused the House by reading some fly-sheets which had been issued to influence the elections.

Mr. Grey, of New Brunswick, replied in a most eloquent speech, in which he gave Mr. Howe credit for all he had done for the people, but regretted that he had taken the course he had.

QUINTE.

School Trustees.

MONDAY, Nov. 11, 1867.

The regular monthly meeting of the Board of Common School Trustees took place this evening. Present: Messrs. Wills, Martin, Shepard, Thompson, Walton and Smith. In the absence of the Chairman, Mr. Wills was appointed to preside.

A memorial from Thomas VanAllan and twenty-one others, expressing confidence in Mr. Pollock as a teacher, and asking for an increase in his salary, was read.

A letter from Mr. Ashley, Teacher of School No. 3, calling the attention of the Board to the damage done to the school house by idle boys. Nearly every window had one or more lights out, the locks were broken and fences destroyed. The letter was referred to the Committee of the School.

A letter from Mr. McKeown, Teacher of School No. 4, was read, informing the Board that he had been obliged to suspend one of the scholars for continued bad conduct.

Mr. Shepard, on behalf of the Committee of School No, 5, reported as follows:

The Committee to whom was referred the petition of Simon Ballantyne and ten others, complaining of general inefficiency of School No. 5, having heard the statement of Mr. Pollock, the Teacher, and having had laid before them a memorial from twenty-one rate-payers in the same school section expressing confidence in Mr. Pollock as a Teacher, and having heard the satisfactory report of the Superintendent respecting the same school, beg leave to report that, in their opinion, the ground of complaint against the Teacher is not sufficient to require any action at their hands.

With regard to the increase of salary asked for by Mr. VanAllan and others, on behalf of Mr. Pollock, the Committee are of the opinion that the amount expended on School No. 5 is already sufficient, and cannot, therefore, recommend compliance with the prayer of said petition.

On motion the report was received and adopted.

The report of the Finance Committee recommending the payment of certain accounts, was read and adopted.

Mr. Shepard called the attention of the Board to the dilapidated condition of School House No. 4. Its condition was a disgrace to our civilization. Half the windows were broken, the floor was full of holes, the staircase in a dangerous state, a considerable portion of the foundation was torn away, and altogether it was not fit for human habitation.

Mr. Wills said it was a question whether we should attempt to continue the school there this winter. If another place could be rented for a year it would be preferable.

Mr. Smith did not think we could get another place.

Mr. Thompson said it looked like throwing money away to expend it in repairing the old building.

Mr. Shepard asked Mr. Smith how much it would probably require to make the building habitable for the winter.

Mr. Smith thought $25 would be sufficient.

Mr. Shepard moved, seconded by Mr. Walton, That the committee of School No. 4 be requested to have the windows in said school building immediately repaired, the stair-case strengthened, and whatever other repairs are necessary to render the school house habitable for the winter.—Carried.

On motion of Mr. Thompson, seconded by Mr. Smith, the secretary was requested to call the attention of the Town Council to the amount of $200, being the balance due this school Board of monies levied in 1866, for school purposes.

Some discussion took place respecting the wanton destruction of school property, and it was thought best to call the attention of the Town Council to the fact, with a view to have the police constables ferret out the offenders and have them punished. The following resolution relating thereto was adopted:

Moved by Mr. Shepard, seconded by Mr. Walton, Whereas complaints having been repeatedly made by Teachers of the various schools, of the wanton destruction of the school property, such as smashing windows, breaking fences, and otherwise injuring the property, the Town Council is hereby requested to instruct the police officers of the town to endeavor to ferret out the offenders, and use such other means as may be in their power and within their province to protect said property from destruction.

It was moved by Mr. Martin, seconded by Mr. Smith, That the Secretary be instructed to inform the teachers of the several Common Schools of this Town that they in no case, allow any boy or boys suspended from any other school for any misdemeanor whatever, to attend any or either of their schools until a satisfactory apology has been made to the Teacher suspending such boy or boys, and that the Secretary report to the several Teachers, the name of any such boy or boys so suspended.—Carried.

The Board adjourned.

To the Editor of the Daily Intelligencer.

MADOC, Nov. 1, 1867.

As the matter of "Mining Licenses" has created a good deal of discussion in this locality, and as the matter of a new mining law will soon be brought under the attention of Parliament, allow me through your journal to make a few suggestions, confining myself in this communication to the one point of Licenses.

1st. I would propose that Mining Licenses be done away with altogether, and that the revenue for the Crown be collected from the crushing mills.

2d. That the per centage collected from the gold produced should be in proportion to the yield of gold from the quartz, per ton, from each mine.

The force of the above suggestions will be seen when you consider that it costs as much to quarry a ton of ore when the yield will be only $10 per ton as it would when the yield will be $200, and charges for crushing would be just the same, consequently if one equal per centage was charged on all the gold, the result would be that the mine with lean quartz would have a much heavier tax to pay than the richer one. A percentage at about the following proportion would probably be right: Say a ton of quartz yielding $15, one-eighth; $25 to $50, one-fourth; $50 to $100, one-half; $100 to $150, $1.00 and so on in the same rate to any larger amounts

Farms rent from $50 to $200 in proportion to what they will yield, and County and Township taxes are levied based on the value. Now if the principle is correct in farming, why not in mining?

Flinging out these few suggestions with the intention of returning to the subject again,

I remain yours truly,

AN OWNER OF MINERAL LANDS.

—A new ore, called "fahlerz," has been discovered in the Foxdale mines, in the Isle of Man, and a portion has been sold for £900 sterling per ton.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 8.—Telegrams have been received here stating that a second typhoon has occurred at Macao, in China. The damage to property was immense. Beyond this no particulars have been received.

PARIS, Nov. 9.—The annual yellow book is now ready for publication. It shows that Baron de Ratazzi was long warned of the plans of the insurgents under Garibaldi, and of the action France was certain to take in the premises.

DUBLIN, Nov. 8.—The jury in the case of Costello, who was on trial in the city for alleged complicity in Fenianism, was unable to agree.

LONDON, Nov. 8, midnight.—The bread riots at Torquay, Exmouth and other places have been suppressed, and all parts of Devonshire are now quiet.

Charles Dickens sails to-morrow in the steamship "Cuba" for Boston.

The news of the great loss of shipping and destruction of property by the hurricane at St. Thomas creates a wide spread feeling of depression in mercantile circles, as British shipping merchants and underwriters are heavy losers by the calamity.

England, France and Austria have come to a common understanding as to the policy to be pursued by them hereafter in the Eastern question.

FLORENCE, Nov. 8, evening.—The trial of Garibaldi has been postponed, it being considered doubtful whether any of the courts here have jurisdiction in his case.

The Sublime Porte has replied to the last joint note of the European powers. He declines to receive their advice, and accepts responsibility for the events which may ensue.

LONDON, Nov. 9.—A despatch from Glamorgan, Wales, states that a terrible explosion took place in one of the mines of the Ferndale colliery in that country. All the miners, three hundred in number, were at work at the time. At last accounts the mine was on fire, and it was feared that but few lives would be saved.

Great efforts are being made in England and Ireland for the pardon of the convicts at Manchester, on the ground that the offence committed was a political one.

Disturbances have again broken out in Devonshire. There was a great riot at Barnstable to-day which exceeds in ferocity and destructiveness the riots at Exter. The rioters broke into the butcher's shops and the bakeries and plundered them, then set them on fire. The police and military were obliged to fire upon the mob.

Second Despatch.

FALMOUTH, Nov. 8, eve.—The steamer *Fulton* from New York, October 29th, arrived this afternoon and sailed for Havre.

SOUTHAMPTON, Nov. 10.—The steamer *Borussia*, from New York, October 26th, arrived this morning and sailed for Hamburg.

LONDON, Nov. 10.—Additional particulars have been received of a terrible calamity in Glamorgan, in Wales. But few of the miners escaped from the burning pit at Ferndale. Did not know how many lives were lost.

The Lord Mayor's Banquet took place yesterday. All the members of the Derby-Disraeli ministry were present, except Lord Derby. Mr. D'Israeli made a speech, in the course of which he alluded to the controversy which had arisen between the English and the United States, but he said better feelings had arisen in America since last year, and he had every reason to hope for the maintenance of those relations of friendship, demanded by the material interests, and by every friendly feeling that could unite the Nations.

FLORENCE, Nov. 10.—The *Italian* says King Victor Emmanuel having fulfilled all the obligations imposed upon Italy by the September Convention, now demands of the Emperor Napoleon the departure of the French troops from Italian soil, and the recall of the French fleet from the Italian coast. The *Italian* also says that the King in his communications to the French, still firmly protests against the conference, composed only of Catholic powers, for the settlement of the Roman question.

PARIS, Nov. 10.—Napoleon is at Lyons, where he met with a cordial reception from the people. An address of welcome and congratulation was made by the Mayor, to which the Emperor responded.

Gen. Tailly, commander of the French expeditionary force to Rome, reports that the French in the fight at Monte Rotundo lost 40 killed and wounded. The Papal troops lost only 12 men. The casualties of the Garibaldians were 600 killed and as many wounded, while 2,200 were taken prisoners. The credit of the great slaughter of the rebels is due to the Chassepot rifle. The troops were only half armed.

FLORENCE, Nov. 10.—King Victor Emmanuel has extended aid to the families of the Garibaldians who were killed in the recent engagement.

There is general discontent throughout Italy, and a state of siege is threatened in every large town.

LONDON, Nov. 10, midnight.—The latest accounts from Wales state that two hundred lives were lost in the Ferndale mine.

The London *Times* thinks that the American nativity of General Nagle will save him from conviction.

PARIS, Nov. 10, eve.—France is seeking to raise a loan of 28,000,000 francs, which it is represented the Government wants for peace use.

The *Patrie* says the assembling of a general established conference is uncertain, as the views of the great powers on the subject are as yet unknown.

SOUTHAMPTON, Nov. 10.—The steamship "Union," Captain Von Santen, which left New York on October 30, has arrived here *en route* for Bremen.

PARIS, Nov. 11, eve.—The French Government has issued a second note in regard to the proposed conference on the Roman question. In this matter, even the third-rate powers of Europe are called upon to participate. It is thought none will decline.

FLORENCE, Nov. 11, eve.—The Government of Italy, which is hostile to the projected conference, has sent a note to the European powers, in order to enable them to declare against the necessity of any conference whatever. In this note the Roman question is discussed from an Italian standpoint. The details, however, have not transpired.

LONDON, Nov. 12, noon.—Consols 94¾; I C 83¾; Erie 46¾.

LIVERPOOL, Nov. 12, noon.—Cotton opened quiet and steady; sales 30,000 bales; uplands 8¾d. Breadstuffs quiet and steady.

LONDON, Nov. 12, 2 p. m.—Consols 94¾; I C 83¾; others unchanged.

LIVERPOOL, Nov. 12, 2 p. m.—Cotton dull; Orleans 9d. Red Wheat 13s 1d; Cheese 54s; Linseed Cakes £11 5s; Linseed Oil £40 10s; Clover Seed 39s; Whale Oil £39.

LONDON, Nov. 12, 3 p. m.—Consols 94¾.

American Despatches.

HAVANA, Nov. 11.—Another cargo of coolies has been landed on the south-easterly coast of Porto Rico.

The steamer "Barcelona," from Vera Cruz on the 6th, has arrived, bringing dates from the city of Mexico to the 5th.

The remains of Maximilian were to be given to Admiral Tegethoff on the 6th.

The citizens of Matamoras are suffering from the effects of the recent inundation.

General Banks, who accompanied Minister Romero in his visit to Mexico, had arrived at the capital and been received by President Juarez.

SAN FRANCISCO, Nov. 11.—Advices from Yokohama state that the United States Consul at Hakadoty, with the English Marshal, visited the wreck of the whale ship "Canton Packet," accompanied by the survivors at Hakadoty, where, the first officer states, they were treated like beasts, and fared no better after being transferred to Yokohama. At the latter place, sympathizing American residents presented their almost naked countrymen with clothing. The "Canton Packet" was a total loss.

NEW YORK, Nov. 12.—The steamer *Scotia*, from Liverpool, has arrived.

SPECIAL NOTICE.

R. R. R.

80 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or soreness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in their house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 156-2w 35-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

Gents—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Albany Lumber Market.

REVIEW FOR THE WEEK ENDING NOV. 1.

The receipts of lumber are not so large as last week, as the high canal freights on the Erie canal have lessened shipments. There is a good supply of lumber in the market of all kinds, except clear boards and 1½, which are scarce.

Best shingles, both shaved and sawed, are also nearly out of the market.

The sales of the week have not been large, as in many places dealers report a dull retail demand. Prices are about the same as by our last week's report though few changes will be noted.

Shipments have been fairly active at previous rates of freights.

The following table shows the prices current at the principal yards at the date of our report:

Pine, clear, ₱ m.	$55 00 @ $58 00
Pine, fourth quality, ₱ m.	50 00 @ 53 00
Pine, select, ₱ m.	45 00 @ 48 00
Pine, pickings, ₱ m.	00 00 @ 00 00
Pine, good box, ₱ m.	23 00 @ 30 00
Pine, common box, ₱ m.	19 00 to 21 00
Pine, clap boards, strips, ₱ m.	53 00 @ 57 00
Pine, 10 inch plank, each	00 38 to 00 41
Pine, 10 inch plank, culls, each	00 27 to 00 30
Pine, 10 inch boards, each	00 28 @ 00 31
Pine, 10 inch boards, each	00 22 @ 00 23
Pine, 10 inch boards, 16 feet, ₱ m.	27 00 @ 28 00
Pine, 10 inch boards, 16 feet, ₱ m.	28 00 @ 30 00
Pine, 12 inch boards, 13 feet, ₱ m.	26 00 @ 28 00
Pine, 12 inch siding, ₱ m.	30 00 @ 40 00
Pine, 1½ inch siding, selected, ₱ m.	42 00 @ 45 00
Pine, 1¼ inch siding, common, ₱ m.	20 00 @ 21 00
Pine, 1 inch siding, ₱ m.	28 00 @ 33 00
Pine, 1 inch siding selected, ₱ m.	38 00 @ 40 00
Pine, 1 inch siding, common, ₱ m.	18 00 @ 20 00
Spruce, boards, each	00 18 @ 00 20
Spruce, plank, 11 inch, each	00 32 @ 00 35
Spruce, plank, 2 inch, each	00 38 @ 00 40
Hemlock, boards, each	00 16 @ 00 17
Hemlock, joist, 4x6, each	00 32 @ 00 34
Hemlock, joist, 3x4, each	00 16 @ 00 18
Hemlock, wall strips, 2x4, each	00 00 @ 00 14
Hemlock, 2 inch, each	31 00 @ 32 00
Black Walnut, good, ₱ m.	55 00 to 65 00
Black Walnut, second quality, ₱ m.	40 00 to 45 00
Black Walnut, ₱ per m.	55 00 to 60 00
Sycamore, 1 inch, ₱ m.	00 00 to 43 00
Sycamore, ₱ per m.	00 00 to 38 00
Sycamore, clear plank, per m.	70 00 to 75 00
White Wood, inch and thick, per m	35 00 to 45 00
White Wood, ₱ per m	30 00 to 40 00
Ash, good, ₱ m.	38 00 @ 40 00
Ash, second quality, ₱ m.	30 00 @ 35 00
Oak, good, ₱ m.	40 00 @ 43 00
Oak, second quality, ₱ m.	35 00 @ 40 00
Cherry, good, ₱ m.	60 00 @ 65 00
Cherry, second quality, ₱ m.	35 00 @ 40 00
Birch, ₱ m.	25 00 @ 35 00
Beech, ₱ m.	28 00 @ 35 00
Basswood, per m.	23 00 @ 28 00
Hickory, per m.	40 00 @ 45 00
Maple, per m.	25 00 @ 35 00
Chesnut, per m.	45 00 @ 55 00
Shingles, first quality, shaved pine ₱ m.	8 00 @ 9 00
Shingles, 2nd quality, shaved pine, ₱ m.	7 00 @ 7 50
Shingles, extra quality, sawed pine, ₱ m.	7 00 @ 7 50
Shingles, clear sawed pine, ₱ m.	6 00 to 6 50
Shingles, cedar, ₱ m.	4 00 to 6 25
Shingles, sawed hemlock, ₱ m.	2 50 to 3 75

—*Evening Journal.*

Miscellaneous Items.

Tennyson has been translated into French and sells well in Paris.

It is claimed that there are no less than 30,000 white Republicans in Alabama.

A Mississippi physician has invented a new kind of writing ink of the color of gold dust. He says the color is permanent.

The official registration returns in South Carolina, show the blacks to have a majority of 33,834.

The towers of the new suspension bridge at Niagara Falls are completed and ready for the cable, which will arrive from England soon.

By the direction of the President, the military authorities were engaged on Tuesday in disbanding and suppressing the colored militia organizations in the district of Columbia.

At a Fourth of July celebration in Marion County, Ill., a young lady offered the following toast: "The young men of America.—Their arms our support, our arms their reward; fall in men, fall in."

Great indignation was aroused in Kankakee, Ill., by a young man who represented himself the heir of a great English estate, and borrowed large quantities of money on the strength of his riches. He was arrested and thrown into prison. Now his money has come and his enemies are put to shame.

Middle Brook Island, in the Pacific Ocean, which was recently taken possession of by the China Mail Steamship Company, as a coaling station, is found to be inadequate for the purpose. The harbor is not a safe one, and the nearest anchorage is three miles from the coal, every ton of which will have to be lightered to the ship.

The journals of Alicant (Spain) report that the bodies of two men were found behind the theatre there, closely locked together; a dagger in the hand of one was buried up to the hilt in the heart of the other. The corpses were rigid, and the features of both wore a frightful expression of anger and hatred. They appear to have fallen together, both pierced by mortal wounds.

GODEY'S LADY'S BOOK

For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,

BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.

MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Miriam,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PREMIE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plate will be continued.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 50
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4.00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chesnut Streets,
PHILADELPHIA.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for less space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six lines per line, first insertion	0 07
Each subsequent insertion per line,	0 03

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, NOVEMBER 13, 1867. No. 166.

The Late Gale at Labrador.

OVER ONE THOUSAND PERSONS BROUGHT TO ST. JOHNS.

By the arrival of the R. M. steamer *Delta* at Halifax on Saturday, from St. Johns, Newfoundland, we have received some particulars of the late gale at Labrador, by which a large number of persons have suffered severely.

The Harbor Grace *Standard* contains the following account of the late disastrous gale on the Labrador coast:

It is our melancholy duty to publish today the following account of a calamity at Labrador, involving the destruction of much valuable shipping and property, but worse than all, the loss of many valuable lives, which we believe, within the memory of the oldest among us, stands unprecedented for its fearful extent and its circumstances of terror, suffering and death.

It appears that a gale of wind from north east, with snow, arose on the morning of the 9th instant, which caused a heavy sea along the northern part of the coast. After some time the wind veered to the north and north-west, and blew with terrific force; it was scarcely possible for people to stand, and the blinding snow-drifts wreathed into hollows on the shore to a depth, it is said, of about six feet. Added to this, the intense cold contributed terribly to human sufferings, which it is impossible for the most vivid imagination to picture, or the most fertile pen to describe.

Nearly all the vessels in the different harbors broke from their moorings and were dashed to pieces against the rocks. The vessels, in most instances, were nearly loaded with the proceeds of the voyage, and some had full cargoes, which became a total loss.

From Batteaux to Brig Harbor no less than twenty-seven vessels were driven from their moorings and were totally lost.—Boats were also destroyed in large numbers, and hundreds of people who were preparing to leave lost all, and are compelled to remain in a trying condition of want and suffering, and in many cases we fear, impending starvation, until help is sent to succor and enable them to reach their homes.

But the saddest part of this melancholy catastrophe is the fearful loss of life in this gale, which has left a never-to-be forgot mark on the coast of Labrador.

When we think of the condition of the poor sufferers who now remain on the Labrador, amid the snow and terrible gales of winter, starving it may be for food, without sufficient clothing to cover them, and without a bed to lay on, we rejoice that the Government and the trade, immediately on the news of this matchless disaster being telegraphed to St. John's, took up the steamer, Panther, which was got under weigh and left for Labrador on Sunday.—The steamer Mastiff was also taken up here and despatched on Monday to the shipwrecked people, whom we hope to see shortly brought home from the scene of that awful peril.

The Issabella Ridley, Captain Thomey, arrived here on Sunday last with over three hundred persons on board, many of whom had been shipwrecked, and we learn that Captain N. Norman, of Brigus, has kindly consented to bring a further number.

An editor who was shaved in a barber's shop offered the barber a dime, which he refused. 'Because,' said he, 'I understand dat you is an editor.' 'Well, what of it?' 'Why, we never charge editors nuffin.'—'But such liberality will ruin you.' 'Oh, neber mind, we make it off de gemmen.'

An old colored preacher, preaching at Port Gibson, Mississippi, recently engaged to baptize thirty colored converts at the rate of a dollar a head. On the following Sunday only two presented themselves who were willing to pay. Becoming indignant at the parsimony of his congregation, he refused to baptize the two candidates, saying I am no swine to slush myself up for no two dollars.

THE FRENCH BISHOPS AND NAPOLEON.—We extract the following from an article in the *Avenir National*, signed by M. Peyrat in reply to the French bishops who are calling on the Emperor to interfere on behalf of the Pope:—"The clergy are doing with the second empire what they did with the first. Pius VII. consecrated Napoleon in 1804, and excommunicated him in 1809. After the concordat the bishops compared Bonaparte to Moses and Mathias. Some years after they said he was worse than Diocletian and Attila. On the eve of the September Convention the present Emperor was called Pontius Pilate. Now, feeling that they are lost, they stretch their hands towards the Emperor, declaring that they have absolute confidence in him, and Pontius Pilate has become the Cyrus, the elect of God, to save the temporal power. They are ever the same, and Governments are also ever the same. They fear the hostility, and seek the support of these men—humble to the powerful, and aggressive towards the weak—who possess in the state—they know it well—no other strength than that which is given to them." The *Avenir National* is to be prosecuted for its boldness.

Richelieu Company!
Royal Mail Through Line
between Montreal and Quebec.

ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—

The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.

The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P.M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.

This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.

Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

Additional Particulars of the Recent Hurricane at St. Thomas.

HAVANA, Nov. 9, 1867.—By the steamer Panama, from St. Thomas on the 31st of Oct., further details of the late terrible storm at St. Thomas are received.

The American ship Sarah Nemman, the bark Aberdeen, and the brig Nellie Grey went ashore, dismasted, and the ship Charles Sprague and schooner Clinton were lost. Of the vessels destroyed 18 were British, 9 French, 10 Spanish, four Dutch, four German, one Bremen, one Morevian, and four Venezuelan.

SEE: We arrived at St. Thomas on the morning of the 30th, and found that the Island had been visited by the most terrific hurricane ever known there. The town is partially destroyed, the loss of life very great, the amount of property destroyed is at present impossible to estimate, the scene of destruction and devastation impossible to describe. The wind commenced blowing a pretty stiff breeze about 8 o'clock from the north-west, and about 11 o'clock it changed round to the east and blew a perfect hurricane, carrying everything before it. It lasted for about four hours, but during that time raged with such violence that trees were torn up, houses lifted from their foundations and dashed to pieces, ships and steamers of the largest class as well as the smaller vessels, were hurled together and either sunk or dashed to pieces; some fifty or sixty vessels are ashore, dismasted or sunk, and part of their crew lost. Thousands are rendered homeless, and the amount of suffering, confusion and excitement is impossible to describe. There is nothing doing, everybody seems paralyzed.

On the morning of the 29th, there being indications of a storm, the passengers of the old steamer Conway did not feel safe to go to sea in her, and wished to be transferred to the Rhone, a new steamer of the line, where they might consider themselves safe in case of storm. They were accordingly transferred, and both vessels put to sea, but strange to say, during the storm the Rhone struck on Peter Island, her boiler exploded, and all were lost with exception of 12 or 15; the Conway was thrown on Tortolos Island, and all were saved. Up to the time of departure nothing definite in regard to the other islands had been heard, with the exception of Tortolos, of which report says the town is totally destroyed, and a number of lives lost.

The Harbor-Master Steinberg of St. Thomas was drowned, while nobly attempting to rescue others; having succeeded in his first attempt he was returning the second time, when his boat capsized and he lost his life.

The steamer Columbian came in at about 11 o'clock, and at 2 o'clock was sunk; 6 persons lost. Her cargo was valued at from $1,000,000 to $2,000,000. The track of the hurricane seems to have been narrow, as the Marmion from Rio, and the North America from New York arrived the morning after, neither having experienced more than a stiff breeze. I append a list of disasters, as far as known.

DR. STEPHEN HASBROUCK.
Surgeon steamship Marmion.

List of vessels sunk in the harbor of St. Thomas on the 29th October, 1867, during the gale:

British steamer Columbian, six men lost, cargo worth from $1,000,000 to $2,000,000; British steamer Rhone," lost at Peter's Island, 160 men lost; British steamer Wye, lost off the harbor, 50 men lost; British schooner Procter, British brig Omsiphorus, British schooner Ocean Gem, three men lost; American schooner Clinton, French bark Veloce, French tug boat Veloce, French bark Emma, French sloop Sylph, Spanish schooner Union, captain lost; Spanish schooner Rapido, captain lost; Spanish schooners Tormalidad, Las Hermanos, Veloz, Altagarcia, Alphonso; Venezulanean schooners Iben Panchita, Oriental, Conception, Panchita; Danish schooners Maggie, West End Packet, Danish bark Ludwig Hohn, Danish schooner Nanette, Dutch schooner Amalia, Bremen brig Johanna.

The following American vessels were driven ashore and damaged:

Bark Aberdeen, ship Sarah Newman, with about two-thirds cargo of bark Patmos; ship Charles Sprague, total loss, 13 men lost; brig Mecosta, with part cargo hides from brig Princess Alice; brig Nellie Gay.

The American bark Esther was blown off from Sombero Island, dismasted, and is just coming into port.

DR. J. HASBROUCK.
Steamship Marmion, New York, Nov. 10.

The Russian *Military Magazine* publishes an official statement relative to the Russian army. It says that at the beginning of 1866 the army consisted of 30,507 general, staff, and other officers, and 793, 151 sub-officers and men. Of the latter, 626,004, or 78 per cent. were infantry; 68,673, or 9 per cent, cavalry; 84,392 or 11 per cent, artillery, and 19,082, or 2 per cent, engineers. The total number of troops ready to take the field was 575,413, including 466,415 infantry; 48,005 cavalry, 48,107 artillery, and 12,826 engineers.—During the present year the only regiment that was placed on the war footing was the 37th Infantry, which had been sent out to reinforce the troops at Orenburg. It is also officially stated that since last year the Russian army has been diminished by 2 generals, 547 officers, 150 civil employes, 98,063 sub-officers and men, and 6,863 horses. The district where the smallest military force is kept, is that of Riga, where 18 battalions of infantry are stationed, with 12 guns. At St. Petersburg there are 72 battalions of infantry, 48½ squadrons of cavalry, and 88 guns; at Moscow, 104 batallions of infantry, 36 squadrons of cavalry, and 96 guns; and at Warsaw, 128 batallions of infantry, 32½ squadrons of cavalry, 66 sotnias of Cossacks, and 248 guns.

BELLEVILLE, WEDNESDAY, NOV. 13.

☞*SEE FOURTH PAGE.*

CATACOMBS OF ROME.—Prof. DeLaunay's lecture this evening, the last of the course, will be on the Catacombs of Rome. The lecture will be illustrated by a large number of superb photographic views. The exhibition, as a whole, is well worthy of public patronage; and as this is the last lecture given by Prof. DeLaunay, we trust he will be greeted by a full house. The price charged for admission is only ten cents.

ST. ANDREW'S SOCIETY, MADOC.—At a meeting of the Madoc St. Andrew's Society, (recently organized,) the following officers were elected, viz:—E. Mouncy, President; John Tassle, 1st Vice-President; A. F. Wood, 2nd Vice-President; Peter Begg, Secretary; John Robertson, Treasurer; Drs. Loomis and Sutherland, Physicians; Rev. D. Wishart, Chaplain; J. McD. Kinloch, Piper; D. McKay, Marshal; Wm. Inkster, Standard Bearer; Committee,—Messrs. D. Nicholson, D. McDonald, J. Armstrong, M. McIntesh, J. Whytock S. B. McCulloch, Alex. McKinnon.

SUGGESTION FROM THE POST OFFICE.—The friends and correspondents of members of either House of Parliament will, during the Session, do well to observe the following rule in addressing mail matter to members at Ottawa; namely, to include in the address on their letter or paper the designation of the particular House to which the honorable member belongs—thus:—"The Senate P. O.," or the "House of Commons P. O." The distribution of mail matter for the respective Post Offices attached to the Houses of Parliament will thus be facilitated, and errors in sortation possibly prevented.

LECTURE.—It will be seen by advertisement that Capt. Bridgewater will deliver a Lecture in Nelson's Hall, on Wednesday evening, 20th inst., under the patronage of Lt.-Col. Campbell, and the officers of the 15th battalion. The western papers speak of him in the highest terms as a lecturer. Capt. Bridgewater has experienced seven years of military life in Her Majesty's service in India, during most stirring times, and his discourse partakes of reminiscences of those days, interspersed with valuable suggestions to the Volunteers. He has invariably been greeted with large audiences in the western towns, and we hope that a like encouraging reception will be accorded the gentleman in Belleville.

METEORIC SHOWERS.—The meteoric showers which were to take place last fall, are pronounced by astronomers to come off this week for certain. Sir John Herschel, the eminent English astronomer, thinks that these celestial fireworks, which have been seen by the people of all countries from time to time take place in America a year later than in Europe. The extraordinary phenomena occurred there in the years 1798, 1832 and 1866, and in America in 1799, 1863, and undoubtedly will in 1867; all of them in November. Some of the Savans say the showers will take place to-night, some to-morrow night. They will appear most bright and imposing between the hours of nine and one o'clock at night.

ESCAPE OF COUNTERFEITERS.—Two notorious counterfeiters, Charlie Ulrich and Adrian Harcq, escaped from Toronto gaol yesterday morning. They were arrested in Toronto some time since, for counterfeiting United States Treasury Notes, were examined before the Police Magistrate, and finally committed for extradition to the United States. They were kept in Toronto prison awaiting the demand made on the Minister of Justice at Ottawa. The manner of their escape was very simple. The bolt which held the hasp to the door of the cell was fastened by a screw; this was unscrewed, and Ulrich, who took the lead, picked his comrade's cell lock. Once in the corridor, they had little difficulty in getting through the iron door which led to a window that had been cut before, but repaired, and through which they calculated to escape. The *Telegraph* says: "The "locks of all the cells, it may be said, are of the "most worthless kind, and can be opened with "a pen-knife or a piece of wire." Of course, with a gaol in such a state, such determined fellows had very little further trouble in getting away. The fastenings on the windows were put on with screws; these were taken off, and after crawling through the hole they had made, let themselves down into the yard by means of a rope made of their cell rugs. Barrels and kegs were conveniently to hand, by which they succeeded in scaling the wall and getting into the street, before the turnkey made his morning round. Efforts were immediately made to recapture the prisoners, but so far without effect.

WHAT THEY WILL DO.—The Halifax *Chronicle*, Mr. Howe's organ, gives an inkling of what the anti-confederate members from Nova Scotia will insist upon in parliament. It says: "The coming session will see the bright exemplar of future Dominion tariffs revealed, and it will be for them to strive to render it as light and as little protective as possible. Upon them will also rest the obligation of obtaining for our fishermen the same bounties enjoyed by those of Canada since the first day of July last; of demanding that the Intercolonial Railway be commenced in this country; of guarding lest the currency of the Dominion should be made the incomprehensible muddle of Canada; of sparing no effort to secure a renewal of the Reciprocity Treaty; of causing, if possible, the immediate abolition of the present fishery license system, and of resisting expensive and onerous measures of defence."

Gold News.

The news from the Gold District within the last few days has produced a very favorable effect on Gold Stocks, and every one interested in mining operations begin to feel very much encouraged. The tests already made have not been on such an extensive scale as was desirable by many. It would have been better had a larger quantity of quartz been crushed before submitting the result to the public. We have had assays of five, ten, and twenty pounds of rock without number, but the quantity was altogether insufficient to afford a correct idea of the value of the quartz, and many think that one ton was insufficient; that to afford a fair criterion of the value of the rock, from five to ten, and even twenty tons should be crushed. With regard to the rumors respecting the quartz crushed for the Richardson Mining Company, we believe the yield is in the highest degree satisfactory, but we understand it is the intention of the directors to have a large quantity of three different qualities of the ore crushed previous to making a report. The work of crushing is now going on, and as soon as completed, an official report will be given to the public of the result. We have no doubt, as we always have had no doubt, that the operation of the Crushing Mills will show that gold exists not only in the vicinity of the Richardson Mine, but in Elzevir, and in the other back Townships, and that the Hastings Gold District will turn out to be one of the richest gold producing districts in the Dominion. The Madoc *Mercury* has issued an extra, giving details of the news published in our special telegram from Madoc yesterday, which we subjoin:

"Dr. Elmer, who, it is well known, is interested to a very considerable extent in gold mining operations in this locality, has just returned from ElDorado, whither he went today, anxious to learn the result of the crushing of the ore from the 'ElDorado' and 'Madoc Gold Mining Company of Toronto's' shafts—especially the latter—as the report in Monday's *Leader* that Professor Chapman had, after several assays, been able to obtain a yield of only six dollars to the ton from the ore of the latter Company, while according to other assays, the return had been as high as $270 to the ton—had excited some very unpleasant sensations as to the future prospects and prosperity of the Madoc gold region. He has come back quite relieved from all unfavorable doubts, bringing the following statement of facts:

"He has seen the ingot produced from the Richardson mine ore, which is worth between $50 and $60; but is not at liberty to state from what quantity of rock it was obtained. He is, howevever, authorized to say that it is the richest thing in the world.

"He also saw the gold, as it was taken from the retort, from one ton of the 'ElDorado' mine ore, which is estimated to be worth from $31 to $53.

"In the residue of the rock (about 20lbs.) which remained uncrushed by the stamps when the bulk of the ore from the 'Madoc Gold Mining Company of Toronto's' shaft had been crushed, there was some $15 worth of coarse gold: several pieces being of the size of grains of wheat, and one as large as a pea. The remainder of the ore was in process of amalgamation, and the result will not be known until to-morrow.

"There was much excitement and gratification at ElDorado, where for several days past the Gold and Silver Reduction Works have been the centre of attraction. Colonel Campbell, Gold Inspector, and other gentlemen, were there to-day."

The Stock Market.

Stocks are quoted in the Montreal market firm.

Bank of Montreal asked for at 133; no sellers under 133½.

Ontario offered at 102¾; sales to some extent at 102½; small sales of City at 103½, at which there are still buyers.

Royal Canadian is in demand at 97; no transactions for some time; sellers ask par.

Commercial stock is not so good, being quoted at 10 to 20.

Bank of British North America, 105½ to 106.

Merchants' Bank, 107½ to 108½.
Union Bank, 102½ to 103½.
Mechanics' Bank, 96 to 97.
Royal Canadian Bank, 97 to 100.
Canadian Bank of Commerce, 102½ to 104.

—Owing to delicate health, Mr. Greer, Cashier of the Bank of Commerce, has resigned. Mr. Dallas, of Montreal, has been appointed in his stead.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 12, 1867.

In my last, I closed with a few words in reference to the speech of Mr. Grey, from New Brunswick, which stamped him as one of the most pleasing and eloquent speakers in the House. He handled the question in a masterly manner, without coming down to particulars. He waxed truly eloquent, soaring aloft and depicting in glowing terms the future of this Dominion.

Mr. Jones, of Halifax, next occupied the time of the House. His speech was a mere repetition of what had already been said by a number of the Nova Scotians who had preceded him. He was followed by Mr. Croke, of Richmond, Nova Scotia, who declared that the people of Nova Scotia were a "free and sovereign" people, and that he would do all in his power to oppose the Union. He was followed by Mr. Bechard, who spoke in French, as did also Mr. Mosson. The different clauses were then read and severally read, until the last one was reached, when Mr. Howe again took the floor, and occupied the time of the House for an hour and a half in endeavoring to explain away his inconsistencies. He declared that he had always been opposed to a political union with Canada, and that when he made a speech in favor of Union he did it to kill the question and laugh it out of the House; that when he moved a resolution in the Nova Scotia Legislature in favor of the Union of the Provinces, he did it to kill the question; that when he made a speech in favor of Union when at Niagara, it was under peculiar circumstances, after having been attending a pic-nic all day; and that when he made the famous Union speech at Halifax, when the Camdian delegates were in that city, it was after they had been pouring champagne down other people's throats all day, not forgetting their own, and therefore he should not be held responsible for what he might say. This was about the pith of all he said; and humiliating it must have been to have found it necessary to ask the indulgence of the House for what he said when jolly. In short, his speech was exceedingly ingenious and pleasing. He took up the figures which had been given to the House the previous day, and said they were not correct, and that the reason more votes were not recorded, was because when the anti-Union party found they had a majority, they put no further efforts forward to secure votes, which could have been secured had they desired them. It was about half-past twelve when he closed, and the debate was adjourned.

At three o'clock to-day the debate was resumed by Mr. McKenzie, of Lambton, who gave the House the advantage of that oft-repeated tale, of the object of the formation of the original coalition, and defined the principles of Toryism, and took Mr. Howe to task for saying we could not defend ourselves from the United States, that we were stronger now, relatively, than we were in 1812. He proceeded to flagellate the Minister of Public Works, Mr. McDougall, for joining Messrs. McDonald and Cartier, and gave a repetition of the *Globe's* articles. Those of your readers who read the Daily *Globe* know all that Mr. McKenzie said. When he left this line of argument, he displayed his ignorance of English History by telling the House that Sir Robert Peel destroyed himself and his party by forming a coalition to carry the Emancipation Bill and the Corn Laws. Sir John A. McDonald and the Hon. Mr. Holton corrected him, but he did not like to be so corrected; and with a wriggle tried to get out of it. He then paid his respects to Mr. Galt, and declared that the currency Act was the cause of the failure of the Upper Canada Bank and the Commercial Bank. Mr. Galt followed, and shewed that the Upper Canada Bank failed some three months before the Currency Act came in force; and then asked how it was possible that the losses sustained by the Commercial Bank, in connection with the Detroit Railway, and the failure of Buchanan & Co., and other houses, would have been brought about by the Currency Act.

Dr. Tupper replied to Mr. Howe and the other Nova Scotians, and spoke for two hours, and delivered one of the most crushing speeches, so far as his opponent, Mr. Howe, is concerned. In a masterly manner, he demolished the penurile statement of Mr. Howe the evening before. From speeches, resolutions, and other documents, he conclusively proved that Mr. Howe had, for the last twenty years, been a most ardent and devout advocate of this measure. He continued speaking till six o'clock, when the House rose. Upon reassembling the members, many of whom were anxious to attend the Soiree in aid of the Irish Protestant Benevolent Association, suggested that the House adjourn, and on motion of the Hon. J. A. McDonald, seconded by Mr. Dorion, the House adjourned until three o'clock to-morrow, thus wasting a whole day.

There is no news yet of the successor to the Hon. Mr. Galt, nor shall we hear anything until after the Speech from the Throne has been answered. Mr. Rose returned from Montreal to-day, but nothing has transpired as to his future course.

QUINTE.

WHICH IS WORSE?—We are all apt to sneer at the eccentricities of female fashion—and goodness knows its frequent changes, its many offences against good taste, and sacrifices of comfort and health, deserve more than sneers. But is there no cause of complaint against men in this matter? Let the present style of pants answer. Can anything be more ugly, uncomfortable and absurd? What a pretty figure on the field at a game of LaCrosse would one of these "shrunk shanks" make, and what a valuable acquisition he would make in a match game. As for comfort, encased in these candle-moulds one dare not stoop, nor laugh, for fear of compound fracture—being restricted, like ladies with enamelled faces. Tight boots are bad enough, but tight pants are worse. While man beholds the beam in the eye of woman, let him first take the moat out of his own.

—Queen Victoria's baker was fined the other day at Windsor for selling bread under weight.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 12.—A serious riot is reported in Oxford, and troops have been ordered there to put it down.

A loan of one million pounds sterling to the Honduras Railway has been introduced in the market here. This loan looks to the construction of a railway through Honduras from Porte Cabello on the Atlantic to the Gulf of Fanseca, on the Pacific, the surveys of which were made under the old Squier's grant, about eight years ago, by a party of English Engineers. The proposed route is about 250 miles long, and the cost of construction will be about six thousand pounds per mile.

Second Despatch.

DUBLIN, Nov. 12, eve.—The trial of Halpin before the Special Commission was continued to-day. Verdict, 'guilty of treason and felony.' The prisoner throughout the trial maintained his claim of being an American citizen. His sentence has not yet been pronounced.

PARIS, Nov. 12, midnight.—The report of the resignation of Marquis de la Valche, Minister of State for the Interior, is confirmed. The Emperor has appointed M. Pinard his successor. M. Pierre Magne has been appointed Minister of Finance.

FLORENCE, Nov. 12, eve.—The *Gazette* publishes the text of a diplomatic note from Prime Minister Menabrea, which maintains that the suppression of the temporal power of the Pope is indispensible to the maintenance of good relations between Italy and France.

MANCHESTER, Nov. 12, eve.—The prisoners Naberk, Featherstone, and Gould, were to-day sentenced each to five years imprisonment, all the indictments having been disposed of. The Special Commission for the trial of Manchester rioters was discharged.

LONDON, Nov. 13.—Florence despatches say that the note of the Italian Minister has had a quieting effect upon the country. The Italian people, however, are of opinion that it is impossible to reconcile the differences between the Italian Government and people on the one hand, and the Pope on the other.

LONDON, Nov. 13, noon.—Consols 94; Erie 47: I C 84¾; Bonds 70¾.

LIVERPOOL, Nov. 13, noon.—Cotton dull and declined ⅛. Breadstuffs quiet. Corn advanced to 49s 9d.

American Despatches.

PHILADELPHIA, Nov. 12.—The steamer "Gen. Putnam" sunk to-day by a collision with the steamer "Major Keybold." No lives lost.

ROCHESTER, Nov. 13.—Weston arrived here at 12:20 last night in good condition. He was met by a large crowd of citizens. He made 63 miles to-day. He left the city at nine o'clock this morning.

COMMERCIAL BILLS.—In Toronto Commercial Bills are quoted at 90c to 92c. In Montreal they are quoted at 91c to 92c. Brokers here are paying 90c to-day.

—There was sleighing at Ingersoll on Tuesday last.

—The *Times* says Sir G. Bowen will succeed Sir George Grey as Governor of New Zealand.

—The present proprietors of the Atlantic Monthly have made $200,000 out of the magazine since they took charge of it.

—The introduction of breech-loading carbines into the cavalry regiments is to be carried out with the utmost despatch.

It has been decided by the Society for Promoting Christian Knowledge, that in the Society's Almanac for 1868 no mention be made of the Diocese of Natal.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of rheumatism, Neuralgia, Sore Throat, Diphteria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Perry Davis & Son, Agents for the Dominion of Canada. 159-1m 38w1m

LECTURE.

A LECTURE specially devoted to Volunteer interests, will be delivered by

Capt. Bridgewater,

under the patronage of Lieut.-Col. Campbell and the Officers of the 15th Battalion, V. M. I.

Lecture to commence at 8 o'clock.

ADMISSION 25 cts.—LADIES FREE.

God save the Queen.

Belleville, Nov. 13, 1867.

What the Toronto Papers Say
—OF—

FORREST & LOZO!

(*From the Toronto Telegraph, Nov. 8.*)

"PHOTOGRAPHS.—Those who want a really good photographic picture should certainly visit the establishment of Messrs. Forrest & Lozo, on the corner of King and Church Sts., where may be seen some excellent pictures, in the very best style of the art. The porcelain pictures are especially well executed, and the cabinet photograph and grace pictures are also well worth seeing. The facilities of this establishment for taking a good photograph are the best that could be desired, as the results show. Give Forrest & Lozo a call by all means. 39w1t-166d1t

The Abyssinian Expedition.

New York Bombay correspondence, Sept. 18th.

The Abyssinian expedition of the English government is the principal subject of interest, both in the papers and in business circles. Steamers, ships, and various kinds of vessels are being chartered by the government, repaired and fitted for the service required. The shops in the navy yard are crowded with work, and the ring of hammers on board the iron steamships in the harbor is not stopped by the small hours of night or the sacredness of Sunday. The story that we have here is, that the despotic King of Abyssinia, with his own hand, wrote a letter to Queen Victoria, saying that she had many ships and ruled a large country; her husband had died, and she would want another; in short, making an offer. The Queen declined the offer of this black, woolly-headed tyrant of the interior of Africa, under whose rule the essence of despotism pervades the land to the very core, and two messengers were sent with an answer. After the letter had been read and interpreted he said that the Queen had not written it herself, took great offence, and imprisoned the messengers. All the party that were to accompany them back were also captured. Two or three parties that were sent to inquire for them were also taken and imprisoned, until the number was between thirty and forty. Overtures and negotiations in various ways have been made to obtain the release of these captives without a war; but argument or reason is useless, and this Barbarian King is only the more inclined to be revenged, cut off the heads of these prisoners and fight the Queen unless she accepts. A rumor has been received during the past few days that the prisoners have been released, but it is not generally believed.

The idea is that the expedition will invade, capture and take Abyssinia, whether the prisoners are released or not. The government has expended a large amount already, and twelve or fifteen native Sepoy regiments are to go from Bombay. The first part of this expedition, sappers and miners, with some cavalry, sailed from this port on Monday, the 16th, in four steamers, and several others are soon to follow.

Some of these prisoners have been in captivity over two years, and if not released, will have their heads cut off as a commencement of the war. It is recorded of this tyrant that he caused the heads of 640 of his own people to be cut off on one occasion.

Abyssinia is a hard country to reach, and hundreds of miles of deserts are to be traversed where only camels can live. In one of their requisitions are 5,000 camels.—Everything has to be carried with the expedition into this country. Another steamer sails to-morrow morning with troops and supplies.

Earnestness in Saving Men.

The most earnest laborers for souls may receive a new impulse to fidelity from the following incident in the life of the noble-hearted Simeon:

Charles Simeon was once summoned to the bedside of a dying brother. Entering the room, the relative extended his hands and with emotion said, "I am dying, and you never warned me of the state in which I was, and of the great danger I was in of neglecting the salvation of my soul."

"Nay, my brother," said Simeon, "but I took every reasonable opportunity of bringing the subject of religion before you, and frequently alluded to it in my letters."

"Yes," said the dying man, "but you never came to me, closed the door, and took me by the collar of my coat, and told me I was unconverted, and that if I died in that state I should be lost; and now I am dying, and, but for God's grace, I might have been forever undone."

It is said that Simeon never forgot this scene.

A letter from a lady in Paris, just received says:—"Never will so many Americans be in Paris at one moment again;" and she added what a great deal of money they leave. I knew some New York and Western ladies who have bought such quantities of laces. Every lady who comes to Paris must buy a real black lace shawl and silks. One lady bought twenty thousand dollars' worth of European luxuries, mostly for presents to friends, and one gentleman, on his way to his western home, takes fifteen trunks filled with laces, silks, &c.

BUY YOUR TEA
DIRECT FROM
THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK,
MARION HARLAND,
Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"
who contributes to no other monthly publication, will furnish a new novel for 1868, called "PEMBR ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion plates will be continued.
MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.
DRAWING LESSONS.—In this we are also alone.
ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.
We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 00
Three copies, one year	7 00
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 60

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.
Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.
Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.
☞Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.
HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.
Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

FURNITURE WAREHOUSE.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 29 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3Dlt-tf Assistant Commissioner of Customs.

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,
in connection with
FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞"BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, NOVEMBER 14, 1867. No. 167.

Miscellaneous Items.

Two constables, who were sleeping watch over some seized property at London, were securely tied hand and foot, by a practical joker, who then shouted "fire" and enjoyed the fun.

The water of a lake about sixty miles from Houston, Texas, is so sour that it cannot be drunk. Analysis shows that it contains iron, alum, magnesia, and sulphuric acid.

It is stated that it will cost $12,000,000 to complete the reconstruction of the fortifications in France, and that the amount will be voted in five annual instalments. A French writer adds that it will cost another $12,000,000 in the general investment and paralysis of trade to which these works will give rise.

Very pretty is the following idea taken from the local column of the *Picayune*: "The light of love is very beautiful amid scenes of sorrow, and as the moonbeams seem holier and more tender round a ruin and churchyard than in festive halls, so is affection brighter when bestowed upon the wretched than when attracted by youth and happiness."

A man in Hartford, Conn., advertised recently that on the receipt of a certain sum, he would by return mail, instruct any applicant how to make a fortune. His directions were, "Peddle cigars, half Havana and half home made, as I did, and if that fails, advertise as I do, that you will instruct others how to make a fortune—and pocket the proceeds."

Two venturesome French Canadian youths were caught by Mr. McLeod, car inspector at the Grand Trunk station at Cornwall, taking free passage to Montreal on one of the trucks of the rear passenger car last Tuesday evening. Nothing short of utter recklessness could permit a person to hazard life in such a position, yet in the experience of railway men people are found who try the experiment.

The people of Surrey, in England, were much astonished on the night of October 23rd, by witnessing what appeared to be a shower of fire. This strange phenomena lasted about a quarter of an hour, and, while the shower continued, had the appearance of long threads of fire. The next morning it was evident that sulphur must have been the immediate cause of this extraordinary shower, since the puddles and water-butts were covered with a thick deposit of sulphur.

A Cigar did it.—The *Saint Public* tries to make out that the last cigar smoked by M. Fould was the cause of his death: "Nicotine, the redoubtable poisonous principle of tobacco, acts as a heart poison. In experimenting on animals, our eminent physiologist, Claude Bernard, observed that it paralyzed the central organ of the circulation, then sudden death. A dose insufficient to kill, nevertheless, produces symptoms analogous to those of *angina pectoris*. Now, M. Fould who was a smoker, and subject to palpitations of the heart, evidently had a slight attack of *angina pectoris* in the morning, to which he paid little attention, and then in the evening, a violent and mortal attack. In the interval a cigar was smoked; and who can say that this cigar was not the last straw which broke, &c?"

Fenianism a Bad Speculation.—The Paris correspondent of the *Irishman* writes: "I met three Irish-American officers of distinguished services here, in Paris, during the last year. I will give you an example of the luxury in which they were living.—Their breakfast cost nothing, for they lay in bed till dinner hour; their dinners cost five sous, that is about 2½d; their suppers were made up of the remains of the dinners. The last I saw of Captain C——, of Corcoran's Legion, was when he was leaving for London, on money lent by a friend of mine. The last time I heard of Captain K——, of the Irish Brigade, he was seeking employment as a common laborer in the Exhibition; the last occasion on which I met the gallant Captain B——, of the Federal engineers, he had his earthly goods wrapped up in a half sheet of a newspaper, and didn't know where he'd lay his head that night."

Rev. H. A. Edson, addressing the teachers of the public schools of Indianapolis recently, on the subject of the English language in the Hoosier capital, enumerated a large number of the peculiar forms of speech prevalent there. Prominent among them is the use of the word "at." For example, "Where do you live at?" "Where did you get cold at?" The word "like" is used in the sense "as though;" "He talks like he was crazy." "Watch out," is the usual synonym for "look out," or "be on your guard." "Just" is a pet word; "it is just too bad;" "I am just glad." "School takes up," is used instead of "school opens;" and "school has fetched to," instead of "school has begun." "I don't guess I shall go," is the common way of saying "I guess I shall not go." The boys all say "rock" when they mean a pebble or a stone.—Having the fever and ague, they call "chilling;" a garden is a "truck patch;" "awful fine," "powerful weak," "right wrong," "a heap sight," "a right smart chance" and a "good bit," are common expressions.

Richelieu  Company!

Roval Mail Through Line
between Montreal and Quebec.

On and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—

The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at seven P. M. precisely, calling, going and returning, at Sorel; Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.

The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.

This Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.

Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

The principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management

Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

Montreal Time.

STR. ROCHESTER.—The Str. *Rochester* leaves Flint's wharf to-morrow afternoon, at 1 o'clock for Oswego, touching at Mill Point and Picton.

Daily Intelligencer.

BELLEVILLE, THURSDAY, NOV. 14.

☞ *SEE FOURTH PAGE.*

FROM OTTAWA.

(By Special Telegraph to the Daily Intelligencer.)

FIRE IN OTTAWA.

OTTAWA, Nov. 14th, 1867.

The stone warehouse of C. Bates & Co., Ottawa, was destroyed by fire this morning. Loss $100,000. Fire the work of an incendiary.

INSPECTION OF BARRACKS.—General Lord ALEXANDER RUSSELL arrived in Belleville yesterday and left to-day. He is on a tour of inspection of regular troops within his district. He visited the various buildings now being prepared for the Rifle Brigade, and expressed himself as being highly pleased with the accommodations. It is supposed the troops will arrive in Belleville in a few days, their quarters being nearly ready for occupancy.

CANADIAN SECURITIES.—The London *Times* of the 30th ult., says that Canada Government 6 per cents, terminable in 1877—1884, were then quoted at 101 to 103, with sales at 102. This is a decided advance since November of last year, for on the 15th of that month the same class of security only stood at 92 to 93, or one per cent below the New Brunswick and two per cent below the Nova Scotia Sixes. All three now stand on an equal footing in the London market, the recovery in Canadian being greatest.

ADVERTISING.—Forney's Philadelphia *Press* one of the shrewdest and ablest of newspapers has the following sensible idea on advertising: "We have for many years studied the art of advertising, and still it remains to us a marvel that there is not one hundred times more of it. We never yet knew a man to advertise his wares liberally and steadily, that it did not pay. Yet there are thousands of manufacturers and tens of thousands of men having articles which they declare ought to be "in every household in the country," who advertise as gingerly and closely as though they had at heart no faith in it at all. How can they expect to get their goods everywhere, unless some knowledge of the articles gets into the family first, through the family newspaper? If we waited till people learned from their neighbors, we might wait for years before the most wonderful and useful inventions became known."

Troops for Belleville.

The *Bay of Quinte* last night brought iron military beadsteads sufficient to accommodate three companies of troops; the bedding and other stores are expected to arrive to night. The work in the various barrack buildings is being pushed forward as rapidly as possible, and in a few days the buildings will be ready for occupation. It is understood that three companies of the Rifle Brigade are to be quartered here, and not of the 17th Regiment as is stated in the Kingston papers.

The House Yesterday.

In the Senate the Hon. Mr. Campbell introduced a Bill for the regulation of the postal service. There was nothing else done in the Senate except to appoint standing committees.

The House was occupied in discussing the Address, which has not yet been disposed of. Dr. Tupper opened the debate, followed by Mr. McClellan, of Nova Scotia, who went strong for a repeal of the Union. Mr. James Young, a rabid Grit, made a speech *a la Globe*. Mr. Harrison, of Toronto, followed in a speech which stamped him as one of the cleverest young men of the House. Several other speakers followed, Mr. Rymal closing the day's debate by a characteristic speech.

GENTS' UNDERCLOTHING.—Geo. Ritchie & Co. announce a large stock of Gents' Underclothing of a superior character, which they are now opening out.

—The amount of Australian gold known to be now at sea is £562,000. The Sir John Lawrence has £251,000, the Blackwell £182,000, and the Sussex £129,000.

Gold News.

Mr. Sparling, of the ElDorado mine, showed us this morning the lump of gold obtained by the Reduction Works of Messrs. Scott & Taylor on Tuesday. It is just as it came from the retort, and was certainly "very fair to view." The assay certificate of Messrs. Scott & Taylor showed that it was the yield of one ton of quartz, and that it produced 2 oz 13dwt and 20grs of gold, valued at $53 80. This result must certainly be very gratifying to those who have been plodding away at this mine for the last year. They have sunk two shafts on their property—one 35 feet, the other 46 feet in depth, about 200 feet apart, and about 40 rods from the Richardson mine. Assays have been made of small quantities of quartz at different times, which showed a yield of from $12 to $60 a ton, and now the crushing of a ton of the quartz has put the value of the mine beyond question, and conclusively shows that the owners have got a "good thing." Gold has been found visible in the quartz in both shafts, and altogether the prospects of this mine are most favorable. We understand the Company are making arrangements to have a crushing mill of their own, which will be ready in a short time.

The Toronto *Leader*, speaking of the despatch from Madoc published in the INTELLIGENCER of Tuesday, says: "It seems to settle two points conclusively: First, that gold is to be had in this district in richly paying quantities; and, secondly, that the Moore farm is, so far as present developments go, the centre of the mining territory. The Richardson mine is situated on it, and the property of the Union Company is within 200 feet of the shaft which has turned out so very well, the same lead running directly through it. We have cautioned the public against buying up mining stock rashly, or of thoughtlessly placing their money in the hands of companies whose properties were just as likely to prove bad as good. The result of the crushing in the case of the ElDorado mine removes all doubt of the district in which it is situated not being rich, and affords a substantial basis for the expenditure of capital upon its development."

Mr. Glass has just shown us a "button" of gold which he and a practical miner extracted to-day from a pound and a quarter of dolomite rock, taken from the Richardson mine. The rock is a piece which has been lying in Mr. Glass' shop for months past, and for the "fun of the thing" they thought they would test its value. Its richness may be imagined when it is known that the pound and a quarter yielded $42 worth of pure gold, or equal to $70,000 a ton.

Mr. Howe's Position.

Mr. Howe must have occupied a very humiliating position in the eyes of his fellow members of the House of Commons, when making his speech Monday evening. He must have fallen very low in his own estimation when driven to offer such contemptible excuses for his inconsistencies. Is it possible that a man who for thirty years has occupied the foremost position in his native Province, who stood head and shoulders above his fellows, who made for himself not merely a provincial reputation, but whose abilities and talents had placed him amongst the first of colonial statesmen—is it possible that he could descend to such a level, and present to the Commons and the public of Canada such a humiliating spectacle? He endeavors to explain away his inconsistencies by telling the Commons that he was only "funning" when advocating the Union, that he did it to "kill the question"—that when he made his brilliant speech in favor of the Union at Niagara, it was under "peculiar circumstances;" and when his city, Halifax, gave the grand ovation to the Canadian delegates, "sparkling champagne, which was poured down each other's throats" without limit, influenced him to tickle their fancies by picturing the advantages of the Union. It was bad enough, at his age, to turn such a complete somersault, to become the weathercock he has, and throw his powerful influence and mighty talent into the scale of his country's most bitter enemies, but to offer such paltry excuses for his conduct makes his position infinitely worse, and must materially lessen, if it does not completely destroy, his influence in the councils of the country. But who believes that Mr. Howe was only "funning" when he advocated a Union of the Provinces? Why for twenty years the Union of the Provinces has been his hobby. He has advocated it in the Legislature and out of the Legislature, on the stump among the "blue noses," and in political circles in Great Britain. In 1861 when leader of the Government, Mr. Howe moved a resolution in favor of the Union of the Provinces which passed the Assembly unanimously. So long ago as 1854, he did not appear to have that dread of the United States as his speech in the House of Commons would lead one to expect. Our position then was not so defenceless in his estimation, for he gave utterance to the following remarks in the Nova Scotia Legislature.

"How often have we heard that our republican neighbors were going to overrun the Provinces. They have attempted it once or twice, but have always been beaten out, and I do not hesitate to say that the British Americans, over whom the old flag flies, are able to defend every inch of their territory, even though Her Majesty's troops were withdrawn."

"Taking our population at two millions and a half (it is now nearer four millions), every fifth person should be able to draw a trigger, giving 500,000 men capable of bearing arms.—Such a force would be powerless as an invading army, but in defence of these Provinces invincible by any force that could be sent from abroad."

At Halifax, when the Canadian delegates were in that city, Mr. Howe urged the importance of the Union on the ground of defence. Would the following remarks then made lead one to believe Mr. Howe made them to "kill the question," or that he took this position to please and tickle the fancies of their visitors? He said:

"He thought a Union should not be delayed till we had drifted into difficulties. How short sighted were the English statesmen of old who lost them the thirteen States, when the difficulty could have been arranged in a month, the horrors of the revolutionary war prevented, and all our race living at peace and harmony at present without the bickering and animosity which prevail in their midst. Talk of the fall of Quebec being a source of sorrow to the inhabitants of this Province. It would be more. If the St. Lawrence were in the hands of our enemies, we should be compelled to beg permission to tear down the British flag. What we wished for Nova Scotia was, that she may be the frontage of a mighty Colony; upon which it may be truly said that the sun never set. No man can look upon Halifax and its environs, its harbor, its citadel, and say it was made for this Province alone."

"The United States have drifted into a civil war; and we may drift into a tight place, from which it may be difficult to extricate ourselves. The States may assail us; but if we had a railway by which troops could be sent from Quebec or other military stations to the threatened point, we would be saved."

That has the ring of the true metal in it, and on its face are evidences of sincerity and truthfulness. Who can suppose that the following forcible and eloquent observations made by Mr. Howe on the Union and Western extension, were not the utterances of an honest conviction, and of one who believed what he said?

"The Hudson Bay Territory includes two hundred and fifty thousand miles. Throwing aside the more bleak and inhospitable regions, we have a magnificent country between Canada and the Pacific, out of which five or six noble Provinces may be formed, larger than any we have, and presenting to the land of industry, and to the eye of speculation, every variety of soil, climate, and resource. With such a territory as this to overrun, organize, and improve, think you that we shall stop even at the western bounds of Canada? or even at the shore of the Pacific? Vancouver's Island, with its vast coal measures, lies beyond. The beautiful islands of the Pacific, and the growing commerce of the ocean, are beyond. Populous China and the rich East are beyond; and the sails of our children's children will reflect as familiarly the sunbeams of the South as they now brave the angry tempest of the North. The Maritime Provinces which I now address, are but the Atlantic frontage of this boundless and prolific region; the wharves upon which its business will be transacted, and beside which its rich argosies are to lie. Nova Scotia is one of these. Will you, then, put your hands unitedly, with order, intelligence, and energy, to this great work? Refuse, and you are recreant to every principle which lies at the base of your country's prosperity and advancement; refuse, and the Deity's hand writing upon land and sea is to you unintelligible language; refuse, and Nova Scotia instead of occupying the foreground as she now does, should have been thrown back, at least, behind the Rocky Mountains. God has planted your country in the front of this boundless region; see that you comprehend its destiny and resources—see that you discharge, with energy and elevation of soul, the duties which devolve upon you in virtue of your position."

Is it any less than a public misfortune that such great talent should be prostituted as it has been prostituted, and that it has not been made available in promoting the common interests of this Dominion in consolodiating the Union, and "comprehending its destiny and resources."

Notices of Motion.

Among the notices on the motion paper are the following:

Hon. Mr. ABBOTT.—Enquiry of Ministry, whether it is the intention of the Government to make any order providing for the closing of the Carillon and Grenville Canals, on Sundays, during the season of navigation.

Hon. Mr. ABBOTT.—That a select Committee be appointed to enquire into the report upon the nature and operation of the laws of Bankruptcy and Insolvency now in force in the several Provinces of the Dominion, with power to send for persons, papers and records, and that such Committee be composed of ——— and mover.

Mr. BOURASSA.—Committee of the whole to take into consideration the following resolutions:

1. That it is expedient to create a special fund, to be denominated "The Liquor Inspection Fund," which shall be administered by the Receiver General.

2. That there shall be appointed by the Governor, in each of the great centres of the United Provinces, viz: in Montreal, Quebec, Three Rivers, Toronto, Kingston, Ottawa, Halifax and St. John, N. B., an analyst possessing competent medical and microscopical knowledge, whose duty it shall be to analyse all liquors, whether imported or manufactured on the spot, which shall be sold wholesale or retail, within the limits of his jurisdiction, and who shall be under the direction of the Collector of Inland Revenue, and shall assist him in the performance of the duties of his office.

3. That the analyst so appointed shall receive such salary and allowance as the Governor in Council shall think fit to award him.

4. That with a view to meet the expenditure to be incurred in virtue of the preceding resolutions, it is expedient that, over and above the duties and fees now payable under the authority of any law, each and every tavern-keeper and manufacturer and retailer of Intoxicating Liquors, shall pay *one dollar* a year, which shall form part of the Liquor Inspection Fund, and which sum shall be payable to the Collector of Inland Revenue, and by him paid over, with other moneys coming to his hands, to the Receiver General.

5. That persons selling, by wholesale or retail, adulterated liquors containing ingredients injurious to the health, shall, upon a complaint being made, be punishable by imprisonment for three months, and by a fine of *fifty dollars*.

6. That for his services, the analyst shall be entitled over and above his salary, to the sum of *five dollars*, in the discretion of the Justice, to be deemed costs, and paid by the party against whom judgment shall be given.

7. That all penalties imposed in virtue of these resolutions may be recovered summarily on the information of any person who will prosecute for the same before any two Justices of the Peace near the place where the offence shall have been committed, and shall be payable, one half to the prosecutor (who shall not thereby be rendered incompetent as a witness), with costs, and the other half to Her Majesty.

8. That all the penalties recoverable in virtue of these resolutions, and belonging to Her Majesty shall be paid over to the Receiver General of this Dominion, and shall form part of the "Liquor Inspection Fund."

Hon. Mr. HOLTON.—Address to His Excellency the Governor General, praying that he will cause to be laid before this House, with all convenient speed, copies of all agreements and correspondence between the Government of the late Province of Canada and the Bank of Montreal, having reference to the provisions of the Act of 1866, "To Provide for the issue of Provincial Notes;" and, also, of all correspondence since the 1st of August, 1866, between the Government of the late Province of Canada, as well as that of the Dominion of Canada, with the Bank of Montreal, respecting the mode of conducting the public account and the terms on which it should continue to be held by the Bank.

Mr. YOUNG.—Enquiry of Ministry whether in their promised postal measure, or otherwise, the Government intends to take steps to reduce the rates of Ocean and Inland Postage, and to assimilate the laws of Ontario and Quebec to those of Nova Scotia and New Brunswick, by abolishing newspaper postage.

Mr. HARRISON.—Enquiry of Ministry, whether the Government intend during the present Session to introduce any measure for the regulation of the value of foreign silver coinage as a part of the currency of the Dominion.

Editorial Summary.

—A flirt is the dipper of a public pump which all may drink at, but none carry away.

—The mud holes on the Overland route are said to be filled up with tons of mail matter.

—The copper ore exported from the Cape in the month of August last, amounted to 743 tons.

—The charge for thrashing an Editor in Guelph is $2.50

—A meteor lit at Gardiner, Maine, the other day, and left no trace of itself except a substance resembling starch.

—The Utahs have been invited by Kit Carson to go to New Mexico to fight the Cheyennes, and they are going in full war paint.

—An eight months old baby in Belchertown, Mass., knows the alphabet. He is especially strong on the T's.

—Among the favorite crops raised at the South now, are gunboats. They raise them from the river beds, where the war planted them.

—Conundrum for married men.—Why is a wife like a newspaper? Because every man should have one without borrowing his neighbors.

—Eugenie, the charming, is (oh, horrible!) revealing a moustache. The Spaniards like hirsute upper lips in women; but the French can't endure them.

—An old man in Southern Ohio was entombed while in a trance, kicked open his coffin, and returned to the upper world only to be shot as a ghost.

—Complaints are again rife of outrages in the Chaudiere gold districts, chiefly attributable to foreigners. It is said remonstrances have been addressed to the government thereanent.

—It is getting to be a common practice in New York for establishments, especially banks and Insurance companies, employing a large number of clerks, to provide for them a free lunch within the building where they work.

—Ohio is now the chief wool-growing State, having 9,508,053 sheep out of 32,605,797 in the whole United States. In 1866 the live stock of Ohio was valued at $151,000,000, which is greater than any other State except New York.

—Newman Hall is still in the States laboring hard to raise money for his Church, which, he tells his hearers, is to be a monument to Lincoln. The Americans seem to think, however, that they had better erect a monument to the "martyred President" in their own country before they undertake to contribute money for one in England.

LOSSES AT SEA.—The Statistical Committe of Lloyd's have issued a table showing the number of wrecks and causualities for the half-year ending June 30. The number of casualities to ships was 3,525 to steamers 500. The number of ships missing was 64, of steamers 7. Total number of ships abandoned 328, steamers 5.—Of these, 190 were totally lost. The number of collisions to ships 808, to steamers 147; total 955. Of these, 85 were sunk. The number of vessels sinking from causes other than collision was 281. The number of ships stranded was 1,483, of steamers 126. There were three cases of piracy. The number of vessels burnt or on fire was 65 ships and five steamers. The number of cases of mutiny, sickness, casualities to crew, and refusing to do duty was 201. There were 11 ships waterlogged. Totally lost, 1,072 ships and 87 steamers. 503 crews of ships were saved and 17 crews of steamers. The number of crews drowned was 29, and the number of lives lost as far as reported, 997.

Telegraphic News.

BY ATLANTIC CABLE.

FLORENCE, Nov. 13.—Rear-Admiral Provans Del Sabbione, has been appointed Minister of Marine. His acceptance completes the Cabinet of Gen. Menabrea.

LONDON, Nov. 12.—The measures taken to suppress the disturbance of Oxford to-day, were effective, and the town is now quiet.

MADRID, Nov. 13.—Capt.-Gen. Larsundo will sail for Cadiz on the 30th of the present month for Havana. By royal decree the Island of Porto Rico has been placed under the government of the Captain-General of Cuba.

PARIS, Nov. 13.—The last note addressed by the Cabinet of the Emperor to the European powers, simply proposes the assembling of a general conference for the settlement of the Roman question. It does not suggest any definite plan as a basis for the deliberations of the conference.

LONDON, Nov. 13.—Private advices received from Paris, represented that many political arrests have lately been made by the police there. It was stated that the existence of a society of alleged political characters had been made known to the government, and these arrests were made in consequence of the discovery.

The *Herald's* Alaska special of Oct. 8, says the formal transfer and delivery of Russian America to the United States government took place to-day.

PARIS, Nov. 14, noon.—The French tax on grain on foreign vessels has been removed.

SOUTHAMPTON, Nov. 14, noon.—The steamer "Atlantic," from New York on October 30th, has arrived.

LONDON, Nov. 14, noon.—Consols 94¾; Bonds 70¾; Erie 47¾: I C 84¾.

LIVERPOOL, Nov. 14, noon.—Cotton dull and declining; quotations unchanged. Breadstuffs quiet. Produce unchanged.

LONDON, Nov. 14, 2 p. m.—Consols 94¾; I C 84¾; Bonds 70¾; Erie 47.

LIVERPOOL, Novr. 14, 2 p. m.—Cotton easier and unchanged. Breadstuffs quiet. Lard 52s 3d; Tallow 44s.

American Despatches.

WASHINGTON, Nov. 13.—It is rumored that General McClellan has been or will be tendered the appointment of Secretary of War by the President.

NEW YORK, Nov. 13.—A number of merchants and capitalists of this city, large holders of New York Central shares, representing $13,000,000 of the stock, have addressed a letter to Commodore Vanderbilt, endorsing their proxies and requesting him to use them in the selection of a proper Board of Directors at the next election. It is rumored that he will be the next president.

NEW YORK, Nov. 14.—A despatch from Vassar College, Poughkeepsie, at 1 o'clock a. m., says the observations began at 10:30 p. m. The light of the moon makes it impossible to see faint meteors, but the number of brilliant ones is unusually large. In the hour from 11:30 to 12:30 about six were seen as bright as Sirius, with long trains. Most of these were seen in the neighborhood of the Great Bear and Orion. About 12 o'clock two very brilliant ones passed directly across the Great Bear. Between 12 and 1 o'clock five were seen to pass among the stars of Orion, with long trains. One in the constellation Cygnus, and one brighter than Sirius, without train, were seen near the northern horizon, while one near Castor left a train which remained a minute, and another in Cassiopea had a very broad train.

ST. LOUIS, Nov. 14.—A fire last night consumed property to the amount of $22,000.

SPRINGFIELD, Mass., Nov. 14.—Six inches of snow fell here yesterday, delaying the railway trains.

NASHVILLE, Nov. 14.—Major James Work, formerly a rich slaveholder and a resident of this city, committed suicide last night by cutting his throat.

NEW YORK, Nov. 14.—Last night a thief named Maguire was shot and fatally wounded by a police officer.

The meteoric shower did not appear in much force last night. A few small meteors were discernible, but nothing alarming appeared.

The heirs of Anneke Kans, who claim the Trinity Church property, met in convention at Poughkeepsie yesterday. There were 200 men and women present.

Wm. Connor was fatally burned by a kerosene explosion, while filling a lamp last night.

Last week 7,161 emigrants arrived, making 220,475 for the year.

Judge Busteed leaves here this evening for Alabama, to try the case of James Hickman. Hickman was tried for treason by a petit Jury. He now brings suit against the Jury, Judge, Marshal and all concerned, for false imprisonment, laying his damages at $280,000.

John Nevin, of Brooklyn, yesterday assaulted his wife with an axe, breaking her collar bone and crushing her skull. He was arrested.

The *Tribune's* Washington special says: It is still uncertain whether Mr. Thornton will come as British Minister to Washington, though Lord Stanley urges his appointment.

—The Louisville *Journal* plausibly asks why planets do not cut off the tails of comets when the latter happen along. They all have axes.

—The government of New South Wales have adopted the tonic sol fa method of teaching singing, and ordered it to be taught in all their schools.

BIRTHS.

In Belleville, on Sunday, the 10th inst., the wife of the Rev. Archibald Walker, of a son.

MARRIED.

By the Rev. James Preston, on Nov. 7, at Fanning's Hotel, Belleville, Mr. John H. Bellamy to Miss Catherine McLavy, both of Northumberland.

By the Rev. Joseph Wild, in the Episcopal Methodist Manse, Belleville, Nov. 9, Mr. Isaac Heaney to Miss Cloe Sharp, both of Murray.

At Redmersville, on Monday, 12th Nov., by the Revd. Wm. Thompson, of the W. M. Church, Mr. Robt. Dick, of London, England, to Mrs. H. Swales, of the County of Prince Edward.

At St. Thomas' Church, Belleville, Oct. 30th, by the Rev. John Grier, A. M., Rector, Edward Drew, G. T. R., of Gloucestershire, England, to Phillis M., second youngest daughter of Joseph Todd, Esq., of Belleville.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tootie Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 156-2w 33-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption. It also gives strength to the system; stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

PROCLAMATION.

The Commercial

COMMUNITY, and citizens resident in the County of Hastings and Province of Ontario are respectfully informed that the Extract of Limes and Glycerine is superior to every other preparation as a dresser for the hair. It contains no Lead, Sulpnur, or any other injurious ingredients. It is composed entirely of vegetable substances of acknowledged virtue, and for cleansing and allaying all irritation of the Scalp, and for preserving the Hair and promoting its growth it is unequalled. It has the properties of a Wash, as well as a Pomade, and checks all tendency to the Hair turning Grey or falling off.
Prepared only at
APOTHECARIES HALL,
1d1y Front St., Belleville.

(LATE OF PETERBOROUGH.)
☞Every attention paid to travellers. House and furniture entirely new. 142-tf 39tf

GOOD ADVICE.—Keep a smile on your countenance. Smiles breed dimples, which are far more ornamental than seventy-five cent vest chains. It is dangerous to sleep in the same town with the proprietor of a perpetual frown. Don't walk around looking as dismal as a sick undertaker, or as if you were going to your own wedding or funeral. If you feel downhearted, avoid laudanum. Take to clean linen and victuals, and you'll come out all right.

PLEASURE OF READING.—Of all amusements that can possibly be imagined for a workingman, after a day's toil, or in the intervals, there is nothing like reading a newspaper or book. It calls for no bodily exertion, of which the man has had enough —perhaps too much. It relieves his home of dullness and sameness. Nay, it actually paints him to his next day's work, and gives him something to think of [illegible] the mere mechanical drudgery of [illegible] day occupation—something [illegible] while absent, and [illegible] with pleasure.

The celebrated Mrs. Yelverton made her *début* before a New York audience on Thursday evening last. Some of the papers speak very favorably of her powers as a reader and elocutionist, while by others, her rendition of "Locksley Hall," and some other poems, is criticised in the most unsparing manner. The New York *World* says that she is the "very worst reader of poetry or doggerel that ever dared to appear before a New York audience." All agree, however, in pronouncing her a very pretty, as well as an exceedingly badly used woman.

A terrible typhoon swept over Hong Kong on the 8th September, causing great destruction of life and property. There is distress in the neighborhood of Pekin, in consequence of the failure of the rice crops. The prices of all commodities have fallen considerably, and many of the poor people have already pawned all that they possess. The rumour which was mentioned in the Hong Kong *China Mail*, that a foreigner was there buying rice for the Imperial government, proves to be well founded, Mr. Wright, formerly deputy-commission of customs here, being the gentleman deputed.

FACTS IN BRIEF.—Out of every thousand men twenty of them die annually. The number of inhabitants of a city or country is renewed every thirty years. The number of old men who died in cold weather, as seven to four. The men able to bear arms form a fourth of the inhabitants of a country. The proportion between the deaths of woman and those of men 100 to 108. The probable duration of female lives is sixty; but after that period the calculation is more favourable to them than men. One half of those who are born die before they attain the age of seven. Among 3135 who die, it appears by the registers that there is only one person of one hundred years of age. More old men are found in elevated situations than in valleys and plains.

Conscientious men, men of truth and of extensive learning, are the last men in the world to be positive of anything which is not akin to demonstration; and, least of all, positive of anything which leans on memory alone. The weakest-minded and the least informed are habitually the most positive. The lesson is, adore Truth, in writing in conversation, and action; do not assert as a truth that which cannot be demonstrated or corroborated, if need be, by outside evidence. A true gentleman habitually avoids making positive statements, thus securing himself from the charge of falsehood, and society would be greatly blessed if, in addition, the habit were sedulously cultivated of making no statement which is not literally true, with a wide margin, and if "often" and "very" were our highest expletives, instead of always, never, awful, and the like.—*Hall's Journal of Health.*

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,
BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contain *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK,
MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side" "Nemesis," and "Marian,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PREMIE ROWLAND," that will run through the year. Her stories are seriously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS in this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year	$3 00
Two copies, one year	5 50
Three copies, one year	7 50
Four copies, one year	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 60

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $4 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office *Order or a Draft, payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS,
QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette.*

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS,
OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 29 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3D1t-tf Assistant Commissioner of Customs.

BROWN'S FOUNDRY
AND
MACHINE SHOP,
FRONT STREET, BELLEVILLE.

G. & J. BROWN,
Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,
in connection with
FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	$ 50
Each subsequent insertion	0 12½
Above six, lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞"BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

VOL. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, NOVEMBER 15, 1867. No. 168.

Astronomical Phenomenon.

From the Toronto Evening Telegraph.

REMARKABLE SHOWER OF METEORS—PARTICULARS AS NOTED AT THE MAGNETIC OBSERVATORY OF TORONTO UNIVERSITY.

English astronomers predicted several months ago that a remarkable shower of meteors or shooting-stars would fall on or about November 13th. On account of these predictions, astronomers throughout the world have for several nights past been on the look-out for the phenomenon. By the event the correctness of the calculations upon which the prediction was based has been proved. The display took place last night, or rather this morning, and was observed by astronomers and others in all parts of this continent, according to our telegraphic despatches.

Not to be behind others in observing the phenomenon, in the hopes of thereby benefitting science as well as of enjoying the display, Prof. Kingston, of the Toronto University, made all the necessary preparations for taking obervations. In company with a number of students of the University, who kindly volunteered their services, the Professor took up his station in the tower of the magnetic observatory at an early hour last night, surrounded by such scientific instruments as he thought would be of use should the expected phenomenon occur. The students were placed in different portions of the tower, and thus the entire heavens from the horizon to the zenith were closely observed, the students relieving each other at short intervals. The night was not favourable for such observations, the moon being at or near the full, and the sky being overcast with heavy masses of cloud. Fortunately, however, the clouds were detached and broken, and were borne away by the wind, though quickly succeeded by others. Through the space, the blue vault above was visible. Had the night been dark, with a clear sky, it would have been much more favourable for the purposes of the astronomer. In the early hours of the night nothing unusual was observed.—Shortly after midnight, however, the clouds partially cleared away, and then the anxiously looked for display commenced. At first only a few meteors were seen, but they rapidly increased in number until between four and five o'clock in the morning, when a portion of the sky was brilliant with them. As correct a count as was possible under the circumstances was made by the students with the following result:

From 1.00 a. m. to 1.20 a. m.				6
" 1.20	"	1.40	"	14
" 1.40	"	2.00	"	24
Total, from 1 a. m. to 2 a. m.				44
From 2.00 a. m. to 2.20 a. m.				39
" 2.20	"	2.40	"	40
" 2.40	"	3.00	"	44
Total, from 2 a. m to 3 a. m.				123
From 3.00 a. m. to 3.20 a m.				85
" 3.20	"	3.40	"	169
" 3.40	"	4.00	"	306
Total, from 3 a. m. to 4 a. m				560
From 4.00 a. m. to 4.20 a. m.				784
" 4.20	"	4.40	"	182
" 4.40	"	5.00	"	179
Total, from 4 a. m. to 5 a. m.				1,345
From 5.00 a. m. to 5.20 a. m.				112
" 5.20	"	5.40	"	61
" 5.40	"	6.00	"	21
Total, from 5 a. m. to 6 a.m.				195
Grand total,				2 287

The state of the sky greatly interfered with the display, and it is supposed that had there been neither clouds nor moon, the number would have been fully double that given above. Nearly all the stars proceeded in directions which, when produced backward, passed through the constellation of Leo, only about two per cent being not conformable to this course. As a general thing the meteors were small and wanting in brilliancy, though there were some very brilliant and of considerable magnitude. So far as observed, there were no explosions. It is not improbable, however, that some of those hidden by clouds exploded. Towards daylight, as shown above, the number diminished rapidly. It is not supposed from this that the shower ceased, but rather that it continued, while the meteors became invisible from the approach of the more powerful light of the sun. In fact, the stars may have continued shooting during the day, and it is not improbable that a further display may be witnessed to-night. Professor Kingston expects it, and intends being on the look-out. For the above facts we are indebted to Prof. Kingston, and thank him therefor, while he in his turn desires to thank the students and graduates for their valuable aid in counting the meteors.

Mark Twain doesn't like the continental barbers. He says "they put a bowl under your chin and slop your face with water, and then rub it with a cake of soap; then they begin to shave, and you begin to swear; if you have a good head of profanity on, you see the infliction through; but if you run out of blasphemy, there is nothing for it but to shut down on the operation till you recuperate."

Richelieu Company!
Royal Mail Through Line
between Montreal and Quebec.
ON and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. NELSON, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning, at the ports of Sorel, Three Rivers and Batiscan.
The Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.
J. B. LAMERE,

Office Richelieu Company, 6th May, 1867. 27D5m.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

American Despatches.

WILMINGTON, Del., Nov. 14.—The display of meteors from 2 to 4½ o'clock this morning was very fine. Five hundred were counted in 20 minutes.

CHICAGO, Nov. 14.—The observers at Evanston, Illinois, report a fine display of meteors. 1100 were seen and counted between 3:20 and 4:12 a m.

RICHMOND, Nov. 14.—Meteors fell at the rate of 1500 an hour at 4 o'clock this morning.

There was a brilliant meteoric display at Charleston, lasting several hours.

NEW YORK, Nov. 14.—Fires occurred this evening at the piano-forte warehouse of Geo. Stock & Co., on Walker Street. Loss $10,000. Also at a sash and blind factory on Forty-second street. Loss $21,000. Also in a building on Peck Street, occupied by Van Wilt, cotton merchant. Loss $30,000. Several other minor fires took place in various portions of the city.

NORWICH, Conn., 14.—The bridge across the Yantic river at this place, fell this evening about 7½ o'clock. A waggon with five horses attached, and containing three men; was passing over at the time and went down, but strange to say, none were injured. The bridge cost upwards of $25,000.

PROVIDENCE, R. I, Nov.—Hon. Nathaniel Bullock died in Bristol last night, aged 89 He was the oldest member of the Rhode Island Bar, the oldest graduate of Browne University, and the last Lieutenant Governor of the State under the charter of Charles II.

BALTIMORE, Nov. 15.—John and Joe Douglas Wise, who assaulted E. A. Pollard, were bailed in $3,000 each to appear before the Grand Jury on Saturday next. Pollard's wound is severe, the bone being shattered. He is now doing well.

DOVER, N. H., Nov. 15.—The steamer "Lady of the Lake" was burned to the water's edge yesterday, while lying at her wharf at Wolfesboro.

HAVANA, Nov. 14.—There are no new cases of cholera. The excitement is abating.

NEW YORK, Nov, 15.—There are indications that the parties who have invested in the presentation enterprise of Clarke, Webster & Co., are all victims to one of the sharpest speculations of the age. Over a million dollars' worth of tickets were sold.

Kirby & Co.'s book store was robbed last night of $1700 worth of property.

The *Tribune's* Washington special says:—Official reports show that the Government has lost, by the non-collection of the whiskey tax alone during last year, upwards of a hundred million dollars. The loss on tobacco is set down at twenty-five millions. These losses are attributed to the corruption and mismanagement of collectors.

The President has pardoned C. B. Chittenden, of Kentucky, who was a rebel Major General.

GREEN POINT, L. I., Nov. 15.—Schooner *E. S. Bernes* of Albany, loaded with sand, sprung a leak and sunk off Orient Point. Vessel and cargo total loss; all hands saved.

The Abyssinian Expedition--Letters From two of the Captives.

Advices from Bombay to the 14th of October are at hand. The advance brigade of the Abyssinian field force under Col. Field of the 10th Native Infantry, left Bombay for Massowah on the 7th inst. Her Majesty's ship Totillite (?) is to assist in landing the troops and stores. A depot will be established at Massowah, and the advance brigade will probably march 60 miles into the interior of the country. Up to the 12th of October 25 vessels had been chartered for transport service by the Bombay Government. The Scinde brigade of the Abyssinian force will leave Kurrachee about the 26th of October. Eighteen hundred mules have been bought in the Punjab for service in Abyssinia.

The telegraph department in Calcutta has been instructed to furnish the Abyssinian Expedition with materials for creating the working 450 miles of telegraph.

A letter from the Rev. H. A. Stein, one of the captives, addressed to his wife in England, had arrived. It is dated Magdala Sept. 7. In it he details the atrocities which the King has committed, and which have been already published, and states that he trusts no small force of the English which may be sent out will fall into the King's hands, for that his thirst of blood is so great that they will assuredly perish.

A letter from Mr. Rossane has been published, in which he says that King Theodore, speaking of an English expedition, said: "Let them come; they shall see that I am not a woman or a coward."

A Wedding Story.

An English paper tells this story:—"A year or two ago, there was a most extraordinary scene at a wedding breakfast. It should be said that the officiating clergyman was an intimate friend of all the parties, which may, perhaps, extenuate his want of caution and compliance with the law, although the oversight committed by several persons at the same time was most singular. The incident was sufficiently remarkable, and we freely make it over to the use of Miss Braddon and that great unknown, Mr. Babbington White. At the breakfast one of the bridesmaids asked the clergyman if he happened to have with him the marriage license, as she had a great desire to behold, with her bodily eyes, that sacred and mystic document. All at once the thought flashed across the mind of the unhappy man that he had performed the marriage without a license. He at once explained the unaccountable oversight which he and the bridegroom had committed. A scene of terror and confusion ensued. The parents caught up the young lady from the embrace of the pseudo-groom, and carried her off to a place of safety. A license was promptly procured, and the parties were married afresh next morning; but the unhappy clergyman was made miserable by the threat of a criminal prosecution on the part of the dissenting interest in the parish."

COMMERCIAL BANK BILLS.

COMMERCIAL BANK BILLS taken in payment for subscriptions and notes due for THE INTELLIGENCER, AT PAR, until the 1st of December, 1867.

BELLEVILLE, FRIDAY, NOV. 15.

☞ *SEE FOURTH PAGE.*

CONSTITUENCY FOR MR. RICHARDS.—Solicitor-General Richards has at length obtained a seat. Mr. Robertson, of Niagara, retires, and Mr. Richards will probably be elected by acclamation. The election will probably come off in ten days.

TRUTH IN ADVANCE.—A St. Louis paper talking of the Dominion, says:—"If the Rouges of Lower Canada hanker after annexation, they cannot be sincere in doing so through love for their French nationality, language and religion. For if they know anything, they ought to know that within twenty-five years after their admission into the Union, the French Canadians as a people would cease to exist."

CUSTOMS AND IMPORTS.—The amount of customs duty collected during the fiscal year ended on the 30th June, 1867, in the former Province of Canada, amounted to $7,023,327, as compared with $7,330,374 during the same period last year. The total value of the imports amounted to $59,648,987 in 1867, as against $53,802,319 in the fiscal year ended 30th June, 1866. The value of the Free Goods imported in 1865-6, amounted to $20,527,043, and in 1866-7 to $23,293,238.

TRENTON FLOURISHING.—The Trenton *Courier* says: "Trenton, we are happy to say is lately receiving large additions to its population, and many new establishments have sprung into existence. We wonder the waters of the magnificent Trent have not been utilized long before this. A joint stock company that would build a dam and canal down the side of the river would realize a fortune by the sale of water privileges for manufacturing purposes. There is water sufficient to drive the machinery of the Province allowed to run by unemployed."

St. Andrew's Society of the County of Hastings.

The annual meeting of this Society was held on Tuesday last, 12th inst. The reports of the year's operations were read, and showed that the sum of upwards of $200 had been disbursed for charitable purposes alone.

Many deserving families have received aid and support, and much suffering has been relieved through the benevolent efforts of the members of this Society.

The following gentlemen were elected office-bearers for the ensuing year:

ALEX. ROBERTSON, Esq., President.
GEO. D. DICKSON, Esq., 1st Vice-President.
HUGH WALKER, Esq., 2nd Vice-President.
ROBT. THOMSON, Esq., Treasurer.
WM. WEBSTER, Esq., Secretary,
The Rev. Messrs. WALKER and MCLAREN, Chaplains.
Dr. NICHOL, Surgeon.
A. WATTERS, Esq., Marshal,
ALLAN T. PETRIE, Esq., Standard Bearer.
William Tennant, James Harold, William McAdie, James Robertson and James Gordon, Esqs., Charitable Committee.

We are informed that, owing to the 30th of November falling this year on a Saturday, Tuesday, the 3d day of December next will be held by the Society as St. Andrew's Day. The day will be celebrated by a promenade concert and ball, of which due information will be given to the public. We may add that an active and able committee have the arrangements in hand for this celebration, and, among other attractions, they have secured the services of two pipers from the band of the 78th Highlanders, Montreal, who played at the relief of Lucknow.

—Many Dances are emigrating to Salt Lake City.

—The Cable Company have reduced the price of messages of ten words from $50 to $25.

—The *Times* says Sir G. Bowen will succeed Sir George Gray as Governor of New Zealand.

—Six cases of Fenian arms and ammunition arrived at Niagara Falls, N. Y., last week, addressed to a prominent citizen of that place.

New Agricultural Bill.

Pursuant to a resolution passed at the annual meeting of the Provincial Association lately, held in Kingston, a meeting of the delegates representing the various County Societies was held in the Music Hall, Toronto, commencing on Tuesday last, for the purpose of submitting a draft of an amended Agricultural Bill to Parliament. Most of the Agricultural Societies in the Province of Ontario were represented, except North Hastings and Prince Edward. Resolutions were passed for the purpose of defining the general principles to be contained in the Bill, relating to the formation and management of Agricultural Societies, and a committee was appointed to draft the Bill in detail. Resolutions were passed which, it carried into effect, will make important alterations in the present law. One of the most important will be the election of members of the Board of Agriculture; the principle contained in what is known as Cowan's Bill was adopted, consequently Hastings, Prince Edward and Lennox will be called upon to elect one member of the Board. Another important resolution was carried, authorizing the different Societies to appoint auditors at their annual meetings, to audit the accounts of the Societies.—Some Societies have already adopted this principle, but not so with the Board of Agriculture, who will now be compelled to have their accounts audited, and such auditor's report printed and forwarded to the various County Societies not later than the month of December of each year. A resolution was carried authorizing the formation of Societies in each electoral division in the Province, the limits of such division to be the same as those for representative purposes. Thus there will be a County Society in each electoral division of this County, and as all electoral division Societies are to receive the same Government grant, if the three County Societies will unite we can have a splendid exhibition. Another important resolution was carried, affecting branch or Township Societies, requiring such Societies to raise the sum of seventy-five dollars to be paid over to the County Society, and are allowed only to draw from the parent Society one-half of the Government grant instead of three-fifths as formerly. Some other suggestions were made which may be introduced in the new Bill.

FROM OUR OTTAWA CORRESPONDENT.

[This letter, which was posted in Ottawa on the 13th, for some cause or other, was not received until to-day.]

OTTAWA, Nov. 13th, 1867.

Last night the Irish Protestant Benevolent Society held its annual Soiree and was addressed by the Hon. Mr. Howe and the Hon. Mr. McGee, both of whom charmed the audience with their eloquence. The objects of the Society being of a benevolent kind, it was well attended by all classes of the people.

At three o'clock to-day the House met, and the Hon. John S. McDonald asked leave to withdraw the petition which he had presented against the return of the Hon. John C. Abbott, as it contained some errors and inaccuracies. Sir John A. objected, stating that it was in possession of the House, and could not be withdrawn, unless he first gave notice. The result of such a refusal would be that when received it would be thrown out for informality, and Mr. Abbott retain his seat.

The debate upon the Address was resumed by Dr. Tupper, who continued his attack upon Mr. Howe, showing in the most incontrovertible manner that the latter gentleman has made a complete somersault upon the question of Confederation. He then turned his attention to Mr. McDonald of Antigonish, Nova Scotia, who he proved to have misrepresented him, and misquoted Lord Durham. Being the only union man from Nova Scotia he has to fight the whole eighteen antis, and he does it, not only manfully, but most completely. He speaks rapidly, fluently, and argumentatively. It is highly gratifying to find the interests of one of the maritime provinces in such able hands, though he is a unit; and it is more gratifying still to know that this man, who so ably leads the union party, is and has always been a Conservative, showing that in this as upon all other questions, the liberal conservatives are more desirous of progress, where it can be done consistently with the interests of the people, than those who make louder and more earnest professions. He was followed by Mr. Bellerose, in French, and then by Mr. McLellan, of Colchester, Nova Scotia, who rejected the advice given to them by the member of Cumberland, Dr. Tupper. In fact the whole debate so far has been conducted by members from Nova Scotia, the whole of whom seem to be determined to have their say, and then it is supposed they will quietly go to work in a more harmonious manner.

The next speaker was the new member from the South Riding of Waterloo, Mr. James Young, who spoke well from his stand point. He gave the House the benefit of the opinions held by the so-called Reformers of Ontario, and pitched into the Tories generally, and yet declared that the man who could not rise equal to the occasion was not fit to hold a seat in the Commons of Canada. On the whole, it was not a bad speech for a beginning, and after experience we shall not be surprised to see him take a position among his Grit confreres.

Mr. Fortin from Gaspe followed in French and in English, during which he told Mr. Howe that instead of losing his fisheries, his experience of sixteen years taught him that he never found a single Canadian fisherman fishing in Nova Scotian waters, but had found many Nova Scotians fishing in Canadian waters, and that he as the servant of Canada had protected all alike.

Mr. Harrison next took the floor and delivered an address upon the Union, in which he showed by figures, that before the Union we had but 3,000,000 inhabitants, now we have 4,000,000, before the Union we had but 534,500 able bodied men, now over 600,000 able bodied men, and that our seamen had increased from about 6,000 to over 28,000, and that if we had a long frontier, so had the United States, so that what was a source of weakness to us could not be one of strength to the United States. He then gave statistics, which show the great advantages to be derived from Confederation.

OTTAWA, Nov. 14, 1867.

After the close of my last letter, Mr. Cayley, the new member for Beauharnois, addressed the House in French, contending that the spirit of Nationality pervaded the whole people of Canada. Next upon the list came Mr. Malcolm Collin Cameron, of the South Riding of Huron, who spoke warmly in favor of a party government; and was followed by a Nova Scotian, Mr. E. M. McDonald, of Lunenburg. This gentleman gave a description of the feeling in Nova Scotia among the people, that the Volunteers refused to drill and take the oath of Allegiance, and would at any moment use the rifles which had been served out to them, against any man who would go from Canada down to that Province to interfere with them in the affairs of that Province. He avowed himself a determined opponent of the Union, and would do all he could to obtain the repeal of that Union. Mr. White, of Ottawa, then took the floor and delivered a humorous speech, in which he expressed the hope that Mr. Howe would yet endeavor to help work out the Confederation Act. Dr. Parker next tried his hand, and sat down, apologizing to the House, on the ground of not being able to control his ideas, promising to try again.—Mr. Rymal entertained the House for a few minutes, and however much he may be laughed at, he says a number of very good things and in a very good way. The debate was relieved from its monotony by a singular and humorous speech, during the delivery of which, the House was kept in a roar of laughter, and the honorable member seemed to enjoy it as much as any one, he laughing when others laughed, and fancied it was at his own wit, when it was at his absurdities and the ridiculous manner in which he delivered his remarks. It being half-past twelve, the House adjourned.

To-day at three o'clock, on the assembling of the House, the Speaker was instructed to issue his writ for a new election in the County of Montmorency, to fill the vacancy created by the elevation of M. Cauchon to the Speakership of the Senate. This having been decided, the Hon. Mr. Holton asked what had been done towards filling the vacancies in the Cabinet. The Hon. Sir John A. McDonald replied that negotiations were in progress, which he believed he would be enabled to communicate to the House in a short time.

The debate upon the address was resumed by Mr. Jones, of North Leeds, who spoke in defence of the Coalition, showing that the increased debt of the Province was not owing to the formation of that Coalition, but the works commenced before it came into power, and contended that the North-West territory was not of so much importance to Canada as many supposed, and he would rather see it populated as a Crown Colony instead of forming a part of Canada. He was followed by M. Joly, of Lotbiniere, who, by-the-by, is a French Protestant, defending the Hon. Mr. McGee, who was absent on account of illness, from the remarks of Mr. McKenzie, the member for Lambton, who spoke in a sneering manner of the efforts made by Mr. McGee to discourage Fenianism in Canada, stating that he had done more to serve Canada in this respect than any other man in it, and that the country owed him a debt of gratitude for what he had done. It is a remarkable fact in this debate that the extreme Grits, led by Mr. McKenzie, of Lambton, have defended those whom it is known have Fenian proclivities. The reason for this is obvious, that section of the voters in Ontario supported a Grit candidate wherever he presented himself. It is not, therefore, a matter of surprise when we find the Grit leaders defending men of the O'Hanly stamp, and those who attended the famous meeting in Toronto, called together by the Hon. George Brown. Mr. Joly spoke well and to the point, and his remarks were received by the house with many hear, hears.

Mr. Bodwell followed in defence of the Union, and in favor of the accession of the Red River Settlement, and told the Nova Scotia members that they had secured the best of the bargain. He spoke well, and gives evidence of becoming a good debater. He was followed by Mr. Tremblay, from Chicoutimi and Saguenay, in French. Then came another Nova Scotian, Mr. Carmichael of Pictou, who gave another history of his election, and that he believed Confederation would lead to annexation. Mr. Oliver, of North Oxford, delivered a good speech, in which he proved from figures that Ontario had more to complain of than Nova Scotia, that in fact the latter received more money per head than any of the other Provinces. He declared his belief in free trade, and did not believe that the American people were desirous of making any aggression upon this country; he denied that the elections in Ontario sustained the policy of the late government, gave an account of how, in his mind, the late elections were carried; and then condemned the Currency Act, to which he attributed the bank failures in Ontario. Upon his resuming his seat, Mr. McGee next took the floor, whose speech I may refer to in my next.

QUINTE.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 14.—The London *Times* in a leading editorial on the Italian situation, referring to the last note of the Prime Minister Menabrea, boldly declaring the abolition of the temporal power is essential to the production of peace, calls it Italy's ultimatum to France.

BRUSSELS, Nov. 14.—By the new postal treaty between Belgium and the United States, the rate of postage on single letters weighing half an ounce or less, has been reduced to fifteen cents.

PARIS, Nov. 14.—The *Moniteur* to-day publishes the Imperial decree, making the following Cabinet appointments: M. Marie Oear Pineard, to be Minister of State for Interior; M. Pierre Mogue, to be Minister of Finance.

PARIS, Nov. 14.—Previous to the departure of the French troops from Rome, the Holy Father received the staff officers in a body at the audience chamber of the Vatican, and addressed them in the most feeling manner. He expressed his happiness at having the soldiers of France around him once more, but never had his happiness been so great as it was now, because of the recent peril to which he had been exposed. He returned thanks to the officers, to France, and to Emperor Napoleon, for the deliverance of the Holy See. He was filled with grief to see that Italy had sent out as a vanguard against Rome, a horde of anarchists, upon whose flags were inscribed rapine and devastation. While the valor of the Pontifical troops had successfully defended the soil of the church, the army of France had come to crown the splendid defence. The Pope concluded by saying that in the midst of his trouble, he had the consolation of receiving sincere expressions of Catholic sympathy from all parts of the world. His Holiness then terminated the intervlew by giving his apostolic blessing to the army, the people, and the Emperor of France.

LONDON, Nov. 14.—Maguire, one of the five prisoners who were convicted of murder before the Special Commission, at Manchester, and were condemned to death, has been pardoned by the Queen. All through his trial Maguire stoutly maintained his innocence, delaring that he was not even present at the attack on the Police Van when Sergeant Brett was killed.

LONDON, Nov. 14, evening. The amount of bullion in the Bank of England has decreased £94,000 since the last statement.

Second Despatch.

LONDON, Nov. 14, eve.—Late despatches received from Italy state that the feeling against the French on the part of the Italians has reached a perfect fury. The authorities have taken precautions to prevent another outbreak, which was imminent, and more French troops have been despatched from Toulon for Civita Vecchia. King Victor Emmanuel and the Prime Minister Menabrea are very unpopular with the people. Ratazzi, the former Prime Minister, has openly joined the Radical party. King Victor Emmanuel has called out the reserves of the Italian army, and ordered the formation of three large camps. Garibaldi is closely confined.

The Florence *Italia* this morning scouts the fear of a *coup d'etat* by the insurgents.

LONDON, Nov. 14.—It is stated that the Fenian Kelly, who was rescued from the police at Manchester, has appeared in Belgium.

ST. PETERSBURG, Nov. 14.—It is reported that General Ignatieff, the present Minister of Russia at Constantinople, will replace Prince Gortschakoff as Minister of Foreign Affairs.

PARIS, Nov. 15.—The bullion in the Bank of France has increased 10,000 francs.

LONDON, Nov. 15.—The Cabinet has resolved to place all the telegraph lines of Great Britain under the direction of the Post Office Department.

QUEENSTOWN, Nov. 15, noon.—The steamship *China*, from Boston, has arrived.

LONDON, Nov. 14, noon.—Consols 94¼; I C 84⅝; Erie 47¼.

LIVERPOOL, Nov. 15, noon.—Cotton sales of the week 60,000 bales; market dull and declined ⅛ to ¼; middling uplands 8⅝d; Orleans 8¾d; stock in port 528,000 bales, of which 117,000 are American. Market dull Breadstuffs, provisions and produce unchanged.

—Referring to the meteoric showers due, according to astronomers, last night and to-night, Horace Greeley says: "We propose to leave the field to our Democratic friends, having seen 'stars enough' last week to satisfy us for at least one year.

DOES IT PAY TO ADVERTISE?—A gentleman doing business in Boston, while travelling in the cars a year or two since, took a copy of the London *Punch*, with which to relieve the monotony of a tedious journey; and, having finished reading its well-stocked columns of "fact, fun and fancy," took to reading the advertisements. At last, in a remote corner he discovered an announcement, about half an inch in length, which told him where an article that he dealt largely in could be procured in England; and, being one of the shrewd, sharp kind of men, he wrote the parties for a price list, the result of which was that he sent them an order amounting to several hundred pounds sterling, and during the year his partner, visiting Europe, left another large order; and they still remain good customers. All this was the result of a half-inch advertisament! Who will say that it does not pay to advertise?

Fernando Wood and John T. Hoffman are Democratic candidates for the Mayoralty of New York. The Republicans have no candidate, but will support Hoffman, who will be elected.

—The *Tribune* says the trial of Jefferson Davis "should be before a jury made up in part of freedmen, if only for the historic justice, not to say the dramatic beauty and harmony, of such a denoument."

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of these complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tootbe Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick, or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated Pulmonary Consumption! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully,
A. L. SCOVILL.

Sold by all Medicine Dealers.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the bent has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

PROCLAMATION.

The Commercial

COMMUNITY, and citizens resident in the County of Hastings and Province of Ontario are respectfully informed that the Extract of Limes and Glycerine is superior to every other preparation as a dresser for the hair. It contains no Lead, Sulphur, or any other injurious ingredients. It is composed entirely of vegetable substances of acknowledged virtue, and for cleansing and allaying all Irritation of the Scalp, and for preserving the Hair and promoting its growth it is unequalled. It has the properties of a Wash, as well as a Pomade, and checks all tendency to the Hair turning Grey or falling off.

Prepared only at
APOTHECARIES HALL,
1d1y Front St., Belleville.

Statistics about Weston's Walk.

A Hartford paper thus philosophizes on the feat attempted by Weston:

"To give the reader a clear idea of the magnitude of the undertaking in which Mr. Weston is engaged, and the great power of endurance necessary in order to accomplish the feat, we have made an estimate of the number of steps which he would have to walk for the whole distance of 1,326 miles, including the number for each day and each hour. There are 5,280 feet in a mile, and at his ordinary gait Weston would probably average just 30 inches at each stride, in which case he would have to take 2,589,312 steps in going the entire distance from Portland to Chicago. Limiting the time of actual travel to twenty-seven days, he will have to take 95,900 steps per day; and if he travels on an average of sixteen hours per day, he will have to take 5,893 steps for each of the sixteen hours. Can he keep up this constant strain of nerve and muscle for sixteen hours per day for twenty-seven consecutive days?

The Live Man.

The live man iz like a little pig, he is weaned young and begins tew root airly.

He is the pepper sass of Creation—the allspice ov the world.

A man who kin draw New Orleans molassis in the month of January thru a half-inch augur hole, and sing "Home! sweet home!" while the molassis iz running, may be strictly honest, but he ain't sudden enough for this climate.

The life man iz as full of bizziness as the conductor of a street kar—he is often like a hornet, very bizzy, but about what the Lord only knows.

He lights up like a cotton factory and hant got any more time to spare than a school-boy haz on Saturday afternoons.

He is like a runaway hoss, he gets the whole ov the road.

He trots when he walks, and lies down at night only bekause everybody else hez.

The live man is not always a deep thinker; he jumps at conclusions just az the frog duz, and don't always land at the spot he iz looking at.

He iz the American pet, a perfeckt mistery tew foreigners; but haz dun more (with charcoal) to work out the greatness ov this country than enny other man in it.

He don't alwuz die rich, but alwuz dies bizzy, and without enny fuss.

He iz just as necessary as the grease on an axletree. JOSH BILLINGS.

Miscellaneous Items.

Connecticut is forming a company to manufacture a wood-sawing machine and grindstone combined. When the saw gets dull it is sharpened on the grindstone.

A monstrous creature eight feet long, and having the face of a dog, is said to haunt the woods in Preble county, Ohio.—Several school houses have been closed to prevent the children running the risk of being devoured by the beast.

The Gardiner *Home Journal* relates that a gentleman recently purchased some school books for his son and directed him to hurry to school and see if he could get there before the text books were changed. The fable has a wide application.

A marriage in Hamilton has been rendered miserable by a cat. The wife loved puss, husband hated cats. Husband undertook to throw puss out of the window; seized the *corpus delicti* by the head, wife by the tail; cat scratched her liveliest; couple separated. A sad *cat*astrophe.

THE MUD CROP OF PARIS.—Among the many economies of municipal administration in Paris is the sale of the yearly "mud crop." In 1823 this yielded only $15,000. It now brings $120,000, and when left for some time in rotting tanks is sold for manure, at the increased valuation of $600,000.

Mothers who have delicate children, who are subject to Croup. When your child goes to bed wheezing and coughing, you know not before morning Croup may set in, and before you can get a Physician, your child may be beyond the reach of help. ALLEN'S LUNG BALSAM should always be kept in your house, and be given immediately when the first symptoms appear, which will remove the mucus collected in the throat, and save the life of your dear child.

THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

Me 1D-

BROWN'S FOUNDRY

AND

MACHINE SHOP,

FRONT STREET, BELLEVILLE

G. & J. BROWN,

Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with

FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer" Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months, $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion,....0 50
Each subsequent insertion,.....0 12½
Above six lines per line) first insertion 0 07
Each subsequent insertion per line,....0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

MARRIED.

On the 12th inst., by the Rev. D. Ryan, Wesleyan Minister Tweed, at the residence of the bride's brother-in-law, Mr. John Porter, Hungerford, O. H. Mordan, Esq., of Tweed, Merchant, to Jeannie, third daughter of the late William Wardrop, Merchant, Belleville, and formerly from Kilmarnock, Ayrshire, Scotland.

SPECIAL NOTICE.

R. R. R.

80 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radways Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be entirely banished from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house —can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 163-2w 35-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM!

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Lecture to commence at 8 o'clock.

ADMISSION 25 cts.—LADIES FREE.

God save the Queen.

Belleville, Nov. 13, 1867.

PROCLAMATION.

The Commercial

COMMUNITY, and citizens resident in the County of Hastings and Province of Ontario are respectfully informed that the Extract of Limes and Glycerine is superior to every other preparation as a dresser for the hair. It contains no Lead, Sulphur, or any other injurious ingredients. It is composed entirely of vegetable substances of acknowledged virtue, and for cleansing and allaying all Irritation of the Scalp, and for preserving the Hair and promoting its growth it is unequalled. It has the properties of a Wash, as well as a Pomade, and checks all tendency to the Hair turning Grey or falling off.

Prepared only at
APOTHECARIES HALL,
1d1y Front St., Belleville.

J. & W. Sutherland

WOULD respectfully solicit an inspection of their new stock of

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home,—instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

General Agents.

Toronto, Nov. 2, 1867. 168-6m 40-3m

USEFUL HINTS.—Wood ashes and common salt, wet with water, will soak the cracks of a stove and prevent the smoke from escaping.

Stir Polard starch with a common candle and it will not stick to the iron, and it will be much nicer.

Alum or vinegar is good to set colors of red, green or yellow.

Sal soda will bleach very white; one spoonful is enough for a kettle of clothes.

Save your suds for garden plants, or for garden yards when dry.

Wash your tea trays with cold suds, polish with a little flour and rub with a dry cloth.

Frozen potatoes make more starch than fresh ones; they also make nice cake.

A hot shovel held over varnished furniture will take out white spots.

A bit of glue dissolved in skim-milk and water will restore crape.

Ribbands of any kind should be washed in cold soap suds and not rinsed.

If your flat irons are rough, rub them with fine salt, and it will make them smooth.

Oat straw is the best for filling beds. It should be changed once a year.

If you are buying carpets for durability, choose small figures.

Scotch snuff, put in a hole where crickets come out, will destroy them.

A gallon of strong lye put in a barrel of hard water will make it as soft as rain water.

Half a cranberry on a corn will soon kill it.

CONCEIT.—Hardly anything is more contemptible than that conceit which rests merely upon social position, the conceit of those who imagine that thus they are divorced from the clay of common men, of those who shrink with horror from the idea of work, as something which degrades, by its very contact, and yet who, very likely, owe their present position to some not remote ancestor who, recognizing his call to work, lived more honesty in the world than they do, and was not ashamed of soiled thumbs. It is one of the meanest things for people to be ashamed of the work from which they draw their income and which glorified their ancestors more with their soiled aprons and black gowns than themselves with fine ribbons and flashing jewlery. It might be a fine thing to be like the lilies, more gloriously clothed than Solomon, and doing nothing, if we were only lilies. Advantageous position is only a more emphatic call to work and while those who hold the advantage may not be compelled to manual drudgery, they should recognize the fact that manual drudgery may be performed in the same spirit as that which characterizes their own work, and, therefore, that it is equally honorable.—*Rev. Dr. Chapin.*

THE GREAT RACE FOR THE CHAMPION SHIP OF ENGLAND.—On Monday afternoon W. Lang, of Middlesborough, and J. Brighton, of Norwich, ran ten miles at the Hackneywick grounds for the valuable champion cup and £25 a side. The conditions are that the winner should hold the cup for twelve months against all comers, and Mr. Baum's liberal prize has frequently changed hands, Lang on a previous occasion winning the trophy from Fleet. Brighton then challenged Lang, and hence the race of Monday. About 1,000 persons assembled to witness the running of two such noted pedestrians, and the start was made shortly after four o'clock, Lang being the favourite at slight odds, both men coming to the scratch in first-rate condition.—Brighton went away with the lead and maintained it to the sixteenth lap, when they passed and repassed each other for nearly two more rounds. Brighton then went ahead again, and continued leading to the last lap (sixty-eighth.) Lang then rushed ahead, and spurting up the hill in the back stretch, went in a winner by nearly a score yards. The first five miles occupied 27 min. 15 sec., and the whole distance 56 min. 40 sec.

AN EXTRAORDINARY SUICIDE.—At Malda, in Spain, a young man, ill of fever, rose from bed under an access of his malady, and, seized a poinard, stabbed himself under the chin. The point of the weapon was stopped by the bones of the palate.—He then threw himself on the floor, and endeavored, by pressing the handle of the poinard on the ground, to make the blade enter the brain. He had strength to rise and run up stairs where he fell. A surgeon who was sent for pronounced him dead; but at that moment the maniac started to his feet, drew the weapon from the wound, and rushed into the street. He was here stopped, whereon he plunged the dagger into his breast, and sank upon the ground. He had strength, however, to rise once more, and plucking the steel from his breast, stabbed himself again repeatedly, and rushed among the people, shouting and blaspheming. But his feverish strength was at length exausted, and he fell to rise no more.

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at **$4 00** per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in Upper Canada, outside of the Toronto Press, advertisers who wish to reach the ear of the West should take advantage of its columns. The *Globe* says of the ADVERTISER:—

"This excellent newspaper now appears in new type, and is one of the neatest papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation—larger than any other journal published in this neighborhood, It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in Upper Canada. Terms, $1 25 per annum, in advance. The balance of the present year GRATIS! Splendid prizes to getters-up of clubs! Specimen copies and circulars sent on application. Send for Specimens! All letters should be addressed:

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted), and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months, $1 25 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion....0 50
Each subsequent insertion,.....0 12½
Above six, lines per line first insertion 0 07
Each subsequent insertion per line,....0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, MONDAY EVENING, NOVEMBER 18, 1867. No. 170.

Are the Children at Home.

Each day when the glow of sunlight
Fades in the western sky,
And the wee ones, tired of playing,
Go trippling lightly by,
I steal away from my husband,
Asleep in his easy chair,
And watch from the open doorway
Their faces fresh and fair.

Along in the dear old homestead
That once was full of life,
Ringing with girlish laughter,
Echoing boyish strife,
We two are waiting together;
And oft, as the shadows come,
With tremulous voice he calls me,
"It is night! are the children home?"

"Yes, love!" I answer him gently,
"They're all home long ago;"—
And I sing, in my quivering treble,
A song so soft and low,
Till the old man drops to slumber,
With his head upon his hand,
And I tell to myself the number
Home in the better land.

Home, where never a sorrow
Shall dim their eyes with tears!
Where the smile of God is on them
Through all the summer years!
I know!—yet my arms are empty,
That fondly folded seven,
And the mother heart within me
Is almost starved for heaven.

Sometimes in the dusk of evening,
I only shut my eyes,
And the children are all about me,
A vision from the skies;
The babes whose dimpled fingers
Lost the way to my breast,
And the beautiful ones, the angels,
Passed to the world of the blessed.

With never a cloud upon them,
I see their radiant brows;
My boys that I gave to freedom,—
The red swords sealed their vows!
In a tangled Southern forest,
Twin brothers, bold and brave,
They fell; and the flag they died for,
Thank God! floats over their grave.

A breath, and the vision is lifted
Away on wings of light,
And again we two are together,
All alone in the night,
They tell me his hand is falling,
But I smile at idle fears,
He is only back with the children,
In the dear and peaceful years.

And still as the summer sunset
Fades away in the west,
And the wee ones, tired of playing,
Go trooping home to rest,
My husband calls from his corner,
"Say, love! have the children come?"
And I answer, with my eyes uplifted,
"Yes, dear! they are all at home!"
—*Atlantic Monthly.*

Young America.

The following has the merit of being true as well as instructive, and Harper's Monthly says "there is a hint to parents in it worth more than a quarter:"

Johnny, a three-year old, was at dinner with the rest of the family, which included a young lady cousin, on a visit.

"Cousin Eliza," asked the hopeful Johnny, "do you ever say devil?"

"Why, no, Johnny, what makes you ask such a question?" replied the lady.

"'Cause Pa says so. Pa, what made you say devil the other day when you was looking for the hammer and could not find it?"

"Ah," said "Pa," rather cornered, "did I? Well, so as to find it easier, I suppose."

Here the discussion ended, the explanation being considered as good as could be given under the circumstances, but Johnny's retentive memory treasured it up.

A few days afterward, Johnny's shoes, as little shoes are apt to, were nowhere to be found, and Johnny had forgotten where he had left them. His mother bade him search until he found them, and off he started, up stairs and down stairs. Soon his treble voice rang through the halls, crying "devil! devil! devil!"

"Johnny, darling!" cried out his frightened mother, "what in the world do you mean by using that dreadful word?"

"Sos to find my shoes easy, answered young Hopeful. "Pa says devil when he can't find things, and mayn't I, ma?"

The force of example, thus precociously developed, made the mother smile; but she had to negotiate with Johnny's pa to be more select in his adjurations before the children in future.

Touching Story.—A beautiful young woman died recently in a den of infamy at St. Louis at the age of 23, whose history is very touching. She appeared to be a well educated and delicate lady, but would not tell her history till on her death-bed. She then said her true name was Nellie D——, that she was of a respectable family in Canada; that she had married a merchant of Toledo, Ohio, to whom she took a considerable marriage-portion; that after a short season of happiness, he took to drinking and gambling, ruined himself and deserted her. She did not like to let her friends in Canada know her sad state, but went to St. Louis to maintain himself in some honorable way. She had there used every effort to obtain employment, but without success, and had been forced by absolute want to a life of shame.—*Minerve.*

—A petition is being extensively signed in Kingston praying for the commutation of the death sentence on Ethan Allan. Wonders will never cease.

Richelieu Company!
Royal Mail Through Line
between Montreal and Quebec.
On and after MONDAY, the 6th of May, and until further notice, the RICHELIEU COMPANY'S Steamers will leave their respective Wharves as follows:—
The Steamer *QUEBEC*, Capt. J. B. Labelle, will leave Richelieu Pier, opposite Jacques Cartier Square, for Quebec, every Monday, Wednesday and Friday, at Seven P. M. precisely, calling, going and returning, at Sorel, Three Rivers and Batiscan. Passengers wishing to take their passage on board the Ocean Steamers can depend on being in time in taking their passage by this boat, as there will be a tender to take them to the steamers without extra charge.
The Steamer *MONTREAL*, Capt. R. Nelson, will leave every Tuesday, Thursday, and Saturday at Seven P. M. precisely, for Quebec, calling, going and returning at the ports of Sorel, Three Rivers and Batiscan.
The Company will not be accountable for specie or valuables unless Bills of Lading having the value expressed are signed therefor.
Further information may be had at the Freight Office on the Wharf, or at the Office, 29 Commissioner Street, Montreal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
The principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

Gold Mining.

Within the last summer a considerable amount of capital has been invested in companies organized with the ostensible purpose of developing the mineral resources of the Madoc gold region. Should the returns of the early trials of the crushing mills prove as remunerative as we hope they will do, gold mining companies will be floated on the streets, thick as leaves in Vallambrosa. The great ignorance that prevails as to the real working and possible returns of gold mines, the anxiety to make a fortune by speculation, and the contradictory reports of the so-called experts have caused shares to rise and fall with most unreasoning rapidity; even the shares of the Richardson Mine, well known as it is, have risen in value $40 within a fortnight.

We propose in this article to give a few hints which may be of some value to persons desirous of investing in this kind of stock.

Mere quantity of land is no criterion of a good company. Most companies which are started boast of 200 acres in this township, 100 acres in the other, and 1,000 secured from Government in a spot, where, save, perhaps, a surveyor, no mortal has ever trod. Whether worthless or valuable, the land is a useless investment of the funds of the company. Let any man sit down for a minute and think how long it will take to exhaust the ore under one acre of mineral land—a real piece upon which some mineral is found, and not simply the next lot to it—common sense will tell that it will not take a generation to do so, with all the crushing machines in Madoc. Secondly, another great mistake is made in supposing that because gold is found in one spot, it must be found in certain quantities, more or less, in every direction from it. The fact is, the vein of quartz is never very broad, and it is only along the lead of this auriferous quartz that success can be really expected. In Madoc, at first the ground was burrowed like a rabbit warren in all directions round the Richardson Mine, but experience has been acquired during the summer, and it it as only along that, under the advice of Dr. Otway, excavations are made. A great inducement to some investors is the thought of a small capital. A company is started with a large tract of land and a small capital, say $30,000, of which $10,000 is already subscribed; that means, paid for the land and to start the company. A process of reasoning which very often takes place is this—"If I take stock in this company, and we strike a good vein, our stock will go up." Possibly it might do so now, when people do not distinguish between value and return; but practically it will be found that if a strike should be made with a slender capital, the company will strike too, for want of funds to work it; another company with a larger capital will be organized to develop the property, which it will buy from the first one at a discount. It is just the old story over again of Canadian Railways. People now do not know that without a crushing mill gold cannot be obtained, and if the quartz has to be transported to a custom crushing mill, the additional expense will make a great hole in the profits. Judging from the experiences of the American gold fields, and making a very great allowance for cheaper labor and transit in our country, the cost of a crushing mill will be at least $20,000. We do not expect that any companies, without a large margin of capital to invest besides, will ever give an actual return to their shareholders. They must be reorganized with greater capital before they divide their own ingots.

As illustrating the foregoing remarks, we direct attention to the following particulars taken from the official returns of some of the mines on the Comstock lode in Nevada, made by the superintendents of the mines to the Government:

"The Savage Company in Nevada, having only 768 along the lead, yielded for the year ending July 10th, 1867, $2,914,164 from 69,430 tons of ore, at the rate of $41.97 per ton; the cost of production and reduction of the ore was $21.93 per ton.

"Dividends were divided of $1,400 per foot, or $1,075,200 to the shareholders.

"The gross product of the mine, (which was only discovered in 1859, and not worked afterwards) up to July 10th, 1867, was $6,513,378. The capital of the Savage Company is now $3,200,000, divided into 16,000 shares of $200 each."

Josh Billings on the Goose.—The goose is a grass animal but don't chew her cud. Tha are good livers, about one aker to a goose is enuff, altho' there iz some folks who thinks one goose to 175 akers is nearer right. These two calculations are so far apart, it is difficult to tell now which will finally win. But i don't think if i had a farm of 175 akers, awl paid for, that i would sell it for half what it was worth just be-cuze it didn't have but one goose on it. Geese sta well, some of our best biographers sez 70 years, and grow tuff to the last. Tha la one egg at once, about the size of a goose egg, in which the gosstents lies hidd. The gozlen iz the goose's babe. The goose don't suckle his young, but turns him out tew pasture on somebody's vacant lot. Tha seem to lack wisdom, but R generally considered sound on the goose. Tha R good eating, but not good chawing; the rezon of this remain a profound sekret to the present da. When the femail goose is at work hatchin she is a hard burd to pleze, she rites clear up from the bottom in a minit, and will fite a yoke ov oxen if tha sho her the least bit ov thar sass. The goose is excellent for feathers, which shed every year by the handful. Tha R intibiscus besides several other kinds ov cuss. But tha R mostly curious about one thing, tha can haul up 1 leg into their body and stand on tuther awl ds, and not tech anything with thare hands. I take notis thar ain't but fu men that can dew this.

Gold News.

The news from the gold region continues to be of the most encouraging character. Instead of having mere certificates of assays made by Prof. Tom, Dick and Harry, we have the precious metal in ingots, buttons and cakes, the sight of which maketh the heart of the Madoc miner glad, and gives him pleasant visions of the future. There is now on exhibition at the store of James Glass, Esq., some "buttons" and ingots of gold produced by the Reduction Works of Scott & Taylor, on Saturday last, from quartz obtained from the Richardson mine. The quantity taken was four and a half tons, two and a half of which was the common quartz rock, the other two being a conglomerate rock, or a mixture of ochreous matter and talc slate, in none of which was gold visible. This was crushed on Saturday at the mill of Messrs. Scott & Taylor, and the result of the amalgamation, which was obtained late on Saturday night, was the handsome sum of $480, or an average of *one hundred and thirty dollars to the ton.* It must be understood that in this four and a half tons there was none of that decomposed quartz, found in the pockets and crevices, which has made the Richardson mine so famous for its richness. The Directors of the Company felt they would best satisfy themselves of the value of the mine, by taking the ordinary rock as it came out and having it tested. This was done accordingly, and the whole operation was performed under the superintendence of the five Directors of the Company. The result of this test is not only satisfactory to them, but to every miner who has invested a dollar in the gold district. These tests by the Crushing Mills, with their satisfactory results, will dispel all doubts as to the existence of gold in paying quantities, and must have the effect of largely extending the operations of capitalists in the gold district.

Grand Trunk Winter Tariff.

The winter tariff of the Grand Trunk Railway goes into effect to-day, the 18th inst. The rates from the principal points on the line will be as follows, to Montreal:

On and after the same date (18th) rates for flour *via* Grand Trunk Railway and steamer to Halifax, will be 65 cts. a barrel, to St. John, N. B., 60 cts.

—The Treasurer of the Orphan's Home, Toronto, begs to acknowledge the sum of $6 contributed by the Orangemen of Roslin and vicinity, at the close of a sermon preached on the Fifth of November by the Rev. John R. Thompson, B. A., Missionary of the Church of Scotland.

The Bank Question.

The Directors of the Bank of Montreal have found it necessary to make a statement to the public respecting the recent Bank troubles. The feeling against the Manager of the Bank, not merely in Ontario, but in the chief commercial city of Canada, is of such a character that they deem it essential to the interests of their Corporation to "set themselves right with the public." It need hardly be said that they defend the conduct of their manager though they disclaim the "desire attributed to them, of wishing, under any circumstances, to menace, or in any way to interfere with other institutions, or to place their mutual transactions on any other than a proper footing." They even go so far as to say that "in the negotiations which preceded the stoppage of the Commercial Bank, they were actuated by the desire to avert that calamity." It may be possible the Directors and their Bank Manager were so actuated, but it appears to us that they took a most extraordinary method of exhibiting such desire. In view of all the circumstances attending the failure of the Commercial Bank, the negotiations connected therewith, the extraordinary conduct of Mr. King at the several meetings of the Bankers, the peculiar "footing" on which they placed their transactions with other Banks in Ontario, their protestations of sympathy with the ruined Bank, and their disclaiming any desire to interfere with other Banks, will be accepted for what they are worth—and that is not much. The whole thing in a nut-shell is simply this: The Commercial Bank, which had sustained a run of nearly $2,000,000, and which still had half a million of dollars in its vaults, whose affairs, by a recently published statement, were in a solvent condition, applied to the different Banking institutions to help it temporarily out of a tight place. The other Banks were willing to give it the aid asked for if the Montreal Bank would co-operate with them. The Montreal Bank refused to co-operate without imposing conditions which neither the other Banks nor the Commercial could accept; in other words, the Bank of Montreal refused to assist the Commercial, and in consequence of such refusal, it went to the wall. There has been a good deal of writing on both sides, a good deal of crimination and recrimination, but all this does not alter the facts. The evidence is clear and conclusive that to Mr. King attaches the chief responsibility for the failure of the Commercial Bank, and for the wide-spread ruin which that failure has produced throughout Canada.

The Black Crook.

It will be seen by advertisement that Cole's great American Black Crook Troupe are to play in Ontario Hall on Thursday, Friday and Saturday evenings of this week. This Company have been performing to crowded houses in Montreal, Ottawa and other places, and are very highly spoken of by the press. The Montreal *Herald*, speaking of the performance in that city, says:—"The first performance of this sensational, and, as it is sometimes called, 'weird' drama, was given last evening in the Theatre Royal to a very crowded house. To judge from the hearty manifestations of delight, the audience were quite fascinated by this first attempt to perform a play of the nature of the Black Crook. The ballet dancing was very graceful, and the several dances were heartily encored. Each act ended with a graceful dance by one or more of the dancers, and consequently the curtain always fell to uproarious applause. Mr. Edmund Coles succeeded in keeping the audience in roars of laughter by his eccentricities and comic acting. It must be a matter of no little difficulty to attempt the production of a play which depends so much on scenic effect, on such a stage as our Theatre can boast of. With all the drawbacks of want of space and scenery, the Black Crook was very creditably produced."

To the Editor of the Daily Intelligencer.

Post Office Reform.

Dear Sir,—On the 1st prox. five "moons" will have rolled apace since the Dominion of Canada was *un fait accompli*. With the inauguration of the Dominion, it would be only natural to infer that old things should have passed away. The Postmaster General, it would seem, thinks differently, else why permit the old stamps impressed "C. W." and "C. E." to be still used in stamping letters? That functionary must bear in mind that the existence of Upper and Lower Canada has been "stamped out" and acts accordingly. Let there be consistency in all things.

Yours truly,

Hawk Eye.

Belleville, Nov. 18, 1867.

—Congress on the 22d of February last, appropriated $750,000 for inclosing the various national cemeteries with proper fencing, and for placing over each grave a commemorative tablet. It has been ascertained that 330,000 tablets will be required—a fearful account of the destructiveness of human life in the late war.

Telegraphic News.

BY ATLANTIC CABLE.

Dublin, Nov. 16.—This morning Warren and Halpin were sentenced to 15 years imprisonment. Castello was sentenced to 12 years.

Manchester, Nov. 16.—It is thought that the sentence of most of the Fenians recently convicted will be commuted to hard labour for a term of years, or to banishment. Allen, however, whose offence presented fewest claims for mercy, will probably, for the sake of example, be executed on the 23rd inst.

London, Nov. 16.—The conference proposed by Napoleon seems to be attended with difficulty. The Pope objects to any conference whatever in his behalf, and the several powers invited to participate are divided on the question of the necessity for a conference. As usual, Spain is the only nation that supports the temporal power of the Pope in any event.

London, Nov. 16.—It is now stated that the Government of the United States is to pay eleven and a half million dollars for the Danish West India Islands of St. Thomas, St. Johns, and Santa Cruz, subject to a claim of France on the last named, or seven and a half millions for St. Thomas and St. Johns.

Paris, Nov. 16.—Brown & Level's life saving tackle, an American invention, for instantaneously lowering and detaching small boats from the side of the vessel when under full headway, has been adopted by the French navy after trial by the French fleet at Toulon.

Late despatches from Athens state that since the failure of the Turco Cretan mission hostilities have been resumed in Candia.

Paris, Nov. 16.—The meteoric shower on the 13th and morning of the 14th, was very brilliant. Many thousands were visible not only in this city, but throughout France.

Second Despatch.

Paris, Nov. 17.—The remainder of the French expeditionary corps in Italy are making preparations to go into winter quarters at Civita Vecchia. Gen. Danmas has been appointed to succeed Marshall McMahon, Duke of Magenta, as Governor General of Algeria, and commander-in-chief of the seventh army corps.

Dublin, Nov. 17th.—The Fenian prisoners Hapin, Warren, and Castello, when brought up yesterday for sentence, made strong speeches, in which they reiterated their protestations against the jurisdiction of the Commission, denying the legality of their trial, and claimed that as citizens of the United States, they were entitled to the protection of the American government.

London, Nov. 17th.—The Manchester *Observer* says there is no hope of the reprieve or commutation of Gould and Larkin, and they will be executed on the 23rd inst.

The British government has received from the West Indies no official advices of the submerging of the Island of Tortola, as reported here by a cable despatch from New York.

London, Nov. 18, noon.—Consols 94½; Ill C 85⅝; Erie 48; Bonds 70¾.

Liverpool, Nov. 18, noon.—Cotton steady. Other articles unchanged.

American Despatches.

New York, Nov. 17.—By steamer "Bremen" dates from Southampton to the 5th inst. are received.

In reference to the Roman question the London *Times* says: We have before us General Menabrea's note of last Wednesday, and M. de Moustier's answer of the ensuing Friday. The General states reasons which induced the King's government to send Italian troops to occupy several points in the Papal territory. The French minister declines to discuss the reasons. He expressed painful suspense, and truly and sincere regret at the step taken by the Italian government, a step which the French government as an adviser has always blamed, and which it would not, in any way, invest with its approval.

New York, Nov. 17.—An accident, attended with large loss of property, occurred about one o'clock Sunday morning, on the Erie railway, near Callcon station, 140 miles from New York. An oil train was running upon the branch, when a freight train also bound eastward, ran into the rear end of the oil train, disabling its locomotive, and demolishing some of the oil cars. The oil took fire destroying twenty-one cars and a locomotive. Total loss estimated at above $100,000.

Buffalo, Nov. 18.—The propeller "Antelope," lying at the Bennett elevator, having on board 17,000 bushels of wheat and 700 bbls. of flour, was destroyed by fire yesterday. Loss on vessel $46,000, and on cargo $20,000. The "Antelope" was owned by Lathrop & Co., of Racine, and was running between Buffalo and the former place.

—The Quebec Parliament meets on the 27th December.

—Furriers are being fined in Hamilton and Toronto for having mink and muskrat furs in their possession out of season.

—In South Oxford there are 40 Cheese Factories, with 543 presses; they made 1,306 tons of cheese this year.

—A half woman monster with no lower limbs is on exhibition in Kansas City. She was found in a cave in New Mexico along with a wolf.

—A train approaching Peoria, Illinois, the other night ran at full speed through a prairie fire. The current of air saved it from the heat.

—The *Free Press* says, under the head of "Singular": The Ottawa papers complain that there has been a deficiency of gas in the city since Parliament opened.

Editorial Summary.

—Only 20,000 out of the 52,000 voters of Nova Scotia voted at the last election.

—The Charleston, S. C., papers speak highly of a new enterprise. This is an auction house for the sale of bacon smoked with mahogany shavings, giving the meat a rich brown color.

—The London Reform League has all but formally adopted the Fenian cause, and its most active members have publicly avowed their sympathy with Fenian principles.

—It is said that the only response made by a woman of Kansas to the agitation in behalf of female suffrage, is, "Did you ever?" "Well I never!"

—The Canadian schooner "Chieftain," from Chicago, with a cargo of 14,773 bushels of corn, was driven ashore at Stoney Creek, Michigan, on the 3rd inst., and soon went to pieces. The crew was saved.

—Mt. McLaughlin, a snow peak which is visible from Rogue River Valley, and lies just east of it, has recently given signs of a volcanic character. As one of the Oregon journals expresses it, "he has lighted his pipe and is smoking furiously."

—The Oregon papers relate that over 100,000 sheep have been driven to California the present season, and they say the Oregonians have got the gold for them. Such an increase of our productive industry and wealth is better than gold.

What can be a more desolate spectacle than an old maid sitting on an inverted half bushel in a cold kitchen, with her feet on the brim of a slop bucket, pairing her corns with a case knife by the light of a tallow candle?

It is a singular fact that ladies who know how to preserve anything else, can't preserve their tempers. Yet it may easily be done on the self sealing principle. It is only to keep the mouth of the vessel closed.

Shooting Accident.—A very serious accident occurred on Tuesday evening from the often condemned foolish practice of toying with fire arms. It appears that three ladies were passing the evening at Mr. Solomon Easton's grocery, Main Street. They were in the bedroom, where Mr. Easton keeps a pistol. One of the ladies—Miss Jane Ross, took the pistol in her hand, playfully saying, "I wonder if I can fire this off," and in a moment the pistol was discharged, the bullet entering just beneath the right eye of Miss Easton, daughter of Mr. Seymour G. Easton. The bullet lodged in the roof of the mouth, and has not yet been extracted. Will people never learn to give over foolishly playing with fire arms? Scarcely a week passes but accidents are recorded from this cause.—*Brockville Recorder.*

1868.

DIVISION COURTS.

I HEREBY order that Division Courts be holden for the year A. D. 1868, at the following places and days:—

1st Division—At Belleville.

17th January,	17th July,
2d March,	4th September,
24th April,	23d October,
5th June,	7th December.

2d Division—At the Town Hall, Sidney.

14th January,	13th July,
3d March,	1st September,
1st May,	2d November.

3d Division—At Shannonville.

15th January,	14th July,
4th March,	2d September,
2d May,	3d November,

4th Division—At Town Hall, Hungerford.

23d January, 1 o'clock P. M.	23d July, 1 o'clock P. M.
20th March, 1 o'clock P. M.	18th September, 1 o'clock P. M.
14th May, 1 o'clock P. M.	12th November, 1 o'clock P. M.

5th Division—At Stirling.

20th January,	20th July,
17th March,	15th September,
11th May,	9th November.

6th Division—At Madoc.

22d January,	22d July,
19th March,	17th September,
13th May,	11th November.

7th Division—At Town Hall, Huntingdon.

23d January, 9 o'clock A. M.	23d July, 9 o'clock A. M.
20th March, 9 o'clock A. M.	13th September, 9 o'clock A. M.
14th May, 9 o'clock A. M.	12th November, 9 o'clock A. M.

8th Division—At Canifton.

18th January,	16th July,
6th March,	8th September,
5th May,	8th November.

9th Division—At Trenton.

16th January,	15th July,
5th March,	3d September,
4th May,	4th November.

10th Division—At Marmora.

21st January,	21st July,
18th March,	16th September,
12th May,	10th November.

11th Division—At Bridgewater.

24th January,	24th July,
21st March,	19th September,
12th May,	13th November.

The Courts will open at 9 o'clock A. M., except as otherwise above ordered.

Dated at Belleville the 7th Nov., A. D. 1867.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colic, Head Ache, Toothache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few mi. utes yield to the soothing influence of the Ready Relief.
Every family should keep these life-saving remedies in the house; can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who are them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.
See *Dr. Radway's Almanac* for 1868.—R. R. R. sold by Druggists. 138-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:
MESSRS. J. N. HARRIS & CO:
GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most dis-pe-sonal PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all big carry stages of Lung complaints, I believe it to be a certain cure, and every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.
Yours respectfully, A. L. SCOVILL
Sold by all Medicine Dealers.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.
By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.
This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.
There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

Miscellaneous Items.

The British Volunteer force now musters nearly 180,000 men of all arms and ranks.

In the manufacture of steel pens at Birmingham 2,500 persons are employed. The yearly product is over 725,000,000 pens, consuming about 5,000 tons of steel.

A notorious male flirt at last married. "Now, my dear," said his wife, "I hope you will quit your trifling and foolish ways." "Madam," said he, my marriage shall be my last folly."

The English pedestrian, Capt. Barclay, walked one hundred and ten miles in nineteen hours, a performance that has no equal in the annals of pedestrinanism.

The cost of the New Zealand war is now ascertained to have been £4,030,624—an enormous tax upon a population of 200,000 persons.

During the past season a single railroad carried north nearly nine million pounds of fruit raised in the southern part of Illinois. It was mostly strawberries and peaches.

At a meeting in London of the Grand Trunk Railway Company, of Canada, it was stated that the total loss sustained by the company, from 1862 to June last, on American currency, amounted to no less than £311,000 sterling.

The New York *Herald* proposes to get up a public subscription to present Mrs. Elizabeth Cady Stanton a needle, a spool of thread, a thimble and a pair of scissors, in order that she may mend her husband's shirts, darn his socks, and keep his unmentionables in good order.

According to a return made in the House of Commons, the number of steam vessels registered in the United Kingdom was, on the first of January, 1867, 2,808, and the amount of their aggregate registered tonnage, 869,502 tons, their gross tonnage amounting to 1,270,240 tons.

Among the cost of a great city, the life item should be taken into account as well as the money item. Last year 205 persons, nearly four a week were killed in the streets of London by wheeled vehicles. This number includes the fatal cases, the deaths only; it would be doubled if all the injuries occasioned by waggons, carts, and carriages were reckoned.

Albany Lumber Market.

REVIEW FOR THE WEEK ENDING NOV. 13.

Lumber is coming in freely, even at the high rates of freight. There is a good stock on hand, though the assortment is somewhat broken. Clear boards and 1¼ also shaved and sawed. Shingles are scarce.

The demand has not been as active as is usual at this time in the season; still, a fair trade has been realized, including some large transactions for the east.

Prices remain as last week, with some slight variations noted in our schedule.

Shipments have been pretty large, and vessels are in fair demand at previous rates.

The receipts by the Erie and Champlain canals during the 1st week in Nov. in the years named are as follows:

	Boards and Scantling, ft.	Shingles, M.	Timber, c. ft.	Staves, lbs.
1866	12,177,852	830	11,560	985,220
1867	13,097,956	378		1,130,352

The receipts during the first week in Novr. have added another million feet of lumber to the surplus over last year, and will swell that amount to nearly sixty-two millions of feet.

The receipts by the Erie and Champlain canals, from the opening of navigation to Nov. 8th, in the years named, were as follows:

	Boards and Scantling, ft.	Shingles, M.	Timber, c. ft.	Staves, lbs.
1866	291,765,603	37,612	193,019	32,219,935
1867	354,605,955	24,739	58,053	23,286,231

The following table shows the prices current at the principal yards at the date of our report:

Pine, clear, ₱ m.	$55 00 @ $58 00
Pine, fourth quality, ₱ m.	50 00 @ 53 00

Shingles, sawed hemlock, ₱ m.	3 50 to 3 75

—Evening Journal.

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at **$4 00** per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in Upper Canada, outside of the Toronto Press, advertisers who wish to reach the ear of the West should take advantage of its columns. The *Globe* says of the ADVERTISER:—

"This excellent newspaper now appears in new type, and is one of the neatest papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation—larger than any other journal published in this neighborhood. It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in Upper Canada. Terms, **$1 25** per annum, in advance. The balance of the present year GRATIS! Splendid prizes to getters-up of clubs! Specimen copies and circulars sent on application. Send for Specimens! All letters should be addressed:

BROWN'S FOUNDRY AND MACHINE SHOP,

FRONT STREET, BELLEVILLE.

G. & J. BROWN,

Founders and Machinists,

RESPECTFULLY inform the public that they are still manufacturing

All kinds of Machinery,

in connection with

FLOUR, GRIST, SAW AND OTHER MILL FURNISHINGS, &c., &c.

Portable and Stationary Steam Engines of any capacity, Engine and Wood Lathes, Iron and Wood Planers, Shingle Machines of various patterns; also, Agricultural Implements of the most improved style and make. Their Horse Powers and Threshing Machines, with or without cleaners are unsurpassed.

Brown's Ploughs are admitted to be of the most improved style and manufacture. They consist of some fifty different patterns, and their celebrated STEEL PLOUGH is the best in the country.

Amongst their other manufactures may be enumerated Horse Hoes, Cultivators, Harrows, Clod Crushers, Corn and Drill Ploughs, Seed Sowers, Rollers, Straw Cutters and Stump Machines, and improved Grain Grinder and Mill.

In the Stove Department

They are unequalled. They continue to manufacture Box, Parlor and Cooking Stoves of various descriptions, and their improved "Northern Farmer." Cooking Stove is without a rival for farmer's use.

Potash Kettles cast in loam, lip up, of various sizes and of the best material.

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

THE DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, TUESDAY EVENING, NOVEMBER 19, 1867. No. 171.

Mr. Stewart Campbell.

WHAT THE NOVA SCOTIA PRESS THINKS OF THE WAY IN WHICH HE ACCEPTED THE SITUATION—TWO OPINIONS.

We give below the remarks with which the Union and Anti-Union press have greeted the announcement that the member Guisboro had accepted the Union. The *Morning Chronicle*, red-hot Anti says, in what would be considered a blasphemous tone here:—

From our special despatch from Ottawa we learn that Mr. Stewart Campbell has accepted the Union. We are not dismayed, not even grievously astonished, for from among Christ's twelve apostles, inspired by his example, warmed by his love, impregnated by his holiness, there was found one who betrayed him; and how could we of Nova Scotia have believed that of eighteen not one would betry us? Thst this man "just for a ribbon to stick in his coat," just to curry favour with the gods of Ottawa, should have forgotton all his patriotic professions, though a matter of regret, is not after all anything to be deeply mourned over. We sorrow for the man—we lament that one of his talents should have prostrated himself either through idiocy or greed; but without him the good cause will still flourish. Everywhere in his own county, on the floors of the House of Assembly, this man was the bitterest of Anti-Unionists. He may have been a hypocrite; if so he completely gulled the people. He may have been honest in his protestations, if so how is it that he now turns to bless that Union which he cursed not so long ago. Some powerful motive must actuate him, and that motive is certainly not any new phase which Union has presented. It is certain that our new state is no more agreeable to us now than it was on the first of July—than it appeared when Mr. Stewart Campbell proclaimed its enforcement an injury which the people of Nova Scotia could never forget or forgive.

Let us, then, bid a good bye to Stewart Campbell. He has fallen out of the ranks of the people. He has cheated the electors of Guysboro'. He has struck hard at the country which has fed him, we might say, and let his reputation perish. All the indignant epithets which could be hurled at him would be no more than the simple announcement: Stewart Campbell has forsaken his party, has disgraced his name, has forsaken the cause of his country. Let us plant the sod lightly above his political clay. He was once a good man and true. He has failed. Let him rest in peace.

It may be that the Government will proffer him an office. We hope that such will be the case. For in solemn silence we would witness the action of the men of Guysboro' upon his again attempting to enter the Commons, knowing full well that Stewart Campbell, who might have sent down a good name to posterity, would be hurled in execration from the hustings. If, hitherto, he has been a hypocrite, he will be too crafty again to seek the suffrages of the people of his county. If he has been a fool—and we believe he has not—then he will strive to grasp some departmental office, and set the seal on his political damnation.

The *Morning News* of St. John, N. B., *au contraire* says:—A despatch which appeared in the *Telegraph* yesterday, make it known here that Stewart Campbell, member of Parliament for the County of Guysboro, Nova Scotia, publicly announced his adhesion to the Union as a fact accomplished, and took his stand in the House of Commons as a Ministerialist on Monday last. This attitude upon the part of Mr. Campbell was to have been expected. For though he vigorously opposed the Union policy of Tupper in his place in the Nova Scotia Legislature at the time that Tupper brought the Union measure before that body; yet after the Act of Union had passed through the Imperial Parliament, Mr. Campbell clearly indicated that he would accept the new order of things and endeavor to make the best of it. He made a declaration to that effect during a debate on the Union question which took place in the Nova Scotia House of Assembly during its session last spring. Dr. Tupper publicly complimented him at the time on the loyal and patriotic position he had assumed.

With the fact of his intention to bow to the decision of the Imperial Parliament and Government well known throughout his constituency, Mr. Campbell was chosen by acclamation to represent Guysboro' in the Dominion Parliament. The disunion papers of Nova Scotia, entirely aware of Mr. Campbell's position in relation to the Union measure, advocated his election and claimed him when chosen as one of their party. Indeed, the Nova Scotia Disunionists did not go to the polls squarely upon the question of repeal—in many instances they indignantly repudiated that policy, and asserted that they were calumniously charged by their enemies with having adopted it. Nevertheless we expect to see a great outburst of wrath from the Disunion journals of Nova Scotia against Stewart Campbell, now that gentleman is doing exactly what he promised to do—loyally accepting a Union he was powerless to prevent the adoption of, but in whose safe working all loyal men throughout the Dominion are deeply interested. Mr. Campbell will be forwith classed by ancient repeaters with Benedict Arnold and Judas Iscariot. Mr. Campbell is a well educated lawyer of respectible ability, unimpeachable character and much moderation.

We venture to predict that Mr. Campbell's example will be largely followed before long by his brother Antis in Nova Scotia. Ultra dissunionists will soon learn that the "party of punishment" is by no means identical with the Party of Repeal.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to Intending Assurers. One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

The Search for Sir John Franklin.

By the steamer *Nimrod*, which has just arrived at St. Johns N. F., from the Arctic fishing grounds, we have some information of the progress of Captain Hall is making in search for the remains of the late Sir John Franklin. It appears that, having been disappointed in obtaining a team of dogs, Captain Hall had started on a sleighing tour, in the course of which he met a party of hostile Esquimaux, from whom he learned that at about the time of the loss of Sir John Franklin's vessel, some white men carried a dead body on shore, and built a brick vault, which they carefully cemented, and in which they deposited the corpse, afterwards covering the vault with heavy stone flags. This body Mr. Hall believes to be the remains of Sir John, and his intention is to visit the locality and satisfy himself upon the point it possible. Since however, this region is inhabited by hostile natives, Mr. Hall has thought it necessary to take with him a small force of men. To secure this he offered $500 in gold each to any five men from the whaling fleet who would accompany him. Of course he secured his men, and all hands will start this fall on their journey, so that is not improbable that next summer we may receive definite information as to the resting place of Sir John Franklin. Captain Hall has secured many valuable articles formerly owned by Sir John's party.

The North-West.

The *Nor' Wester* gives us some details of the progress of the colony to the 19th ultimo. It says: A large number of immigrants were on their way from Montana, with the design of settling here.—After a considerable interval from the time of starting they have arrived, and we have much reason to be pleased with them. Very many of them have their families, and some have brought large bands of animals. Over one hundred persons, with six hundred head of stock, are said to have formed the party which left Montana sixty-four days ago, and they are now coming in, in parties of tens and twenties. Some few have located at the White Horse Plains; but the greater number, disliking to live within the limits of the Local Government here, have settled on the beautiful rolling prairie in the neighbourhood of the Riviere des Isle du Bois, where great fertility of soil is combined with abundance of wood and water.

Another extract concludes its description of the great prairie fire as follows:—Later, when the wind grew steadily stronger, came a shower of cindered grasses, and then the air grew denser, the darkness greater, objects at a little distance became obscure, the eyes felt the irritation of the densely charged atmosphere, and the lungs laboured in the discharge of their duty. As night approached, the curtain lifted, only to show the approaching fire. From the winding bends of the Assiniboine, far away to the woody bluffs of the Stony Mountain, there stretched one continuous wall of fire. Leaping, darting, as acre after acre, league after league, of long prairie grass entered its fiery maw; hissing, seething, as it encountered the moist grass of the low savannahs; crackling, as some bunch of willows, or the reeds of some undried swamp, stayed its progress for a moment—it still came on, casting a lurid light as night fell on the houses of the town, and lending a fiery glare to the fort and St. Boniface Mission. With the night came a falling of the wind (and the subsegent change of the wind arrested its progress), but the now blackened prairie, and the charred remains of animals, attest the destructive powers of the greatest fire which a residence of seven years has enabled us to see.

The "Unknown," who challenged Dion to play on December 11th for the billiard championship of the continent, and who has succeeded in keeping incog, for four months, proves to be the well-known John McDevitt, of Indianapolis.

The New York *Mail* say:—Universal activity prevails at the headquarters of the Fenians on Fourth street. Every night companies are drilling there bands playing, arms being furnished, speeches being made, and new soldiers being enlisted. The restoration by the President of the $40,000 worth of arms seized at the time of Gen. O'Neil's expedition to Canada, has greatly encouraged the Fenians.

Charles Dickens does not use any scenic auxiliaries in his readings; but he has a peculiar arrangement of lights, and carries with him his own gasfittings. He has his own plan of lighting the platform on which he reads; and in the United Kingdom a gasfitter always travels in his suite for the purpose of fixing these lights.

On one occasion, when the late Bishop of Lichfield had spoken on the importance of diligent painstaking preparation for the pulpit, a verbose young clergyman said, "Why, my lord, I often go to the vestry even without knowing what text I shall preach upon, yet I go up and preach an extempore sermon, and think nothing of it." The Bishop replied, "Ah, well, that agrees with what I hear from your people; for they hear the sermon and *they also think nothing of it.*"

President Johnson has grievously offended the Fenians. Of course he had no intention of doing so, as he has on more than one occasion shown his readiness to purchase their favour by acts of the grossest impropriety, but it seems that when he issued orders a few days since for the disbanding of the militia regiments in the District of Columbia, composed of co'ored men, General Grant accepted the order as including all kinds of military organizations in the District which were unauthorized by law, and accordingly the Fenians had to give up their arms with the rest! Of course they are very indignant, and the Chief Magistrate of the Republic is at a loss how to pacify them.

BELLEVILLE, TUESDAY, NOV. 19.

☞ *SEE FOURTH PAGE.*

PENNY READINGS.—The next Penny Readings will take place on Wednesday evening at Ontario Hall, instead of Thursday, as formerly.—Choice music may be expected.

COMMERCIAL BILLS.—Commercial Bills have somewhat declined. They are selling in Toronto at 85c to 87c; in London at 87c; in Montreal, 88c; brokers in Belleville are paying 87c in bills and 90c in silver.

PERSONAL.—We are pleased to learn that Mr. S. B. Burdett, formerly of Belleville, has been appointed Attorney-at-Law without undergoing an oral examination, his answers to the written questions having been sufficiently satisfactory to entitle him to that honor.

THE YEAR BOOK FOR 1868.—We have received from the publishers, Messrs. Lowe & Co., Montreal, a copy of this invaluable publication. It contains a vast amount of information not easily obtained, and valuable to any one taking an interest in the progress of the Dominion. It is replete with statistical information relative to the trade, postal, and telegraph arrangements, corporate bodies and the legislation and public men of the several Provinces. The work is in every way admirably gotten up, and must have been the result of a great deal of hard work on the part of Mr. Harvey, its editor.

CAPTAIN BRIDGEWATER'S LECTURE.—We beg to call attention to Captain Bridgewater's Lecture to-morrow evening, in Neilson's Hall, under the patronage of Col. Campbell and the 15th Battalion. It will embrace the following heads: Voyage to India; The Riding School; War in Scinde; Bath of Ava; Indian Mutiny; March to Lucknow; concluding with some practical remarks on Canada's Defences and her Volunteers. This Lecture has been largely patronized in our towns and cities West, and as the Captain speaks from experience, it cannot fail to prove interesting to our inhabitants.—Let there be a good turn out. Tickets to be had of the Officers of the 15th Battalion, and at Sutherland's and Holton's stores.

THE WELLINGTON GOLD MINING COMPANY OF MADOC.—We publish in to-day's issue the prospectus of the Wellington Gold Mining Co. of Madoc, which has been incorporated under the Limited Liability Act. The property of the Company is situated upon the west half of the Richardson hill, in the township of Madoc, and a continuation of the celebrated Richardson mine lead extends throughout the whole length of the hill. The Directors are all men of high position and responsibility, and the public may rest assured that the affairs of the Company will be properly conducted. We understand that most of the stock has already been taken up in Toronto.

Finance Minister.

As was generally expected, Hon. John Rose has been appointed Finance Minister. A writ was ordered yesterday for the election of a member for Huntingdon, vacated by the acceptance of office by Hon. John Rose, and the election will take place at once. It is not believed that Mr. Rose will have any opposition. His appointment will be received with general favor throughout Ontario.

Fires in Montreal.

Two fires occurred in Montreal on Saturday night and Sunday morning, which were attended with loss of life. The first took place on one of the Longueil Ferry Company's steamers, while making a passage across the river. She was laden with thirty loads of hay, the horses being kept in the shafts of the *habitants'* carts. Some of the hay caught fire, and there being a high wind, the whole was soon in a blaze. Ten horses were burnt in the shafts. Fortunately the boat reached the wharf in time to land the passengers in safety. The second fire occurred in a dwelling near Point St. Charles, shortly after midnight, in which the occupants, a Mr. Shaw, his wife and two children, were burnt to death. With regard to the cause of the latter fire, it's the old, sad, oft-repeated story. Shaw and his wife went home about ten o'clock in an intoxicated state, and they and their children fell victims to strong drink.

—A malt whiskey distillery has been discovered and seized in a cedar swamp in the Township of Kitley.

Gold News.

In giving yesterday the value of the gold obtained from the four and a half tons of quartz crushed for the Richardson mine, the reader will have discovered a discrepancy between the total amount and the average yield per ton. The error arose from taking the "big button," which weighed 3 lbs., valued at $180, as the total value of the gold obtained from the four and a half tons, whereas some of the pieces on exhibition were part of the product of the same lot of quartz. The official report will show that the product of the four and a half tons was 26 oz., equal to $546, estimating it at $21 to the ounce, this gold being of 939½ fineness. The average yield per ton, therefore, will be $121.33.

The Madoc Mining Company have had two tons of quartz crushed by Scott & Taylor's mill, and the result is an ingot of gold worth $40. In view of this satisfactory result the company intend going on with the work. This is the company that suspended operations in consequence of the private report of Prof. Chapman being considered unfavorable. In consequence of his report having been misrepresented, Prof. Chapman has addressed a letter to the Toronto papers, in which he says:

"The shaft, after yielding gold in paying quantities, as shown by the assays, has become barren at a depth of fifty or sixty feet from the surface. The probability is, that at an increased depth this barren streak will be passed through. It would be a most exceptional case, if a vein holding an amount of gold as high as that found in my earlier assays were to become permanently barren. The Madoc shaft is the only one of even moderate depth in that part of the township, but others are projected, if not in actual operation, and one is about to be put down, I understand, on the same vein. My recommendation, was simply to suspend operations for a time, and let the problem of the extent of the barren portion of the vein be worked out by other companies with larger capital at their command, more especially as an outlay of about twenty dollars is required for each foot of vertical sinking.

"In conclusion, I may be allowed to express my conscientous opinion that the Madoc district generally, as an auriferous region, is of the greatest promise. It is not, of course, to be supposed, that every projected mine will be remunerative. Failures and disappointments, arising from errors of judgment and other causes will necessarily occur from time to time. Failures of this kind have happened over and over again in California, Colorado, and other gold-producing countries, in which, be it remembered, for one vein that pays, eight or ten blind veins are always met with. The mineral richness of the Madoc region, viewed generally, admits, however, of no possible doubt.

I have the honor to be, Sir,
Your obd't servant,
E. J. CHAPMAN"

University College,
Toronto, Nov. 16th, 1867.

At Barry's mine work is progressing with great rapidity, and, we are informed, every blast develops gold visible in the white quartz. A building for a crushing mill has already been erected; dams have been built, and it is expected that the mill will be ready for operation in about a month.

Another assay by Messrs. Scott & Taylor gives a result for the Empire Mine, Madoc village, of $36.65 per ton, with 43 per cent. of grey copper. This mine is situated on the ridge running almost east and west through the village by Jones' mill. Very little has been done there, the sample of rock being taken from near the surface.—Mr. Venner, last fall, traced and pointed out this band of rock as passing from the Episcopal church westward and crossing the road by the Scotch church; it again crosses the Madoc road half way between the village and Hog Lake.

The House Yesterday.

A number of questions were asked of the Government yesterday, and amongst other replies were the following, which are summarized by the *Leader*: That it is not intended to take any steps to improve Rondeau Harbor or the navigation of the River Thames, as it has not yet been determined whether these works belong to the Local or the General Government.—That, without binding themselves down to any particular action in the matter, it is not the intention to establish a Court of Appeal for the Dominion during the present short sitting. That no steps will be taken towards taking the telegraph wires under Government control until the action of the English Government in a similar way is known. The question of Bankruptcy and Insolvency were referred to a committee.—Some discussion took place upon a motion for a return of the amount of grain used in the breweries and distilleries of Ontario and Quebec; it being contended that the Government do not receive as much revenue from these sources as they are entitled to.

The correspondence between the Imperial Government and our own on the subject of defence was asked for, but refused, on the ground that it is confidential. It would be exceedingly imprudent to have the communications between the two Governments upon this important matter made public just now.

Sir John A. Macdonald stated, however, that before any action were taken by our Government the papers would be sent down. Mr. Holton intimated that he would, to-day, as a matter of privilege, call the attention of the House to the fact that it was a violation of the independence of Parliament Act for local Cabinet Ministers to sit in the House of Commons. The subject is likely to give rise to an animated debate.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Nov. 18.—The French Chambers assembled to-day. The Emperor Napoleon opened the session as is customary, with a speech, wherein he affirmed that there was no longer any objection to German unity and consolidation on the part of the French Government.

LONDON, Nov. 18.—A despatch from Alexandria brings the intelligence that the American Consul General at that port, Charles Hale, Esq., has induced Ismael Pasha, the Viceroy, to issue a decree permitting the return to Egypt of the American missionaries and the native Christian converts, who had been exiled from that country.

LONDON, Nov. 18, noon.—The Colonial officers have not any particulars of the alleged sinking of the Island of Tortola and the drowning of 10,000 people, in answer to telegrams sent to officials in the West Indies. The story is generally discredited here, or at least believed to be greatly exaggerated.

LONDON, Nov. 18, 2 p.m.—Consols steady at 94⅜; 5 20's, 70⅝; Ill. C., 85¼; Erie, 48⅛; A. and G. W. consolidated, 19¼.

LIVERPOOL, Nov. 18, 2 p.m.—Cotton steady and unchanged. Corn 3d higher; new mixed western 48s 9d per quarter. Other articles unchanged. Bacon 1s lower; cured cut meats 49s per cwt. American tallow, 44s 6d. Spirits turpentine firmer at 27s 3d per cwt.

American Despatches.

ST. LOUIS, Nov. 18.—The Treasurer's office in Gallatin, Mo., was robbed last night of $25,000 in greenbacks and $4,000 in county warrants.

NEW YORK, Nov. 19.—The *Herald's* Havana special says: Admiral Legethoff has received the remains of the late Emperor Maximilian from the Mexican government, and was expected to leave for Vera Cruz on the 11th inst., where the Austrian frigate "Navara" would be ready to convey him to Austria. The amnesty proclamation had at length been issued. It mitigates, to a great extent, the punishment of the imperial prisoners. Padre Fischer is still held prisoner, although the amnesty proclamation sets Prince Salm Salm free. All the members of the Court Martial before whom Santa Anna was tried, at Vera Cruz, except the fiscal, have been sentenced to four years imprisonment for having given a final determination without consulting the general government. All sorts of kidnapping was being practiced on prominent and wealthy persons of all ages and sexes to extort ransoms. This was principally the case in the rural parts and the suburbs of the cities. Tortures and even assassinations were threatened to make people swear secrecy as to who were the parties these ransoms were paid.—Vigilance Committees were being organized to put a stop to the proceedings around the capitol.

The French Consul at Laguna had been recalled. He had gone to Jamaica. Vera Cruz had sent aid to the sufferers by the hurricane at Matamoras, to the amount $100,000. A terrible hurricane blew over the island of St. Domingo on the 30th ult. It disabled the capital and destroyed 2,000 lives. The hurricane lasted four hours and destroyed nearly all the shipping in the harbor. No American vessels are reported damaged. No news from the interior. The treaty between Hayti and St. Domingo has been annulled, and the Haytian ministers have returned. Revolutionary movements are rife and Dominican friars are reported already on the Haytian frontier. The intended issue of bonds to the amount of $300,000 is unpopular.

WASHINGTON, Nov. 18.—Attorney-General Stanberry in denying the authorship of the opinion attributed to him just published, says if he was requested to give an opinion to order, he would immediately resign.

NEW YORK, Nov. 19.—J. Moss, aged seventy years, committed suicide yesterday, in Hudson City, N. J.

The *Herald's* special says Chief Justice Chase will deliver the charge to the Jury on the 25th inst., at the commencement of the trial of Jeff. Davis, but he will not remain throughout the session. Davis will be tried on the old indictment.

NEW YORK, Nov. 19.—The steamer "Quaker City," with the Holy Land excursionists, has arrived.

Editorial Summary.

—St. Domingo was destroyed by a hurricane on the 30th ult. Great loss of life.

—Messrs. C. & J. Bate & Co., of Ottawa, lose $100,000 by the recent fire in their premises.

—Mr. Anglin writes to his journal from Ottawa that the extravagance visible everywhere passes all bounds.

—The New York *Herald* says of the Jeff. Davis trial: "Is it not almost time that this farce should end?"

—Russia has decreased its army by about 100,000 men during the year past. It still has an effective force of about half a million.

—Two South Carolina negroes who were drawn to serve on a jury fled to the swamps in terror on receipt of the news.

—A couple got married for fun in Detroit the other day, find that it's a solemn reality, and are petitioning to be let loose.

—At Mooseland, Tangier, N. S., where, by the way, gold was first discovered in that Province, they are obtaining 1½ oz. gold per ton from the quartz, and prospects improve as they go down.

—Provincial notes are in circulation since the 6th Nov. Montreal, two millions eight hundred thousand; Toronto, over one million. Altogether, nearly four millions. Specie, $800,000. Debentures, three millions.

—The railway returns show an increase of traffic for October of $27,000 in the Great Western, and of about $5,000 in the Grand Trunk for the three weeks, as compared with the corresponding period of last year.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 138-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated Pulmonary Consumption! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

NOTICE.

APPLICATION will be made to the Legislature of the Dominion of Canada, at its next sitting, for an Act to Incorporate a company under the name of the Traders' Bank of Belleville, for the purpose of carrying on the business of Banking and Exchange in Belleville, etc., and for other purposes.

Belleville, Nov. 1, 1867. 156-tf

PROSPECTUS OF

THE WELLINGTON GOLD MINING COMPANY OF MADOC: Limited.

To be Incorporated by Letters Patent, under the Provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments Thereto.

Capital Stock $200,000, divided into 40,000 Shares of $5 each.

Of which $100,000 is reserved for working capital.

DIRECTORS:

The HON. JOHN CARLING, M. P. — JOHN CRAWFORD, Esq., Q. C., M. P.
ADAM CROOKS, Esq., Q. C. — THOMAS LAILEY, Esq., Merchant.
A. M. SMITH, ESQ., President of the Royal Canadian Bank.

Manager and Superintendent—HUGH R. FLETCHER, Mining Engineer.
Secretary and Treasurer—H. S. LEDYARD.
Solicitors—Messrs. McMURRAY & RAE.
Bankers—THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot number eighteen in the fifth concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situate upon the West end of the Richardson Hill, and a continuation of the Quartz Lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 800 feet along this lead.

Another Quartz Lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the ElDorado, the Moore Mine, the Royal Canadian and Kootaney Mines, and the property is bounded on the East side by the Richardson Farm and the territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of Copper ore, than at the Richardson; and as this property is situate upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of The Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively $35 and $32 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer, of Madoc, returned $22 of Gold and Silver to the ton, and as these assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

ONE DOLLAR per Share to be payable on application, and the remaining $4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock, and other communications to be addressed to the Secretary,

PROCLAMATION.

The Commercial

COMMUNITY, and citizens resident in the County of Hastings and Province of Ontario are respectfully informed that the Extract of Limes and Glycerine is superior to every other preparation as a dresser for the hair. It contains no Lead, Sulphur, or any other injurious ingredients. It is composed entirely of vegetable substances of acknowledged virtues, and for cleansing and allaying all irritation of the Scalp, and for preserving the Hair and promoting its growth it is unequalled. It has the properties of a Wash, as well as a Pomade, and checks all tendency to the Hair turning Grey or falling off.

Prepared only at

APOTHECARIES HALL,

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their proportions, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

TORONTO and MONTREAL,
General Agents.

Toronto, Nov. 2, 1867. 168-3m 40-3m

A lady advertises in a New York paper for a husband "having a Roman nose with strong religious tendencies." Poor thing!

A printer, not long since, having been "flung" by his sweetheart, went to the office to commit suicide with the "shooting stick." The thing wouldn't go off. The "devil," wishing to pacify him told him to go into the sanctum, where the editor was writing duns to delinquent subscribers. The picture of despair reconciled him to his fate.

We don't like, says the Louisville *Democrat*, to compare Grant to a quack medicine: but some papers treat him so. The effect of Grant on the brain, as evidenced in two papers the Kentucky *Statesman* and Louisville *Courier*, is wonderful exceedingly. As the general conflagration reaches the particular domicile where they are located, they yell for him as if he was a patent squirt of 20 000 gallons power and three feet nozzle, or they cling to him as small lulus with unequal steps to the hand of Æneas, or are, perhaps, like his wife Creusa, abandoned to the flames of Troy.

Mr. Reed, chief constructor of the British navy, has designed a vessel intended to carry 600-pounders and plates 15 inches thick. He proposes furnishing her with engines which will drive her at the rate of fourteen to fifteen knots; and if the Admiralty should approve his plans and direct the work to be proceeded with, by 1869 England will possess an engine absolutely impenetrable to the artillery of the present day, and capable of collectively annihilating every war vessel now afloat. Mr. Reed seems to have been at last converted to Captain Cowper Cole's system; for this, his new ideal man-of-war, combines the best features of the turret as well as the broadside.

SINGULAR FREAK OF NATURE.—A butcher while engaged at Communipaw Abattoires "in dressing" a ewe which had just been slaughtered, discovered a lamb, almost fully developed, having one head, two bodies, eight well formed legs, five ears, two tails, and three eyes. The head resembled that of a monkey. Two of the eyes were in their natural position, and the third was at the back of the head, just above the nape of the neck. The five ears were distributed at equal distances around the head. The bodies were united at the breast, there being but one breast bone, two of the four fore legs being in their proper position and the other two on the back, attached to the shoulder blades. The four hind legs were placed in natural positions, two being attached to each body.—*N. Y. Com. Advertiser.*

A WARNING TO JURORS.—We notice by the *Beacon* that Mr. Emanuel Garbut, of the township of Fullarton, in the neighboring county of Perth, who, as a juryman at the last Stratford Assizes, committed a flagrant act of contempt of Court, and was fined therefor by his Lordship in the sum of $100, was waited upon by the Sheriff's officer a few days ago, and reluctantly compelled to fork over the amount. A petition had been presented to the Executive Council of Ontario on his behalf, but his Excellency's advisers declined to interfere. His dear-bought experience will no doubt serve as a warning to other jurors not to display so much stupid independence when placed in similar circumstances. It will be remembered that he sat as a juror on a case at the Assizes, which was adjourned, to be resumed next morning; but when morning came and he was called, it was found that he had gone home to attend the agricultural show, and the case had to be put off till next Assizes.

1868.

DIVISION COURTS.

I HEREBY order that Division Courts be holden for the year A. D. 1868, at the following places and days:—

1ST DIVISION—AT BELLEVILLE.

17th January,	17th July,

Gold Crushers

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

VOL. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, NOVEMBER 20, 1867. No. 172.

The Local Assembly Hall at Toronto.

The Toronto *Telegraph* gives a full and interesting account of the Parliamentary buildings at that city. The description of the Assembly Hall may interest some of our readers:—

Having entered through the main door, we proceeded along the hall for a few paces and turning to the right, enter the House of Assembly. This is the same room as was used for a similar purpose in former times, though it has been considerably altered and improved. The ceiling has been plastered and whitened, the walls re-papered to represent marble, and a new floor put down. Formerly a gallery ran along the north side, but this has been removed. The other gallery, running across the west end, facing with rows of seats in tiers rising above each other from the front to the Speaker, still remains. It is filled at the rear. Along the front runs an open railing where was formerly a close one of wood. This gallery will be for the use of strangers. It affords a fine view of the House.—Directly beneath it, raised a couple of feet above the floor of the House, are other rows of benches, which may be termed "reserved seats," as admission to them can only be procured by friends of the members and ladies. This portion will be divided off from the floor of the House by an open railing. It affords an excellent view of the House. In the north-east and south-east corners of the House, elevated above the Speaker's chair, are the reporters' galleries. They are twice the size they formerly were, and are excellently situated. The members of the press should remember the Hon. J. Carling for the attention he has bestowed upon their quarters. The Speaker's chair is on the spot where it formerly stood, namely, near the east wall and facing the centre of the House. A new dias has been put up, and the chair itself, and everything around it will be new. Directly in front of the chair will stand the mace table.—The members' seats, as before, will run along the north and south sides looking towards the centre. Each member will have a seat and desk to himself. There will be no cross seats for independent members. The minister will sit on the south side to the right of the Speaker, with their supporters near them, while the gentlemen composing Her Majesty's loyal opposition will occupy the opposite or south side of the House. The room is lighted up by three large windows in the south side.—The old sashes have been removed and new ones put in with panes about four times as large as the old ones. The room is well lighted, and when furnished will be much finer and more convenient than it formerly was.

The Last Royal Scandal.

THE PRINCE OF WALES AND THE MENKEN.

The London correspondent of the Newcastle *Express*, in his last letter, says:—

"The Prince of Wales has returned to town, and the town has returned to the Prince of Wales. It tells, for instance, of the Prince's undiminished devotion to the race course; how, having attended all the great meetings of the summer season, he has got back to England just in time to be present at Newmarket, where his groom managed to 'cannon' two jockeys, spoil a race, and ruin a racehorse. The town tells, too, how in his love for that last-named noble animal, the Prince was actually to be seen at Astley's, where Miss Adah Menken goes through the part of Mazeppa. Such devotion on the part of one so illustrious is really romantic, since in this instance it induced his Royal Highness to endure what must have been a severe trial to a mind so refined as his—the spectacle of a naked woman exhibiting herself in public. Most princes would have been deterred by such a sight as that, but *our* Prince has a soul far above such narrow scruples. His love for horseflesh overcame even his repugnance to a spectacle whose existence proves the utter uselessness of the Lord Chamberlain's censorship. There has been nothing so touching in the history of royalty since the Emperor Claudius made his horse Consul of Rome.

A Siamese Opinion of a Piano.

The *Musical Standard* is responsible for the following:

It is said that one of the Siamese Ambassadors, on going home from his European visit, made an elaborate report on all he had seen, including the music he had heard in the West. He was very little oppressed by the music, save and except that which he said was "produced by a great trunk set upon legs." "A woman," he wrote, "sits in front of this, and, tickling a sort of rail it has with her toe, produces a variety of sounds by beating rapidly with her fingers on a number of little bits of ivory in front of it!" Such is a Siamese description of our pianoforte!

—The canal which connects the Mediterranean with the Atlantic Ocean through France, is to be enlarged to admit vessels of greater tonnage than it now does. This route is 116 leagues against 700 by way of Gibraltar.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

BELLEVILLE, WEDNESDAY, NOV. 20.

☞ *SEE FOURTH PAGE.*

PROMOTED.—The official *Gazette* of Saturday contains the appointment of Frederick L. Bogart, M. S., to be Lieutenant in the 15th Battalion, vice Jellett, resigned.

LONDON SOCIETY.—We have received from W. C. Chewett & Co. the November number of this English monthly. It is replete, as usual, with choice reading, and is profusely illustrated. It is the most interesting number of the year. To be had at Orerell's.

BANK STATEMENT FOR OCTOBER.—The returns from the chartered Banks of Ontario and Quebec for the month ending October 31, are as follows: Circulation, $10,119,070; cash deposits not bearing interest, nearly $15,050,000; cash deposits bearing interest, over $16,000,000; notes and bills discounted, $55,590,283; coin and Government notes in reserve, $7,973,000. The returns of the Commercial Bank appear in this return, as usual.

CAPT. BRIDGEWATER'S LECTURE.—We hope Captain Bridgewater will have a full house to-night. The Toronto *Leader*, speaking of a lecture delivered by this gentleman at Whitby, says: "The Captain spoke for nearly two hours in a fluent and impressive manner, his remarks being loudly applauded. He appealed most feelingly to the people on behalf of the volunteer cause, urging the community to foster and encourage a military spirit in their midst. Such a lecture as this is a benefit to the country, and should be well patronized. So favorably were the audience impressed with the Captain's remarks, that on motion of Captain Jones, seconded by Captain Dartnell, Captain Bridgewater was invited to repeat his lecture as he returns, the audience pledging themselves to secure a larger attendance. The Captain is a good speaker, and handles his subject cleverly."

THE BLACK CROOK.—Cole's Company is now performing in Kingston. The *News* thus speaks of their performances: "The ladies all played their allotted parts to perfection, chief amongst whom might be mentioned Miss Edwins Gray as the "Queen of the Golden Realm," and Miss Emma Hall as "Carlina." "Sir Rudolph" and "Schamps" were admirably sustained by Mr. Nugent and Mr. Edmund Coles, the latter being a comedian of the highest order, with power to keep the house in one continued roar of laughter while he remained on the stage. He is also an excellent singer of comic songs, and was more than once deservingly encored after giving the audience a touch of this particular quality. Mdlles. Victoria and Lu Dell are finished dancseues; they were also repeatedly encored. The scienic effects, on which such plays as the one in question greatly depend, were magnificently got up, and the dresses of the "Immortals" of the "Golden Realm" were in the highest degree effective."

The House Yesterday.

A large number of petitions against the return of members, chiefly from Quebec, was presented yesterday. Tuesdays, Thursdays, and Fridays are to be Government days. It was announced that the Session would be divided into two parts, the present being a short one, and the next meeting would take place in February.—The Intercolonial Railway Bill would be brought down this Session. Mr. Langevin introduced a Bill to appoint a Secretary and under-Secretary of State, to assimilate certain laws of the Provinces, and to place the Indian lands under the charge of the Secretary of the State. The public accounts for 1866 were laid upon the table. The House went into committee on the resolution relating to indemnity of members. The resolutions introduced by the Government fix the indemnity at $6 a day, should the session be under 30 days, and $600 let the session be what length it may be after one month. A lengthy discussion took place after which the resolutions were adopted and the House adjourned.

—The water police of Quebec are to be sent to the gold diggings at St. François (Beauce) this winter.

—The Pollard-Wise controversy rages. Wise says Pollard is "cursed in the very heart and core of his moral nature." Pollard says Wise is "a literary pole-cat, a hoary scold, and a political beggard."

The Local Bank.

The Committee appointed to co-operate with the Members for the County for the purpose of establishing a Local Bank, have had one or two meetings, and we understand a memorial to the Government, praying for the incorporation of a Local Bank, has already been transmitted to Ottawa. The Bill to incorporate the Bank is being drawn up, and will be sent down in a day or two. The feeling in favor of a Local Bank is growing every day. It is felt by business men that there is no lack of capital within the County to have the whole of the stock taken up here, and all it requires is to establish confidence in the scheme. If it be true that the deposits in the Montreal and Commercial Agencies here have averaged fully $400,000, there is certainly no lack of money in the County to establish a Bank with a capital of $250,000, and we have reason to believe that if a charter is obtained at this Session of Parliament, the stock would all be taken up in a few days. That it would be a safe and paying investment has already been clearly shown. Its operations would be confined to the legitimate business of the County; it could not suffer from Railway and wild-cat speculations; the business men of the county all being interested, would keep their deposits and accounts with the bank; it is capable of being managed more economically than large banks; by making it the agent for other banks, facilities for the transaction of business with other points would be the same as are offered by other branch agencies; the stockholders being chiefly resident of the county the operations of the bank would be under their immediate observation, and this would operate in favor of a cautious policy; and if the ageney of the Commercial Bank here has, for years past, done its business upon its deposits, and made a clear profit of $15,000 to $20,000 a year, certainly a Local Bank, having the whole business of the County, could make a much larger profit. Of course it would not do to have it established under the system proposed by Mr. King, for then it would be but the mere agent of the "great Bank," and would be nominally under his control. It must be entirely independent of the Montreal or any other bank, and we have no doubt the members to whom theBill will be entrusted, will guard against it being tramelled in the manner proposed by Mr. King.

The Maritime Provinces.

From our Maritime Provincial exchanges we glean the following information. The following figures compiled from reliable sources, make up a significant statement of the movements of the flour trade during the past three years. In 1865 the importations of flour into New Brunswick were—

	bbls.
From the United States,	205,373
From Canada,	28,000
Total,	233,373

In 1866, the importations were—

	bbls.
From the United States,	89,915
From Canada,	144,399
Total,	234,314

In 1867, for nine months ending September 30th, the importations stood as follows:—

	bbls.
From Canada *via* Portland,	128,219
From Canada *via* Boston and New York,	11,686
From Canada *via* Shediac,	5,500
Total from Canada,	145,405
Total from United States,	16,021
Total for nine months,	161,416

Up to 1866, it will be seen by the above figures, the flour imported into New Brunswick came almost entirely from the States, in that year the course of trade changed, and the imports from Canada were considerably in excess of those from the States; and this year, or at least up to the end of September, the quantity of American flour imported represents but a tithe of the whole.

In Prince Edward Island the grain trade is unusually brisk. The *Islander* says:—"There will be some sixty square rigged vessels leave this fall, loaded with oats, for various ports in Europe. This will be a good thing for the farmers, particularly as the price has ruled high the whole season—from 2s 6d to 2s 8d per bushel. The operations of one house in this city, in grain, will amount to nearly £40,000."

The St. Johns (N. B.) *News* is very much gratified at the position assumed by the members from the Maritime Provinces, and thinks their appearance has been so far highly creditable to them. It says: "We presume that Mr. Howe in his own walk is without an equal in the House of Commons. We shall not be surprised if in a short time it be conceded on all hands that Dr. Tupper is the keenest and most powerful debater in Parliament. Mr. Fisher has acquitted himself well. Mr. Smith we have no doubt has made a good impression.—Mr. Anglin will we trust reflect credit upon Gloucester and journalism. Mr. Gray will have charmed his audience with his graceful fluency, and Mr. Tilley will, as usual, make hosts of friends. We are proud to know that we have sent to Ottawa a band of men capable of making their influence strongly felt upon the more numerous representatives from the larger Provinces.—We trust our best men especially will pull well and patriotically together. We are glad to mark the strong demand presented by the maritime members for a stringently economical administration of public affairs. Let this course be firmly but sagaciously pursued, and the masses of the Ontario people will soon hail our men from beside the sea as their most valuable allies in securing honest, frugal and enlightened government."

Messrs. Huse & Lowell, Bankers had on Exhibition at their office in Halifax on Friday last four "bricks" of gold, from the Sherbrooke Mines, weighing 1039 oz., 13 dwts., 2 gr. valued at nearly $21,000. The total yield of gold on the Sherbrooke Mines in the month of October, according to the official returns, was 1476 oz., 17 dwts. 22 gr.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 19th, 1867.

I closed my last letter as Mr. McGee rose to address the House upon the Address of His Excellency in reply to the speech from the Throne. The speech of Mr. McGee was a master-piece of oratory, and an admirable defence of the Union. I will not attempt even a synopsis of it. To fully appreciate it, it must be read. No report, however, which has as yet appeared, does him justice. He was followed by Mr. Anglin, from Nova Scotia, who has assumed the championship of the Roman Catholics of New Brunswick, and has already drawn an invidious distinction between sects and nationalities. It was to have been hoped, that in the new and wider sphere in which members were placed, they would have taken a broad and comprehensive view of all questions which come before the Commons of this Dominion. This hope, it is to be regretted, is not to be realized. The same sectional and sectarian squabbles which marred the harmony of the old House of Assembly, are to be re-enacted in the Commons, if such bigots as Anglin are allowed to obtain a position and influence. His objects and desires are too transparent to deceive any one. He desires position, and thinks that if he assumes the championship of the Roman Catholics of the Dominion, he will command respect and influence. It is hoped that ministers will not allow such indirect menaces to influence them in the selection for positions in the ministry or in their selections of Senators, to which this same member has called the attention of the House. This gentleman also told the House that he believed that Mr. McGee was in league with Killian, who commanded the Fenians at East Port when the island of Campebello was threatened, and that that attack was planned for the purpose of influencing the elections in New Brunswick. He could account for the disappearance of Killian on no other ground. Mr. Tilley replied, and told the member that his own nephew was in command of a portion of the Fenian force at that same *fiasco*, from which fact the country would have as good reason to argue that the honorable gentleman was in league with and cognizant of their movements. He admitted that the Fenian troubles had an influence upon the elections, because all loyal men rallied to the support of a scheme which they thought would strengthen their position and maintain their allegiance to the British Crown. After a few more remarks, the House adjourned till the Monday following.

On Monday Sir John A. McDonald informed the House, in reply to certain inquiries, that the question of establishing a Court of Appeal for the Dominion, was under the consideration of the House, but a measure would not be brought down during this part of the Session—that the question of securing to the Government the various telegraphs of the Dominion, by the Government and managing them in connection with the postal system, was also under the consideration of the government—that the question of a uniform election law for all the provinces would be considered. A return was ordered for all the beer manufactured in the province of Ontario, since the 1st July, 1867.

A good deal has been said about the expenditure of money taken from the secret service appropriation, to carry the late elections, and Mr. Blake put a motion upon the paper asking for a return respecting the amount granted for secret service, &c.; but, being absent, Sir John A. McDonald asked Mr. McKenzie to move for the return, which he did, showing conclusively that the Government do not fear an investigation.

The most important event of the evening was the reply of Mr. McDonald to Mr. Holton, in reference to the successor of Mr. Galt and of Mr. Archibald. He said he would answer by moving for a writ for the election of a Member for the County of Huntingdon in the place of the Hon. John Rose, who had taken the position of Finance Minister. He had consulted with the Hon. Minister of Excise (Mr. Howland), but that hon. gentleman had felt that his health would not permit him to accept the office. He had decided to retain his present position which was not so great a financial charge. With respect to the office of Secretary of State for the Provinces, he said that the distribution of offices was to some extent experimental. The Secretary of State for Canada, occupied the same position in the Dominion that the Provincial Secretary had in the late Province of Canada. He had a great deal of every day work to perform, and Indian Affairs and Ordnance Lands, retained for local defence, had been attached to the Department. How far the duties imposed would occupy his time, had not been fully developed. Differences of opinion would arise between the Local and General Government, which would necessitate a large amount of correspondence. However, it was not the intention of the Government at present to appoint a successor to the late Secretary of State for the Provinces. In the meantime the Secretary of State for Canada would perform the duties, and that there would be no change in the commercial policy of the government.

A question has been raised by Mr. Holton, as to the legality of members of the Local Government holding seats in this house, but would not go on with it in the absence of the Hon. John S. Macdonald; but a debate may be expected upon this question ere long.

Mr. Chapais petitioned for the seat for Kamarowski, but upon what ground has not yet transpired. There was no return made for that county by the Returning Officer.

A petition was presented against the return of Mr. O'Connor for Essex.

LIME GLYCERINE.—This preparation, advertised in our paper, is pronounced by those who have used it, to be the best preparation for the hair they have ever had. It is entirely free from poisonous substances, which are to be found in some preparations for the hair, such as sulphur, sugar of lead and many other deleterious ingredients. It frees the hair from dandruff, prevents the hair from falling out, and gives to the hair a beautiful gloss unattainable by any other preparation. It will also be found to be a valuable remedy for chapped hands, &c. Its price places it within the reach of all, and we recommend it as an invaluable preparation.

To the Editor of the Daily Intelligencer.

MR. EDITOR,—I send you the following information, which will give your readers some idea how the public money goes, having, by chance, been able to procure a list of stationery, &c., furnished to the members of the Senate and Commons;

1 folio blotting pad; ½ quire blotting paper; ¾ ream foolscap, plain; ⅝ ream foolscap, ruled; ¾ ream cream laid letter paper; 1 ream large cream laid note paper; 1 ream medium cream laid note paper; 1 ream large cream laid French paper; ¾ ream small cream laid French paper; 100 envelopes, cream laid, 55 thick; 100 envelopes, cream laid, 50 thin; 100 envelopes cream laid, 56 thick; 100 envelopes, cream laid French thin; 50 each envelopes, cartridge, Nos. 13 and 14; 50 each, three sizes of small envelopes, for notes and cards; 1 memorandum book; 1 box India rubber bands; 1 inkstand, cut glass; 1 inkstand, small; 1 gross Mitchell's bullion pens; 1 gross Mitchell's "M" pens; ½ gross Thomas Low's "Star" pen; 1 dozen penholders, assorted; 1 Perry's pencil; 1 box leads; 4 cedar pencils; 5 sticks red sealing wax; 1 piece India rubber; 1 small stamp; 6 pieces red tape; 1 bottle ink; 1 pen brush; 2 packs visiting cards; 1 pocket book, Russia; 1 piece chamois; 1 taper stand; ½ doz. tapers; ½ dozen small memorandum books; 2 large memorandum books; 2 trunks. Also, 1 pen knife; 1 pair scissors; 1 paper knife.

Now, with 72 Senators and 181 Commoners, you will see that 253 persons are supplied with at least $46 50 worth, in all the round sum of $11,764 50—a snug little fortune for a poor man.

In lobbying through the members, I find many expressions of surprise at the furnishing of so much, when one-third of that amount would afford members all that is actually required for use during the session.

But this is not all. I find that members have this sent to their lodgings, while most of them have their desks at the House furnished with all that is necessary for their use during the session, and where most of them do their writing.

At the commencement of our new Dominion something should be done in trying to reduce expenses, and in having "due regard to economy;" but I fear matters of this sort, as well as all other expenditures, are to be left to take the usual course.

From what I can learn, this extravagance is not having a good effect on the members from the Maritime Provinces. They must form strange ideas of Canadian economy, when they look at the Parliament Buildings, in their magnitude, and then at the stationery, &c., sent to their lodgings, as well as at all other items of expense in connection with both Houses.

LOBBY.

American Despatches.

NEW YORK, Nov. 19.—The British barque "Gen. Canfield" has arrived. She brings the officers and crew of the United States steamer "Sacramento," which was lost on the Island of Colconlada on June 17th.

Four new cases of cholera, from the steamship "City of Cork," have been discovered. No deaths since Sunday.

BOSTON, Nov. 19.—The steamship "Cuba" arrived at 8:30 p.m., with Charles Dickens on board.

WASHINGTON, Nov. 19.—The steamer "Ocean Wave" ran upon an obstruction in the lower bay and sank.

NEW YORK, Nov. 20.—There were 350 deaths in New York and 159 in Brooklyn last week.

Col. Jack Mosby, the ex-rebel guerilla chief, was introduced to the members in the gold room yesterday. Some excitement ensued, and the opinion of the brokers was divided on the propriety of the introduction. Order prevailed only when Mosby withdrew from the room.

The excitement among the negroes of Richmond on the subject of being caught alive for dissection continues. They now believe that forty medical students from New York are in Richmond, for the purpose of procuring material for dissection. Very few are seen on the streets after night, and not more than fifty attended a circus last night. Heretofore thousands have usually been present.

The *Herald's* Havana special says the French steamer "Panama" sails to-morrow for St. Nazaire. Baron von Magnus and the Prince Salm Salm and the Princess Salm by the "Panama" for Europe.

The *Herald's* Boston special says the great event in Boston to-day has been the arrival of Charles Dickens from Europe. The party are stopping at the Parker House, where Mr. Dickens will remain until his departure for New York.

The *Herald's* special from Chicago says Coburn and McCoole met in Chicago and signed articles to fight for the championship on the 27th May next, within fifty miles of Cincinnati, for $10,000. Heenan and Morrisey, it is said, will train Coburn.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, November 19, noon.—The French Emperor, in his speech in the French Chamber yesterday, referred to Italian and German affairs and French reform.

The *Times* this morning warmly praises Napoleon, and regards the speech as the most liberal, peaceful and sensible of the second Empire.

LONDON, Nov. 19, noon.—Consols 94¼; Bonds 70¾; Ill C 84⅝; Erie 47¼.

LIVERPOOL, Nov. 19, noon.—Cotton dull, and declined 1-16; Uplands 8¾d; Orleans 8¾d. Breadstuffs quiet.

QUEENSTOWN, Nov. 19, noon.—The steamship *Minnesota*, from New York, has arrived.

—More letters have been abstracted at the Montreal Post Office.

—Hiram Powers has made $300,000 in Italy by his art.

—Sir Henry Smith is spoken of as Speaker of the Ontario Legislature.

—A man stole a frame house at Alton, Ill., last week, the night before it was raised.

—John Ericsson has contributed $20,000 to the fund for the sufferers by the famine in Sweden.

—The "City of Cork," which arrived at New York on Friday, lost fourteen passengers by cholera.

—No speeches made at the transfer of Alaska! An unexampled feat of abstinence in American history.

—The Great Western Railway carpenter and blacksmiths' shops, Toronto, were destroyed by fire yesterday.

—What ails Indiana? Out of fifty-eight petitions for divorce in the Courts at New Albany, only five were granted. This was not so once.

—Some ingenious student of figures in England discovered some months since that every ten years there was a recurrence of a financial panic, as, for instance, in 1827, 1847 and 1857. As 1867 draws to a close, and trade is fearfully dull, though there are no signs of a panic, the English papers note, as a remarkable fact, that an autumnal session of Parliament, which is sometimes a calamity, occurs every ten years. There was one in 1837, 1847 and 1857, and there will be one this year.

The *Post* says the loan market is still irregular. The stock market is dull and active, except on governments. Railroads generally better. Express shares strong. Exchange dull.

—The population of Kansas is estimated at 300,000.

SPECIAL NOTICE.

R. R. R.

90 out of 100 deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in it e house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

Messrs. J. N. HARRIS & CO:

Gents—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated Pulmonary Consumption! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption? It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

The proprietors in offering the above do so with the full conviction of its being all they claim for it,

The best Hair Dresser before the People.

Prepared only at

APOTHECARIES HALL,

1d1y Front St., Belleville.

TO THOSE LOOKING FOR

MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,

Lessee,

Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. Wyckoff's Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

M. NULTY.

Belleville, Oct. 29, 1867. 154 MWF,3w

PROSPECTUS OF

THE WELLINGTON GOLD MINING COMPANY

OF MADOC: Limited.

To be Incorporated by Letters Patent, under the Provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments Thereto.

Capital Stock $200,000, divided into 40,000 Shares of $5 each.

Of which $100,000 is reserved for working capital.

DIRECTORS:

The HON. JOHN CARLING, M.P. JOHN CRAWFORD, Esq., Q. C., M. P.

ADAM CROOKS, Esq., Q.C. THOMAS LAILEY, Esq., Merchant.

A. M. SMITH, ESQ., President of the Royal Canadian Bank.

Manager and Superintendent—HUGH R. FLETCHER, Mining Engineer.

Secretary and Treasurer—H. S. LEDYARD.

Solicitors—Messrs. McMURRAY & RAE.

Bankers—THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot number eighteen in the fifth concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situate upon the West end of the Richardson Hill, and a continuation of the Quartz Lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 890 feet along this lead.

Another Quartz Lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the ElDorado, the Moore Mine, the Royal Canadian and Kootaney Mines, and the property is bounded on the East side by the Richardson Farm and the territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of Copper ore, than at the Richardson; and as this property is situate upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of The Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively $19 and $32 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer, of Madoc, returned $22 of Gold and Silver to the ton, and as those assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

One Dollar per Share to be payable on application, and the remaining $4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock, and other communications to be addressed to the Secretary,

H. S. LEDYARD,

THE LARGEST CIRCULATED PAPER IN MONTREAL!

THE "DAILY NEWS,"

$5 00 per Annum, in advance.

JOHN LOVELL,

68 Printer and Publisher.

A True Picture.

CHICAGO.

A Pittsburgh poet gets off the following on the modern Sodom and Gomorrah:

I have been to the North, I have been to the South,
But in travelling a man may afar go,
To the jumping off place, ere he will find
A town to compare with Chicago.

If you never have altered your name in your life,
Nor never did up to the bar go,
Or else run away with another man's wife,
They won't let you live in Chicago.

Some people send on by the Adams express,
And some put their faith in a Fargo,
But if you would go to the devil direct,
You must enter yourself at Chicago.

They won't let a clergyman live in the town;
On such they have put an embargo,
Unless he makes mutton of all his young lambs,
And then he may stay in Chicago.

There the infants are fed on whiskey direct;
For liquor they all to their ma go;
And the milky cows give, as a man might expect,
Milk punch in the town of Chicago.

Yet it cannot be said that their morals are bad,
Or that they too much below par go;
For the devil's moral the folks ever had
Who live in the town of Chicago.

Oh, Sodom was "some" and Gomorrah was "great,"
And in Venice each man's an Iago,
But the beautiful city that rakes them all down
Is the elegant ville of Chicago.

New York Butter Market.

The New York *Times* of Friday, quotes as follows from Messrs. Stairn & Floyd's notice:—

"A return of cold, seasonable weather, and the more perfect knowledge of the absolute shortage in the crop of butter that the trade has acquired, has stimulated demand and given renewed confidence in purchasing supplies at ruling rates, and it is now generally conceded that no stock of fine butter can be placed on the market sufficient to break down prices, and trade progresses steadily and firmly at our quotations. Some parcels of Canada stock are freely offered, but the quality being inferior and unsuitable for market wants, do not meet with ready sale. Western butter continues practically out of market, with the current of trade setting west instead of to this point. Fresh pail butters are in small supply, and selections command 55c per lb. The total receipts of butter for the week ending this day are 10,826 packages, which are not equal to the requirements of the market. We make no change in quotations, but the market closes with great firmness and with an upward tendency.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home,—instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest detail, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

Of the newest style and patterns made to order.

Their facilities for manufacturing are such as to enable them to successfully compete with any similar establishment in the Province.

Every description of patterns made to order. Repairing done on the shortest notice. All kinds of Brass Castings made to order.

Belleville, May 1. 1D-tf

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the Gold Regions, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 03

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, NOVEMBER 21, 1867. No. 173.

Our Mineral Resources.

(*From the Toronto Leader, Nov.* 20.)

There is a legend that certain Spanish adventurers visited Canada, at an early period, in search of gold; and that finding none, they named the country *El Capa de Nada*; the cape with nothing—that they had been in search of—in it. But the writers who have told this story have managed to spell two of the four words wrong—*El Capa di Nada*—and the story may safely be put down as a fable. Three centuries and a quarter after the discovery of Canada, passed away, before the gold for which the early colonizers of some parts of America showed so great a thirst was discovered. In the meantime, many other metals had been found and worked to a greater or less extent. The forges of St. Maurice probably afford the first instance of the successful working of any metal in Canada. The copper deposits of the Lake Superior region have long been known; but, on the north side, they have not yet been much worked. The Bruce mines are worked at a profit; and there are but few other cases in which the North Shore has had a fair trial. Silver deposits of surpassing richness are reported to have been recently discovered there, at more than one point; and we believe that, in one instance at least, preparations are being made to work them. It is probable that another year will not have passed over before they will have been thoroughly tested. Iron works have been started in several different places, and at one point on the Lower St. Lawrence the iron sand is manufactured by means of peat—another economical material of which, when our forests begin to give out in the older settlements, we are just beginning to discover the uses and the value—which is found close by. From Marmora large quantities of iron are sent by rail to Cobourg for shipment; and new iron works have recently been established, in the township of Hull, near Ottawa.—A new process of separating copper ore from the rock has recently been put into operation, in England; and it will not be long before it is applied in Canada. By the old method of extracting the ores, it was necessary to have ten per cents. of copper in the rock before it could be worked; and if there was only half that quantity, the difference had to be added. By the new method, rock bearing only two per cent., or perhaps less, can be worked without any addition of copper.

At present, mining activity is directed chiefly to the Gold field of Madoc. Our Ontario gold fields differ in character from those of many other countries, in the absence of alluvial washings. The gold has to be obtained by actual mining. In every gold bearing country, it must come to this at last; but here the work had to be commenced in this way at first. Here an individual miner, with his shovel and his pan, could do nothing. Associated capital is necessary for the development of our gold fields. The blasting and crushing of the gold-bearing rock form the only permanent mode of mining, in any country. The washings of soil and in river beds soon give out, every where. In all countries celebrated for their production of gold, quartz-mining is now the main and almost the only reliance.

There are not wanting good judges who assert that our gold fields are as rich as those of any other country; of California, Australia, Nevada. But we are a sceptical people and take nothing on trust. Till the result of the crushing of rock from several shafts, in Madoc, was known, prudent people suspended their judgments. Assays of small portions of rock are valuable as indications of its probable richness; and they are conclusive as to the presence of gold; but it is dangerous to strike averages from a few isolated assays. When only a few ounces or a few pounds of rock are pulverized and assayed, it is impossible to be certain that of a ton of rock other portions would not be richer or poorer. The only reliable test is to crush enough rock to establish its average richness per ton; though assays frequently repeated form a pretty certain guide. Rock has recently been crushed in quantity, by a stamping mill, at three different points; two of which are very near together and are both on what is known as the Moore farm. The crushing of rock from the Richardson mine—said to comprise three qualities—has yielded an average of $138 to the ton.—This is a prodigious yield; there is probably no mine in Australia now yielding at this rate. About one-sixth of this amount is there accounted a good yield. The El Dorado which joins the Richardson Mine, yielded $53.88 a ton. The rock of the Madoc Company produced at $14 a ton, and even this average would pay well after the company got a mill erected.

These first trials in crushing rock in the Madoc region were made only last week; and they establish the fact that gold exists there in paying quantities. When a profitable lode, such as that of the Richardson mine is struck, it is surprising, judging from the experience of other countries, to what an extent it is capable of being developed. We have before us the Annual Report of the State Mineralogist of Nevada for 1866; and from it we find that on one

INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

lode—the Comstock lode—no less than forty-seven claims were established, varying from as little as ten to two thousand feet in length. Eleven of these claims yielded, in 1866, not less than $11,501,741, or more than a million dollars each. It is surprising from what a small area large amounts were often yielded. Here are a few instances:—

Name of mine.	Length of claim in feet.	Bullion produced in '66.
Yellow Jacket	934	$3,810,000
Savage	771	1,856,880
Gould & Curry	1,300	1,605,258
Imperial	118	910,287
Chollar Potosi	1,434	848,720
Empire	20	486,778
Ophir	1,200	450,000
Crown Point	550	1,913,359
Hale & Norcross	400	1,139,768

These mines were all on the same lode: and their small extent and great production show that, when a good lode is struck, that is the place to work, and will suffice to yield immense returns.

One of the mines—the Gould & Curry—with 1,200 feet length of claim yielded in less than six and-a-half years—from June 27, 1860 to Nov. 30, 1866—no less than $13,628,871 15; or an average of over two millions a year. This result was obtained from a rock that yielded, for the year, an average of $59.02 to the ton. None of the other mines in the above list yielded so high an average. The Hale & Norcross yielded $46. 65; the Savage $44.14; Crown Point $38.15; Empire $24.69; and the Ophir $42.50 to the ton. These averages show that from a rock as rich as the Eldorado, to say nothing of the Richardson mine, immense results may be obtained.

It would be difficult to estimate the effects on the prosperity of this country if our gold-fields should realize the favorable prognostications of those who best understand the matter from their long acquaintance with gold-mining elsewhere. There is no doubt that the early development and exceptional wealth of California are due to her gold mines. But for these mines, that fine State would have been little better than a wilderness to-day. Her gold has enabled her to maintain, alone among the States, unless it be Nevada, gold basis for the currency. In fact greenbacks do not circulate there at all; and the value of everything is measured in gold. The wonderful prosperity and attractiveness of Australia are traceable to the same source.—There a population equal to one-third that of Ontario and Quebec, have been able to raise nearly five times as much revenue as we have. Australia has for years robbed us of the best class of English emigrants; men of means, energy and education. No doubt the milder climate had something to do with it; but the chances of making a considerable fortune in a reasonable time, was the strongest motive.

The Boston *Transcript* wishes to know what history will say of the party that carried the Republic safely through a civil war, and then lost its influence on the country by trying to regulate the sale of cider and lager beer.

W. A. Thomson, Esq., President of the Erie and Niagara Railway Company, has obtained the support of the County Council of Elgin, to his application to Parliament, to enable this company to extend their line through the lake shore counties to the Detroit River. The enterprise meets with universal approbation.

MENE AND MINNIE.—An old Dutch farmer in Canada had a handsome daughter named Minnie, whom he suspected of being rather attached to a spruce young clergyman, and did not like it. He went to church one night, and seated himself unobservedly among the congregation. The minister, who was preaching from Daniel, 5th chapter, 25th verse, repeated in a loud voice the words of his text. "Mene, mene, tekel, upharsin;" upon which the old farmer sprang to his feet, seized the affrighted girl by the arm, and hurried her out of the meeting-house. Having reached home he gave vent to his feelings in the words, "I knows dere was something wrong; and now I schwares to 'em."—"Why, father, what do you mean?" replied the bewildered and innocent girl.—"Didn't I!" shouted the old man, striking his fists together and stamping with his foot; "didn't I hear the parson call out to you, 'Minnie, Minnie, tickle de parson!"

One day, at Ballarat, a man rushed to the police magistrate, his face livid, and speechless with excitement, so that the magistrate began to think he had just committed or witnessed a murder. At last he found words to express himself. He had come upon a nugget so big he could scarcely carry it, and dared not bring it alone.—Two or three of the police went back with him to help him, and he brought it in triumph, followed by a procession of diggers. And indeed it was a nugget. It was about as big as a leg of mutton, and much the same shape, white lumps of quartz sticking to it like so much fat. It weighed a hundred and thirty-five pounds, and he was offered £5,000 for it on the spot. He refused to sell it, and took it home to England to exhibit it, but it proved to be a nugget of expensive habits, and at last was sold to pay for its keep and lodging, and the finder ended, as so many finders of nuggets ended, in poverty and wretchedness, and even madness.

—Capt. Mayne Reid says that he has come to America for a higher purpose than to exhibit himself as a literary showman. Probably not at all jealous of Dickens.

—General Sickles has been mustered out of the volunteer service as Major General, by order of the President. He retains his rank in the regular service of Colonel of the 44th infantry.

—"Vitals cooked here," is the appalling announcement placarded in the window of a New York eating house. Upon this a terrible wag remarks: "That is probably where the good livers go."

Daily Intelligencer.

BELLEVILLE, THURSDAY, NOV. 21.

☞SEE FOURTH PAGE.

TOWN COUNCIL.—A report of the proceedings of the Town Council last evening is crowded out.

THE COMMERCIAL BANK.—A telegram from Ottawa says the Commercial Bank is rapidly liquidating its liabilities. About a million and a half has already been discharged, and the prospect of the resumption of business by the bank is promising.

THE ALLEGED SINKING OF TORTOLA.—A despatch from Havana, Nov. 18, says: "Neither the British Consul, nor any other party here, has received any particulars of the alleged sinking of the island of Tortola, and drowning of 10,000 inhabitants. There are only rumors of a serious disaster by the hurricane of the 29th October, but no definite facts, and the reports are evidently greatly exaggerated." The editor of the New York *Tribune* has seen a letter from Tortola, written on the 1st inst., making brief reference to the hurricane which swept over the island on the 29th of October, but it makes no mention of any general loss of life. The writer states, however, that the family of Sinclair Bryant, resident magistrate at Roadtown—as the settlement at the harbor is called—were drowned, and also that during the storm a tearful fire broke out, which destroyed many houses.

EL DORADO MINING CO.—Elsewhere appears the prospectus of the El Dorado Mining Co., which has decided to put a portion of its shares in the market. With the result of the late test made at the mine, it is not likely the shares will be long unsold. One has only to look at the great yield of gold from a small area, in the mines of Nevada, none of which exceed the El Dorado in value per ton, to form an idea of the immense profits which must be obtained at the El Dorado. Probably no other Mining Co. commences operations with better prospects, and there can be no doubt that, under good management, the El Dorado will be one of the best paying in the gold district. Wm. Kerstemman, Esq., formerly of Belleville, has the stocking of the mine in Toronto, and it could not be in better hands.

CAPT. BRIDGEWATER'S LECTURE.—Capt. Bridgewater's lecture in Neilson's Hall last evening, under the patronage of Col. Campbell and the 15th Battalion, was (considering the weather), well attended. The Captain spoke for about two hours, and judging from the repeated applause of the audience his remarks were fully endorsed. He spoke of the many difficulties which existed in the formation and carrying out of the volunteer system—and of the energy and well directed efforts of the Adjutant-General to give to this Dominion a military character—exhorted the volunteers to duty and diligence in the high and honorable profession they had entered upon, and urged upon the people to encourage those brave men who had, at a great sacrifice, defended them during the hour of danger, and who, if properly drilled and equipped, would form a most efficient defence (as far as land forces are concerned) to this Dominion. He concluded by thanking the chairman, Col. Campbell, and officers of the 15th, 49th and Grand Trunk Volunteers, for the kind interest taken in his lecture. The lecture was excellent in every respect, and fully sustained the many favorable reports made of it. Capt. Bridgewater deserves well at the hands of the public, and we hope to hear of him being liberally patronized elsewhere.

CORRUPTION IN NEW YORK.—The New York *Citizen*, whose editor (Miles O'Rielly) is a Democrat, makes the following revelation of the manner in which the Democratic vote was piled up in New York, during the recent election. "It is notorious, also that with the enormous money power placed under its control there was an enormous illegal or 'repeating' vote organized and registered in the Tammany interest—say not less than from 17,000 to 20,000 fraudulent votes—of which not less than from 10,000 to 12,000 reached the ballot box in favor of the Tammany candidate, the remainder being either scared off by the activity and early arrests of the police, or being unable, from sheer lack of time between sunrise and sunset, to vote in as many election districts as they were registered in—one case having been trustworthily reported to us of a man who was registered in no less than fifty-three election districts!"

Our Mineral Resources.

In another part of to day's paper will be found an excellent article on the "Mineral Resources of Canada" from the Toronto *Leader*. The leading papers of the Dominion have been a long time making up their minds as to the existence of gold, or in fact of any minerals of value in this section of the country. In fact, from the first, they have exhibited a remarkable want of faith in the reports which went from the Hastings Gold District, and were more inclined to throw cold water upon the efforts of enterprising capitalists than to give them the slightest encouragement. Probably they took their cue from certain professional geologists, who always gave a grave shake of the head when gold was mentioned in connection with the Hastings Mineral Region, and endeavored to impress upon the public the necessity of guarding against quackery, impostors, and humbug generally. It is well to be cautious, but there is such a thing as displaying too much caution. It was not merely an exhibition of too much caution, but there was an evident disposition to disbelieve all reports, however well grounded, and to create in the public mind general distrust and doubt. These doubts and this distrust have happily been dissipated, and geologists have been forced to accept the truth which the practical miner has disclosed, and those newspapers which laughed at the reports of Gold discoveries, are reluctantly compelled to acknowledge their error. It's never too late to mend, and we are glad, though it be the eleventh hour, that there is a disposition on the part of the *Leader* and other papers, to do justice to the Hastings Gold District.

The House Yesterday.

In the Senate yesterday, Senator Campbell announced that the Government proposed to establish mail communication between Canada and the West Indies, and to ask for a subsidy from Parliament.

In the House of Commons, the Bill to disqualify members of Local Legislatures to be members of the Senate or Commons, was introduced. During the discussion Mr. Holton raised the question of which he had given notice, whether members of the local Cabinets are not disqualified by the independence of Parliament from sitting in the House of Commons. A lengthy debate took place, which was postponed until to-day. The measures which will be introduced and carried at this session are: The Post Office Bill; the Intercolonial Railway Bill; Tariff and Excise Laws; Customs Regulation Act; Excise Regulation Act; *Habeas Corpus* Suspension Act; Supply Bill.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 20th, 1867.

I have neglected heretofore to call the attention of your readers to an important, though in many respects an amusing debate, which took place one day last week, upon an address to His Excellency being moved by Dr. Parker, for all papers, correspondence and documents connected with the conferring of the titles of K. C. B. and C. B. upon certain members of the House. This question gave ample scope for sympathy and denunciation; sympathy for Mr. Cartier, for not having conferred upon him the same title that was bestowed upon Mr. John A. McDonald. But, during the whole debate no explanation was given, nor reason advanced why a distinction was made.—Sir John A. McDonald resisted the motion on the ground that it was exclusively an Imperial question, over which the House had no control, that if the motion was passed it would have to be sent to His Excellency, who in return would in all probability tell them that they would have to apply to the Colonial Secretary, or some member of the Privy Council, for permission to lay any such documents before the House. He also took occasion to regret that Mr. Cartier had not received a like honor with himself, a distinction which he had earned, and to which he was justly entitled. The amusing part of the discussion was that which was carried on by the representatives of the Grit party, even Mr. McKenzie, of Lambton, "deeply sympathized" with Mr. Cartier, and in the most solemn manner possible declared that he, Mr. Cartier, had done more towards bringing about Confederation than any other man in Canada, and that Upper Canada was indebted to him for these services, and it was deeply to be regretted that he did not receive a like honor to that conferred upon Mr. McDonald. This declaration, from such a man, created no little amusement, and a general laugh was the result. The man, of all others, who has been so foully libelled and held up to public execration by the McKenzies of Upper Canada, to be taken up and dangled about like a doll, was too ludicrous, even for grave law makers.—The object of all this laudation was too transparent to humbug any one. It was well known that this question was a sore one for Mr. Cartier and his countrymen, and it was thought a good opportunity to throw a fire-brand into the Privy Council which would set it a blaze, but it signally failed, and though the Minister of Militia may have felt flattered at the compliments paid him by those who have for years been denouncing him, he did not fail to see the object which his flatterers and adulators for the time being had, and though he remained quiet it was quite evident he appreciated the hollowness of the pretended friendship of his former traducers, and treated them accordingly.

The most important event, if such it may be termed was the position assumed, by Mr. Holton, who declared that the offering of a C. B. to the Hon. Mr. Cartier, who had done so much as a public man for Lower Canada was a disgrace and an insult, and unworthy the acceptance of any man who could command a single constituency. He must have forgotten the many illustrious names who have thankfully received the honor for services civil and military. The present Lieut.-Governor of Ontario, Gen. Stisted, is but a C. B., and a number of others might be enumerated equally illustrious in the annals of the history of our country, who have had conferred upon them the honor of C. B., and did not think the offer an insult, nor the acceptance a degradation? The honor is not one that is conferred upon every person, and only those who have performed some signal service for their country receive the honor. It is useless to deny the fact which is made apparent every day, both in the House and out of it, that a certain class of politicians from the Maritime Provinces, as well as from Quebec and Ontario, have a lingering desire for Republicanism, or at least an assimilation of our institutions to those of our neighbors across the line. Few they may be, still the feeling is there, and will "crop out" when least expected.

Yesterday when the House met, petitions were presented against the return of Mr. Godin, for Jolicite; the Hon. John C. Abbott, for Argenteuil; Mr. Geudron, for Bagot; Mr. Cimon, for Charlevoix; Hon. G. E. Cartier, for Montreal East; Mr. Fortier, for Yamaska; Mr. Geoffroin, for Vercheres; Mr. Pouliot, for L'Islet; Hon. A. A. Dorion, for Hochelaga; Mr. Paquet, for Bertnier; Mr. Huot, for Quebec East. It is a remarkable fact, that but one petition has been presented against the return of members from Ontario, and that came from the County of Essex, which has obtained the reputation of always being contested. A very nice point will be raised in this contest, as to what constitutes a British subject.

The rest of the evening was occupied in discussing the question of members indemnity. There was as usual an indefinite amount of virtuous talking, but it stopped at that, without one of them putting their views upon paper so as to test the views of the House.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Nov. 19.—Experienced engineers have laid out, and the Pontifical troops are actively engaged in building, substantial works of defence at all the approaches to Rome, and these fortifications are rapidly approaching completion.

MADRID, Nov. 19.—Julian Pavala has been appointed Governor of Porto Rico.

LONDON, Nov. 19.—Parliament opened to-day. The Queen was not present, and a Royal Commission read the speech from the throne, in substance as follows: King Theodorus having rejected all the demands of Great Britain for the release of Her Majesty's subjects, cruelly and without just cause imprisoned by him, Her Majesty had no alternative but to send a military expedition to Abyssinia, and reference is made to the Supply Bills needful to defray the expenses of the war. The invasion of the Papal territory is now over. The hope is expressed that Napoleon will soon withdraw his forces from Italy, and avoid unfriendly relations with Victor Emmanuel. Fenianism, repressed in Ireland, has taken the form of organized violence and murder in England, where it must also be suppressed by the firm fulfilment of the law and by the loyalty of the people. The speech concludes with the promise that Her Majesty's Government will bring before Parliament Reform Bills for Scotland and Ireland, and other important measures of a domestic character.

In the House of Commons the address to the Queen was moved by Sir Wm. Hart Dyke, member for West Kent, and seconded by Col James Hogg, member for Bath.

The address in the House of Lords was proposed by the Earl Brownlow, and seconded by Lord Hylton. Both addresses echo the speech of the Queen.

In the House of Commons this evening, Lord Stanley made some explanations in connection with recent events on the Continent. He said England had been invited to join a general European conference, but had refused to do so, unless a distinct plan of action was first proposed. Lord Stanley thought that participation in such Congress would only add to the responsibilities of England, without doing any good.

Nearly all the members who spoke took occasion, in the course of their remarks, to condemn the recent action of France in sending a military expedition to Italy.

LONDON, Nov. 20.—The Queen's speech to Parliament and the pacific address of Napoleon to the French Chambers have had a tranquillizing effect upon Europe, and tend to restore confidence at all the principal political and financial centres.

MANCHESTER, Nov. 20.—As the day for the execution of the Fenians approaches, the Government redoubles its precautions against any outbreak or attempt at a rescue. Regular troops have been pouring in here by railroad for two or three days past, and the city is now crowded with soldiers.

In addition to the large military force here, the municipal authorities have provided for the security of the peace by swearing in over 2,000 citizens as special policemen.

LONDON, Nov. 20, eve.—No official information of the reported calamity at Tortola has been received at the Colonial Office. The story of the disappearance of the island beneath the sea is doubtless a great canard.

A despatch from Constantinople says that the Sultan is seriously ill.

PARIS, Nov. 20, eve.—It is reported that the American Minister, General Dix, has proposed to Napoleon that the United States be represented in the proposed general conference, and that the Emperor approves of their admission into the Congress as one of the great powers.

FLORENCE, Nov. 20.—The Bank of Italy is about to issue notes of the denomination of one franc each, to supply the deficiency in the small metallic currency.

The speech of the Emperor Napoleon at the opening of the French Chambers had a good effect here. It pleases the Italians, who believe that the ultimate gratification of the wishes of Italy is implied in the words of the Emperor, if not actually promised.

American Despatches.

CHICAGO, Nov. 20.—The prize fight between Duffy and Bussy, for $1,000 a side, came off this afternoon. About 2,000 persons witnessed the fight. 135 rounds were fought in 1 hour and 42 minutes. Bussy was the winner.

PHILADELPHIA, Nov. 20.—An attempt was made to open Ridge Colliery to-day, resulting in an explosion in which three men were killed and two badly wounded.

Business Notice.

Have you been to the Club House? If not, go, where you will find all the luxuries of the season, such as Fresh Oysters, Venison, Partridges, Chickens, Ducks, Quails, Turkeys, &c. A Free Lunch will be set in the Bar-room every day at 11 o'clock. For good eating, good drinking, good billiards and good attention, go to the Club House.

—Tubes are laid across the bed of the Allegheny river for petroleum.

—Two cases of trichina resulted fatally in St. Louis recently.

—The Fenian State Convention in California has unanimously endorsed William R. Roberts and his plans for the redemption of Ireland.

—A fair female, who enters the lion's den in pink tights and there Van Amburghs in the most thrilling manner, is a novelty in a circus now travelling in the South.

—The Bostonians have got Dickens on the brain. The sale of tickets to Dickens' readings created a great sensation, and after 8,000 were sold, hundreds went away disappointed. The sale commenced at sunrise, and the police force had great difficulty in preserving order.

—The Goderich *Star* says that there are immense beds of peat in the townships of Hullet, Turnberry, Wawanosh, McKillop, Hay and Stanley, varying from five feet in depth upwards. In one part of McKillop it is fully fifty feet in depth. The extent of land occupied by these beds is fully 5,000 acres.

Stocks active.
Sterling 109¾.
Gold closed at 139¾.

The *Post* says loans are active, but scarcely so stringent as for the last day or two. Governments dull and very little doing.

SPECIAL NOTICE.
R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick, or great may be their sufferings—a few hours in the worst case—and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION. I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Her stock consists in part of Bonnets, Ribbons, Flowers, Feathers, Velvets, Velvet Felt, and Waterproof Hats, Cloak and Dress Trimmings, Buttons, Collars, Cuffs, Laces, Lace Handkerchiefs, the latest style of French Corsets, Hoop Skirts, Woolen Scarfs, Woolen Hoods, Gloves, Dress Capes, &c.

Felt and Straw made over in the latest styles.

Hats, Bonnets, Cloaks, Dresses, &c., made up in the most fashionable manner, and on the shortest notice.

Belleville, Nov. 20, 1867. 172-tf 40tf

TO THOSE LOOKING FOR
MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Lesses to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address
GEO. D. WYCKOFF,
LESSEE,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF'S Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.
Madoc, November 19, 1867. 172tf

THREE REASONS

Why you should buy your Clothing from

J. MUIR & CO.

First:

You select from the largest stock in Belleville.

Second:

The stock is all perfectly new, and is made and trimmed in the very latest English and American styles. We defy ordered work to beat it.

Third:

We buy for cash, and can therefore offer special inducements. Call and see.

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - - - - - $72,000.

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of [illegible] acres of land, being part of the Moore Farm, and a portion of the North-east quarter [illegible] 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about [illegible] tons of ore already mined. The owners of the property have had [illegible] of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Toronto, November 20th, 1867. 173tf

PROSPECTUS OF
THE WELLINGTON GOLD MINING COMPANY
OF MADOC: Limited.

To be Incorporated by Letters Patent, under the Provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments Thereto.

Capital Stock $200,000, divided into 40,000 Shares of $5 each.

Of which $100,000 is reserved for working capital.

DIRECTORS:

The HON. JOHN CARLING, M.P. JOHN CRAWFORD, Esq., Q. C., M. P.
ADAM CROOKS, Esq., Q. C. THOMAS LAILEY, Esq., Merchant.
A. M. SMITH, ESQ., President of the Royal Canadian Bank.

Manager and Superintendent—HUGH R. FLETCHER, Mining Engineer.
Secretary and Treasurer—H. S. LEDYARD.
Solicitors—Messrs. McMURRAY & RAE.
Bankers—THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot number eighteen in the fifth concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situate upon the West end of the Richardson Hill, and a continuation of the Quartz Lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 890 feet along this lead.

Another Quartz Lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the ElDorado, the Moore Mine, the Royal Canadian and Kootaney Mines, and the property is bounded on the East side by the Richardson Farm and the territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of Copper ore, than at the Richardson; and as this property is situate upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of The Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively $36 and $62 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Lawyer, of Madoc, returned $22 of Gold and Silver to the ton, and as these assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

ONE DOLLAR per Share to be payable on application, and the remaining $4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock, and other communications to be addressed to the Secretary,

H. S. LEDYARD,
74 *Yonge Street, Toronto.*

BILL HEADS.

AND all other kinds of JOB PRINTING, executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

Walking is likely to rage now that Weston is on his great walk West. If people generally walked more, and rode a great deal less, we should see better muscle and purer blood in all communities. Five miles a day would cure many an ailing person in this town, where five hogheads of medicine would do no good whatever.

THE DELIGHTS OF A DAILY PAPER.—The editor of the Albany "Commercial" apologizing for the slimness of his new columns, which he solemnly lays to the failure of the "gas, mail and telegraph" says: "A belief has grown up that in daily newspapers that eternal beatitude awaits the faithful printer and publisher, when having closed his last form, he passes over the dark waters that roll between time and eternity. The belief is founded on the fact that an editor that works faithfully at his profession in this world sees and feels enough of hell to last him for all eternity. We solemnly subscribe to the doctrine. The great laws of compensation that pervade all nature sustain it. Cheered and soothed by this faith we plod along, to bear the stings and arrows of outrageous fortune, in the certain hope of a final rest in that comfortable country where slow gas factories, lazy mail agents, extortionate telegraph companies, libel suits and short dressed women are unknown.

THE COTTON CROP OF AMERICA.—The New York *Tribune* says:—An ex-Major-General in our armies, and present cotton planter of Georgia, resident in Ohio, writes us that the cotton crop of the South, instead of being worth 21 cents per pound to the producer, as estimated in our article on the "Cotton Crop and Tax," has been worth only 12½ cents per pound, while it has cost to raise it from 13 to 18 cents; "so that beyond question cotton-growing at present prices is a losing business." He avers that one-third of the cotton raised in the South is grown by Northern men and freedmen, and that the decline in the price of the staple requires a repeal of the tax. He denies that America has a monopoly of the kind and quality of cotton produced at the South, and therefore that the tax falls on the consumer. He alleges, finally, that the tax must be repealed, or that the production of cotton in the South must cease. It is a question which will address itself to the judicious consideration of Congress.

A STITCH IN TIME.—Let us suggest that many places which have been unused to fire since last winter, will require looking to, as a prevention against accidents by fire. There may be cracked chimneys, with studding or cross pieces let into them, which need overhauling. Unused stove pipe holes should be closed with tin or sheet-iron stoppers, and the stove pipe which enters a wall or flue should be secured with zinc flangs. Sell old stoves for old iorn. All stoves should be set firmly on their legs, and zinc or sheet-iron should be placed under them. Stoves should not stand nearer than two feet to any wooden material or plastered lath, and any permanent wood work near a stove should be protected with zinc. Stove-pipes should be put together securely, and never be put through wood work or plastering, unless well secured with earthen pipe. Use those lamps only which are protected by glass chimneys, and have them trimmed and filled by daylight only. Matches should be kept in metallic boxes, and never be permitted to be scattered around loose within reach of children and mice. Put no ashes in wooden boxes. Ashes should be kept in a safe place out of doors, or in a metalic or stone vessel, or taken away from the house. Very few of our householders have ladders where they can be immediately procured in case of fire. If these hints suggest other precautions, and awaken our citizens to give more attention to these matters, it may save some lives and prevent much destruction of property by fire.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

INTELLIGENCER BUILDING, Publisher
Front treet, Belleville.

Daily Intelligencer.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, NOVEMBER 22, 1867. No. 174.

(For the Intelligencer.)

The Commercial Bank of Canada.

At the time of the year, when the leaves are falling fast to the ground, when the days are shortening and the nights are lengthening, and the weather becomes cold, damp, and uncomfortable, it generally happens that some crisis or stormy period or some description broods over the financial and commercial world. This fall we have also the fall of the Commercial Bank of Canada. The Bank did not fall by chance or accident, or by any fatality inherent in banking institutions, but simply by reckless and improper management, or by misappropriation of the funds of the institution.

It is all very well to blame Mr. King and the Bank of Montreal, and to write sensational articles or letters in the newspapers against them, because they did not advance one million dollars of their proprietors, capital, to sustain another bank on the eve of suspension, or by bankruptcy, and with no other security than "Detroit and Milwaukee Railway Bonds," payable (it is said) fifteen years hence, or in all probability, never to be paid at all. If the $1,800,000 invested, or rather thrown away, in these worthless bonds, had been in the coffers of the bank, no run would have been made upon it, no need would have existed for humiliating applications to other banks for assistance, and the bank would now have been in possession of sufficient funds for all legitimate business of any kind whatever. Ought not the public to be informed *how* and *why*, and *through whom* all this money was advanced to a foreign railway speculation, and that too, in a country notorious for repudiation, and for personal and corporate fraud and dishonesty of every description. How was it, that nearly half of the shareholder's capital, all of which was imperatively necessary to sustain the character and credit of the bank, and to furnish facilities for carrying on the trade of the whole Province, and locked up or sacrificed in a manner which sets at defiance, not only all considerations of honor and prudence, but all considerations of common sense and common honesty?

The history of the Commercial Bank, until its entry into those negotiations with other banks which immediately preceded its suspension, is just the course of nearly all other Joint Stock Banks which have in long and sad succession run the same career, to be at length wrecked in the same manner. The last financial statement issued by the Bank made itself out to be in the possession of $9,000,000 of assets against $5,000,000 of liabilities. Now this statement, or balance sheet, if correct, or if the assets were really worth 100 cents to the dollar, left the Bank with amply sufficient funds to meet its own liabilities, and at the same time to sustain its own share of the financial business of the country.

Depositors showed their faith in the Bank to the extent of $6,000,000, and all this came in as additional to the proprietors' capital, and then the Bank's over issue of its own notes or bills to a very large amount was in circulation throughout the whole extent of the Province, until the Bank discredited itself so as to cause a run for gold, &c., which the Bank could not sustain even for a few days. This run upon them was not extensive or general, but only very partial. The merchants did not discredit the Bank, but continued to make their deposits until the very evening before the morning when its doors were closed against them. It is wonderful how all Joint Stock Banks can show such a very favorable balance sheet up to the very last moment, and when the crash comes at last, it is then evident that there has been "something rotten in the state of Denmark" for a very long period. The fact is, that all bad and doubtful debts, and all "securities" (as they are ironically termed) of any or every kind, are estimated at so much capital, or as a part of the funds actually stated to be on hand.

The Detroit and Milwaukee Bonds amounting to $1,800,000, are now estimated by the bank at only half that amount, and the debts due from Directors and others, will now become depreciated in a similar manner. With regard to a revival of the bank, or its amalgamation, this is now very doubtful, for the character and standing of the bank is gone, its reputation blighted, and its funds wasted, lost, or thrown away. The life of a bank, or the very air that it breathes in, is its own standing in public opinion, its profits depend upon its own credit, or upon what is thought and said about it out of doors, but when all this becomes doubtful or disputed, together with such a wholesale sacrifice of capital (as in this instance), then "the beginning of the end" may indeed be said to be very near. The heaviest shareholders ought, as much as possible, to be the Directors, but in the case of the Commercial Bank, the very contrary seems to have been the practice, according to the statements which have been published in the newspapers. If "Cæsar's wife must not even be suspected."

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

ed," the same may be said of all banking institutions, and when they are so, there is generally some prevailing cause adequate to produce such a suspicion. Mr. King may have been arbitrary or unfeeling, or he may have acted from his own convictions of interest or duty in his late conduct, but why was the Commercial Bank so much in his power—that was not his fault surely; and how could they expect him to prefer to sustain them in preference to his own company, out of his own capital. Such expectation is unreasonable, as self interest is the rule upon which all mortal business is conducted, banking business also included. There is no doubt, that if the bank at Kingston, and all the other branches of the Commercial Bank, had been conducted with the same caution, or the same ability, as the branch at Belleville has been conducted for the past ten years, the Commercial Bank of Canada would have been second to none of them, except, probably, the Bank of Montreal and the Bank of British North America.

With regard to the Bank of Montreal, the public ought to be aware, and the other banks especially, ought to be aware, that the fact of being supported by the government, and having the power to issue an irredeemable issue to almost any amount, puts them into a position to dictate the law to all the other banks, without fear of retaliation. One would naturally suppose that the Government Bank, and the Government itself, would consider it to be its interest and duty to come to the assistance of the old chartered banks when suffering under a temporary pressure, or a run upon them for a short period, so as to avoid throwing the trade of the Province into confusion, or to prevent the serious loss to be sustained by the whole community, when our banking institutions are, as it were, upon their trial.

As to the widows and orphans, and others, whose funds were invested in Commercial Bank stock, they are much to be pitied indeed, and if it were possible (on their account) to re-instate the Bank into its former position, and put it under new and better management in future, the whole Province would be very glad to do so. But how is this to be brought about? Supposing even, that a call were made upon all the shareholders for a sufficient amount to make good all recent losses, and to go on again with the same actual paid up capital as before, would such a call be generally responded to? There seems to be a fatality about all joint stock banks to lend money in immense sums without adequate security to corporations and individuals, who turn out to be worthless and bankrupt, both morally and financially. Private banks do not do so, and why? Because it is their own money they have to lend instead of lending the money of other people. The inference is obvious. It is very sad, but it is sadly true. What can have induced the Manager, or the Directors of the Commercial Bank to advance money (which did not belong to them, but which they held in trust on behalf of the proprietors,) in millions, to a set of Yankee railroad speculators of the most doubtful character? Was it the inducement of a higher rate of interest upon the loan, or what? Probably the secret history of this transaction will never be known to the world in general. Why did this particular railroad apply to the Commercial Bank in particular, for this small loan? We may suppose that the Manager received a letter from the Secretary or Treasurer of the railroad, making his application, and offering Bonds in exchange for this vast amount of Canadian money, and that such letter was read at the next Directors' meeting, and advised and recommended as a splendid financial operation, &c., and was sanctioned by the collective wisdom of the Board. And why did not the railroad apply to banks on the other side of the frontier, for this money? Or is it the business of joint stock banks at all, to make advances out of their own district, to speculations which require the advance of such a vast amount of capital, all depending for success upon future and doubtful contingencies.

Certainly a Local Bank is greatly needed for Belleville and the County of Hastings, with a million dollars capital, to sustain the trade of the County and the district generally, and containing a very stringent regulation in their charter, that no money be advanced under any circumstances, to speculators in foreign countries, but that all transactions be limited to British subjects, being under British law, and having the security of Canadian enterprise or capital. This is most desirable, and capitalists all over the Province would have the opportunity of subscribing liberally towards the capital stock.

The Bank King giving them his permission.

* * *

Marmora, Nov. 19, 1867.

—Dr. O. W. Wright, of Indiana, who obtained a divorce because his wife was subject to epilepsy, has married again and adopted his first wife as his daughter.

—It is said that Mr. Hutchison, well known in Halifax in connection with the Nova Scotia Directory, has refused one million of dollars for his Antimony Mine in Prince Edward county New Brunswick, in which a very valuable vein of silver has recently been discovered.

The efficacy of Bryan's Pulmonic Wafers in curing Coughs, Colds, and all Bronchial affections, and cheering the afflicted, has passed into a proverb. In the United States where these marvellous Wafers are known, they bear down all opposition and eclipse all rivalry; the demand for them has steadily increased for the last twenty years, until now the sales average over one hundred thousand boxes a year. Eminent members of the medical profession without number admit that they know of no preparation producing such beneficial results as these wafers. When taken in season they effect a permanent cure. Sold by every druggist and most of the respectable stores throughout the Province, at 25 cents per box.

COMMERCIAL BANK BILLS.

COMMERCIAL BANK BILLS taken in payment for subscriptions and notes due for THE INTELLIGENCER, AT PAR, until the 1st of December, 1867.

BELLEVILLE, FRIDAY, NOV. 22.

☞SEE FOURTH PAGE.

TRADE OF QUEBEC.—The number of vessels that arrived from sea till November 14, were 832 this year and 1023 last year, 201 less. The number from the Lower Provinces was 237 and 211 last year, an increase of 26 vessels, and 6,719 tons. Exactly the same number of ocean steamers arrived as last year.

MOVEMENTS OF TROOPS.—The two Companies of the Rifle Brigade which the Quebec papers reported as having left that city for Belleville on Tuesday, passed West on Wednesday night. The three Companies remaining in Quebec are destined for Belleville, but they will not leave Quebec for some days yet. It will take fully a week to complete the barracks and have them ready for occupation, and until the buildings are ready and have been accepted by the military authorities, the troops will not leave their present quarters.

THE BLACK CROOK.—Ontario Hall was filled to overflowing last evening to witness the performance of that celebrated spectacle Black Crook. The piece was put upon the stage in a manner which did credit to the management. The scenic effects surpassed anything of the kind ever produced here. Mdlle. Victoria and Mdlle. Warner are finished danseuses, and were repeatedly encored. Miss Nugent played the part of the Queen with a great deal of grace. Mr. Coles, in the character of Schnapps, did admirably, and kept the house in a perfect roar of laughter. Indeed, as a comedian, Mr. Coles will rank among the first in the land. Mr. Nugent is an excellent actor; in fact, everything passed off in a highly satisfactory manner. To-night the Black Crook will be repeated for the last time. To-morrow is the last appearance of the company, when Mr. Coles will appear in two separate pieces. We trust that the Manager will visit us again soon.

TWO MONTHS FOR NOTHING.—LOOK AT THIS OFFER.—We have received the *American Agriculturist* for October. We wish all our friends could see this paper. We know of no way in which so large an amount of truly valuable, interesting and instructive reading matter could be given to a family at so small a price as the subscription to the *Agriculturist*. Each number contains 32 to 40 large quarto pages, and 30 to 50 fine engravings, many of them very costly and beautiful. Here, in this October number, we find, in addition to the great amount of valuable information, hints, suggestions, etc., more than 30 engravings, several of which are among the most expensive ever found in an illustrated journal. This number is of itself really worth a year's subscription. The cost of the *American Agriculturist* is only $1 50 a year in advance, or four copies for $5. The publishers offer that valuable journal free for the remaining two months of this year to all new subscribers for 1868 (Vol 27) who send in their subscription during the month of October. We advise all our readers to secure it on these terms. It will be sure to benefit all fathers and mothers, and interest and instruct the children. Subscriptions should be sent to the publishers, Orange Judd & Co., 245 Broadway, New York City.

The House Yesterday.

In the Senate yesterday, the Government announced that it was not the intention to open up water communication between the St. Lawrence and the Bay of Fundy.—It was also stated, in reply to some questions, that no interest is allowed for monies that may be held by the Bank of Montreal to the credit of the Dominion.

In the Commons the following Bills were introduced: Bill to amend the Act incorporating the Commercial Bank; to settle the affairs of the Upper Canada Bank; and the Grand Trunk amendment Bill. Mr. McDougall laid on the table the report of the Board of Works for 1866.—The question of privilege, raised by Mr. Holton, was disposed of for the present by sending it to the General Committee of Privilege and elections. A large number of enquiries were made, which were answered briefly as follows: Before the Intercolonial Railway is constructed further reports and surveys will have to be made; a measure relating to the law of Patents will be introduced; it was intended to make good any charitable appropriation which had been voted, but the past six months the local Governments would have to provide for. Mr. Anglin wanted to know in filling vacancies in the Senate of New Brunswick, if the claims of the Catholics would be considered. Mr. McDonald gave him the comforting assurance that fit and proper persons would be appointed. It is the intention to render navigation more safe on the Maritime coast of the Dominion; the Government do not intend to issue a new Commission of the Peace for the Dominion; it is not the intention to impose an export duty on sawed lumber, staves, bolts and shingle bolts; the lands in possession of the Indians could not be sold unless they were surrendered by the Indians to the Government.

A lengthy discussion took place upon a motion for an address for the evidence and proceedings taken at the Court of Enquiry on the conduct of Lieutenant-Colonel Dennis at Fort Erie on the 2nd June, 1866. The Minister of Militia said it was not the intention of the Government to allow this address, because it would not conduce to the interests of the country to bring down the evidence asked for at this time.

In introducing the Bill to renew the Act of last session to authorize the apprehension of persons suspected of committing or meditating acts of hostility against Her Majesty's Government, Sir John A. Macdonald said this was a re-enactment of the law passed on the first day of last session, and which continued till the 30th June, 1867, or the end of the ensuing session. It was a law which had been found to be of essential service. The circumstances existing at the present moment were not so threatening as those existing at the time when the law was passed; they were still such, however, as in the opinion of the Government required that it should remain on the statute book. The hazard of invasion was not so great now as it appeared to be at that time, but there could be no doubt that the organization which had threatened us still exists, and the Government had direct evidence of increasing activity on the part of that body. It was beyond a doubt that it was true, as had been stated in the public prints, that there had gone recently a very considerable deposit of arms at convenient points along the frontier for the invasion of what was the former Province of Canada. The Government, therefore, felt it would not be proper to allow Parliament to adjourn without having this law re-enacted. The Fenian body were now pursuing a course of outrage in England; they were also moving in Ireland; they were manifestly a widely extended organization, and the Government should be authorized, if necessary, to arrest parties who might seem to be engaged in any unlawful enterprise against the peace of this country. (Hear, hear.) When the House met again in February, if the circumstances then should warrant such a step, the Act might be at any time repealed.

Town Council.

WEDNESDAY, Nov. 20.

PRESENT—His Worship the Mayor, and Messrs. Holden, Tannahill, Watters, Foster, Sutherland, Jones, Kennedy, and Henderson.

A large number of petitions complaining of over assessment, and a number praying for remission of taxes, were read and referred.

A communication was read from Capt. Geo. James, Secretary of the Board of Health, representing that the labors of the Board had terminated, and congratulating the town upon its escape from contagious diseases during the season, and the general good health which had prevailed.

A return from the Police Magistrate was laid on the table, showing that during the last quarter he had paid the sum of $60 into the County Treasurer's hands, being fees on county cases.

A communication from Captain James, Chief of Police, was read, respecting a newly born infant, which had been placed at the door of Rev. Wm. McLaren some time since Efforts had been made to discover its unnatural mother, but without success. It was now in the keeping of Mrs. Rutherford, who very kindly took charge of it temporarily.

A motion was subsequently passed, made by Mr. Henderson, seconded by Mr. Jones, That the Chief of Police be authorised to have the child left at some suitable place at as reasonable rate as possible, and that he be authorised to offer a reward of $500 for such information as would lead to the apprehension and conviction of the mother of the child.

The Committee on Finance reported, recommending the passing of several accounts, appropriating $600 to the Grammar School Trustees, and directing the Treasurer to pay over to the School Trustees their proportion of the taxes as fast as collected.

The sum of $210 was ordered to be paid the contractor for the engine house, and the balance for extras was left for further consideration. The report was adopted.

The Council went into Committee on By-Laws. Mr. Tannahill in the Chair. Mr. Holden's By-Law to amend the market By-Law, was read a second time. The amendment allows parties in certain parts of the Town when approved of by the market Committee, to sell meat by paying a license of $40 a year. It was opposed by Mr. Henderson, Sutherland, and Watters and supported by Mr. Holden, Jones, Kennedy and the Mayor. After some discussion the second reading was carried by the following vote.

YEAS—Messrs. Holden, Jones, Kennedy, the Mayor, and the Chairman, Mr. Tannahill.

NAYS—Messrs. Sutherland, Foster, Henderson, Watters.

The Committee rose and reported. Mr. Holden moved that the By-Law be read a third time.

It was objected to that no By-Law could be shoved through in one night unless the case was urgent and extraordinary.

Mr. Holden said it was urgent and extraordinary, and asked the Mayor if in his opinion he did not so consider it.

The Mayor said if he asked him to rule if it was urgent, he should say it was not.

Mr. Holden moved for the suspension of the Rules in order that the By-Law might be read a third time.

The Mayor thought that was hardly fair after he had ruled that there was no necessity for shoving it through to-night.

Some discussion took place upon points of order, and Mr. Holden withdrew his motion.

The Mayor read a communication from the Solicitor giving a statement of the Rolls not returned by the Collector, John Kerr. It was desirable that these Rolls should be returned at once.

Mr. Sutherland said that Mr. Kerr promised to have the Rolls returned this week.

The Mayor called the attention of the Council to the fact that Mr. Naphan had been fined for selling liquor without license, and was still violating the law. If the Council did not do anything with Naphan's application, he would give instructions to the Police to-morrow to enforce the law.

Mr. Robertson came in.

Mr. Sutherland said he thought the Council would see the necessity of adopting his License Scheme, and allow his By-Law to pass.

Mr. Tannahill introduced the same resolution he proposed at the last meeting, doing away with the Committee of the Council, and appointing a special Committee to investigate the official conduct of Mr. Grant.

Mr. Sutherland opposed the resolution.—He was quite ready to meet the Council at any time to have this matter investigated, but he could see no use in bringing in such buncombe resolutions as that introduced by Mr. Tannahill, and throwing out insinuations that they wanted to whitewash Mr. Grant.—He and his friends were quite as anxious to have this question investigated as Mr. Tannahill, but they intended to take a proper method to do it.

Mr. Henderson moved in amendment, seconded by Mr. Jones, That the Mayor be requested to call a meeting of the Council at as early a period as possible to have this matter disposed of.

The amendment was carried on the following division:

YEAS—Messrs. Sutherland, Jones, Kennedy, Henderson, Robertson.

NAYS—Messrs. Foster, Tannahill, Watters.

The Mayor called the special meeting of the Council for Friday evening for the purpose above named.

Mr. Holden gave notice that at the next meeting he would move that Mr. Roach pay the proper proportion of the license fee for the time he had been selling without license.

Mr. Sutherland gave notice that at the next meeting of the Council he would introduce a By-Law for the holding of the municipal elections, appointment of Returning officers, &c.

Council adjourned.

Telegraphic News.

BY ATLANTIC CABLE.

MADRID, Nov. 21.—The accounts of the terrible calamity which has visited the island of Porto Rico created a profound sensation here. The Government is filling an expedition out at Cadiz for the immediate relief of the inhabitants.

LONDON, Nov. 21.—Semi-official journals in Paris express the opinion that the paragraph on Italian affairs in the Queen's speech encourages the hopes of Italy.

LONDON, Nov. 21, 2 p.m.—Consols are a shade firmer, being quoted at 94¾ for money. Breadstuffs steady at the noon quotations. Provisions—Beef 2s 6d higher; extra prime mess, 112s 6d per barrel for winter cured. Cheese has advanced to 53s per cwt for American. Pork is lower; eastern prime mess 71s per bbl.

LONDON, Nov. 21, eve.—Bonds 70⅝; Erie, 46¼; Consols 94¼.

LONDON, Nov. 22, noon.—Consols 94⅛; Bonds 70⅛; Ill C 95⅛; Erie 46¾.

LONDON, Nov. 22, 2 p. m.—Consols have advanced ⅛.

LIVERPOOL, Nov. 22, evening.—Cotton quiet at 8¼d for Uplands; 8¾d for Orleans. Breadstuffs steady.

LIVERPOOL, Nov. 22, noon.—Cotton quiet; stock in port 483,000 bales, of which 107,000 are American. Breadstuffs quiet.

LIVERPOOL, Novr. 22, 2 p. m.—No. 2 red wheat declined 4d; California white declined 3d. Tallow 44s. Cheese 52s. Lard 51s 6d.

GLASGOW, Nov. 22, noon.—The steamship "Caledonia," from New York, has arrived.

QUEENSTOWN, Nov. 22, noon.—The steamship *Russia*, from New York, has arrived.

American Despatches.

CLEVELAND, Nov. 21.—Weston is expected to reach Toledo to-night. He is in fine spirits and condition. The roughs tried to jump upon him at Fremont, but were prevented by the police.

CINCINNATI, Nov. 21.—Three of the ladies killed by the collision at Rockland this morning were sisters named Morgan. Several others were badly injured.

SAN FRANCISCO, Nov. 21.—The annual convention of the Fenian Brotherhood of California, acting in concert with the Irish Revolutionary Brotherhood, and recognizing John Savage as the Chief Executive of America, adjourned after a short session to-day. The affairs of the association are reported in a very satisfactory condition. They endorsed the policy of the Irish Revolutionary Brotherhood, as enunciated by J. Kelly of Ireland and John Savage of America.

NEW YORK, Nov. 23.—The *Herald's* Washington special says: Jeff. Davis' counsel will object to his being tried by Judge Underwood, charging that the latter had shown himself bitterly prejudiced against the prisoner. They will also object to a negro jury as illegal and incompetent. If the Court overrules these objections, the counsel will abandon the case.

Baron von Haure, Secretary to the Belgian Legation, yesterday was married to Miss Camilla Webb, a clerk in the office of the Comptroller of the Currency.

—Oranges can be had in Honduras six for a cent, and pineapples are two cents each.

—Vermont has rejected a bill allowing parties to agree on a higher rate of interest than six per cent.

—The Hon. S. Richards has visited the County of Niagara. There will be no opposition to his return.

—A new valuable salt well has been discovered in Goderich. Property has risen 50 per cent in a few days in that town.

—E. Huden & Co., Montreal, and Forsyth & Kemberton, Quebec, have failed. The former firm had discounts in the Montreal Banks to the amount of $170,000.

—One McDonnell, was choked to death on Thursday night, in Montreal, while eating his supper, a piece of meat having stuck in his throat.

—A Parisian house, which sells goods as low as any other establishment, executes a bond, well secured, to refund the whole of the purchase money thirty years after date.

—Charleston, S. C., is moving in the matter of removing the obstructions in her harbor.—Probably no city in the world has its harbor so obstructed with the *debris* of war.

—An Irish woman in Lowell, hearing that gas was cheaper than kerosene, went to the clerk of the company and presenting her can asked for a pint, to put the matter to a practical test.

STUPENDOUS TUNNEL ENTERPRISE.—An extraordinary piece of tunneling has lately been accomplished at the silver mines in the German Hartze Mountains. The mines were over three thousand feet deep, and the scarcity of fuel prevented the use of steam for pumping, which was done by water wheels, aided by tunnel drains. But the great depth reached in 1859, precluded further progress in that manner, and a tunnel was commenced for deep draining, which is but now finished. It is twenty-two miles long; two million cubic yards of solid rock were excavated, ten thousand pounds of powder used, and the linear extent of blasting holes drilled is 180 miles.

Business Notice.

Have you been to the Club House? If not, go, where you will find all the luxuries of the season, such as Fresh Oysters, Venison, Partridges, Chickens, Ducks, Quails, Turkeys, &c. A Free Lunch will be set in the Bar-room every day at 11 o'clock. For good eating, good drinking, good billiards and good attention, go to the Club House.

Flour receipts heavy and rates unchanged; holders firm but enquiry limited. Grain—no reported sales and rates nominally unchanged. Provisions quiet at former rates. Ashes not wanted.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Teethe Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and [illegible] either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Hats, Bonnets, Cloaks, Dresses, &c., made up in the most fashionable manner, and on the shortest notice.

Belleville, Nov. 20, 1867. 172-tf 40tf

TO THOSE LOOKING FOR

MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stants I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. Sal. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,
LESSEE,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF'S Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.

Madoc, November 19, 1867. 172tf

THREE REASONS

Why you should buy your Clothing from

J. MUIR & CO.

First:

You select from the largest stock in Belleville.

Second:

The stock is all perfectly new, and is made and trimmed in the very latest English and American styles. We defy ordered work to beat it.

Third:

We buy for cash, and can therefore offer special inducements. Call and see.

Nov. 1st, 1867. 1D-1y

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - - - - $72,000.

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 55 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.

Toronto, November 20th, 1867. 173tf

PROSPECTUS OF
THE WELLINGTON GOLD MINING COMPANY
OF MADOC: Limited.

To be Incorporated by Letters Patent, under the Provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments Thereto.

Capital Stock $200,000, divided into 40,000 Shares of $5 each.

Of which $100,000 is reserved for working capital.

DIRECTORS:

The HON. JOHN CARLING, M.P. JOHN CRAWFORD, Esq., Q. C., M. P.
ADAM CROOKS, Esq., Q.C. THOMAS LAILEY, Esq., Merchant.
A. M. SMITH, ESQ., President of the Royal Canadian Bank.

Manager and Superintendent—HUGH R. FLETCHER, Mining Engineer.
Secretary and Treasurer—H. S. LEDYARD.
Solicitors—Messrs. McMURRAY & RAE.
Bankers—THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot number eighteen in the fifth concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situate upon the West end of the Richardson Hill, and a continuation of the Quartz Lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 890 feet along this lead.

Another Quartz Lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the ElDorado, the Moore Mine, the Royal Canadian and Kootaney Mines, and the property is bounded on the East side by the Richardson Farm and the territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of Copper ore, than at the Richardson; and as this property is situate upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of The Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively $36 and $62 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer, of Madoc, returned $22 of Gold and Silver to the ton, and as these assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

ONE DOLLAR per Share to be payable on application, and the remaining $4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock, and other communications to be addressed to the Secretary,

BILL HEADS,

AND all other kinds of JOB PRINTING, executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

Valuable Recipes.

To remove freckles, cut them out with a razor and throw them away. They will never return.

To bring out a moustache, tie to it a strong cord twenty feet long, to the other end of which attach a heavy smoothing iron and throw the latter from a fourth-story window.

To get rid of red hair, hold your head for a few minutes in a strong blaze of gas.

To preserve your eyes, put them in a bottle filled with alchohol.

To avoid corpulence, quit eating.

To conceal bad teeth, keep your mouth shut.

To become a competent book-keeper, borrow all the books you can and never return them.

To "raise the stamps," say a funny thing on the stage.

To keep out of a fight, stay by yourself.

To gain time, steal a watch.

To keep from stuttering, don't talk.

What to Take.

An exchange says, a lady of our acquaintance, young, lovely, and intelligent, called upon a celebrated physician to do "something" for a rush of blood to the head.

"I have been doctering, said the languid fair one with a smile, to the bluff though kind M. D., while he was feeling her pulse.

"Well, what have you taken?"

"Why, I have taken Brandeth's Pills, Parr's Pills, Strenburgh's Pills, Sands Sarsaparilla, and Jayne's Expectorant, used Dr. Sherman's Locenges and plaster, and——"

"My heavens! madam," interrupted the astonished doctor, "did all these do your complaint no good?"

"No! then what shall I take?" pettishly inquired the patient.

"Take! exclaimed the doctor, eyeing her from head to foot—"take!" exclaimed he, after a moment's reflections, "why, take off your corset!"

SLEEP.—The amount of sleep requisite in a state of health has been stated by the best authorities to be, according to age the following,—for an infant, from fifteen to twenty hours; from the age of five to twelve, twelve hours; from sixteen to twenty-four, nine hours; afterwards seven hours are sufficient. Too much sleep is as injurious as too little, and it is a remarkable circumstance that the most clear-headed men have been early risers. John Wesley always rose at four, after six hours sleep.—Dr. Franklin was always up soon after day-break. Dr. Doddridge says that it was to the habit of early rising the world was indebted for nearly the whole of his works. Sir Thomas Moore rose at four o'clock; so did Bishop Burnet and Bishop Jewel; while Sir Mathew Hale and Dr. Parkhurst rose regularly at five. It is, in fact, doubtful if any of our truly great men slept more than six or seven hours. The habit of early rising is easily acquired, and soon repays the cost of the experiment.

A DESTRUCTIVE INSECT.—We learn from our foreign exchanges that an insect which not long since made its appearance in Madras, has become a most alarming foe to vegetation. It is a kind of small grub, known as the Borer, which infests the coffee plantations, and in not a few instances utterly destroys them. On one estate four hundred thousand trees were killed in a single season, and some planters have been completely ruined. Not the least remarkable is the fact that no warning is given; and the planter knows nothing of the havoc which the Borers are perpetrating until he sees the leaves on the trees turn yellow, and speedily perish. The prospect is not encouraging, and to make matters worse, the Borer has hitherto resisted all the attempts made for its extirpation.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, as Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed with it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted). It will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the Gold Regions, and of mining interests generally.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notice of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. No paper paid until the close of the year. 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 03

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, NOVEMBER 23, 1867. No. 175.

The Scattered Household.

The family group is gathered, and all are happy there;
The cheerful glance and word pass round, for life with them is fair;
A full unbroken household met; it is a pleasant sight!
The mother's smile is sweeter then—the father's glance more bright.

There is another gathering, but one is wanting there;
The youth who sat beside his sire comes not to fill his chair;
The graveyard bears another stone—the missed one sleeps beneath;
The cheerful smile doth yet pass round, but thou art felt, O death!

Again there is a gathering, but where is she whose smile
Was wont to make our breasts so glad—our father's care beguile?
In vain we list a mother's voice, 'tis silent in the tomb!
Her happy smile is soon no more; where mirth was, now is gloom.

Once more there is a gathering, once more an empty place
Proclaims that death has been at work to fill a brother's space;
His grave is on a distant isle, made by a stranger's hand;
O! hard it is to die away from one's own native land!

That group will never gather more around that kindred hearth;
'Tis broken up; what death hath left are scattered o'er the earth!
And where that humble mansion stood there now is not a stone
To mark the spot, or tell of those who to their graves have gone.

Stormy Sabbaths.

BY REV. THEO. L. CUYLER, IN THE NEW YORK "INDEPENDENT."

After twenty years of pastoral experience, I have come to divide all church-members into two classes—fair-weather Christians, and storm proof Christians. This division holds good through all the routine of religious life. The first class is composed of those who rarely practice any self-denial for Christ. They not only dread a storm of rain or snow, but a storm of reproach or unpopularity. They are capital soldiers on parade days, but are not worth a rush before the cannon's mouth. They are loud in profession before a battle, and loud in exultation after a victory, but during the fight they are always missing. Demas is the representative apostle of this class, as Paul is the representative of the storm-proof disciples. Fair-weather Christians are of no possible use, except to shame better men into better conduct.

Commend me to the Christian who, when the Sabbath-bell rings, consults his conscience rather than the barometer. Commend me to the follower of Jesus who chooses death or defeat rather than desertion. Commend me to him who, when Duty sounds her trumpet, is always ready to answer, "Lord! what wilt thou have me to do?" He is Christ's minute-man. When at last the messenger of Death shall call the roll, this man shall calmly and promptly answer *Here!* And after he has gone to his heavenly reward, his name, like that of the gallant young Huguenot captain, shall be kept on the roll of the regiment, and whenever it is called, some comrade in the faith shall step forth and respond, "*Died on the battle field.*" In these days of self-indulgence, may God send us more religion that is storm-proof!

A Noble Boy.

The spirit that is steadfast amid trial, in devotion to principle, always commands the esteem of good men.

The person who is willing to be made the butt of ridicule rather than yield to that which he believes to be wrong, is worthy of all praise.

A little drummer boy in one of our regiments, who had become a great favorite with many of the officers by his unremitting good nature, happened on one occasion to be in the officers' tent when the bane of the soldier's life was passed round. A captain handed a glass to the little fellow, but he refused it, saying, "I am a cadet of temperance, and do not taste strong drink."

"But you must take some now. I insist on it. You belong to our mess to-day and cannot refuse."

Still the boy stood firm on the rock of total abstinence, and held fast to his integrity.

The captain turning to the major, said—"H——is afraid to drink; he will never make a soldier."

"How is this?" said the major playfully; and then assuming another tone, added—"I command you to drink, and you know it is death to disobey orders."

The little hero, raising his young form to its full height and fixing his clear blue eyes, lit up with unusual brilliancy, on the face of the officer said:—

"Sir, my father died a drunkard; and when I entered the army I promised my dear mother on my bended knees that, by the help of God, I would not taste a drop of rum, and I mean to keep my promise; I am sorry to disobey your orders, sir, but I would rather suffer than disgrace my mother and break my temperance pledge."

THE FIRST TWENTY YEARS.—Live as long as you may, the first twenty years form the greater part of your life. They appear so when they are passing; they seem to have been so when we look back to them; and they take up more room in our memory than all the years that succeed them. If this be so, how important that they should be passed in planting good principles, cultivating good tastes, strengthening good habits, fleeing from all those pleasures which lay up bitterness and sorrow for time to come! Take good care of the first twenty years.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

☞ *SEE FOURTH PAGE.*

ERRATA.—In the Council proceedings reported yesterday, Mr. Holden's name was accidentally omitted from the nays on Mr. Henderson's motion to have a special meeting of the Council.

FENIANS HUNG.—It will be seen by our cable despatches that three of the Fenians convicted at Manchester, to-day paid the full penalty of the law. The precautions taken by the authorities prevented any disturbance.

COLE'S THOUPE.—The audience at Ontario Hall, last night to witness Black Crook was larger than on the previous evening, not less than from six to seven hundred persons being present. The play was well sustained throughout. To-night is the last appearance of the company, and they will, no doubt, have a crowded house. The "Wild Duck" and the "Illustrious Stranger" will be produced this evening.

WHOSE DUTY IS IT?—Whose duty is it to look after the property of the Town? The lamp post which was obtained to replace the one broken by the runaway horse, on the corner of Bridge and Front streets, was allowed to lie in the ditch for some days, until after being knocked about, it, too, has been broken, and rendered useless. It's bad enough to be deprived of light at that corner these dark nights, but it's worse to have the property of the Town destroyed, through the carelessness of those whose duty it is to protect it.

SAFETY OF DR. LIVINGSTONE.—The civilized world will receive the news of the safety of Dr. Livingstone, the great African explorer, with the most heartfelt gratification. It would have been a great misfortune to have lost so distinguished a traveller who, by his researches, has given the world more information about Africa than that furnished by all the previous explorers of that country, and to have met his death in the horrible manner reported, would have added to the general sorrow. It is a great relief to know that he is safe, or was when heard from in April last, as will be seen by reference to the cable despatches.

THE WEATHER.—Jack Frost, who sealed the ponds and rivers with his icy crust, and made us believe he had commenced his reign in sober earnestness, like the Hon. Joseph Howe was only "funning." He didn't mean to begin just yet. He had evidently partaken too much of the "Elixir," and getting out of his latitude, laid himself out spread-eagle fashion all over this fair land. But waking up one fine morning he discovered his mistake, the spell was broken, the icy chains were loosened, and Jack has gone back to his more northern home. To-day it is a mixture of Indian Summer and early Spring days, neither the one thing nor the other; but the elements are evidently gathering for a rain storm, which, it is to be hoped, will come in real old-fashioned style, continuing for two or three days.

TOWN COUNCIL.—At the special meeting of the Council held last evening, to investigate the official conduct of the Street Surveyor, the public and the reporters were excluded. The following members were present: The Mayor and Messrs. Henderson, Holden, Tannahill, Foster, Watters, Jones, Sutherland and Kennedy. It has leaked out that the meeting was a stormy one, and that the charges against the Surveyor were not sustained. Resolutions were adopted exculpating Mr. Grant from the charges brought against him. As the meeting was a committee of the whole Council, its report will, we presume, be submitted to the next regular meeting of the Council, when, unless the reporters are again excluded, the public will be made aware of the nature of the charges and how they were disposed of.

INQUEST.—An inquest was held to-day before Coroner John P. Macdonald, on the body of David Roblin, Esq., who was found dead in his bed this morning at the house of his son-in-law, Hector Leavens, Esq. Mr. Roblin came to from his residence in Sidney yesterday, and on going to bed last evening at his son-in-law's house, complained somewhat of a pain in the region of the heart, but as he was aged and had been ailing for some time, nothing serious was apprehended. When his daughter went to call him to breakfast, he not answering her, she opened the bed-room door and found him dead. From the appearance of the body, it was evident he had been dead for some hours. The verdict of the jury was death from natural causes. Mr. Roblin was eighty years of age, and was one of the first settlers in this County.

The House Yesterday.

The House had a short session yesterday, adjourning at six o'clock until Monday, Mr. Blake will move on Monday, questioning the right of Ministers to occupy seats in the House. The Indemnity Bill to members passed its second reading and was ordered to a third reading on Monday. The Commercial Bank Bill passed its second reading and was referred to the Committee on Banking. A discussion took place upon a motion asking for correspondence respecting the Local Magistracy. Sir John A. Macdonald said there was no correspondence, and the motion was withdrawn, Sir John's opinion was that the question of Local Magistrates rested with the Local Government.

Gold News.

We were shown yesterday a certificate of an assay made by Prof. Bell which beats anything yet submitted to the test of the mineralogist. The rock tested was from lot 4 in Concession B, of the Township of Barrie, and the quantity 9 oz. It is described in the certificate as being a gray silico calcareous rock, and yielding one grain and sixteenth of a grain of free gold, equal to $225 per ton.

From the Madoc *Mercury* of to-day we learn that the average yield of nine tons of ore from various shafts in different parts of the Township of Madoc, which had been reduced by Messrs. Scott & Taylor at their works up to Wednesday, was *seventy-two dollars and eighty-six cents per ton.* This shows that the gold is not confined to the Richardson mine, but exists in other parts of the Township. The average is very large, and mining with such results will prove more remunerative than the richest mines in California or Nevada. With regard to the assay of quartz from the Empire Mine in the Village of Madoc, of which we made mention a few days age, the *Mercury* says: "The copper in the tailings, we are informed, without any further manipulation than simply barrelling it up, would be worth fully $40 per ton! This is great and good news for our village, and we congratulate the owners of the mine on the result of their experiment. They have one hundred tons of the rock from their two shafts, already quarried, and are making arrangements for the erection of a crushing mill in as short a time as possible."

Historic Interest.

The letter of Mr. Woodside of the Royal Canadian Bank which we publish in this issue, has been in hand for some days, but for want of room has not appeared before. As a matter of historic interest in connection with this unfortunate Bank business, it is highly important, and deserves to be placed on record. It shows Mr. King in a new and unenviable light, and must have a most damaging effect upon his reputation.

In this connection we find a significant paragraph in the Commercial article of yesterday's Montreal *Gazette*, which we subjoin:—"The long vexed Commercial Bank question still absorbs public attention, as well as the startling explanation of the Toronto Manager of the Royal Canadian Bank, as to the way in which the Bank of Montreal agents throughout the Province of Ontario, "*misunderstood*" or else under, stood their instructions. The amount of "assistance" the Bank of Montreal was prepared to offer, and its "solicitude" for the welfare of the Royal Canadian Bank have also been very generally commented upon. It is worth while to remark, in this connection, that several newspapers which undertook to defend the General Manager of the Bank of Montreal during the recent controversy on this question, have not yet seen fit to publish Mr. Woodside's reply.—Their natural sense of fair play appears to have been blunted. Why the public may imagine. It has, however, already taken note of the omission and learnt one useful lesson. Apart from this, there are several rumours in circulation with respect to the Montreal Bank Manager's mission to Ottawa. It is not considered unlikely that a portion of his business is to lobby against the proposed Commercial Bank Bill about to be submitted to Parliament. It is indeed surmised that the probable resuscitation and amalgamation of the Commercial with some other bank has attracted Mr. King to the capital; and that, to speak plainly, his object is to defeat the measure providing for such purpose and force the luckless bank into liquidation. If this were done, an old rival of the Bank of Montreal would be for ever put out of the way, and no bank with increased capital could ever presume to compete for the bulk of the banking business of Canada. It is to be hoped, however, in the interests of the widows and orphans who still rely on the Commercial as the principal means of of their existence, as well as for the character of the Dominion, at home and abroad, that every facility will be extended to the promoters of the proposed Bill, so that the "living assets" still under the control of the Commercial may not be lost, and every encouragement granted for its resumption or amalgamation."

—The Halifax merchants are bringing goods in bond on speculation, counting on alteration in tariff.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 21, 1867.

The House was occupied yesterday afternoon with a question of privilege, as to the right of members of the different Provincial Cabinets to sit and vote in the House of Commons. Mr. Holton argued that by the provisions of the Independence of Parliament Act, now in force in the Dominion, these gentlemen were prevented from sitting in the Commons, they being paid officers of the Crown. This view was sustained by Messrs. Blake, Dorion and Howe, and combatted by Messrs. Cartier, Johnson and Smith, of New Brunswick, and Morris, most of whom admitted that difficulties might arise from these officers being members of the Commons, but contended that the provisions of the Independence of Parliament Act did not apply in this case, as the members of the Executive Councils of Ontario and Quebec were not responsible to the Privy Council for their acts, nor did they receive their salaries from the Ministry, and consequently could not be influenced by them in giving their votes. It is beyond doubt that the Independence of Parliament Act was to prevent persons holding office and receiving pay from the Government, and sitting and voting in Parliament, because it would be presumed that they were influenced by those at whose will they held their office. And as these members of the Executive Government of the Provinces do not hold office at the will of the Privy Council, nor receive their salaries at their hands, hence they could not be controlled, therefore the Act did not apply. The discussion was brought to a close by Sir John A. Macdonald promising to look into the authorities, and give his opinion, when the House should again meet. On the 21st, when the House met, after some preliminary proceedings, the leader of the Government moved a resolution referring the question to the Committee of Privileges, upon which Mr. Holton thanked the Government for the candid manner in which they had treated the question.

OTTAWA, Nov. 22d, 1867.

After the close of my letter last night, a long debate took place upon a motion made by Mr. McCallum "for the evidence and proceedings taken at the Court of Enquiry, on the conduct of Lt. Col. Dennis at Fort Erie on the 2nd June, 1866." The motion was resisted by the Minister of Militia on the ground that it would not be for the public interest to make the evidence public. The charges had been published, and the finding of the Court had also been laid before the people, and it was not right to go further. It was also shewn from precedents that all Courts of Enquiry, by the military authorities, were private and confidential, and had been refused in Courts of Law, by Judges in England, and though it was not denied that Parliament had the power to demand these papers, still it was believed by the Ministry that their publication would not tend to good. It was forcibly argued by Sir John A. Macdonald, that if a volunteer officer was to be subject to a parliamentary criticism every time it might be supposed he had made a mistake while on duty, no man who had not made arms a study and profession, would be found to volunteer, and the result would be disastrous to the Volunteer Militia force; more particularly if this were to take place after an honorablet acquital by a Court of Enquiry. It was argued on the other hand that parliament was omnipotent, and should have the papers, that Col. Dennis was an officer under the control of the Government, and had proved himself unworthy of the position he holds and should not, therefore, be continued in office. There was a good deal of feeling manifested by members of the House, from that section of Canada where the Fenian difficulties occurred. But it was evident that the object was to injure Col. Dennis in the minds of the people, and while the Government were no doubt right in rejecting the motion for the address upon principle, it cannot but leave the impression upon the minds of those who may read the debate, that the finding or the Court was not justified by the evidence. This was boldly stated by those who demanded the papers, but as an important principle is at stake, this result has not to be taken into consideration. A Court of Enquiry is to a Court Martial what a Grand Jury is to a Petit Jury. They are preliminary investigations, the result of which may or may not be sent to another court for trial, and as no one would think of asking for the evidence taken before a Grand Jury, neither had any one the right to ask for the evidence taken before a Court of Enquiry. This doctrine is laid down by English authorities, and is the result of long and thoughtful investigation.

The remarks made by Sir John A. Macdonald, in introducing "An Act to "authorize the apprehension and detection "of such persons as shall be suspected of "committing acts of hostility or conspiring "against Her Majesty's person and Govern-"ment," were highly important; he stated that it was absolutely necessary to ask for power to suspend the *Habeas Corpus* Act, as the Government was in possession of facts which convinced them that Fenianism was not yet dead, that arms were being deposited at the various Fenian points along the frontier, and that it required vigilance on the part of the Ministry. He did not fear an attack at present, but it was their duty to be ready, and he hoped there would be no necessity to renew the Act. If this necessity exists, and there can be no doubt of it, for the first minister of the Crown would not have unnecessarily alarmed the House, it is well that the people and the country should be prepared for it, and in all probability the Act will pass without opposition.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 22, evening.—The Italian Parliament convenes on the 5th prox. Baron Ratazzi will be made President of the popular branch. The Prime Minister, Menabrea, has issued another note, it is said, wherein the invasion of the Papal territory by France is severely denounced.

The Colonial Office is informed that the disaster at Tortola has been greatly exaggerated.

Despatches announcing the safety of Dr. Livingston, the African explorer, have been received to-day. In April last he was exploring the wastes of Africa, hundreds of miles from the sea coast.

The Annual Supply Bill was passed by the Commons this evening.

Second Despatch.

LOGDON, Nov. 22.—In the House of Commons last night an effort was made to save the lives of the Manchester rioters. Mr. Magnire, the member for Cork, moved that the House interfere for a stay in the execution of the sentence of the Fenian convicts at Manchester, and that meanwhile the points of law upon which he based his resolution be referred to the twelve highest judicial authorities of the realm. The motion gave rise to a long and earnest discussion. Mr. Maguire was supported by Henry Fawcett, the member for Brighton, and Sir G. Bowyer, but Messrs. Hardy, Gladstone and Kinglake made strong speeches against the motion, and it was finally withdrawn, the opinion of the House being manifestly against further consideration of the question.

An orderly demonstration against the execution of the Fenians took place here last night. A large number of persons assembled at one of the public halls and passed resolutions urging the Government to grant a stay of proceedings. A committee was appointed to draw up and present a petition for mercy to the Queen.

MANCHESTER, Nov. 22.—Shore, one of the condemned Fenians, has been granted a respite.

A public meeting was held here yesterday by persons opposed to the execution of the Fenians, and resolutions to that effect were passed.

The city has the appearance of being in a state of siege. Most extraordinary preparations are being taken by the Government. Barricades have been erected in the streets for the protection of the troops. Regular infantry are stationed at different points in the city, and troops of cavalry which lately arrived here are patrolling the streets. Two or three thousand special policemen are distributed among the police stations. Clergymen have been closeted with the condemned prisoners the greater part of the day. Everything indicates that the Government is determined not to pardon or commute the sentence of the unfortunate men, and intends to make their execution an imposing demonstration of firmness and vigor, in order to put a stop to Fenianism, violence and outrage.

BIRMINGHAM, Nov. 22.—A large public meeting was held here yesterday to protest against the hanging of the Manchester Fenians. Some disturbances occurred, and riotous demonstrations were made at the close of the meeting.

LONDON, Nov. 22, eve.—To-day the committee appointed by the meeting of last evening presented to the Queen at Windsor a petition for the postponement of the executions at Manchester. Her Majesty, in a most direct manner, declined to grant the petition.

BIRMINGHAM, Nov. 22, eve—The tumultuous proceedings at the meeting in favor of the Manchester rioters last night, produced great excitement, and the agitation is increasing today. A bitter anti-Fenian feeling prevails among the larger portion of the population, and serious riots are feared.

PARIS, Nov. 22.—At the session of the *Corps Legislatif* yesterday, the new army bill proposed by the Minister of War, was introduced. One of its provisions increases the term of military service to nine years.

The Emperor of Austria has signified his willingness to join the general European Conference proposed by the former.

PARIS, Nov. 22, eve.—The official yellow book published by the French government has appeared. The following paragraphs are extracted: The government will soon fix the time for the return of the French troops from Italy. The Sultan of Turkey, through his minister, has concluded to adopt the course advised by France in endeavoring to restore tranquility and peace to the Islands of Candia. The relations of France with the United States have regained their usual warmth, France following her old traditions, beholds with true sympathy the efforts made in America to effect the evils of civil war. Regret is expressed that the efforts of France and England to pacify the quarrel between Spain and the republic of Chili and Peru was made in vain. It is hoped peace will soon be restored to Paraguay and the South American powers allied against her.

ROME, Nov. 22.—Some fresh irruptions have lately been made across the Papal frontier by small bands of Garibaldians. They were promptly met by the Pontifical troops, and in all cases speedily suppressed.

LONDON, Nov. 23.—In the House of Commons this evening, Lord Stanley, Secretary of State for Foreign Affairs, stated that the English government had not promised nor was it in any way bound, to guarantee the bonds of the Inter-oceanic Railway Company of Pentenrus.

NAPLES, Nov. 21.—The eruption of Mount Vesuvius, which commenced with fearful grandeur on the 14th inst., continues. The mountain is still sending forth pillars of fire from the old and newly-formed craters, and the display is magnificent. There are seven streams of lava in full flow.

LONDON, Nov. 23.—Preparations are being made in the city to observe in a proper manner the obsequies of the Fenians who are to suffer the death penalty to-morrow. On Sunday a funeral procession, with hearses and all the usual mournful devices, will be organized and march to Hyde Park, where a solemn meeting will be held.

Reports that a proposition has been received from the United States for the Hudson's Bay property, have caused a rise in the shares of the Company.

Third Despatch.

Hanging at Manchester!

Three Fenians Hung.

MANCHESTER, Nov. 23.—The condemned Fenians, Allen, Larkin, and Gould, suffered the extreme penalty of the law in this city at ten o'clock this morning. The precautions taken by the Government, to guard against outbreaks were effectual. Notwithstanding the presence of a dense fog, and a drizzling rain, the crowd that witnessed the execution was very large. The city is now perfectly quiet.

LONDON, Nov. 23, noon.—Consols firm at 94¾; Bonds 70⅝; Ill C 85½; Erie 46¼.

LIVERPOOL, Nov. 23, noon.—Cotton heavy at 8¼d for Uplands; 8¼d for Orleans. Breadstuffs quiet. Refined Petroleum declined to 1s 4d.

LIVERPOOL, Novr. 23, 2 p. m.—Cotton quiet, steady and more doing. Lard 51s. Bacon 48s. Other articles unaltered.

LONDON, Nov. 23, 2 p. m.—Consols 94¾; Bonds 70⅝; Ill C 85½; Erie 47.

QUEENSTOWN, Nov. 23, noon.—The steamship *Virginia*, from New York, has arrived.

American Despatches.

KINGSTON, Jamaica, Nov. 12.—Serious disturbances have occurred between the blacks at Falmouth, on the north side of the island, and the soldiers and the new police. The blacks are on trial. This is the first measure of the Government towards establishing a militia force.

HAVANA, Nov. 22.—A private firm in New York has contracted to lay a telegraph cable between Cuba and Jamaica and Aspinwall. The Government of New Grenada grants exclusive privileges for twenty-five years.

Two appalling shocks of earthquake had been felt at St. John's, Porto Rico, on the 16th. The consternation among the whole population was terrible. Whether any damage was done by the earthquake was not ascertained when the "Danube" left.

The island of Tortugas was washed over by a heavy sea during the hurricane.

TOLEDO, Nov. 23.—Weston, the walkist, reached Striker, Ohio, fifty miles distant, at 2:20 this morning. He commenced his fourth attempt to walk 100 miles in twenty-four hours, but abandoned it in consequence of a discrepancy between the distance given by card and the actual distance, which he found considerably greater. It is supposed he will leave Striker at noon. He expects to commence his fifth attempt to walk 100 miles in twenty-four hours, from some point between Toml and Ligonier, Indiana.

NEW YORK, Nov. 23.—The steamers "America," from Southampton, and "Tripoli," from Liverpool, have arrived.

The Stock Market.

The Montreal *Gazette* of yesterday gives the following report of the stock market:

There is firmer tone in financial matters, with a fair demand for good investments.

Bank of Montreal—There are buyers at 126, sellers at 128.

Bank of British North America—No stock offered.

City Bank—Nominal at 99 ex. Div.

Molson's Bank—Is in demand at 108; sellers at 109.

Merchants' Bank—Offered at 108; buyers at 107½.

Mechanics' Bank—In fair demand at 96.

La Banque du Peuple—Asked for at 106½.

La Banque Du Jacques Cartier—Procurable at 105 ex. Div.

Quebec Bank—No transactions to report.

La Banque Nationale—Sales at 106½.

Union Bank of Lower Canada—Steady at 102½.

Eastern Township's Bank—Latest sales at 98½.

Commercial Bank of Canada—Large transactions at 15.

Ontario Bank—Heavy at 99 ex Div.

Bank of Toronto—Sellers at 115.

Gore Bank—Nominal at 85.

Royal Canadian Bank—Buyers but no sellers at 97½.

Canadian Bank of Commerce—Would command 103. No stocks offered.

Montreal Telegraph Company—There are buyers at 132, and sellers at 133.

Canadian Inland Steam Navigation Company—Buyers at 125, but no sellers.

Richilieu Navigation Company—Sales at 100 with buyers; sellers asking 101.

SPECIAL NOTICE.

R. R. R.

99 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 35-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM!

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption. It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

JOHN KERR,
Collector.

Belleville, Nov. 15, 1867. 174D 3t

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

(LIMITED.)

CAPITAL STOCK - - - - - - - $72,000,

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
62 *Church Street, Toronto.*

Belleville, Nov. 20, 1867. 172-tf 40tf

TO THOSE LOOKING FOR

MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out, 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,
LESSEE,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF'S Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.

BILL HEADS,

AND all other kinds of JOB PRINTING, executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

The Bank of Montreal and the Royal Canadian Bank.

To the Editor.—Sir—in the copy of minutes of the special meeting of the Directors of the Bank of Montreal, which was held on the 14th inst., at their office in Montreal, and in which they properly assume the acts of their chief officer, there are one or two inaccuracies which I would like, through you, to be permitted to correct, as, by allowing them to pass uncontradicted, the public would be led to infer that the Bank of Montreal had actually rendered assistance to the Royal Canadian Bank. This they do not do, nor did the Royal Canadian Bank require it.

After the suspension of the Commercial Bank, they say "there was a general distrust on the part of the public," and they had "also a desire to mitigate and check the effects of any such distrust arising throughout the country." The *desire* to do so was certainly very praiseworthy, but unfortunately this desire was manifested in a most singular way, viz.: by sending to their agents a "confidential caution" either to refuse the bills of the Royal Canadian Bank, or to receive them only "on collection," in breach of an arrangement entered into in October last, when the Royal Canadian Bank handed over $50,000 in gold for an equivalent sum in legal tender notes, which have since been locked up in the vault as gold, and without bearing any interest. The gold, the Bank of Montreal *can* use—the legal tender notes, the Royal Canadian Bank can *not* use. It was certainly singular, too, that this "confidential caution" was so worded, particularly when there was so great mistrust, as to lead to its being *misunderstood* by "even one or two" of its agents.

Instead, however, of its being misunderstood by only "one or two" of the agents of the Bank of Montreal, it was misunderstood at Brockville, Kingston, Belleville, London, Stratford, St. Marys and other places, and the agent of the Bank of Montreal at Guelph, actually returned to the Postmaster, in Mount Forest, four dollars in bill of the Royal Canadian Bank, stating at the same time that they would only receive them "on collection." Was such an act as this calculated to "mitigate" or allay distrust? Had it not been for this *extraordinary* "confidential caution" I think there would have been very little mistrust indeed, at least so far as the Royal Canadian bank is concerned, for its stockholders are scattered all over the country, and known to the public as perfectly responsible, but the refusal of the bills by the agents of the Bank of Montreal was the cause of the run.

After this "run" had continued several days, increased and intensified by this action of the Bank of Montreal, they certainly did offer, but they refused to do it until gold was placed in their hands here to deliver them legal tenders to our agents at several points. This Bank was so anxious to meet the wishes of the public that it put on *three tellers* instead of one here, and it kept its doors open each day till 6 o'clock. It also accepted this offer of the Bank of Montreal and placed $50,000 of gold on their hands here, when they telegraphed to three of their agents to give $50,000 in legal tenders to our agents.—This is the *extent* of the *assistance* that was given to the Royal Canadian Bank, and when you consider that the mistrust was caused by their "confidential caution," which not only "one or two" as they say, but nearly all their agents misunderstood, I think you will say that with me, that it was *very little assistance* indeed that they rendered.

As to the further assistance which the Directors say they were ready to render by the discount of bills receivable, the intimation that any in this bank had of their intention to do so. This time a telegram was received, saying, "if you want assistance come down at once, as matters cannot longer continue as they are;" to which a reply was sent: "Thanks for offer—do not require assistance." This offer I certainly did not regard as a friendly offer of assistance, but I looked upon it as a *threat*, but perhaps I did not intrepret it rightly. I supposed it to mean this: "That unless the balance at your credit be immediately increased, more open measures will be taken to cast discredit on your bills." Perhaps I was wrong, but I leave you to judge. This bank has been in the habit of keeping considerable balances in the Bank of Montreal, for which they pay no interest until it exceeds fifty thousand dollars, when they pay three per cent., and if at any time during the month the balance falls under fifty thousand dollars, no interest is to be charged. The balance, at the time this telegram was received, had, owing to heavy drafts from the west, fallen below the usual amount, although there was still a balance there.—You can now judge whether or not I was correct in my inference that the telegram was a *threat* and not a friendly offer of assistance. There was not one word said about discounting bills receivable until now, but had the offer been made it would not have been accepted as it was not needed.

The paid up capital of the bank is, say $600,000, of which, $97,000 is locked up in government debentures, $50,000 in legal tenders having no interest and an average balance of $50,000 or over in the Bank of Montreal—the two last for the privilege of getting the Bank of Montreal to take our bills, for which in redemption we pay them gold every day, yet on the balance in their hands falling below $50,000 they break a written engagement, which required fifteen days notice from either party.

I am, sir, your most ob't serv't.

T. Woodside, Cashier,
Royal Canadian Bank.

Toronto, Nov. 16, 1867.

P. S.—My only object in making this statement is to prevent the public from believing either that the Bank of Montreal offered, or that this bank required, assistance.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home,—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"Business Notices"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "Business Notices"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The Daily and Weekly Intelligencer can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, MONDAY EVENING, NOVEMBER 25, 1867. No. 176.

The Autumn of the Heart.

The corn bows its head to the sickle,
The nightingale's murmur is hush'd,
Rain tears from the arbutus trickle,
Beech fruits in the forest he crush'd.
We have fought, but the battle is ending,
We are wounded and sick from the fight;
Blue shadows around us descending
Breathe kisses of night.

We have journeyed not heeding our danger,
Cried in wild supplications above;
We have loved till our eyes lost their anger,
And hearts became sleepy with love.
Red roses are dying which wreathed us,
We are stamped with the iron that scars:
Dead love in compassion bequeathed us
Its relic of tears.

Ah! me, but the summer was pleasant;
Shall we die and lie dreaming again?
Would we yield the dull days of the present
For an hour of the past and its pain?
Do we hunger for kisses that stung us?
Or long for the lips that have lied?
Must we stoop for the gauntlet they've flung us?
Weep? creep to their side?

We cringe to these sowers of sorrow,
We cry for a blighted caress;
We weep for a night: on the morrow
We gather the tears of distress.
We bow to our grief and privation,
We pay for the pleasures that cloy:
Our work is to build the foundation
They love to destroy.

Oh! women with hearts brimming over
With passions we never can feel,
The world is too weak to discover
The mystical love you conceal.
Our sorrow, not ours the reproving;
Your triumph, and ours the defeat?
Our lives are made bitter from loving,
Why are you so sweet?

Gold Mining.

It may now be accepted as an established fact that the Madoc mineral region is very rich in gold and silver. A large number of companies have been formed for working the mines, and the avidity with which their stock has been taken by very sober minded and staid Canadians, is some evidence, at least, that the indications are good. In Toronto, we have no less than six companies. We have doubted so long that we can hardly believe our eyes when we see the results of assays; they seem to be too good to be true. But the crushing machine which is now at work has furnished indubitable proof, as rock already crushed has yielded as much as $130 to the ton. The question now is what are the expenses incident to gold mining. It is perhaps difficult to say what yield of gold to the ton will pay in a new district when no large quantities of ore have been reduced as so many things require to be taken into consideration. An Australian miner informs us that when he left Australia, eight dollars per ton would pay handsomely, whereas double that yield would not have paid expenses on his arrival there. In the Madoc district, fuel and labor are cheap, wood being $1.50 per cord and labourer's wages about $1.50 per day. Undoubtedly $15 per ton would now pay well in Madoc if the quartz lode were well defined, say of the width of four feet. Opinions differ somewhat as to the cost of raising and crushing a ton, but $5 is the highest estimate. The amount is arrived at in this way. Four men will take out five tons a day. A mill of six batteries to crush five tons a day will, it is said, cost about $5,000. So taking this estimate and guessing at the expense of crushing, we arrive at something like an idea of the probable return of a mine yielding, for example, $15 per ton.

Wages of men at $1.50	$6.00
Crushing 5 tons	10.00
Material used in crushing	4.00
Miscellaneous expenses	2.00
	$22.00
Yield of 5 tons at $15	$75.00

This shows a profit of $53.

It must be remembered that gold mining is not stopped by winter. The report of the select committee appointed by Parliament to obtain information as to the gold region of the Province of Quebec stated that (page 5) the miners there found hill tunnelling beneath the snow as profitable as alluvial washing in summer, and one of the parties who gave evidence before the committee said that mining is carried on there in winter and it is much easier to mine in winter when you are not troubled by rain or water coming in. We hope that the Legislature of Ontario will appoint a committee to obtain information as to the extent and resources not only of the Madoc gold region, but also of the Marmora iron region and the Lake Superior silver region. Our country abounds in mineral wealth and it will be our own fault if we do not profit by it.—*Monetary Times.*

Lost the Charge.—A man while harvesting kept his gun near him to shoot squirrels. Seeing one, he reached out, and took the gun by the muzzle; and drawing it towards him, by some means the gun went off, and the contents passed near his head without injuring him. As soon as he had sufficiently recovered the shock, he hastened to the house, and informed his wife of his narrow escape, at which the good woman, who is noted for her economy, raised her hands, and exclaimed, in a tone of regret, "What, did you loose the charge?"

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
The principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to Ten per Cent. of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

BELLEVILLE, MONDAY, NOV. 25.

☞ *SEE FOURTH PAGE.*

MAILS FROM OTTAWA.—There must be some mismanagement on the mail route from Ottawa to Belleville. Our Ottawa exchanges are frequently a day behind, and on several occasions the letters of our Ottawa correspondent have been unaccountably delayed. On Saturday we had two letters, one of which should have reached us on Friday, and this morning we are again without any from that quarter.

PROVINCIAL NOTES.—The following is a statement of the Provincial Notes in circulation, Wednesday, 6th November 1867, and the specie held against them:

	Notes in circulation.	Specie held.
At Montreal	$2,830,476	$400,000
At Toronto	1,087,766	400,000
	$3,918,242	$800,000
Debentures held by the Receiver General		$3,000,000

The proportion of specie to notes in circulation as above is a fraction over 20 per cent.

DROUGHT.—Such a dry fall in what was formerly Western Canada, has not been experienced for many years. Springs, creeks, wells, &c., are nearly all dry, and it is with the greatest difficulty in some places, that water can be procured at all. Not within the memory of the "oldest inhabitant," has our river and bay been known to be so low, and if winter sets in before the usual supply of rain comes, great inconvenience and suffering will be the result. The rain which fell last night and this morning will do some good, but it is only as a drop in the bucket.

MADOC GOLD.—The Toronto *Leader* of Saturday says: "Mr. Campbell, the government gold inspector, called at our office yesterday with an ingot of gold, valued at $530, which was taken from the Richardson mine out of four tons and a half of rock. The ingot was exhibited for a few hours, late in the afternoon, in one of the windows of J. G. Joseph & Co.; and, we believe, it will be on exhibition there to-day also. It caused considerable excitement, and gold was all the talk on King-street. Mr. Campbell is very much impressed with the mineral wealth of the Madoc district, and certainly this magnificent piece of gold is enough even to convince the most skeptical."

Mines on the Pacific Coast.

The United States Commissioner for the collection of Mining Statistics has just returned to Washington, after an extended tour through the States and Territories of the Pacific coast, and is preparing a report of his observations. Each district is described in detail, and statistics are given of the yield and practical working of every prominent mine in the country, with comparative statements showing the results of existing processes for the concentration and amalgamation of ores, and the necessity of improved systems of reduction. It is surprising that in a business so vast, and in which so much capital is invested that proper machinery for the separation of the precious metal has not yet been secured.—Millions of dollars are annually wasted for the want of suitable machinery, and the commissioner estimates that the loss resulting from the present wasteful methods of extracting the precious metal from the ores does not fall short of fifteen million dollars per annum, of which a large per centage might be saved by the establishment of a National Mining School. The general condition of the mining interest is represented to be healthy and prosperous, and the development of the Pacific Slope in respect to other branches of industry is said to be absolutely wonderful.

The statistical returns will show that during the present year the gold product of the countries named will be: Montana, $12,000,000; Colorado, $5,000,000; Nevada, $19,000,000; Idaho, $6,000,000; California, $25,000,000; Oregon, $2,000,000; Miscellaneous, $5,000,000. Indian disturbances have somewhat retarded the progress of mining operations in Montana and Idaho, and almost completely put a stop to that branch of industry in Arizona.

There is one remarkable fact in the foregoing statistics which is worth calling attention to. It will be seen that the gold product of Nevada is $19,000,000, being within $6,000,000 of that of California, the chief gold producing country in the world. Nevada is comparatively a new gold country, and mining is carried on there as it will have to be in the Madoc gold region. Gold is rarely found in the alluvial, and yet we have in this new territory, and on one small lode—the Comstock—produced in one year, two-thirds as much as is produced by the whole State of California. It is the opinion of practical miners who have worked in California, Nevada and Australia, that the Richardson ridge promises as well as the Comstock lode. If their prognostications be true, we have got a rich country in the Hastings gold district, and it would be impossible to estimate the advantages which the development of this district will be to the Dominion of Canada.

The Fenians Again.

It seems that we are not yet done with this organized band of murderers. In case the British Government hung the Manchester Fenians, we were told, the American Fenians would retaliate upon British subjects in Canada. British shipping in New York harbor was to be destroyed, Canadian cities fired, and all sorts of bloody work inaugurated. The Montreal *Gazette* of Thursday said: "We would advise our friends on the frontier to keep a sharp lookout for Fenian marauders on or about Sunday next, for the law will then probably take its course on the misguided men who shot Sergeant Brett in Manchester last month, and it is very possible that some Fenian miscreants in the United States may attempt to revenge the act in the usual cowardly manner, by shooting down a few unoffending Canadian farmers. It is possible that we may be mistaken, but the Fenians openly threaten the shipping in New York harbor in case Allen and his accomplices are executed, and yesterday several cases of arms were received at St. Albans."

Although the remarks of the Premier of the Government, in the House the other day, show that all danger of trouble from the Fenians has not passed away, we fancy that the terrible example set by the British Government, on Saturday, by hanging the Manchester Fenians, will produce a good effect. Too much leniency had been exhibited towards these rebels. The clemency hitherto shown was mistaken for a desire to conciliate, and the policy pursued only emboldened them to commit greater excesses. The prompt enforcement of the law at Manchester may create a little stir and bluster among the Fenians in this country, but we are of the opinion that it will prove to them and to their misguided associates in Great Britain, a salutary lesson.

It would seem from the extraordinary precautions taken by the British Government at home, that there is danger of further trouble there. The Cork *Herald*, of a late date, writing on the political situation existing in Ireland, says: "Extraordinary precautions against Fenians and Fenian raids seem to be the rule everywhere at the present moment. The soldiers garrisoned here are allowed to sleep on an average, we understand, but four nights in every week. They are always supplied with the full quantity of ammunition, so as to be ready at any time to repel any attack that may be made. On a recent occasion the authorities, apprehending interference with the barrack gas, kept the men up throughout the entire night and had them provided with candles and matches. Of course the Fenians made no appearance, neither was the gas meddled with. The police force was also on the alert."

Slanderous Attack.

The *Globe*, aided by some unprincipled correspondents, has for some months past made the Hon. Alex. Campbell the subject of a great deal of dirty scribbling. So long as it was confined to the *Globe*, it was deemed a waste of time and ink to correct its misstatements. The Montreal *Herald*, however—a journal, by the way, which not many months since paid a high tribute to the moral and political worth of the Hon. Mr. Campbell, by pronouncing him a model statesman—has come to the assistance of its Grit *confrere*, and abuses him right and left. The Montreal *Gazette* has taken the question up, and its replies to the accusations are so well put and to the point, that we copy them. With regard to the charge that Mr. Campbell "'made his brother, for example, 'Crown Land Agent for Hastings; but as the 'place was not a very fat berth for a brother 'of the Commissioner, he doubled the fees 'from 5 per cent to 10. This, of course, could 'not stand alone, and so it is stated that the 'fees of Crown Land agents throughout Up-'per Canada have been doubled, though it is 'well known that even before that change the 'Department on an average of years did not 'pay expenses. Besides this, he made the 'same brother Mining Inspector at $5 a day, 'and in order to give him a district took the 'Crown lands of Renfrew, Frontenac, Adding-'ton, Hastings, and Peterboro' out of the 'market, except as mining lands, by which all 'settlement has been stopped throughout that 'immense territory, and this notwithstanding 'that it is through this region that the so-'called Colonization roads have been run for 'the professed purpose of opening the country 'to settlement.' The *Gazette*'s answer to this is, first: "As to the commission allowed to Mr. Alfred Campbell, Crown Land Agent in Hastings, the increase in the Crown Lands Agents' commissions was considered necessary for several reasons. The old rates were fixed when lands were paid for in full at the time of the sale, and owing to the great amount of Militia and U. E. Scrip the sales were then very heavy. Latterly lands were paid for in five instalments, which involved four times the amount of labour:—the prices were lower and the sales fewer. The increase in the commission was made *before* Mr. Campbell's *brother was appointed*, and did not affect him, for the Commissioner did not allow him even the old commission, but fixed his remuneration *at one per cent.* Mr. Alfred Campbell was appointed Crown Lands Agent, and was paid his commission, at the rate named, on his sales. The demand for land was for a time keen, and great pressure was put upon him at all hours of the day and evening by the public. He had to make rules and take money in considerable sums at all hours, on his own responsibility. When the Gold Mining Division was established (and it was established on the urgent and repeated advice of men of experience from California, Australia, and Columbia) of course no sales in that district took place. Mr. Alfred Campbell was appointed Gold Mining Inspector, and afterwards the additional duties of raising and managing the Mounted Police Force, contracting for the superintending the building of their barracks and stables were imposed on him. He had to visit all parts of the gold mining division, issue mining and tavern licenses, preserve order, and keep a constant *surveillance* over his police force. For these duties he was allowed five dollars a day and travelling expenses. In the next place, the Counties of Renfrew and Peterboro were not affected by the gold mining order; parts of the Counties of Frontenac, Addington, and Hastings were. Through those parts three Colonization Roads run, on none of which have there been half a dozen new settlers in the last three or four years. The public can therefore judge how far settlement was interfered with."

To the Editor of the Daily Intelligencer.

SIR,—In your report of my assay of rock from the Township of Barrie, in Saturday's INTELLIGENCER, there are three errors, which I take the liberty to correct. First, the yield of gold was one grain and six tenth parts of a grain (1·6 gr.), instead of "one grain and sixteenth of a grain." Second, the return of $325 to the ton by no means "beats anything yet submitted to the test of the mineralogist." Thirdly, I have no pretensions to the honorable title of Professor, which has only been applied to me by some of my friends, partly through partiality, partly in playfulness.

JAMES T. BELL, Assayer.

Belleville, Nov. 25, 1867.

From our Occasional.

BOSTON, November 20th.

MR. EDITOR,—The sale of tickets for the readings of Charles Dickens, was publicly announced to take place at the store of Messrs. Ticknor & Fields, Tremont street, on Monday, Nov. 18th. Your correspondent wishing to secure a "pasteboard," wended his way on the day mentioned, at his earliest opportunity (8 o'clock a.m.), to the above store, and found, to his great surprise, an immense crowd of people blocking up the street in its vicinity, all on the same errand as himself, and was told that a great many of them had been patiently waiting for over an hour. The store was crowded, and some half a dozen policemen were necessary to keep the crowd in order, and to have them take their turn as they came, as "first come, first served," was the motto. The same condition of things existed throughout the entire day, and at one time there was a single file extending from Tremont street down Hamilton Place, of over six hundred people, all very impatient I can assure you, as the weather that day was very cold, and lucky were those who were able to secure tickets, even after waiting several hours, for the next day there was not one to be had, unless it was purchased from speculators who had contrived to purchase a quantity (one man it was said, purchased $400 worth), and who held them at from $10 to $20 each, according to the location of the seat. The readings are to be held in Tremont Temple, a hall capable of holding 3,400 persons, and are to continue but four nights, commencing on Monday, Dec. 2nd. It will thus be seen that there were 13,600 tickets disposed of in about twenty-four hours. The prices of admission were $1 50; reserved seats $2. It is estimated that only about one-tenth of those who wished to hear Mr. Dickens read will be able to do so.

The announcement that the steamship "Cuba," with Mr. Dickens on board, had left Halifax for this city, created considerable excitement among the many friends of the distinguished novelist, and many were the anxious enquiries during the day in regard to its arrival, as she was due at three o'clock. As the day advanced without her being sighted, fears were entertained that some accident had occurred, but they were happily dispelled, however, by the news which arrived about eight o'clock, that the "Cuba" had been signalled some fifteen miles beyond Hull.

The following, for which I am indebted to the Boston *Post*, will explain the manner of Mr. Dickens' reception:

"In order to expedite the arrival of Mr. Dickens to our shores, Mr. George Dolby, his energetic and most courteous agent in this country, had made arrangements to meet him in the steamer somewhere off Hull in the United States steam tug 'Hamlin.' The tug accordingly left her moorings at about 12 o'clock yesterday noon, having on board the following gentlemen, viz.: Mr. Geo. Dolby, the American agent of Mr. Dickens, Thomas Russell, Collector of the port, Mr. James T. Fields, of the firm of Ticknor & Fields, Prof. Oliver Wendell Holmes, General Underwood, Surveyor of the port, Hon. Josiah Quincy, General Sherwin, Deputy Surveyor, John M. Fisk, principal deputy Collector, and others. There being no signs of the 'Cuba' from the signal station, the 'Hamlin' returned to the city at 4 o'clock; and after the above named gentleman had paid a visit to the out-going steamer 'Java,' the 'Hamlin' again dropped down into the stream, and at 9½ o'clock returned to the Long Wharf with Mr. Dickens, where Mr. Dolby had carriages in waiting to take him to his quarters at the Parker House. On his arrival Mr. Dickens expressed himself as being in the very best of health and spirits, and greeted his friends in the most cordial manner, saying that he was overjoyed to once more be upon American soil. After being seated in his carriage he was driven to the Parker House, where he took possession of the elegant apartments provided for his reception, and spent the evening in close intercourse with his friends. Mr. Dickens will remain in Boston until the evening of the 9th of December, when he leaves for New York to meet his engagements, which commence on the evening of the 9th of December. His first readings in this city are on Monday, December 2.

"A number of persons assembled on Cunard wharf, East Boston, yesterday afternoon, expecting that the distinguished novelist would first step ashore at that point, along with the passengers who bore him company in the 'Cuba.' These persons were somewhat disappointed to learn that Mr. Dickens was not going to disembark at that point, though many of them remained until the final arrival of the vessel to make themselves sure of the fact. Some considered the story a dodge to prevent a large crowd from gathering, and such were not willing to miss an opportunity of seeing the illustrious 'Boz,' even though they were forced to submit to considerable inconvenience and delay in the cold by so doing." W.

Editorial Summary.

—A Local Bank is talked of at Prescott.

—There are seven Universities in Canada.

—The Quebec ship carpenters are still on strike.

—The strength of the United States army is now 56,500.

—The United States Congress re-assembled on Thursday last.

—The Minneapolis mills are throwing bran into the river because it is not worth selling.

—It was believed that between 250 and 300 lives were lost by the colliery explosion at Ferndale, South Wales.

—Fitz Greene Halleck, one of the foremost literary men in the United States, died on Friday last, aged 72 years.

—Quebec harbor is getting clear of vessels, and the small steam craft are being docked for the winter.

—A large black eagle was shot in North Wellington on Tuesday last. It measured seven feet six inches from tip to tip of wings.

—Three hundred soldiers' cemeteries have been opened in the United States since the war began, in which 328,090 bodies are interred.

—Gen. Sherman thinks that immediate peace with the Indians is certain, and recommends the employment of Indians in the service.

—The excitement about Weston, the walkist, is so great in Ohio, that special trains are advertised for the places through which he has to pass

—The Rev. S. Baker, Wesleyan missionary in the Fiji Islands, has been killed and eaten by cannibals, together with six Christian natives.

—At Riverhead, Long Island, some school mistresses have been arraigned before the committee on a charge of smoking pipes.

—Fifty-three plans for the New York Post Office building have already been received. The average cost of the buildings proposed by these architects is three millions of dollars.

—The *Shipping Gazette* says: The number of wrecks recorded during the week ending Nov. 9, has been 49, making for the present year a total of 2,222.

—Prairie fires still continue to rage in nearly all sections of the West. They have been particularly severe in Western and Northern Missouri and Kansas, in many instances devastating whole farms; immense amounts of property have been destroyed.

—France has been trying the American revolver cannon. It has eight chambers, two of which are discharged at each stoppage in the rotation, and it throws explosive projectiles a distance of 3,500 metres. This weapon can fire 100 shots in a minute, and, with its carriage and ammunition, it weighs about 600 lbs.

Arrival from Europe.

NEW YORK, Nov. 24th.—The steamship "Saxonia," from Hamburg on the 10th, and Southampton on the 13th, has arrived.

Details of news of one day later have been received. The *Etendaro*, of Paris, states that all the European States have declared themselves in favor of the conference on the Roman question. Consequently, the French government has forwarded a second circular, officially proposing a conference to all, even the smaller states.

AUSTRIA.—In Monday's sitting of the Lower House, on the compromise with Hungary, the Finance Minister made a speech, in which he announced that henceforth, all excess of expenditure over revenue could be entirely avoided, and that there was every prospect of a settlement of the financial position of the Empire.

AN ARITHMETICAL COOK.—Jones: I thought I warned you particularly, cook, against boiling my eggs hard. Now, how is this? Here they are boiled fit for salad, in spite of every direction. What did I tell you? Cook: Oh, sir, I remember exactly. The eggs were in the water to a moment precisely nine minutes. Jones: Nine! I told you three. Cook: yes, sir; but there's three eggs. Of course, if one takes three minutes boiling, three must take nine. I may be a fool, sir, but I happen to know what three times three makes, for all that.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 23.—His Holiness the Pope who was at first strenuously averse to any conference whatever for the settlement of the Roman question, has, at length, withdrawn his objections, and is now in full accordance with the proposition of Napoleon.

The Government of Bavaria, which it was asserted would not join the Conference, has also signified its acceptance of the French plan.

Many of the details of the Conference have already been agreed upon.

Munich, in Bavaria, has been chosen as the place, and the 11th of December as the time.

Since the last despatches, the Governments of Italy and Wurtemburg have signified their intention of accepting places in the Conference.

The Paris *Patrie* of this morning, in a leading article, on the subject, takes occasion to deny the report that Gen. Dix had expressed any desire for the representation of the United States in the Conference.

LONDON, Nov. 23, evening.—Despatches just received from Manchester state that the city is quiet.

PARIS, Nov. 23.—It is asserted that the concession applied for by the Franco-American Telegraph Cable Company, and which was refused has, at length, been granted by the French Government for a term of years.

Second Despatch.

LONDON, Nov. 24, 10 p.m.—The expected demonstration of sympathy for Allen, Gould and Larkin took place to-day at noon. A funeral procession, consisting of about two thousand persons, was formed and slowly marched to Hyde Park. One of the most conspicuous objects in the procession was a large black banner, upon which was inscribed the motto: "Man's inhumanity to man makes countless thousands mourn." On the arrival of the funeral at Hyde Park, a solemn meeting was organized according to the programme previously announced. Three stands had been erected on the grounds, from which, during the afternoon, the people were addressed by various speakers. Strong appeals were made to the sympathies of the audience, and the hurried executions at Manchester were condemned in bitter terms. Notwithstanding the peculiar nature and character of the assemblage, good order prevailed throughout the proceedings, and the police, who were prepared for an emergency, were not called upon to interfere.

This evening a similar meeting was held at a public hall in this city, which was largely attended by Irishmen. No disturbance whatever occurred, and the city is perfectly quiet.

The prominent Fenian leader Col. Burke, was arrested here to-day. It is alleged that he was the organizer of the secret expedition which threatened the capture of Chester Castle in February last.

PARIS, Nov. 24.—Despatches from Rome announce that the Holy Father, in accordance with the advice of France, has ordered the release of all the Garibaldians who were taken prisoners by the Pontifical troops during the late campaign.

Transports have been ordered to sail on Monday from Toulon for Civita Vecchia, where they will take on board one division of the French expedition in Italy and return to France.

FLORENCE, Nov. 24.—It is reported that Garibaldi is lying seriously ill in prison, and that his sons have both hurried to his bed-side.

The journals of this city deny the truth of the report that the Italian Government is about to raise a new loan.

LONDON, Nov. 25, noon.—Consols firm at 94¾; Bonds 70⅝; Ill C 85; Erie 46¾.

LONDON, Nov. 25, 2 p.m.—I C 85¼; Erie 46⅝. Others unchanged.

LONDON, Nov. 25, eve.—Consols 94¾; Bonds 70⅝; I C 85¼; Erie 46¼.

LIVERPOOL, Nov. 25, noon.—Cotton heavy and declining. Other articles unchanged.

LIVERPOOL, Nov. 25, 2 p. m.—Cotton heavy and declined ⅛d. Common Rosin declined to 8s. Linseed Oil £39. Sugar quiet and steady.

LIVERPOOL, Nov. 25, evening.—Cotton closed heavy and irregular; rather more doing; prices declined ⅛d; Uplands 8d; Orleans 8⅛d. Other articles unchanged.

American Despatches.

CINCINNATTI, Nov. 23.—The steamer "Bertha," from New Orleans, heavily freighted, for Cincinnatti, sunk at Vinoy, Ind., to-day, and was a total loss. Boat and cargo valued at $140,000.

NEW YORK, Nov. 50.—The *Herald's* Watertown, Ind., special says Weston arrived at Waterloo at 11:30 p.m., and will remain over Sunday. He will leave for his last hundred miles trial from here at 12:15 on Sunday night.

CHICAGO, Nov. 23.—Flour dull and unchanged. Wheat steady at $1 72 to $1 72½ for No 2.—Corn steady at $1 57 to $1 60. Rye dull, at $1 30 for No 1, and $1 29 to $1 30 for No 2. Provisions dull. Mess pork $19 50; extra prime pork $15 50. Beef cattle quiet, at $5 20 to $6 00 for fair to good shipping. Hogs quiet, at $5 75 to $6 10 for good to extra choice; $6 40 to $6 60 for fair to good. Receipts—6,000 bbls flour; 49,000 bus wheat; 75,000 bush corn; 24,000 bush oats; 8,500 hogs. Shipments—5,500 bbls flour; 94,000 bush wheat; 40,000 bush corn; 28,000 bush. oats. Freights inactive at 8c on corn to Buffalo.

—"The most quiet place I know," said Zekiel, "is Woodville, in Mississippi; there's no quarrel or rowdyism, nor fighting in the streets. If a gentleman insults another, he's quietly shot down, and that's the last of it."

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Toothe-Ache, Cramps, Spasms, Billious Cholic, in fact all pains, Aches and Infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in it e house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM;

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best pulmonary remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Perry Davis & Son, Agents for the Dominion of Canada. 159-1m 39w1m

Bay State Mining Company.

A GENERAL meeting of the stockholders of the above company will be held at Mr. Rous' store, Belleville, on THURSDAY, 28th instant, at 7 o'clock, p. m.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

(LIMITED.)

CAPITAL STOCK - - - - - - $72,000,

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL, McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
62 *Church Street, Toronto.*

And Dress Making.

MISS FRITH,

RESPECTFULLY announces to the public that she has just returned from New York with the largest and most select STOCK OF MILLINERY GOODS ever brought to Belleville, and to which she invites inspection.

Her stock consists in part of Bonnets, Ribbons, Flowers, Feathers, Velvets, Velvet Felt, and Waterproof Hats, Cloak and Dress Trimmings, Buttons, Collars, Cuffs, Laces, Lace Handkerchiefs, the latest style of French Corsets, Hoop Skirts, Woolen Scarfs, Woolen Hoods, Gloves, Dress Capes, &c.

Felt and Straw made over in the latest styles.

Hats, Bonnets, Cloaks, Dresses, &c., made up in the most fashionable manner, and on the shortest notice.

Belleville, Nov. 20, 1867. 172-tf 40tf

TO THOSE LOOKING FOR

MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,
Lessee,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF'S Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. Wyckoff will be in attendance to direct their working.

WYCKOFF & Co.

AND all other kinds of JOB PRINTING, executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

Walking Exploits.

The attempt of Weston to walk from Portland to Chicago has set the type mongers to hunt up parallels. The Albany *Express* is reminded of the feat of the great English pedestrian, Capt. Barclay, who in the early part of the present century, accomplished the previously unperformed feat of walking a thousand miles in a thousand hours—one mile in each hour. The feat had been attempted several times before, but without success, and has been done, or pretended to have been done, several times since; though generally under conditions that were suggestive of deception. Barclay, however, did his walk in the open air, in the sight of all men, and the magnitude of the wager, one hundred thousand pounds, was sufficient to inspire the utmost watchfulness on all sides. The task was performed, and although Captain Barclay suffered from exhaustion and pain, his limbs did not swell nor his appetite fail, and, in five days after the completion of his task, he went with his regiment to active duty on the Continent. The same pedestrian, when 25 years old, walked three hundred miles in oppressively hot days, and in June of the same year undertook to walk ninety miles in twenty-one and a half hours, for a wager of five thousand guineas. He succeeded, with but little fatigue, and had one hour and eight minutes to spare. In 1786, Foster Powell walked from Canterbury to London Bridge and back, one hundred and twelve miles in twenty four hours. But it must be remembered that these were special feats, while Weston's hundred miles in twenty-four hours, if he makes it, will occur during his great walk of thirty consecutive days.

Dickens' Desolate Home.

After living very happy, indeed, for many years with one whom he wed after the first full burst of literary applause had come up from England as "The Sketches of Boz" and "The Pickwick Papers" appeared Chas. Dickens and wife separated. This was nine years ago, when they parted; and speaking of the sad event, some one (we know not whom) has written: "Nine years ago this home was destroyed. Its heads went forth from its shelter in different directions, each surrounded by some of the children—each holding tightly together lips, which, as if closed by iron bands, then and since steadily refused to gratify the public curiosity as to the cause of the separation. Whatever were the elements which contributed to this sad termination of a union which stretched through twenty years, none who have partaken of the hospitalities of that home, can feel aught but the keenest sorrow and grief.—No wreck of empire, no field of ruined columns covered with friezes, capital and plinths, with empty shrines and broken altars is so touchingly, overwhelmingly sad. A home whence death draws some of its members to the silent churchyard, only lends new attractions to those who remain, toward the heavenly home, and only sheds a more tender sympathy and a deeper love among the survivors. But a home whence the inmates go—all living—with faces sternly averted, and at whose portals the angel paints the flaming sword, gathers around it all the gloom of a pagan burial; for the past is not, and there is no future."

GODEY'S LADY'S BOOK
For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,

BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.

MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Miriam,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PEMBIE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued.

MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudoir, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 00
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 00

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 00.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5.00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a true keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $6 a year if paid in advance, $6 50 if not. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of **general** interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six, lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to ensure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

England and America.

THE ALABAMA CLAIMS.

Mr. Latham, a barrister of London, who has made a book out of a three months' visit to our people, writes as follows:

"I have talked with a good many Americans on the subject of the Alabama claims, and the feeling evinced and the passion shown by one or two of them, convinced me of the importance of an early settlement of the matter in some way or other. I understand that when Mr. Shaw Lefevre was in Washington, he was astonished at an outbreak of temper from Mr. Seward when the subject of the Alabama was mentioned. Since the attack was made upon him at the time of Mr. Lincoln's murder, and since the death of his wife, which was caused in great measure by over-fatigue in nursing him after that attack, Mr. Seward, it is said, has never been the man he was before, and his temper has been so little under control as to cause considerable uneasiness to his friends; but I have heard other American gentlemen use language unmeasured when the Alabama was mentioned. On points of national pride Americans are far more sensitive than we are. Their feelings are that when they were down and in distress, France took a dirty advantage of them in the invasion of Mexico, and England in the matter of the Alabama.—The French have evacuated Mexico, and England must now be called to account. This is the general feeling of the nation; besides this there is the special grudge among the shipowners whose trade was diverted in English bottoms, and among the merchants whose goods are burnt. A war with England, attended by reprisals on the English commerce, would be as they think, for the interest of both merchant and shipowner; further, it would give them a chance of revenge, which Americans love more than money. With all this, there does not exist among them any serious belief in the probability of a war with England; but it would take very little agitation to make them think of it seriously. The Americans are capable of a stronger love and a stronger hate for England than for any other nation, and I really think it may depend somewhat upon the speedy settlement of the Alabama claims, one way or another, which it shall be."

To which the editor of the London *Athenæum*, Mr. Hepworth Dixon, responds:

"No man can travel the United States, even though he should eat terrapin daily, without hearing from the best friends and most courteous hosts the same language.—For the moment, through the misleading under which we fell, we have placed ourselves, as a nation, in the same relations to America as that in which Austria formerly stood towards Italy. America is estranged before us. She may not wish to fight us, but she bears us a bitter grudge! and in any trouble we should have to reckon her as amongst those who would be against us. Such a state of things is perfectly unnatural and unecessary. We have hurt her, she thinks, wantonly; and we ought to do everything in our power, parent State, to put away the memory of this wrong. 'Tell your friends in London,' said our late Ambassador in Washington to an English traveller, who had called to say good-by, 'to settle this Alabama business, and soon, unless they have deliberately chosen to put an obstacle in the way of friendship between the two great branches of our race. These were the wise words of a man unrivalled in his knowledge of American feelings, Sir Frederick Bruce."

King Theodore and his Barbarities.

A letter, dated September 7th, from Lieutenant Prideaux, one of the Abyssinian captives, has been published. Further details are given in it of Theodore's cruelty and ferocity. During a plundering expedition he attacked a flourishing little town and captured 1,500 of the inhabitants, who were burnt alive in five large houses selected for the purpose. On a report reaching from him that 2,000 of the soldiers wished to desert, they were surrounded by others and their throats cut like cattle.—The mothers, wives, and children of these wretched men were pistolled by the soldiers, and 293 chiefs of the district have had their hands and feet cut off, and then been left to die with starvation. Lieut. Prideaux mentions a case in which the peasants of a district had repulsed the King's forces. In a letter dated Magdala, 7th September, Mr. Rassam also gives a pitiable account of the present condition of Abyssinia. The rebellion is now general, and the King has considerable difficulty in communicating with Magdala. Mr. Rassam confirms the story that Theodore had butchered 2,000 men who had intended to run away, and mentions other cruelties of a most barbarous character which are reported to have been perpetrated in the royal camp. Yet Mr. Rassam himself is treated by the King with which he calls "a mock friendship," and the chiefs of the fortress behave to him with great kindness. He complains of mismanagement on the part of the Colonel Merewether at Masowah in not sending him money, without which he and his party are in danger of starving.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

THANKSGIVING DAY.—Thursday next having been appointed as a day of general thanksgiving in the Diocese of Ontario, divine service will be held in Christ Church, at 11 A. M. and 7½ P.M. Collection in aid of the Building Fund. Seats free.

PROMOTIONS.—In the official *Gazette* of Saturday we find the following appointments: No. 8 Company, Ameliasburg.—To be Lieutenant, (temporary): Ensign Adolphus A. Benson, M. S., vice Peterson, promoted. To be Ensign, acting till further orders: Sergeant George D. Vandusen, vice Benson, promoted.

MINING INTELLIGENCE.—A gentleman from California, named L. F. Wilcox, exhibited today in this office, one of the finest specimens of quartz rock brought from the mines. It was taken out about twelve feet below the surface in the Township of Marmora, four miles from the village, at what is known as Bailey's Corners. The rock shown is a large slab, weighing about thirty pounds, an inch and a half in thickness, and is pronounced by experienced miners to be as fine a specimen of silver-bearing quartz as they ever saw. Assays of rock from this shaft, not so promising as the piece exhibited, yielded $25.60 in silver and $6.76 in gold. A company named the American Gold and Silver Mining Company has been formed, with a capital of $50,000, to work the mine, and they certainly open with fair prospects.

The House Yesterday.

Our Ottawa correspondent gives a portion of the proceedings of the House yesterday. In addition to the consideration of the Grand Trunk Bill, which passed its second reading, the motion to obtain a return from the Breweries was agreed to after a discussion. A motion made by Mr. Bellerose respecting the rafting of timber, created some discussion. Mr. Bowell believed, from letters which he had received from various correspondents, that the best way of disposing of the bill was to give it a six months hoist. If passed, it would prove injurious to the lumbering interests of the country. He moved that the bill be read a second time this day six months. After some discussion Mr. Bellerose offered the withdrawal of his motion if the amendment were withdrawn. Mr. Bowell refused unless the bill were withdrawn. It being six o'clock a motion to adjourn until to-day was carried.

Statistics.

From a Blue Book, entitled "Miscellaneous Statistics of Canada in the year 1866," just issued by the Finance Department, we obtain the following valuable statistical information. The total cost of the railways in Canada, Ontario and Quebec, up to 1866, has been $144,611,853. The total amount paid during the year for dividends, leases, interest, &c., amounted to $4,102,757, or not quite three per cent upon the total capital. Six lines paid interest upon a part, or whole, of their capital, namely, the Great Western, the Grand Trunk, the Welland, the Northern, the Brockville & Ottawa, and the Carillon and Grenville; and six lines are returned as yielding no dividends, namely, the London and Port Stanley, the Port Hope and Lindsay, the Cobourg and Peterboro, the Ottawa and Prescott, the Stanstead and Shefford, and the St. Lawrence and Industrie. The total number of passengers carried by these lines is given as 2,564,485; and the tons of freight as 2,087,878. The total working expenditure is set down as $6,274,51?.—The receipts from passengers, $4,322,048; from freight, $3,209,240; from mails and sundries, $455,080, and from rents and other sources, $122,514; which shows a total of receipts of $11,108,882. The total receipts in 1865 were $10,910,678. The total number of persons employed upon these lines is given at 8,882, of which number 5,457 are employed upon the Grand Trunk. The number of persons killed by accidents on the lines during the year is given as seventy-seven, and the number injured, one hundred and three.

The English Fenians Hanged.

The telegraph has already commenced the important fact that the law has been vindicated in Manchester, by the execution of the Fenian murderers in that city. It is painful to every man to hear of the extreme penalty of the law being carried out in any case, but every one who desires to live in peace and safety, cannot but approve the action of the Imperial authorities in the course they have pursued, in bringing to justice the murderers of the Manchester policemen, still it is difficult to reconcile the policy pursued in England, with that in Ireland and Canada. When the Fenian raid was made into Canada, and six or seven of the young men of the country, who had but a few hours before left their college studies and their work-bench, were shot by the ruffians who had polluted our soil, the Imperial Cabinet was not slow in counselling our authorities to be mild and forbearing in the disposition of the murderers. The English Press followed up this suggestion, by declaring that the whole raid was a matter for a few policemen to dispose of. And when the Fenian murders took place in Ireland the same policy of forgiveness and forbearance was not only manifested but carried out; but when carried to the doors of the Englishman himself, then murder becomes murder, and the law must be vindicated. Let us hope that we shall have no more of this sentimentality, and if again our shores are invaded and our volunteers lose their lives, the murderers may meet their reward with as little delay as possible. If this be the policy of the Crown we shall have very few raids in the future.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 23d, 1867.

We were entertained the other night with one of the old-fashioned debates.—For about two hours, the old fire was rekindled and the combatants did not spare each other in the least. It arose upon a motion made by Dr. Parker for copies of instructions, correspondence, and despatches from the Government of the Dominion, to the Lieut. Governor of Ontario, relative to the formation of a Ministry for that Province. In moving the resolution, he indulged in a good many charges against Ministers, and John S. Macdonald, accusing them of intrigue and travelling about the country like mendicants begging for support in every constituency in the Province. This brought down upon him the thunder of the Premier, Sir John A. Macdonald, who in reply informed the House that there was no correspondence, and that the only letter or document he would receive was the document appointing the Lieut. Governor. He then turned upon the Dr. and gave him one of those scarifyings, that are occasionally administered to refractory oppositionists when they forget themselves, and indulge in personal charges against the Ministry.

Next followed Mr. Mackenzie, who sympathized with his friend the Dr., and did not forget to pay his attention to Mr. John S. McDonald, who is the object of attack by every member of the Grit party who follows the lead of the defeated of South Ontario. Mr. McKenzie has a most faithful follower in Mr. Blake, who is ever ready to follow his leader and administer the lash to those who dare contradict him. Mr. John S. McDonald did not spare the pair, and followed them in a few bitter remarks, during which he declared that there had been no understanding between Sir John A. Macdonald and himself as to the formation of the Council for Ontario; that when Sir John A. commenced talking to him, he told him he must do so; that if he accepted the Premiership of Ontario, he must be free to act as he pleased, and there was no further conversation. He then turned upon Mr. Blake, and told him he was a Reformer, advocating the rights of the people before he was known, and the probabilities were that he (Mr. McDonald) would be here when he was gone. During this debate, if the lie direct was not given between Mr. McKenzie and Mr. John S. McDonald, flat and direct contradictions were, which sounded much more like an election combat in some school house in the back woods, than a debate in the Commons of Canada. The truth was too forcibly put by the Hon. John S. Macdonald to please the McKenzies and Blakes. He told them they had advocated the constitutional changes which he had opposed, not because the country required them, but because they thought that a change and an increase in the representation would place them, not only in possession of the Treasury Benches in the Commons, but give them the whole control of the government of Ontario, and having been disappointed, they were now like the viper, biting the file, and the result would be, they would lose their teeth.

On Friday we had another airing by certain members upon the question of indemnity to members. There are men of the Blake stamp, who talk to the reporters in the gallery, for the benefit of the people whom he expected to reach through them. Upon this occasion he allowed the sessional allowance to pass without question, though he denounced it as vicious in principle, but when he come to the question of mileage, then his large and comprehensive intellect found scope for its powers and economical leanings. He thought and argued that ten cents per mile was too large, and he moved an amendment to change the clause so as to pay members their actual expenses in coming to and returning from Parliament. This gave rise to a good deal of cross firing, and the eminent chancery lawyer, actually proposed to allow members what it might cost them, not to exceed a certain sum: the man who would call for his Port or Champagne at dinner, was to be allowed for it, while the man who did not thunk proper to dissipate, was to receive but his railway fare.

Sir John A. Macdonald ridiculed this proposition as unjust and false in principle. The result, he said would be that such men as the mover of the amendment would be running around and poking into every man's account, and then put their own a few cents lower, and after a session or two, just before an election, they would be moving for a return of mileage paid to members, for the purpose of making electioneering clap-trap out of it. There was but one fair way to deal with this question, and that was to pay all members a certain mileage, and then they could live as they pleased. This view was acquiesced in by the House, for Mr. Blake's proposition was laughed down without a division.

The Speaker is filling his position with right regal hospitality. Every Saturday night he entertains about 25 members of the House at dinner, and his spreads are gotten up in magnificent style. The first given in the House was on Saturday night last. It is a common remark, among members and the people of the city, that this is the true way of maintaining the dignity of the office; and that the turning of the Speaker's room into a free grog shop was demoralizing and productive of much harm.

The business of the Session will now be taken up in earnest. There are a number of Bills before the House which will receive a passing notice in future letters.

OTTAWA, Nov. 25, 1867.

On motion of Mr. Masson, for papers in reference to the appointment of magistrates, Sir John A. Macdonald stated that there had been no communication between the Ministry and the Local Government. For himself he was desirous of getting rid of the responsibility, and from conversation with the Premier from Ontario, he found the latter equally desirous of relieving himself from the troubles and annoyances of those appointed. Still he thought it a question which would have to be settled by legal tribunals. Mr. Cartier, however, argued strongly in favor of the Local Government's right to appoint magistrates, and that if there was the least doubt, it could only refer to Ontario, as the law was clear so far as it affected the other Provinces. Here then we have an answer to the long and labored tirades of the *Globe* for weeks, against the leader of the Government for doing that which he never did. The object had in view by that journal was subserved at the time. A large number of persons were led to believe that that gentleman had attempted, not only to control, but to usurp the powers of the Local Government, and it will not now take the trouble to undo what it has done, but endeavors as much as possible, to leave the false impression upon the minds of its readers.

In reply to Mr. Jones, of Halifax, as to "whether Government have taken means to ascertain the views of the American Government on the subject of a Reciprocity Treaty, and if not, whether it is their intention to endeavor to secure its renewal—also in the event of failing to secure its renewal, what course they intend adopting with reference to the granting of Licenses to American fishermen?" Mr. Cartier replied that the government was fully alive to the importance of the Reciprocity Treaty, and that all would be done that could be done, consistent with the dignity of the government, in pressing the question upon the Cabinet of the United States.

In reply to Mr. Anglin, Mr. McDougall said it was the intention of the Government to do all they could to improve the navigation of all parts of the Dominion, as the circumstances of the country would permit.

Mr. Smith enquired "whether it is the intention of the Government that the salaries of the Judges of the County Courts, recently established in New Brunswick, shall be paid by the Government of the Dominion of Canada?" Mr. Cartier replied that it was not only the intention of the Government to pay the salaries of the Judges whom they appoint, but of all the Judges whom the law compelled them to pay."

A motion was carried asking for the surveys and reports relating to the proposed canal to connect the waters of Lake Ontario and the Bay of Quinte; also showing the quantity and value of the lands originally reserved in the Township of Murray for the construction of the said canal.

A discussion arose upon a motion of Mr. McKenzie, asking for the correspondence relative to the forcible abduction of a British subject from the Township of Moore, near Sarnia. The mover declared that if these things were allowed, we should be living upon sufferance. Mr. Cartier replied that the correspondence was not in such a state as to justify them in making it public, and Mr. McDougall did not think it right for members to use such menaces in the House, as they had found that whenever representations had been made to the American Government of the violation of the Ashburton treaty, they had always been conceded and reparation made. Mr. Mcdonald, (J. S.) also said that upon one occasion the American Government had demanded a man who had been tried and was undergoing his sentence in the Penitentiary; the Canadian Government at once consented to the surrender, but so soon as the United States Government ascertained the character of the man, they refused to take him, and allowed him to complete his time in our prison.

The introduction of "An Act to amend the Grand Trunk Arrangements Act of 1862, and for other purposes," was good for a long and acrimonious debate. Mr. Howe led the van, followed by the Snarleyow of the House, the member for Lambton. The old objections were repeated with amendments and additions. The House evidently had no relish for this sort of thing, and the Bill was read a second time and sent to the Railway Committee. What the Company asks is to be allowed to issue second preferential equipment mortgage bonds, not to exceed £500,000. To this there could be but one objection, and that would be the effect it would have upon the present preferential bond holders without their consent, but this objection was removed by Mr. Shanly stating that that consent had been obtained, and would be produced before the Committee when the Bill was referred. The next power asked is to vary the agreement made between the Grand Trunk and Lake Huron & Buffalo and other Railways. This of course was objected to by the Western Grits. It must be borne in mind that the company asks for no aid from the Ministry, and there is no reason why the Managers of the road, so long as the stockholders, or a majority of them are agreed cannot make such arrangements for the more effectual working of the road as they please, so long as the interests of the country are not injured. Certainly the commercial interests of this Dominion will be subserved in placing £500,000 worth of extra rolling stock upon the road, and there can be little doubt that the law will pass.

Editorial Summary.

—Five ship-loads of German emigrants are on their way to Texas.

—In Iceland the clergyman kisses his congregation all round before preaching.

—It is reported that the Hon. George Brown will return to Canada on or about the 15th of next month.

—It is estimated that the present stock of wheat in California amounts to two millions two hundred thousand centals.

—Why is a husband like a Mississippi steamboat? Because he never knows when he may get a blowing up.

—The *Herald's* Havana special states that a negro raising in Jamaica was expected to take place about Christmas.

—Official returns shows that one thousand and fourteen persons lost their lives in the late hurricane at the island of St. Thomas.

—The turret system in the construction of war ships does not find favor with the British Admiralty, notwithstanding a general desire, it is said, to give it a fair trial.

—The Union Pacific Railroad is now finished to the eastern base of the Rocky Mountains.—It is expected the track will be laid to Evan's Pass, thirty miles further, in January.

—The *Tribune* says: Only two of the 1,900 volumes of Dickens's works in the New York Mercantile Library, were on their shelves on Tuesday.

—The very latest fashion of the day in New York is, for the parties about to be married in church a day or two before hand, and rehearse the whole of the ceremony, music and all.

—Within the past few weeks large quantities of oats, potatoes and poultry have been shipped from Prince Edward's Island to Bermuda. Two schooners, laden with these commodities, sailed from Charlottetown for Bermuda a few days ago.

—General R. E. Lee appears to be as reticent on political matters as General Grant. It is stated that when asked recently his opinion of the political state of the country, he replied that politics were not the subject of his thoughts.

Brigham Young, of Utah, has recently instructed the young men of his faith to marry "right off" all the unmarried girls, and not allow themselves to be guided by love, but marry as they come. Love he pronounces a humbug, and winds up with saying that after a certain time any girls "are left over," he will marry them.

A funny writer advises that when your friends are laid up with rheumatism always press them to come over and take tea with you, while such little acts of kindness entail no expense they procure for you a large reputation of sympathy and neighborly kindness. With proper discrimination, there is nothing that pays a better profit than goodness of heart.

The "Local" of the Hamilton *Times* who was a "sojur in the war," was relating how the "rebs" fired upon his company while marching through a thick wood.—They gladly obeyed an order to lie down, but there was nothing to shield them from the terrible volleys of the enemy. "Why didn't you get behind a tree?" asked the other. "Tree, the d—l," said the Local, "there wasn't trees enough for the officers."

COMPLIMENTARY TO PRINTERS.—A rustic thus gives vent to his feelings on seeing a printer: "They may talk about a tailor being only the ninth part of a man, but I will describe one of these 'ere type chaps. I wept at the sight. He was as thin as a whippin' post and his skin looked like a blown bladder after some of the air had leaked out, kinder wrinkled and rumpled like, and as dim as a lamp that's living on short allowance of ile: he put me in mind of a kitchen tongs, all legs, shaft and head and no belly: real needle-gutted lookin' critter; as hollow as a bamboo walkin' cane, and twice as yaller. He looked actually as if he had been drawn through a gimblet-hole. Thinks I, as I turned my eyes in disgust, "the Lord a massy on you, ye essence of starvation and misery!"

CHICAGO, Nov. 25.—Flour dull and unchanged. Wheat steady at $1 72 to $1 73½ for No 2.—Corn steady at $1 07 to $1 06. Rye dull, at $1 36 for No 1, and $1 29 to $1 30 for No 2. Provisions dull. Mess pork $19 50; extra prime pork $15 50. Beef cattle quiet, at $5 20 to $6 00 for fair to good shipping. Hogs quiet, at $5 75 to $6 10 for good to extra choice; $6 40 to $6 60 for fair to good. Receipts—6,000 bbls flour; 49,000 bus wheat; 75,000 bush corn; 24,000 bush oats; 8,500 hogs. Shipments—5,500 bbls flour; 04,000 bush wheat; 40,000 bush corn; 28,000 bush. oats. Freights inactive at 8c on corn to Buffalo.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 25, (noon).—Excited demonstrations have occurred in all the large cities of England and Ireland, among Fenian sympathizers, but there were no open riots.

BELFAST, Nov. 25, (noon).—Several formidable bread riots have occurred here lately but were suppressed.

LIVERPOOL, Nov. 25, (evening).—It is reported that Kelly, the Fenian rescued at Manchester some time since, has been recaptured on the steamer City of Paris at Queenstown, bound for New York.

FLORENCE, Nov. 25.—The Ministers of War and of Justice in the new cabinet have been chosen deputies to Parliament, after a closely contested election.

A bulletin from Varignano reports Garibaldi is considered better by the physicians this morning.

LONDON, Nov. 26, noon.—Consols held at 94½; Bonds 70½; Ill C 85¼; Erie 46¾.

LIVERPOOL, Nov. 26, noon.—Cotton dull and and irregular; Uplands 8d; Orleans 8¾d. Breadstuffs irregular though prices quotably unaltered.

SOUTHAMPTON, Nov. 26, noon.—The steamer *Hermann*, from New York has arrived.

LONDONDERRY, Nov. 26, noon.—The steamer *Peruvia*, from Quebec, has arrived.

LONDON, Nov. 26, 2 p.m.—The steamer *Atlanta* from New York has arrived; Erie 46¾ others unchanged.

LIVERPOOL, Nov. 26, 2 p. m.—Breadstuffs dull; Wheat 13s 3d., for No. 2 Red Western; Corn 48s 6d.; Sugar firm.

Second Despatch.

PARIS, Nov. 25, eve.—The Emperors of Russia and Austria have formally signified their intention of participating in the proposed conference for the settlement of the Roman question, as suggested by the Emperor Napoleon, as have also nearly all the smaller powers of Europe. The course that Prussia may pursue in the matter is not officially known, but it is believed she will send representatives. The note recently sent from Great Britain on the subject, is accepted here as a mere formal objection. His Holiness, the Pope, is known to oppose in advance, any action of the conference which invades the rights he now enjoys, and particularly any plan divesting him of his temporal power.

LONDON, Nov. 25, eve.—Despatches have been received which state that the illness of Garibaldi was caused by the harsh treatment of the Italian prison officials, who took that course with a view of driving him to the United States or elsewhere out of the country.

LONDON, Nov. 25.—Notice was given in the House of Commons this evening, that the Seward-Stanley letter, relative to the Alabama claims, would be called for on Thursday next.

American Despatches.

CHICAGO, Nov. 26.—Weston arrived at South Bend, Ind., at 9 o'clock last night, and abandoned his fifth attempt at 100 miles in twenty-four hours.

NEW YORK, Nov. 26.—The steamers *Persia*, and *City of Washington* from Liverpool, and the *Europa* from Glasgow has arrived.

SPECIAL NOTICE.

R. R. R.

90 out of 100 of deaths, that annually occur, are caused by preventable diseases, and the greater portion of those complaints would, if Radway's Ready Relief or Pills (as the case may require,) were administered when pain or uneasiness or slight sickness is experienced, be exterminated from the system in a few hours. Pain, no matter from what cause, is almost instantly cured by Ready Relief. In cases of Rheumatism, Neuralgia, Sore Throat, Diptheria, Colds, Head Ache, Tooth Ache, Cramps, Spasms, Bilious Cholic, in fact all pains, Aches and infirmities either in the Stomach, Bowels, Bladder, Kidneys, or the Joints, Muscles, Legs, Arms, &c., will in a few minutes yield to the soothing influence of the Ready Relief.

Every family should keep these life-saving remedies in the house;—can be used on all occasions, where pain or sickness suddenly seizes you, or accidents occur—are safe and rapid in their effects—can be taken or used by infants as well as adults—and all who use them, no matter how sick or great may be their sufferings—a few hours in the worst cases, and a few minutes in ordinary complaints, will afford ease and comfort.

See Dr. Radway's Almanac for 1868.—R. R. R. sold by Druggists. 158-2w 38-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

ALBANY, J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - - - - - $72,000.

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
62 *Church Street, Toronto.*
Toronto, November 20th, 1867. 173tf

PROSPECTUS OF
THE WELLINGTON GOLD MINING COMPANY
OF MADOC: Limited.

To be Incorporated by Letters Patent, under the Provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments Thereto.

Capital Stock $200,000, divided into 40,000 Shares of $5 each.
Of which $100,000 is reserved for working capital.

DIRECTORS:

The HON. JOHN CARLING, M. P. JOHN CRAWFORD, Esq., Q. C., M. P.
ADAM CROOKS, Esq., Q. C. THOMAS LAILEY, Esq., Merchant.
A. M. SMITH, ESQ., President of the Royal Canadian Bank.

Manager and Superintendent—HUGH R. FLETCHER, Mining Engineer.
Secretary and Treasurer—H. S. LEDYARD.
Solicitors—Messrs. McMURRAY & RAE.
Bankers—THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot number eighteen in the fifth concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situate upon the West end of the Richardson Hill, and a continuation of the Quartz Lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 800 feet along this lead.

Another Quartz Lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the ElDorado, the Moore Mine, the Royal Canadian and Kootaney Mines, and the property is bounded on the East side by the Richardson Farm and the territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of Copper ore, than at the Richardson; and as this property is situate upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of The Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively $36 and $62 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer, of Madoc, returned $22 of Gold and Silver to the ton, and as these assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

ONE DOLLAR per Share to be payable on application, and the remaining $4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock, and other communications to be addressed to the Secretary.

Albany Lumber Market.

REVIEW FOR THE WEEK ENDING NOV. 20.

Lumber receipts are smaller, and from present appearances but little more will come in. The supply, however, is ample, and the assortment pretty good.

The sales have been fair, but not so active as usual at the closing part of the season. Some large transactions are reported on private terms.

Prices are about the same as last week; some dealers prefer holding till next year, rather than meet the views of a part of the buyers.

Shipments have been large, employing all the vessels in port, and rates of freight are advancing, owing to the cold weather and the presence of ice in the river.

The rates of freight are :to New York $1.75; to New Haven and Bridgeport, $2 50; to Middletown and Norwich, $3 00; to Hartford and Providence, $3 25 to $3 50. Other places there is no clearance.

The receipts by the Erie and Champlain canals during the 2d week in Nov. in the years named are as follows :

	Boards and Scantling, ft.	Shingles, M	Timber, Staves, c. ft.	lbs.
1866	10,794,365	60		
1867	10,794,865	882		

The receipts by the Erie and Champlain canals, from the opening of navigation to Nov. 15th, in the years named, were as follows :

	Boards and Scantling, ft.	Shingles, M.	Timber, Staves, c. ft.	lbs.
1866	393,350,488	87,674	128,019	52,219,983
1867	323,449,174	23,571	58,093	23,286,281

The falling off in the receipts of lumber during the second week of over two millions of feet, reduces the surplus over last season to a trifle below six millions of feet.

The following table shows the prices current at the principal yards at the date of our report :

Pine, clear, ₱ m.	$53 00 @ $58 00
Pine, fourth quality, ₱ m.	43 00 @ 48 00
Pine, select, ₱ m.	43 00 @ 48 00
Pine, pickings, ₱ m.	00 00 @ 00 00
Pine, good box, ₱ m.	23 00 @ 30 00
Pine, common box, ₱ m.	19 00 to 21 00
Pine, clap boards, strips, ₱ m.	53 00 @ 57 00
Pine, 10 inch plank, each	00 38 to 00 41
Pine, 10 inch plank, cu.ls, each	00 27 to 00 30
Pine, 10 inch boards, each	00 28 @ 00 31
Pine, 10 inch boards, cu.ls, each	00 22 @ 00 23
Pine, 12 inch boards, 16 feet, ₱ m.	26 00 @ 28 00
Pine, 12 inch boards, 16 feet, ₱ m.	27 00 @ 30 00
Pine, 12 inch boards, 13 feet, ₱ m.	26 00 @ 28 00
Pine, 11 inch siding, ₱ m.	37 00 @ 40 00
Pine, 11 inch siding, selected, ₱ m.	42 00 @ 45 00
Pine, 11 inch siding, common, ₱ m.	20 00 @ 21 00
Pine, 1 inch siding, ₱ m.	28 00 @ 33 00
Pine, 1 inch siding selected, ₱ m.	38 00 @ 40 00
Pine, 1 inch siding, common, ₱ m.	18 00 @ 20 00
Spruce, boards, each	00 18 @ 00 20
Spruce, plank, 11 inch, each	00 22 @ 00 28
Spruce, plank 2 inch, each	00 38 @ 00 40
Hemlock, boards, each	00 16 @ 00 17
Hemlock, joist, 4x6, each	00 32 @ 00 34
Hemlock, joist, 3x4, each	00 16 @ 00 15
Hemlock, wall strips, 2x4, each	00 00 @ 00 14
Hemlock 2 inch, each	31 00 @ 32 00
Black Walnut, good, ₱ m.	35 00 to 45 00
Black Walnut, second quality, ₱ m.	40.00 to 45 00
Black Walnut, ½ per m.	55 00 to 60 00

Maple, per m.	25 00 @ 35 00
Chestnut, per m.	45 00 @ 55 00
Shingles, first quality, shaved pine ₱ m.	8 50 @ 9 00
Shingles, 2nd quality, shaved pine, ₱ m.	7 00 @ 7 50
Shingles, extra quality, sawed pine, ₱ m.	7 00 @ 7 50
Shingles, clear sawed pine, ₱ m.	6 00 to 6 50
Shingles, cedar, ₱ m.	4 00 to 6 25
Shingles, sawed hemlock, ₱ m.	2 50 to 3 75

—Evening Journal.

$50 Reward.

WHEREAS, on the night of the 29th, or morning of the 30th of October last, a male infant about four weeks old was abandoned in a garden convenient to Rev. Wm. McLaren's residence, in this Town. I hereby offer a reward of Fifty Dollars for such information as shall lead to the apprehension and conviction of the offending party.

By order of the Mayor and Town Council.

GEORGE JAMES,
Chief of Police.

November 21st, 1867. 40w1t-173d6t

TO THOSE LOOKING FOR

MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms :—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,
LESSEE,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF's Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows :

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING :

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of Plain and Fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, WEDNESDAY EVENING, NOVEMBER 27, 1867. No. 178.

The Great Colliery Explosion.

A fearful calamity occurred at the Ferndale Colliery, in Rhondda Valley, on Friday, Nov. 8. For some days in the end of last week the weather was foggy. So dense was the mist on Friday morning that nothing could be distinguished half a dozen yards off, and, in the neighborhood of the colliery, which is situated at the bottom of a valley, between two ranges of lofty hills, the fog was particularly thick. No doubt this state of the air interfered with the ventilation of the pit, and occasioned an accumulation of fire damp. The explosion occurred at 1½ o'clock, and the report was heard throughout the valley. Flames burst up the shaft of the pit, accompanied by a shower of ashes and st nes. Messengers were sent down the valley to neighboring pits, and over the hills to Aberdare and Merthyr, and from all parts of the district workmen rushed to the scene of the disaster. The manager of the colliery, Mr. J. Williams, was down in the workings at the time of the explosion, and efforts were first made to find him, if possible, so that, if alive, his assistance might be had in directing operations for the rescue of the men. He was among the first found, but unhappily he was dead, having been suffocated by the choke-damp. Exploring parties were rapidly formed, and sent into all the workings, but the air was very foul, and they had to proceed cautiously for fear of another explosion, the pit having been so shaken that large quantities of gas had escaped. They were also met by heavy falls in the airways, and in many instances the men had to be dug out with pick and shovel. The process was very slow, and it was found that almost all had been suffocated by the carbonic acid gas before the men could descend the shaft to their assistance.

On Saturday afternoon the Coroner for the County of Glomorgan impanneled a jury, and inspected the bodies of the dead. A visit to the desolate homes where they lay, disclosed cases of the most distressing character, whole families having been swept off. In one house a father and three sons lay stretched in death as though they were calmly sleeping, and the fourth son lay dead a few doors off. In another family of six that went out well and hearty in the morning, only one had been brought back alive, and he will be a cripple for life should he survive his injuries. In some houses the poverty of the occupants was so great that they were destitute of the means of laying out the bodies, and consequently the corpses in all their ghastly disfigurement lay on the stone floor covered with sacks. In one house two lads injured lay on the floor as they were brought from the pit, the inmates fearing to touch them lest they should kill them too soon. In most of the houses the distress and sorrow were intensified by the too well-grounded fear that others were to come to swell the list of victims. In all cases certificates of burial were given, and the funeral expenses will be borne by the firm in whose service the unfortunate fellows have died.

The latest despatches of Monday, Nov. 11, state that there is some hope entertained that the number at first stated to be in the pit was somewhat over estimated.—Still, however, the number of deaths will not fall short of 200. The damage to the pit, which is somewhat considerable, has been confined to the western workings, and since the explosion took place every effort has been used to remove the *debris*, and restore pure air into the pit. But few bodies have been removed since Saturday. At present it is impossible to give the exact number that have perished, as no account to be relied on can be obtained.—Some say there are 170 in the pit at the present time, while others say there are 253 bodies to be brought up. Several of the poor fellows who were brought up alive have since died, and the number of deaths so far is 55.

"I hope this hand is not counterfeit," said a lover as he was toying with his sweetheart's fingers. "The best way to find out is to *ring* it," was the neat reply.

Curious Hotel Bill.—At a Highland hotel, a few days ago, a unique bill was presented to a gentleman who had made a few hours sojourn at the establishment, in order to refresh both himself and his pony. It contained only one brief and expressive item, without punctuation, viz.:—"For eating yourself and horse four and thripause."—*Edinburgh Daily Review.*

A Cleveland reporter looked into forty two saloons in that city the other evening, and found an average of nine persons in each. Taking nine as the average, he figures as follows: We have about 620 places where liquor is sold in the city; the multiplication of these figures gives us 5,580 persons drinking in the saloons. They will spend on an average about thirty cents each, which gives a total of $1,774. Multiply this number by 300 as the days of the year when the custom is good, and we have the enormous sum of $534,200 for liquor. This is only figuring from the number seen in the saloons in the course of a two hours walk. The amount of money taken in at these places for liquor is probably $1,800,000 a year. The city gets about $35,000 of this sum for licenses, leaving about $1,765,000 for the liquor dealers.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent.** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

BELLEVILLE, WEDNESDAY, NOV. 27.

☞SEE FOURTH PAGE.

PROMOTED.—We observe, with pleasure, among the appointments in the last *Gazette* the following of brevet rank: To be Major: Capt. Wm. P. Phillips, District Quarter Master, Kingston.

ANOTHER MILITIAMAN OF 1812 GONE.—Died at Belleville on Wednesday, Nov. 20, 1867, Mr. Edward McConnel, in the 78th year of his age. The deceased did duty in the Hastings Militia, and he also did gunboat duty on the river St. Lawrence in the war of 1812.

LONDON QUARTERLY.—The contents of the October number are: Royal Authorship; the French Retreat from Moscow; Trades' Unions; Sir Henry Bulwer's Historical Characters; The Talmud; Science in Schools; Portraits of Christ; The Abyssinian Expedition; The Conservative Surrender. Re-published by the Leonard Scott Publishing Co., New York, at $8.00 a year. For terms of the Review and Blackwood see advertisement.

The Commercial Bank.

The Commercial Bank Bill was before the Committee on Banking and Commerce yesterday. The Directors submitted a statement to the Committee, which shows that about $2,000,000 of the liabilities have been paid off, and that the surplus assets of the Bank are now about $2,400,000 above the liabilities. This statement affords grounds of good hope to the shareholders of that old and favorite institution. The Detroit and Milwaukee bonds are estimated at fifty cents on the dollar, making $900,000.

Newspaper Postage.

If the Government complies with the wishes of the newspaper press, it will allow newspapers to circulate free of postage when posted from the publishing office. With scarcely an exception, the journals which have given expression to their views upon this point, advocate the abolishment of newspaper postage, and support their position with arguments which must have great weight with the Government in the disposition of this question. The publishers of the Maritime Provinces have taken the matter in hand, and at a recent meeting adopted the following resolutions, which they request the press of Canada to publish:—

1st. That the press being a prominent means of enlightening and educating the people, it is unwise to circumscribe the sphere of its influence by the imposition of a tax, which must in most cases have this effect, and which being novel in the Maritime Provinces, would be the more severely felt and especially in the rural districts, and would be appealed to as an evidence of the injurious effects of Confederation.

2nd. That the principle of exempting the press from postage, on the ground of its being a means of promoting education and diffusing scientific, and general knowledge, is now recognized in the consolidated States of Canada.

3rd. That the imposition of newspaper postage would involve additional labor, risk and expense on the part of publishers, to an extent at least equal to the amount of revenue derived from this source, and would therefore place additional burdens on a class of persons who pay their fair share of taxation otherwise.

4th. That the collection of newspaper postage, if made effective, and accompanied by proper checks and rigid surveillance over publishers' issue lists, must involve so much additional expenditure on the part of the Post office as would tend materially to decrease the revenue derived from this source.

5th. That the carrying of newspapers imposes very little expense on the Post office Department in addition to what is incurred by the carrying of letters; all other legitimate means of raising a revenue should for this and other reasons already stated be exhausted before this mode of doing so should be adopted.

6th. That the representatives of New Brunswick in Parliament who concur in the sentiments expressed in these resolutions, be respectfully requested to use their influence to prevent the imposition of newspaper postage. The other journals published in our Province have been communicated with by telegraph and their concurrence in the above resolutions has been received.

The Maritime Provinces.

From our Maritime Provincial exchanges received this morning, we obtain some items of information. The Nova Scotia Government has appointed a commission to examine and report upon the state of the public departments and the financial condition of the Province. The *Colonist*, *Express*, and other papers ridicule the movement and pronounce it unnecessary and a waste of public money.

The appointment of Hon. Mr. Rose as Finance Minister seems to be well received in the Maritime Provinces. The St. Johns (N. B.) *News* says: "Mr. Rose is a man of mark—a man of high character, ability and experience. In his new position his forethought, wisdom and energy will be taxed to the uttermost. A grand opportunity is afforded him to acquire lasting distinction in the service of his country. The office to which he has succeeded is nearly the most important in the Dominion. Scarcely anything else that legislation could enact, or administration effect, would tell as powerful and healthfully upon the prosperity of the Dominion as the establishing of its finances upon a thoroughly sound and flourishing basis. We trust Mr. Rose will find upon the part of his colleagues the most earnest, the most cordial co-operation in devising and carrying out a system of the most stringent economy in every department of Government."

Thursday the 12th December, has been fixed for holding the elections for the seats in the Local Legislature of Nova Scotia, rendered vacant by the acceptance of departmental offices. Nominations will be made on the 5th.

The Judges of Nova Scotia have refused to accept their quarter's salaries at the rates formerly paid in that Province—from £700 to £800 per annum—claiming the right to be paid since the first of July at the same rate as the Canadian Judges, being nearly double their former salary.—Judges of New Brunswick are supposed to be taking the same course. The case is under the consideration of the Privy Council.

The following is from the Halifax (N.S.) correspondent of the Montreal *Gazette*, writing under date Nov. 21st: "In a commercial point of view, times are dull at present, but there are faint signs of early improvement. Both imports and exports are small for this season of the year. The West India market offers but very little inducements for shipments of fish. The United States market being dull, pickled fish could not be exported without absolute loss. Our market at present is overstocked with Canadian flour, and within the past few days the article has declined 30c. per barrel. Extra Canada is worth $9.10; No. 1 Canada $8.30; Extra New York $8.15. Very little doing in the West India trade. Our own market is tolerably well supplied with country produce, but prices rule high. During the present week, owing to the prevailing cold, coal advanced $1 per chaldron. Good Sydney now realizes $7, and that from other mines $6 per chaldron; but as there are several cargoes on the way from Cape Breton, these prices cannot be maintained many days. Within the past fortnight considerable quantities of Canadian merchandise have arrived here via Portland per steamer "Carlotta," and "Flamborough," via Pictou, to the great chagrin of the Anti-Confederates.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 25th, 1867.

To-day the second reading of "An Act respecting the Rafting of Timber on the Inland Waters of Canada" was moved by Mr. Bellerose. This Bill is of a most objectionable character, and if it becomes law would prevent the carrying on of lumbering at the mouth of any of our rivers. The first clause provides that "no raft or part "of a raft descending or floating upon any "navigable river, stream, or other inland "water in Canada, shall be so moored or "anchored as that any portion of such raft "shall be within one hundred yards of any "wharf, landing place, or ferry station," which, if carried out, would so obstruct the lumbering business as to prevent the possibility of even rafting timber or logs at the mouth of any of our rivers. The feeling of the House was evidently against it, and Mr. Bowell, after briefly stating the effect of the Bill upon the lumbering interests, if passed, moved, seconded by Mr. Ault, that the Bill be read a second time six months hence, which brought up a number of members, Mr. Cartier among them, who desired the withdrawal of the motion, with a view to the referring of the Bill to a private committee for amendment, and Mr. Bellerose offered to withdraw his motion for the second reading, provided the motion for the six months hoist was withdrawn. This Mr. Bowell refused to do, unless the Bill was withdrawn altogether. The discussion continued until six o'clock, when the House adjourned until Tuesday at three o'clock.

OTTAWA, Nov. 26th, 1867.

A discussion arose to-day upon the reading of an election petition as to what constituted the fourteen days, within which the election petitions must be presented. The Speaker thought it better to be decided by an election committee. The Hon. J. S. McDonald taking the other view that it would be better for the House to decide, so that it might be established as a precedent. The real question is this, Do the fourteen days begin with the day upon which Parliament is summoned, or with the day upon which the Speaker is elected? It is contended by some, and the Speaker leans to the view, that Parliament does not exist until the Speaker is elected, while Sir John A. Macdonald was of the opinion that Parliament begins the day that Parliament is called together. Mr. Cartier expressed the opinion that election petitions must be governed by the law as it existed in each Province when the union took place. No decision was come to, and the petition was allowed to go before the Committee to hear counsel.

The next cause for airing was the introduction of a Railway Bill, by Mr. Crawford, entitled the St. Lawrence and Ottawa Railway Company. The Hon. J. S. McDonald raised the question, whether this was not a Bill that should come before the Local Parliament. The whole tenure of the debate led to the conclusion that if the Bill was to build a road connecting Ontario and Quebec, it belonged to this Legislature, but if the work was exclusively in Ontario, it should go before the Local Assembly of that province. The debate took a wide range, and all the powers of both Legislatures were freely discussed on both sides of the House without any practical result.

The Indemnity Bill was then passed a third reading without any amendment being moved, notwithstanding the promises of certain professed economists.

An Act for the Interpretation and construction of statutes, passed through committee, and the House adjourned till to-morrow.

The Senate is sitting to-night discussing the question of taking the patronage of the Senate out of the hands of the Speaker, and controling it themselves.

The Local Parliament meets in Toronto, on the 27th Dec.

The Writ for the election of member for Niagara has been issued. It is supposed Mr. Richards will be elected by acclamation, unless the *Globe* manages to bring out an opposition candidate.

To the Editor of the Daily Intelligencer.

The Street Surveyor Investigation.

MR. EDITOR,—I observed a statement in your evening's issue to the effect that the result of the investigation into the charges against the Street Surveyor was, that the charges were not sustained. I, for one, do not understand on what principle the public and the reporters were excluded. I should like to know at whose instance this course was adopted.

But, Sir, this secret session business will not do. The public will know more about it. For my part, I never expected the Council would find any fault with the Street Surveyor. They have not got the courage to act honestly in the matter. The official is too useful at elections to be interfered with, and his opposition might lose some members their seats in January—small loss, perhaps.

The only tribunal before which the officials of the town receive a just judgment is the people, and in this case the people wish to judge for themselves, instead of being put off with a report, the justice or injustice of which they know nothing about.

I would advise the people generally to attend the Council meetings at the new hall, and judge for themselves; for I fear the judgment of the Council will be influenced more by a terror of the Street Brigade, voting under the Surveyor's compulsion, than by a desire to protect either the interests or the pockets of tax-payers. TAX-PAYER.

Belleville, Nov. 26, 1867.

To the Editor of the Daily Intelligencer.

BELLEVILLE, Nov. 27, 1867.

DEAR SIR,—In this morning's *Chronicle* there appears an article headed, "Rowdyism Rampant," and a stranger on reading it would imagine that Belleville was the very hot bed of iniquity; that no man's life or property was safe therein, and that it has a character the very reverse of what it has always borne, namely, one of the most peaceable towns in Canada, taking its extent and population into question.

About one week since, the several vessels employed on the coasting trade were laid up for the winter and their hands discharged. Here about six or seven of the most notorious ruffians in Belleville were thrown into our midst, and like all sailors on discharge, plunged into the vices learned in Yankee cities, and too often imported to the New Dominion; but with all their faults, I have yet to learn that "inoffensive men were knocked down in the streets and their lives endangered." Who are the men from whom money was demanded? and why attribute "venality" to the Town Council because a few petitions were presented for remission of fines.

The public are always satisfied when any matter affecting its interests is well ventilated through the Press, but creating evils and alarming nervous members of the community is not the province of a journalist, and ought to be avoided as much as possible. In any case the morals of an entire Town should not be vitiated because a few drunken sailors return to their home after many months absence and spend their hard earned money in the company of their boon companions. When that money is spent they very soon subside and return to their ordinary employment.

A Town like Belleville, with upwards of 8,000 inhabitants, cannot afford to be all of the Roundhead type; there must be some cavaliers of the worst description amongst them, and the writer of this latter happens to know that some of the roystering brotherhood that about the witching hour of twelve disturb the dreamers of Front Street, are to be found, not amongst the rowdies, but amidst a circle from whom better conduct might be expected.

It is quite true that two Policemen are insufficient for a large Town like this. The recent municipal law makes it peremptory on the Town Council to appoint one for each Ward, and when the new station is in working order, it is to be hoped the additional men will be granted.

I will ventilate the Front street "Hell hole" in another communication, as at present I am hurried. Yours obediently,

CIVIS.

Editorial Summary.

—Efforts are being made to have Dickens read in Montreal.

—Randall's Elevator and the Novelty Mills in Oswego, were destroyed by fire on Monday.

—A lady in Washington was divorced last Tuesday morning, and married again at noon.

—Gold has been found 40 miles north of Lindsay, only three feet from the surface.

—A Gold Mining Board has been established in Toronto. It will facilitate the purchase of mineral lands, stock, &c.

—A brakesman named Ryan was crushed to death on the Great Western, near Wyoming, on Thursday.

—A Mr. Osgood Ward, of Wyoming, died on Thursday from the effects of a blow inflicted by his son.

—Chicago threatens to ruin New York by establishing a nearer route to the sea at the mouth of the James.

—When the Pacific Railroad and the Suez Canal are completed, we can steam it around the world in ninety days.

—The latest engagement gossip is that the Prince Imperial is to be engaged to the little Giselle, Francis Joseph's youngest.

—Rev. Dr. Chapin says that a man living amid the activities of the nineteenth century is a condensed Methusaleh.

—H. B. Claflin & Co., of New York, during 1866 sold $73,000,000 worth of dry goods, which beats any house in the world.

—The shrimp fisheries of Southport, Lancashire, employ hundreds of men, and a large proportion of potted shrimps are sent across the Atlantic.

—Dresden turns out 6,000 reams of albuminized paper yearly—enough for one hundred and twenty million photographs. Two million eggs are used in this manufacture.

—The steamer "L. Renaud," sunk at St. Anicette, has been raised and towed to Montreal by the steamer "Pierrepont," which went down with pumps from Kingston on Saturday.

—The death of Col. Robert Land, of Hamilton, at the age of 95, is announced. He served in 1812 and 1837, and was, we believe, the oldest Mason in the country.

—Lots on the main street of Omaha, Nebraska, sell at $100 to $300 per foot; common stores rent for $1,200 per year; and bootblacks charge 45 cents for a "shine."

—There used to be a man in Kingston, so the *Whig* says, who ran 54 miles in 5 hours for 30 consecutive days, ran 54 miles in 4 hours, and on another occasion 12 miles in 40 minutes.

—It is now definitely ascertained that the reported submersion of the Island of Tortola has been a hoax. Tortola, with the remainder of the West Indies, suffered from the hurricane, but not more than the other islands.

—A steamer will leave Dubuque within a few days for New Orleans, towing barges containing nearly one hundred thousand bushels of wheat for New York and Liverpool. This consignment is made to test the feasibility of using the entire water route, instead of by railroad and the lakes, as heretofore.

Miscellaneous Items.

Arizona says that the life of a small carrier on her lovely plains is as safe as that of a color-bearer in a first class battle, but then Arizona wants more troops.

Mrs Cunningham (of Burdell-Cunningham New York notoriety) is plaintiff before one of the District Courts in San Francisco in a divorce suit.

The Ontario Legislature will assemble about the 27th December, adjourn for a day or two at the New Year, and then sit until the completion of its business.

A fine specimen of the sea devil or fishing frog, taken off Cape Despair, near Percy Rock in the Gulf is now on view in Quebec. It was hauled up from a depth of nearly 300 ft. and contained a perfect codfish 2 feet 8 inches long in its stomach when taken.

After an unprofitable season, the Gloucester (Mass.) fishermen have closed operations for the winter. The catch has been from one half less than last year, and nearly 5,000 men and 400 vessels wait for another season and an opportunity to make up their losses.

An Irish agricultural paper says the best way to fatten geese is to put three or four into a darkened room, feed each bird one pound of oats daily, thrown into a pan of water. In fourteen days they will be found almost too fat. Never shut up less than two together, as they pine if left alone.

A quaint writer says:—"I have seen women so delicate that they were afraid to ride, for fear of the horses running away; afraid to sail, for fear the boat might upset; afraid to walk, for fear the dew might fall; but I never saw one afraid to be married, which is far more riskful than all the others put together."

A waterspout appeared in Lake Erie, near Buffalo, last Tuesday, a most unusual occurrence in such high latitude. The Buffalo Express says: About 1.30 the waters were observed to be singularly agitated some distance out, a little to the south of east. Gradually assuming the appearance of a wide-spreading palm, whose shaft tapered off as it approached the waves below, the waterspout then moved rapidly to the south-east, until lost to view. This singular phenomenon, although on a rather small scale, was watched with much interest by the gratified beholders.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 25.—In the House of Commons this evening, Mr. Disraeli, Chancellor of the Exchequer, moved a vote of supply of two million pounds sterling for the expenses of the Abyssinian war. He supported his motion with a speech, in which he recalled the various pacific efforts made in vain by England to obtain the release of the British captives, and justified the final action of the Government in sending a military expedition to Abyssinia. He thought that should it be found necessary to replace the Indian troops sent on the expedition the amount of the supply required by the Government might be increased by £350,000. A debate ensued.

Mr. Lowe made an attack upon Ministers to which Lord Stanley replied.

Mr. Jacob Bright has been elected to Parliament from Manchester.

FLORENCE, Nov. 26.—Garibaldi has so far recovered from his recent illness as to be considered by his medical advisers able to support the fatigue of travel, and by permission of the Government he will immediately set out from Varignana to his home at Caprera.

The reports that Italy had agreed to the proposition of France for a general Conference are premature. The Italian Government has not yet signified in any way its intention of joining the proposed Congress.

BERLIN, Nov. 26.—The merchants and brokers of this city, interested in American securities, propose to send an address to Mr. McCulloch, the Secretary of the Treasury, making inquiry in regard to the payment of the bonds in gold by the United States Government.

LONDON, Nov. 27, noon.—Head Centre Francis has been captured in Dublin.

PARIS, Nov. 27, noon.—The evacuation of Roman territory by the French troops has commenced.

LONDON, Nov. 27, noon.—Consols 94¾; Bonds 70⅝; Ill C 85¾; Erie 47¾.

LIVERPOOL, Nov. 27, noon.—Cotton dull and unchanged; sales 8,000 bales. Breadstuffs irregular. Corn advanced to 43s 6d. California white Wheat declined to 16s 6d. Other markets unchanged.

LONDON, Nov. 27, 2 p. m.—Bonds 70⅝; I C 85; Erie 47¾.

LIVERPOOL, Novr. 27, 2 p. m.—Cotton heavy and prices declined ⅛d; Uplands 8d; Orleans 8¼d. Breadstuffs quiet. Provisions dull. Pork declined to 70s. Lard declined to 50s. Bacon to 47s for Cumberland cut.

American Despatches.

BALTIMORE, Nov. 27.—Collyer and Kelly left this city last evening with a crowd for some point in Delaware, where a prize fight was to take place to-day. The police arrested one of the seconds and prevented the fight.

BOSTON, Nov. 27.—A race took place at Riverside Park yesterday between the horses Empress, McClellan and Regulator, and the Indians Deerfoot and Steeprock, the Indians to run 3½ miles before the horses trotted 6 miles. The race was won by the Indians in 15 min. 16 sec., while the horses were 16 min 19 sec. The race was for $1,000.

RICHMOND, Nov. 27.—Several witnesses for the Government were before the Grand Jury yesterday, which shows that Davis will be tried on a new indictment at the March term.

Mr. Davis will remain here several days. He will not spend the winter in Canada.

General Lee goes to Petersburg on Thursday to attend the marriage of his son, W. H. S. Lee.

The schooner "Volante" is ashore off Long Island. Two men were drowned.

By the nitro-glycerine explosion at South Bergen, N. J., on Monday evening, nine persons were killed and six wounded.

The Chamber of Commerce yesterday adopted the report of a special committee favoring the early resumption of specie payments, and a memorial to Congress was ordered to be prepared.

The *Tribune's* Washington special says the State Department has been for some time past endeavoring to negotiate the purchase of some of the Danish West India Islands, and it is now stated that two—St. Thomas and St. John—have been bought, subject to the approval of the United States Senate. All the inhabitants are said to be in favor of annexation to the United States.

The *Herald's* Washington special says Chief Justice Chase considered his duties in Washington of prior importance to going to Richmond.

RICHMOND, Nov. 26.—The time for the trial of Jeff. Davis is finally fixed for the fourth Wednesday in March.

NEW YORK, Nov. 26.—An immense mass meeting of citizens took place this evening at Cooper Institute, for the purpose of giving expression to the feeling of indignation caused by the recent outrages, or supposed outrages, on the rights of American citizens, perpetrated by the British Government. Speeches were made by Judge Daly, John Cochrane, Horace Greeley and others. Letters were read from Generals Banks and Butler. A committee was appointed to proceed to Washington to urge upon the Government the adoption of measures for the protection of naturalized citizens throughout the world.

Belleville, Nov. 11, 1867. 153-6m

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

(LIMITED.)

CAPITAL STOCK - - - - - - $72,000.

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the fifth Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
62 *Church Street, Toronto.*

Toronto, November 20th, 1867. 173tf

PROSPECTUS OF THE WELLINGTON GOLD MINING COMPANY OF MADOC: Limited.

To be Incorporated by Letters Patent, under the Provisions of the Act 27 and 28 Victoria, Chap. 23, and Amendments Thereto.

Capital Stock $200,000, divided into 40.000 Shares of $5 each.

Of which $100,000 is reserved for working capital.

DIRECTORS:

The HON. JOHN CARLING, M. P. JOHN CRAWFORD, Esq., Q. C., M. P.
ADAM CROOKS, Esq., Q. C. THOMAS LAILEY, Esq., Merchant.
A. M. SMITH, ESQ., President of the Royal Canadian Bank.

Manager and Superintendent—HUGH R. FLETCHER, Mining Engineer.
Secretary and Treasurer—H. S. LEDYARD.
Solicitors—Messrs. McMURRAY & RAE.
Bankers—THE ROYAL CANADIAN BANK.

THIS Company is organized for the purpose of developing the mineral resources of ten acres upon the Richardson Ridge, being part of the West half of Lot number eighteen in the fifth concession of the Township of Madoc, and for the purpose of smelting or otherwise preparing for market the ores of all kinds of metals and minerals, together with the acquisition and disposal of all lands, mines and ores that may be found of advantage to the interests of the Company.

The property of the Wellington Gold Mining Company of Madoc is situate upon the West end of the Richardson Hill, and a continuation of the Quartz Lead, upon which the celebrated Richardson Mine is located, passes through the entire length of the property, and gives facilities for mining upon 890 feet along this lead.

Another Quartz Lead also extends through the entire length of the property, which is supposed to be a continuation of the vein upon which several mines on the Moore Farm are situated, namely, the ElDorado, the Moore Mine, the Royal Canadian and Kootaney Mines, and the property is bounded on the East side by the Richardson Farm and the territory of the Union Mining Company.

The land of the Wellington Gold Mining Company possesses many facilities for mining operations; it lies upon a hill of such elevation that no trouble will be experienced from water, and upon the North side there is every convenience for a good dumping ground.

The discovery of the Richardson Mine was made owing to the appearance of purple copper ore upon the surface, and there are portions of the Wellington Company's property upon which are even richer shows of Copper ore, than at the Richardson; and as this property is situate upon the same hill as the Richardson Mine, having the same geological formation, and the same quartz leads continuing through it, there is no reason to doubt that the property of The Wellington Company will, when developed, rival in richness even the celebrated Richardson Mine.

Mr. Benjamin Lombard, of the Richardson Mining Company states that he caused two assays to be made of samples from the shaft now sunk upon the property of the Wellington Company, to the depth of twelve feet, which yielded respectively $36 and $62 of Gold and Silver to the ton, and from five pounds of average ore taken from the shaft, Mr. Wyckoff, Assayer, of Madoc, returned $22 of Gold and Silver to the ton, and as these assays were all made from specimens taken comparatively near the surface, no stronger evidence need be adduced of the exceeding richness of the leads upon this location.

It is proposed to continue the shaft already commenced, and also to run a tunnel through the hill, which will at once show the extent and number of mineral veins traversing the property, and thereby give great facilities for working them, and obtaining the ore therefrom in large quantities.

Developments will speedily be made upon the hill in addition to the work contemplated by the Wellington Company, as the Richardson Ridge Gold Mining Company are about to sink a shaft upon adjoining territory.

ONE DOLLAR per Share to be payable on application, and the remaining $4 per Share in four equal monthly payments from the date of this Prospectus.

Applications for Stock, and other communications to be addressed to the Secretary,

BILL HEADS.

AND all other kinds of JOB PRINTING, executed with neatness and despatch at the INTELLIGENCER Office, Front Street, Belleville.

CHANGES OF THE FASHION.—Taken as a class, women can contribute more outlandish and ugly styles of hair dressing than one would think possible without the gift of inspiration. The waterfall, for instance, is now on the fifth change since the introduction of the ludicrous appurtenance. First it represented a bladder of Scotch snuff; secondly it hung down the back like a canvas-covered ham, the appearance of the wearer being not unlike that of a Nigger squaw with a pappoose; thirdly it contracted and counterfeited a turnip on the back of the head, that vegetable probably being employed to some extent in the formation of the excrescence; fourthly it was projected straight out behind like a wire muzzle on a long-nosed dog; and the latest style in vogue is an elevation of the perturbance to the summit of the occiput, bearing it an angle of about forty-five degrees, like a mountain howitzer charged with the seeds of destruction. Nestling in the midst of this stretch of head and hair reposes a little buttercake of a bonnet, in the manner of a jockey saddle on a long backed race horse.

EARLY JEWISH SCHOOLS.—Eighty years before Christ, schools flourished throughout the length and breadth of the land; education had been made compulsory. While there is not a single term for "school" to be found before the captivity, and there was by that time about a dozen in common usage. Here are a few of the innumerable popular sayings of the period betokening the paramount importance which public instruction had assumed in the life of the nation:—"Jerusalem was destroyed because the instruction of the young was neglected." "The world is only saved by the breath of the school children." "Even for the rebuilding of the Temple the schools must not be interrupted." "Study is more meritorious than sacrifice." "A scholar is greater than a prophet." "You should revere the teacher even more than your father. The latter only brought you into this world, the former indicates the way into the next. But blessed is the son who has learnt from his father; he shall revere him both as his father and his master, and blessed is the father who has instructed his son."—*Quarterly Review.*

NEWSPAPERS.—"Thirty years ago," said Wilkes' *Spirit* "the Orators ruled America; to-day it is ruled by the Editors." It adds: "There is a class of men among bankers and merchants and lawyers who effect a condescension towards the journalist which is intensely amusing. The writer for the newspaper appears to their blinking eyes a kind of literary adventurer, who is to be tolerated for his genius, but not to be trusted in business. They are ignorant that it is the newspapers that sells their goods, furnishes their facts, and presents them gratuitously with their opinions.—They do not know, as Jay Cook does, that the newspapers of America sold two thousand millions of National bonds. They do not know as Edwin M. Stanton knows, that the newspapers of America sent five hundred thousand men to war.

A bachelor's face is often the worse for wear—married man's for wear and tear.

$50 Reward.

WHEREAS, on the night of the 29th, or morning of the 30th of October last, a male infant about four weeks old was abandoned in a garden convenient to Rev. Wm. McLaren's residence, in this Town, I hereby offer a reward of Fifty Dollars for such information as shall lead to the apprehension and conviction of the offending party.

By order of the Mayor and Town Council.

GEORGE JAMES,
Chief of Police.

November 21st, 1867. 40w1-173d6

TO THOSE LOOKING FOR

MINING LOTS,

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres; and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,
LESSEE,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF's Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.

Madoc, November 19, 1867. 172tf

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their proportion, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. In the method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home—instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance. $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, THURSDAY EVENING, NOVEMBER 28, 1867. No. 179.

Canadian Statesmen.

The Ottawa correspondent of the New York *World* gives the following description of some of our leading public men. He says:—

SIR JOHN A. MACDONALD, K.C.B.,

is without a rival in the political field, as the most wary and astute politician in Canada, George Brown had many a tilt with him, but always came away with a broken head. However difficult the game may be, he always manages to win. He resembles the matchless Disraeli both in policy and personal appearance. He has the same dark and impenetrable countenance, the same waving hair and tall slender form, and when he wills it, the same flashing eyes and biting eloquence that have made "Dizzy" a household word whatever the English tongue is spoken. As Disraeli has outwitted Gladstone on the Reform question and secured prospective years of office, so Sir John, by taking advantage of the Confederation ides, has stolen a march on other Canadian politicians, and has a certainty of being at the helm of State for many years, while he will leave a splendid name in the history of his country. He is one of the best speakers in the House, and as a statesman, the high position he has held for the last twenty-five years will give ample evidence of his ability. He is personally very popular with all classes, and is noted for his complaisance and wit.

MR. MC'GEE.

If one is disappointed on seeing Mr. Howe, the feeling will be increased when Mr. McGee appears on the stage. He is not old and angular like the "shooting Niagara" man, nor is his eye like the poet's, "in fine frenzy rolling;" he is simply a very ordinary-looking personage, and reminds one of the Milesian green-grocer around the corner. He is short and stout, inclined to corpulency; his face and head are noways remarkable; his hair, however, is fine and glossy, and perhaps he derives his intellectual strength from his Byronian locks. But he speaks, and in a few minutes the mist is dispelled by the magic rays of his eloquence. His voice is clear and distinct; he occasionally waves his hand, but never "saws the air" The words ripple out like a running brook and charm the hearers, who sit silent and attentive. There is no reading newspapers, buttonholing, or writing letters when Mr. McGee speaks.—He is a perfect master of invective, and woe be to the unfortunate member who comes under his lash.

MR. HOWE

is short, stout, thick-set, and solid. He is evidently a good liver. But his white head towers up, heavy and massive, and Jubiter-like. His face is without whiskers or moustache to hide his massive and firmly set jaws, evincing great determination.—His eyes are full, clear, and grey, while his forehead is almost Websterian in development. He speaks in an easy, graceful manner, extemporaneously, and the words roll out without hesitation, each as well fitted to its place as the stone to the Holy Temple. His gesticulations are graceful, but few, and evidently does not believe in the dictum of Demosthenes. He resembles Robert Lowe—"White-headed Bob" of the English Commons, without his cynical, defiant expression.

FENIAN INVASIONS IN NEW YORK CITY.—The *Herald* says:—We hear occasionally of Fenian invasions of England and Ireland and Canada, but the grandest of them is but a poor affair compared with the Fenian invasion of New York city. While the Fenians who invade any part of the British domininions, too, are treated to hanging, imprisonment, transportation, and such like pleasant entertainments, the Fenians who invade New York are supplied with good fat offices and allowed to rule the city. Whether it may be O'Kelly or O'Brien for sheriff; O'Connolly for Comptroller; O'Reilly for Register; O'Connor for County Clerk; McSweeney for Chamberlain; O'Gorman for Corporation Counsel; McMahon for Corporation Attorney, or any of the O'Shaunons, O'Reillys, O'Flynns, O'Kennans and O'Kenneys of the Board of the Common Council, every Fenian invader is well provided for by our generous countrymen, and makes the invasion pay.

BEECHER ON KISSING.—H. W. Beecher thus speaks of his hero and heroine in "Norwood: It was evening twilight. They sat alone in the porch. A few late blossoms of the Chinese honeysuckle shed down a trace of perfume through the air. There were no locusts singing, no katylids, nor gurgling crickets, and yet some soft sounds I certainly heard! Not birds surely! I think it must have been the plash of one honeysuckle blown against another. Yet there is no wind to move them! I hear it again! Listen! It is like the falling of a drop of dew into the silver lake from some birchen leaf! No, that is rude. It is as if two dreams floating in the night had clashed; or like the joining of two prayers of love on their way upward; or—nay it was a kiss!—pure, sacred, holy! It is the soul's symbol, when words fail it. It is the heart's sigh, or interjection, when it has a feeling for which there is no expression!

A young lady must make a hit if she dislikes to be a miss.

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.
THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management
Must Largely Influence Profits and Bonuses.
The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.
M. BOWELL,
DR. CANNIFF, *Intelligencer Office,*
Medical Referee *Agent.*

☞SEE FOURTH PAGE.

AN APT QUOTATION.—A New Brunswick paper very aptly quotes the following passage with respect to Mr. Howe and the course he has taken on the Confederation question:

"So the struck eagle stretched upon the plain,
No more through rolling clouds to soar again,
Viewed *his own feather* on the fatal dart,
And winged the shaft that quivered in his heart;
Keen was his pangs, but keener far to feel,
He nursed the pinion that impelled the steel."

WHOLESALE PROSECUTION.—The great liquor detective, Mason, had no less than ninety-two persons before the Police Court at Toronto yesterday, twenty-five for selling liquor on Sunday, fifty-four for selling without license, and thirteen for selling liquor in less quantities than allowed by law. The prosecutor, Isaac Marks, who acted as agent for Mason, by some means or other, was not forthcoming, and as it was stated that the tavern-keepers had something to do with his absence, an adjournment of the cases was asked for and granted until the 5th of December.

PACIFIC RAILWAY.—The progress of the Pacific Railway is really wonderful. It is now finished 535 miles west from Omaha to the eastern base of the Rocky Mountains, and it is expected the track will be laid to Evan's Pass, thirty miles further, and the highest point between the Atlantic and Pacific oceans, in January. The maximum grade from the foot of the mountains to the summit, is but eighty feet to a mile, while that of many eastern roads is over one hundred feet. Work on the rock cuttings on the Western slope will continue during the winter, so that track-laying may be resumed early in the spring.

HONORS TO SIR WM. LOGAN.—Sir Roderick E. Murchison has dedicated the fourth edition of his magnificent work "Siluria," to Sir Wm. E. Logan in the following terms: "I now dedicate this volume to the Geologist, who has not only applied my classification to the vast regions of British North America, but has taught us by his recent important researches, that the Laurentian rocks constitute the foundation stones of all Palæozoic deposits in the crust of the globe, wherever their foundations are known." At a meeting held at the Burlington House, London on the 7th November, inst., the President and Council of the Royal Society awarded to Sir W. E. Logan, one of the Royal gold medals for 1867, "for his Geological researches in Canada, and the constitution of a Geological map of that Colony."

Murder and Suicide.

The Kingston *News* of last evening gives particulars of a horrible murder and suicide at Pittsburg, near that city, yesterday morning. The facts are these:—"Mr. Woolard, of the American hotel in this city, has been married to a Miss Waller, who died, and as there was a probability of Mr. Woolard marrying a sister of his deceased wife, her brother, John Waller, a farmer in Pittsburgh, threatened that if the marriage took place he would shoot his sister. The marriage did take place about two weeks ago, and the threat was carried into effect this morning. There was to be a sale by auction at Waller's farm to-day, and Mr. Murray went down from the city to conduct the sale. On his way over the Cataraqui bridge he met Waller, who was waiting for Mrs. Woolard (his sister) at the toll house with a light waggon. After Mr. Murray went on, Mrs. Woolard arrived in company with an old gentleman named Leckie. On being asked if he was ready to start, Waller said he was, and went into the toll house for his whip, shortly after which they left for Pittsburgh, Mr. Leckie, who was seated in front with Mrs. Woolard, driving, and Waller kneeling or sitting down in the waggon behind them. In this position they seemed to have driven down to Pittsburgh, and when they had arrived opposite to Mr. Maguire's farm, and were just going down the hill towards the farm of Waller, where the sale was to come off, Waller, from his seat behind his unconscious victim, drew a revolver and shot his sister through the back part of the head. She lived in a state of insensibility for about fifteen minutes.—Waller, after committing the deed, immediately jumped from the waggon, and putting the revolver into his mouth, fired it off. The ball lodged in the skull. Waller died about three o'clock yesterday afternoon. It is said that he was particularly fond of his sister whom he killed. His brother could not have been far distant from the scene of the murder, for he snatched the pistol from his hand and broke it."

—Clever pickpockets are said to be the best persons to disparse a crowd.

Agricultural Statistics.

We have received from the Bureau of Agriculture and Statistics a statement of the number of animals, as taken from the Revised Assessment Rolls of the Province of Ontario, returned to the Bureau of Agriculture by the Municipal Clerks, or 1867, from which we glean the following information. In some localities no statistics are kept. For instance in Chatham, Newburg and Stirling, animals are not on the Assessors' Rolls, and in Newburg animals are valued as personal property, but no separate list is kept. In some of the counties the returns are not complete, for we observe that in the County of Hastings the Township of Rawdon is reported "wanting," and in some of the other Counties there are eight Townships in the same position. There is no return from the County of Lincoln, and none from the United Counties of Prescott and Russell. With the exceptions above enumerated, the return is complete. The statistics show that in the cities there were 2,536 cattle; 129 sheep; 2,182 horses; 1,002 hogs; 3,404 dogs; 186 bitches. In towns and villages there were of cattle 17,152; sheep 13,557; horses 11,093; hogs 16,540; dogs 8,561; bitches 560. In counties there were 850,504 cattle; 1,646,973 sheep; 322,531 horses; 565,176 hogs; 85,876 dogs, and 3,540 bitches, making a total of cattle, 870,402; sheep, 1,660,659; horses, 335,806; hogs, 582,718; dogs, 97,841; bitches, 4,286. The returns from the Town of Belleville show that we had 247 cattle; 81 sheep; 188 horses; 174 hogs; 258 dogs and no bitches. The statistics from the County of Hastings, not including the Township of Rawdon, from which there were no returns, show that of cattle we had 22,934; sheep, 37,949; horses, 10,103; hogs 12,046; dogs, 3,101, and bitches, 38. The comparative statement of the number of animals in 1867 and 1861 shows that in 1861 there were 1,015,328, while in 1867 there is but 923,832 (this includes the townships and counties not reported, being based on the statistics of 1861), making a decrease of 91,496. Of sheep in 1861 there were 1,170,225; in 1867, 1,761,618, showing an increase of 591,393. Of horses, there is a decrease in the 7 years of 19,162, and of hogs a decrease of 154,513. The statement giving the exports and imports of animals shows that in 1861 we imported 5,107 cattle; 4,961 sheep; 1,632 horses; and 8,815 swine, while in the same year we exported 15,704 cattle; 54,941 sheep; 8,199 horses, and 27,091 swine. In 1867 we exported 47,889 cattle; 60,482 sheep; 7,625 horses, and 8,790 swine, while our imports for the same year are set down as nothing. The value of the animals returned on the Assessors' Rolls is thus estimated: cattle at $25 per head, $23,095,800; sheep at $3, $5,285,154; horses at $70, $25,096,330; swine at $10, $6,214,880. Total value of animals, $59,692,164.

The Stock Market.

The Montreal *Gazette's* commercial article of yesterday gives the following quotations: The stock market is inactive; 128 was bid for Bank of Montreal, 128½ asked; B. B. N. A. is enquired for at 106. Ontario is offered at 99 ex div; sales at 98½. City is freely offered at 99 ex div; but no buyers at these prices. A small sale of Commercial to-day at 17½; now no sellers under 20. Molson's is in demand at 108½; no stock in market. Bank of Toronto is freely offered at 115. Sales of Merchants' at 107½, at which price there are still buyers. Gore Bank is heavy at 80. Sales of Union Bank, all paid up stock, at 103, and of 50 per cent paid at 102½. Royal Canadian is offered at 97 per cent for all calls paid, equal to 70 per cent, but there are no buyers except for stock all paid, over 97 per cent. Richelieu Company has improved, and 103 is bid for it; no sellers now under 108. Quebec Bank is offered at 99½ ex div; no buyers over 98.

—Moving for a new trial—courting a second wife.

—A woman named Nancy McKane was burned to death in her own house, Kingston, on Tuesday evening.

—Dickens has refused the offer of $1,000 made by the Mechanics' Institute of Toronto for one night's reading.

—A party of officers has already been sent to take possession of Mr. Seward's new purchase, St. Thomas.

—That irrepressible Yankee, George Francis Train, arrived at Cheyenne on the 12th inst., and within an hour contracted for a hotel one hundred and thirty two feet square.

—*Le Journal de Quebec* has news from Ottawa to the effect that a large number of Government employees are about to be dismissed, their services being no longer required under the new *regime*.

—The Lower Province papers believe that the Nova Scotia delegation will yet give in their adhesion to the new order of things, and meantime says they are acting like sensible men.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 27th, 1867.

To-day on the opening of the House Mr. Speaker threw out the petition against the Hon. J. C. Abbott's election, on the ground that the sureties were not sufficient.

The General Election Committee was then sworn in, and on motion of Sir John A. McDonald election petitions were referred to the General Election Committee, as reported upon by the Speaker.

On the motion for the reception of a petition from the Hon. M. Chapais, claiming the seat for Kamouraska, in which County no election was held owing to a riot, Mr. Dorion resisted its reception on the ground that no election was held, and therefore the petition claiming the seat could not be considered an election petition in the words of the Statutes. Mr. Cartier replied that the House had no evidence that there was no election or nomination, further than the return made by the Returning Officer, that owing to certain riots he was prevented from holding an election; while the petitioner alleged that he should have been returned. After some further consideration the question of reception was postponed. The return made by the Returning Officer to the Clerk of the Crown, alleges that when he went to the place appointed for the nomination he found that it had been torn down, and that when he ascended a gallery to ask for nominations he was seized by two strong men, and thrown to the ground. After which he received a polite intimation, that if he did not go home he would be mobbed. Not relishing such treatment "he took the hint, and went accordingly." After he arrived there, he received a visit from these same parties who informed him, that unless he gave up his Writ and other election documents, his house would be torn down over his head, and that to avert such a catastrophe, he "surrendered." There is no evidence that even a nomination took place, and unless Mr. Chapias can show that there was, it is difficult to find a reason for his claiming the seat. A new election will have to be held, or the County disfranchised.

The petition against the return of Mr. Reneau from New Brunswick was thrown out by the Speaker, it having been presented on the seventeenth day of the session.

On a motion coming up for extending the time for receiving petitions for Private Bills, the Hon. John S. McDonald hoped this course would be put a stop to, and that parties would be given to understand that, in order to protect private interests, due notice must be given before Private Legislation would be permitted.

The routine business having been got through with, Mr. Blake again occupied the time of the House with a legal question, by moving that, by law, the Minister of Militia had no right to a seat in the Commons, and he laid down the following propositions: First. That the office was one of profit and emolument. Second. That the disqualification clause of the Independence of Parliament Act, applies in this case.—Third. That the exemption clause does not apply. Fourth. That none but offices mentioned in the exemption clause are exempt, and that the Minister of Militia was not mentioned, therefore he had no right to a seat in this House. He entertained the House for about an hour and a half in elucidating these propositions. He was followed by Sir John A. Macdonald, who contended that the arguments of Mr. Blake were fallacious, that there was no salary attached to the office of Minister of Militia, but that it was the intention of the Government to come down with a measure attaching a salary to that and other offices, and that if the mover of the resolution persisted in pushing it to a vote, he would move that the debate be adjourned for three months, to enable them to bring down such a measure. The Hon. John H. Cameron, R. A. Harrison, and the Hon. Mr. Johnston of New Brunswick, argued that there was no provision in law to prevent the Minister of Militia from holding a seat in this House, and hoped that the Hon. John A. Macdonald would not move an adjournment of the debate, but push the question to a vote in order to settle the point. At six o'clock the House adjourned after frittering away the whole day in hair splitting arguments by talkative lawyers. The question will come up again, when it is supposed it will be finally disposed of.

To-night the Speaker of the Senate gives a grand Ball in the Senate Chamber. Some 1500 tickets have been issued. A long discussion took place in the Senate upon the question of allowing the Speaker to occupy the Senate for such a purpose. It was finally decided in the affirmative.

Among the reports here it is stated that the new Militia Bill provides that each province is to have an Adjutant-General. The name mentioned for Quebec is Col. J. C. Coursol, and from what has been said of this gentleman, from those who know him, a more popular appointment could not be made, he having the confidence of both the English and French of Quebec. No name is mentioned for Ontario.

A copy of the new post office law has just fallen into my hands, and while it contains many good clauses, there are many very objectionable. It is proposed to reduce letter postage to *three cents* to any part of the Dominion, but which must invariably be prepaid, or the letters will be sent to the dead letter office; over half an ounce three cents extra. So far the proposition is good, but when the clause regulating the postage on newspapers is considered, it is found to be highly objectionable. It provides that after the 1st day of January, 1869, the rate of postage upon newspapers, printed and published not less than weekly, shall be prepaid by the publisher at the rate of *one* cent for every *three* copies, exchanges to go free. Papers sent by other parties than the publisher will have to pay *one cent* on each paper, when posted. Thus, then, you will see that instead of advancing in the matter of free postage we are retrograding. This clause I trust will not pass, and it is to be regretted that the Post Master General has placed himself in a position upon this question which will bring down the opposition of many of the supporters of the Government. In a future letter I will give you a synopsis of this Bill.

To the Editor of the Daily Intelligencer.

From the Gold District.

ELDORADO, Nov. 24. 1867.

SIR,—In my last communication to you respecting gold matters, I took upon myself the prediction of lively times in ElDorado and its vicinity, upon the completion of the quartz crushing mill. I am now happy to be able to inform you that I have not been far astray in my prediction. The crushing mill of Scott & Taylor began working some two weeks ago, and up to the present with the most favorable results. The first quantity of quartz which they crushed was simply the refuse from the Richardson mine, and indeed to the surprise of all it turned out well, yielding some $121 per ton. This was merely to test the strength of the machinery and its correctness in obtaining every possible particle of gold or silver from the ore. It is now generally expected that when they commence to crush the regular quartz of the mine, that the results will far exceed, in point of richness, those of any other mine on this continent.

In consequence of the news of the rich yield having spread abroad, I believe the Richardson gold mine stock advanced forty-five per cent, much, indeed, to the surprise of the stockholders, who are quite jubilant over the encouraging prospects of this mine. They are now prosecuting the excavation of the mine with renewed energy, and are about 65 feet below the surface of the earth. As was generally expected, the quartz is becoming richer the further down they proceed, which is really very encouraging. Mr. Hardin, who was formerly superintendent of the mine, is now succeeded by Mr. Robinson, a Nova Scotian, who is also a very worthy man, and who, from his extensive practical experience in mining matters, is well fitted for his present position, and by his affability and good nature has rendered himself generally popular. The Company is constructing several very fine buildings in the neighborhood of the mine, which they intend to use as offices, dwellings, &c. Altogether matters in ElDorado are are progressing favorably, which I can assure you is very much desired. Miners and others are daily arriving here, and commence prospecting as soon as they can, in order to secure the best lands possible.

I may also mention that recently several Companies have been organized, and others are being formed, for the purpose of developing the mineral resources of their respective claims, which must prove to the satisfaction of the most incredulous that the parties have full confidence that their time and labor will be well remunerated.

For instance, I notice by the Canada *Gazette* that the Wellington Mining Company have applied for a charter of incorporation. This Company will commence operations on Monday next on the east half of Lot No. 18, 5th con. Madoc. This is the property which has been so long in dispute between Ross, of Madoc, and Chard & Co., whose interests were so ably defended by Messrs MacLellan & MacLellan, Solicitors, of Belleville.

I may also mention the Merchants' Union Mining Co., who will commence to work in a few days, and judging from the enterprising men who are at the head of affairs of this Company, I think nothing will be left undone to turn to account the mineral resources of their claim. The property of the Company is 5 acres of Lot 1, 5th con. Madoc, and presents excellent indications. The Rose Mining Co. propose to work on Lot 8 in the 10th con. Madoc. This Company is about making application for a charter of incorporation. The Company is composed of men of large practical experience in mining matters, and who will no doubt give entire satisfaction in their management of the affairs of the same. The original proprietors of this property are Messrs. Rose, MacLellan and Wyckoff, who hold a large interest in the Company now established under the above title. A short time ago a portion of the quartz of this mine was assayed, and found to yield at the rate of $68 40 to the ton. The Royal Canadian Mining Co. are succeeding well with their mining operations, and are daily meeting with very encouraging indications. The Brantford and Goderich Mining Co. are also prosecuting their work with energy, and with every prospect of success. The Kootaney Mining Co. are busily engaged in sinking a shaft on their claim, which is also supposed to be very rich both in gold and silver.

The El Dorado Mining Company, who have applied for a Charter of Incorporation, are really deserving of credit for the manner in which they have succeeded, notwithstanding the many obstacles they had to contend with. The stock of this company has advanced from five dollars, the original value of each share, to thirty dollars, which speaks well for the prospects of this company. Their claim is considered very rich. The depth of the shaft sunk on this property is about fifty feet. In looking over the Prospectus of this company, I observe the names of enterprising and really trustworthy men at the head of its affairs. The most of these companies to which I last referred, are working claims on the Moore Hill, adjacent to the Richardson Mine, and whose claims are supposed to be on the same lode.

I also hear with pleasure, that the Township of Madoc is not the only locality where good indications of gold exist, for I hear of the most flattering accounts from the Township of Elzevir. The Barry Mine, situate within a mile or so of Bridgewater is, I believe, inferior to none in point of richness for gold, save the Richardson Mine itself. Not long ago an assay was made of some of its quartz, which was found to be very rich, yielding at the rate of $98 per ton. On several occasions, the quartz taken out of this mine contained gold visible to the naked eye. The company are busily engaged in the erection of a crushing mill, and it is expected that it will be completed in a week or so. The Eureka Mine, owned and worked by Messrs. Davis & Co., of Belleville, is one of the best claims in the Township of Elzevir. This shaft is down about ten feet below the surface of the earth, and incredible as it may appear, the results of the analysis performed by a distinguished Chemist of New York, of some of the quartz of this mine, showed the quartz to be worth at least $80 the ton. It is supposed by men capable of forming an opinion upon such subjects, that after they proceed a little further down, that the quartz will also yield silver as well as gold. This property is situate on Lot No. 3, in the 1st Con. of Elzevir, about six miles from the village of Madoc, and is really very valuable. I have no doubt but that the enterprising proprietors of this mine will neither spare time nor labor, nor even capital, in the speedy development of the rich treasures of this claim.

We hear of encouraging reports from the Townships of Marmora and Lake. In the Township of Marmora several discoveries have been made of late, and I believe it is the intention of the parties, as soon as possible, to organize companies to work some of the claims. I believe Mr. L. L. Young, an Australian of large experience in mining, has made several important discoveries in the Township of Lake which, indeed, promises to become very rich in gold and silver, and other minerals of less value.

Now, as the crushing mills have began to work, and with so satisfactory results, I think that before many years elapse, a considerable quantity of the treasures which are now concealed from human sight in this locality, will be developed and made subservient to man's use and benefit. I think nobody will, for one moment, question the incalculable advantages likely to accrue to the Dominion of Canada from the working of these mines, and consequently the Government of this country should do everything in its power to assist and encourage the miners in their laudable work of unfolding to us its rich treasures which lie concealed in the rocks of North Hastings. I am yours, &c.,

A CITIZEN OF EL DORADO.

Telegraphic News.

BY ATLANTIC CABLE.

LONDON, Nov. 27, eve.—Baron Von Beust, the Austrian Prime Minister, has issued a diplomatic note, in which he declares that the maintenance of the temporal power of the Pope is necessary for the peace of Europe.

In the House of Commons last night, the debate on the Abyssian war became quite animated, and was prolonged to a late hour. A disposition was shown in the discussion to press the Ministry on the ground that they had sent off the military and naval expedition to Abyssinia on the sole advice of Gen. Robert Napier, its commander, without waiting to obtain the sanction of Parliament; but the Government made a satisfactory defence of its action, and, at the conclusion of the debate, the supply of two millions pounds, required by the Chancellor of the Exchequer, to meet the expenses of the war, was voted. Despatches from the Abyssinian expedition say that large supplies of volunteers from Nubia have been offered to the British commander.

BERLIN, Nov. 27.—The Prussian diet, by a vote of 181 to 160, has adopted a resolution, declaring that the constitution of Prussia guarantees liberty of speech.

PARIS, Nov. 27.—Prussia has agreed to the proposition for a general European conference.

It is said France and Austria have concluded a special treaty in regard to their future policy on the Eastern question, and that they in one of its clauses, pledge themselves to maintain the territories of the Ottoman Empire.

American Despatches.

NEW YORK, Nov. 27.—A regular sale of scranton coal was held to-day. Sixty thousand tons were disposed of at prices materially lower, as compared with the sale in October.

WILMINGTON, Del., Nov. 27.—The prize fight between Collier and Kelly came off in Chester county, Pa., this afternoon. One hundred and one rounds were fought in hour and fifty minutes. The fight was won by Collier.

—A firm in Oakville, Halton County, Ontario, shipped 2,500 barrels of apples to Liverpool, Glasgow and New York this fall. They averaged $1.76 per barrel.

—The *Toronto Telegraph* says counterfeit ten cent pieces are in circulation there just now, and are so numerous as to make it evident that a new lot must recently have been "shoved." They are easily detected by their feel, sound and appearance, but pass muster when done up in "cartridges" with good ones.

—A man recently broke off a marriage because the lady did not possess good conversational powers. A wicked editor, in commenting on the fact, says: "He should have married her, and then refused her a new bonnet, in order to have developed her powers of conversation."

SPECIAL NOTICES.

TYPHOID FEVER

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one teaspoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times during the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.

If seized with Fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking Relief immediately, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quickening; it is sure to break up the Fever and neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague, Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.

Relief 50 cts.; Pills 25 cts. Sold by all Druggists.
See Dr. Radway's Almanac for 1868. 179-2w-41-2w

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

Parry Davis & Son, Agents for the Dominion of Canada. 159-1m 38w1w

Government Notice.

TENDERS in duplicate (marked on the envelope "Tenders for Works and Repairs for the Royal Engineer Department") will be received by the Senir Commissariat Officer at Montreal, until 12 o'clock, noon, on SATURDAY, the 30th Instant, for the performance of such Works and Repairs for the Royal Engineer Department as may be required, commencing on the 1st of January, 1868, and continuing in force until the 31st day of March, 1869, at

COBURG & BELLEVILLE.

1. Excavator's, Mason's, Pavior's, Bricklayer's and Plasterer's work.
2. Carpenter's and Ironmonger's work.
3. Smith's, Iron and Brass Founder's work.
4. Plumber's work.
5. Slater's Metallic and Gravel Composition Roofing.
6. Painter's, Glazier's and Paper Hanger's work.
7. Supply and Repair of Stoves, Stove-pipes, &c.

Seperate Tenders are required for each Station.

Repairs required to be performed by the Purveyor's Department to be executed at the same rates as for Engineer services.

The Tenders may be made for each of the seven divisions of Trades in the Printed Schedule, but preference will be given to any one offering for the whole of the Trades at the Station.

The Tenders to state the rate per cent. below or above, or at the printed prices (for the whole of the services under each Trade) at which the party is willing to execute the same.

Forms of Tender and Schedule of Contract, together with any other information required, may be obtained from Mr. Hanlon, Clerk of Works, Dafoe Hotel, Belleville.

No Tenders except those on the printed forms will be noticed, and none will be received after 12 o'clock on the day fixed.

Commissariat, Canada,
Montreal, 22nd November, 1867.

PROSPECTUS OF THE EL DORADO MINING COMPANY OF MADOC.

(LIMITED.)

CAPITAL STOCK - - - - - - - $72,000.

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $33.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 833 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Applications for Shares received by Alderman Vicker, Yonge Street, Toronto; J. E. Ellis, King Street, Toronto, and at the office of

WILLIAM KERSTEMAN,
62 *Church Street, Toronto.*

Toronto, November 20th, 1867. 173tf

$50 Reward.

WHEREAS, on the night of the 29th, or morning of the 30th of October last, a male infant about four weeks old was abandoned in a garden convenient to Rev. Wm. McLaren's residence, in this Town, I hereby offer a reward of Fifty Dollars for such information as shall lead to the apprehension and conviction of the offending party.

By order of the Mayor and Town Council.
GEORGE JAMES,
Chief of Police.

November 21st, 1867. 40w1t-173b6t

Belleville, Nov. 20, 1867. 173-tf 40tf

Niagara Eclipsed.

An astonished tourist writes to the *Frontier Index* from the curious district surrounding the Yellowstone Lake of Montana:

"Near the outskirts of this monstrous locality there is a lake on the top of the mountain that is yet frozen over, the ice and snow covering its surface some twenty feet deep. Two main forks of the Yellowstone, one heading opposite Wind and Green rivers, the other opposite Henry's Fork of Snake river, in the same vicinity that the Madison and Gallatin rise, empty into the big lake, which has for its outlet the Yellowstone river, and just below the lake the whole river falls over the face of a mountain, thousands of feet, the spray rising several hundred. A pebble was timed by a watch in dropping from an overhanging crag of one perpendicular fall, and it is said to have required eleven and a half seconds to strike the surface of the river below. That beats Niagara falls 'all hollow.' The river at these greatest falls is represented to be half as large as the Missouri at Omaha, and as clear as crystal. The great lake like all others in these mountains, is thick with salmon trout of from five to forty pounds weight, and where the milky boiling mineral waters from the geysers intermingled with the pure clear water from the running streams, these elegant fish can be 'forked' up by the boat load."

According to Mr. Platt, the number of spindles employed in Great Britain in the manufacture of cotton, exceeds 36,000,000. When in good work, as many as 63,994,602 miles of thread are made per working day of ten hours, or sufficient to encompass the earth four times in every minute.

A new and interesting method of treating bronchial affections has lately been introduced. By means of an apparatus similar to the so-called oderator, a solution of sulphate of zinc, or nitrite of silver, is reduced to an extremely fine spray, so that it can be inhaled with the breath, and applied directly to the inflamed mucus membrane.

A SHOWER OF SULPHUR IN ENGLAND.—The other day one of our contemporaries published a singular story of a shower of sulphur at Thames Ditton. During the fall, it was said, a brilliant illumination was seen, and the descending drops coming in quick succession, gave the appearance of long streaks of fire. The following morning sulphur was found on the top of water lying by the roadside, and also on the contents of water-butts. Some of the water was preserved in bottles, and emitted quite a strong sulphurous smell when the cork was withdrawn. A correspondent supplies us with a very simple explanation of this phenomenon. In the grounds of a villa at one end of the village are a number of cedars, which at this time of the year bear a kind of catkin, in which is a quantity of yellow powder. In a certain state this powder is easily shaken out, and on the night in question the powder was blown out by the wind, and was scattered by the same agency over the adjacent parts of the village. This powder has a slightly resinous smell, which, with a little stretch of the imagination, may be called sulphureous. At Hampton Wick and Teddington, which were also visited by this odd shower, there are several cedars growing close by the road.

GODEY'S LADY'S BOOK

For 1868.

THE CHEAPEST OF LADIES' MAGAZINES,

BECAUSE IT IS THE BEST.

THE friend of woman, the arbiter of fashion, the encourager and publisher of the best literature of the day, the pattern from which all others copy.

READING MATTER.

In this there will be an improvement. The volume for 1868 will be set up with new-faced type, and of a size that will enable us to give an additional quantity of reading matter amounting to about twelve pages in each number.

BEAUTIFUL STEEL PLATES.

Of these the LADY'S BOOK contains *fourteen* each year, superior (we challenge comparison) to any published in this country, either in book or periodical.

THE LITERATURE OF THE LADY'S BOOK.

MARION HARLAND,

Authoress of "Alone," "Hidden Path," "Moss Side," "Nemesis," and "Mariam,"

who contributes to no other monthly publication, will furnish a new novel for 1868, called "PERMIE ROWLAND," that will run through the year. Her stories are anxiously sought after, and as they are copyrighted, can be found nowhere but in GODEY. Our former efficient corps of writers has also been retained.

OUR FASHION PLATES.

The original double fashion-plates will be continued MODEL COTTAGES.—The only magazine in this country that gives these designs is the LADY'S BOOK.

DRAWING LESSONS.—In this we are also alone.

ORIGINAL MUSIC.—GODEY'S is the only magazine in which music prepared expressly for it appears.

We have also a CHILDREN'S, a HORTICULTURAL, and a HEALTH department.

GODEY'S INVALUABLE RECEIPTS

upon every subject, for the Boudior, Nursery, Kitchen, House, and Laundry.

TINTED ENGRAVINGS.—This is a series of engravings that no one has attempted but ourselves.

LADIES' FANCY WORK DEPARTMENT.—Some of the designs in this department are printed in colors in a style unequalled.

Terms for 1868.

One copy, one year,	$3 00
Two copies, one year,	5 00
Three copies, one year,	7 50
Four copies, one year,	10 00
Five copies, one year, and an extra copy to the person getting up the club, making six copies	14 00
Eight copies, one year, and an extra copy to the person getting up the club, making nine copies,	21 00
Eleven copies, one year, and an extra copy to the person getting up the club, making twelve copies	27 60

Godey's Lady's Book and Arthur's Home Magazine will be sent one year on receipt of $4 00.

Godey's Lady's and The Children's Hour will be sent one year on receipt of $3 50.

Godey's Lady's Book, Arthur's Home Magazine, and Children's Hour will be sent one year on receipt of $5 00.

☞ Canada subscribers must send 24 cents additional for every subscription to the Lady's Book, and 12 cents for either of the other magazines, to pay the American postage.

HOW TO REMIT.—In remitting by mail, a Post Office Order or a Draft, *payable to the Order of L. A. Godey*, is preferable to bank notes, as, should the Order or Draft be lost or stolen, it can be renewed without loss to the sender. If a Draft or a Post Office Order cannot be procured, send United States or National Bank notes.

Address L. A. GODEY,
N. E. Corner Sixth and Chestnut Streets,
PHILADELPHIA.

DIRECT FROM

THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, ½ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS, QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS, OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 28 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3D1t-tf Assistant Commissioner of Customs.

TO THOSE LOOKING FOR

MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out, 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address

GEO. D. WYCKOFF,
LESSEE,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF'S Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home,—instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the Waltham Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first-class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sunday's excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months	$10 00
One Square, 6 months	$20 00
Two Squares, 6 months	$30 00
Four Squares, 6 months	$50 00
Notices of Births	50
Do of Marriages	50
Do of Deaths	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid for at the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six, lines (per line) first insertion	0 07
Each subsequent insertion per line	0 03

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, FRIDAY EVENING, NOVEMBER 29, 1867. No. 180.

The Postal Bill.

The following is a synopsis of the Postal Bill laid before the Senate on Wednesday. It repeals all laws at present in force in Canada, Nova Scotia, and New Brunswick, but provisionally continues the existing post office arrangements and commissions. Existing bonds, contracts, &c., are to continue in force, as usual, as all departmental regulations, unless abrogated by this Act.

Clause 7 and subsequent clauses define the duties and powers of the Postmaster General, provides for the appointment of Post Office Inspectors, a Deputy Postmaster General, and other officers, and prescribes that their salaries shall be fixed by the Postmaster General, subject to the provisions of any Act relating to the civil service.—Power is given to the Postmaster General to negotiate and arrange for the conveyance of mails between Canada and the West Indies, or between Canada and Newfoundland, provided such engagements shall not have effect for more than a year, unless sanctioned by Parliament at its next session.

Clause 19 fixes postage on letters for any district within the Dominion at a uniform rate of three cents per half ounce, to be in all cases pre-paid by stamps affixed to such letters.

Letters posted at any office, wholly unpaid, shall be sent to the Dead Letter Office, but if any letter is only partially paid, it may be forwarded to its destination, charged with double the amount of postage omitted to be paid, and such postage shall be recoverable from the sender, if not paid by the party to whom sent.

On local or drop letters the rate shall be one cent per half ounce, and in all cases pre-paid.

Clause 22 and following clauses provide that the rates of postage upon newspapers published in Canada, issued not less frequently than once a week from a known office of publication, and sent to subscribers in Canada or elsewhere by mail, shall, from and after 1st January, 1869, be one cent for three numbers, or in that proportion for any greater number, to be in all cases prepaid at the time of posting the same, by stamp or otherwise, as the Postmaster General shall direct.

It is also provided that exchange papers may be sent free; and provided also that that until 1st January, 1869, all newspapers shall be liable to a rate of one cent for every two numbers, to be paid either at the Post Office where such newspapers shall be posted, or at the office where delivered. All other newspapers sent by mail in Canada, one cent each.

The rate of postage upon periodicals, publications issued not less frequently than once every three months, shall be one cent per four ounces in all cases prepaid. Books, pamphlets, circulars, packages, patterns, samples, &c., one cent per ounce, provided they contain no letters.

Rates for mail matter between Canada and the United Kingdom and the United States or other foreign country, to be subject to regulations of the Postmaster Gen.

Clause 32 gives exclusive power to the Postmaster General to conveying letters, &c., within the Dominion, with certain exceptions.

Among other provisions of the Bill, the most important are the following:

Rates for delivery of letters by carriers in cities, 2c; newspapers, 1c. It is provided that the Postmaster General may at any time establish a system for free delivery in cities.

The franking privilege is continued as at present. The Postmaster-General is not liable for letters or property lost.

United States mails may be allowed to pass through Canada upon obtaining the like privilege for the transportation of Canada mails through the United States.

No Postmaster in any city or town, and no officer of the Post-Office Department shall vote at any election for members of Parliament.

Mail contracts over $200 to be awarded only, after advertising for tenders, to the lowest bidder.

The mails to be carried on the railways on such terms and conditions as the Government in Council may make.

The Postmaster-General may, with the consent of the Treasury Board, establish a system of Post-Office Savings Banks in connection with a central Savings Bank, established as a branch of the Post-Office Department at the seat of government.

The Postmasters at such places as are authorized are to receive deposits for remittance to the central office, and repay the same; such deposits to be entered in the deposit book, and an acknowledgement of it to be transmitted to the depositor by the Postmaster-General within ten days.

Such deposits not to be less than $1.00, and shall not be liable at any time to demand, seizure, or detention under legal process against the depositor.

Deposits to be re paid on demand with the least possible delay.

The name of the depositor, amount deposited or withdrawn, not to be disclosed by the office.

Receiver-General to receive and pay all moneys deposited or withdrawn.

Interest on deposits to be payable for each whole calendar month at the rate of 4 per cent. per annum, and to be added to the principal on the 30th June, yearly.

Certificates of deposit bearing interest at the rate of 5 per cent, may be issued.

Monthly returns of the receipts and payments to be published in the *Canada Gazette* and the monthly excess of cash balances over $500,000, to be invested in the Government Debentures. Amount of statement to be laid before the Parliament.

The Receiver General to credit the Post Office Savings Bank account with accrued interest at the rate of five per cent on the invested balance, and debit it with the expenses. Profits to form a part of, or the loss to be made good from the consolidated revenue.

Penalties are provided for various offences against the Post Office, the same as under the existing Canadian laws.

The Act to come into force on the 1st of April, 1868.

BELLEVILLE, FRIDAY, NOV. 29.

FENIAN NEWS.—A letter received in Quebec on Saturday, states that the writer had just seen twenty pieces of cannon gathered at a point in proximity to the Canadian frontier, and which was not a United States military post. It was believed to be part of the store being gathered in that vicinity by the Fenians or their sympathizers.

TEN OCEAN STEAMERS IN ONE DAY.—The New York *Post* of Saturday last says: "The magnitude of the commerce of New York is well illustrated by the departure to-day of no less than ten large ocean steamers, all well filled with passengers. Of these two are bound for Liverpool, one for Rio Janeiro, three for New Orleans, and one for Savannah. The passenger list of the Brazilian steamer numbers three hundred and sixty seven names, a significant indication of the extent of the trade and communication with St. Thomas.

CANADIAN CHEESE IN ENGLAND.—The following extract from a private letter addressed to a firm in London, England, dated Nov. 7th, to the proprietor of a cheese factory in the vicinity of Markham, we find in the *Economist*, published in that village: "We have received the 548 boxes of Cedar Grove Factory cheese per Nova Scotian in excellent order. The size, shape and quality suit our market well. More color is wanted, and would improve the value two shillings per cwt. We have sold 300 boxes at fifty eight shillings, which is a capital price in the present position of our market, and within two shillings of the top obtainable for any American."

FERRY BOAT LAID UP.—The Ferry Steamer, *H. P. Redner*, was laid up on Tuesday last, much to the annoyance and inconvenience of the business men of Belleville and the people of Prince Edward who do their trading with this Town. The ostensible reason for laying up is the lowness of the water, which prevented the boat from landing at the ferry wharf. But this is a very poor reason for Mr. Redner to give, when it is known, as we are informed, that he had the privilege of going either to Read & McIntosh's, Corby's, or Pretty's wharves, where there was plenty of water. Mr. Redner is obliged by his contract to run the steamer until the close of navigation, and we are informed that at a meeting of the Harbor and Town Property Committee held yesterday afternoon, the Town Solicitor was instructed to notify Mr. Redner and his sureties that they are held to the fulfilment of their contract.

The Tragedy at Kingston.

An inquest was held on the body of the murdered woman Woollard yesterday, and the following verdict returned: "Elizabeth Beecher Woollard came to her death by a gun shot wound, by a shot fired out of a revolver, on the morning of the 27th of November, instant, on the public highway in Pittsburg, by her brother, John Waller, the shot passing through the spinal marrow and causing death almost immediately." It seems the report that Waller died, turned out to be incorrect. He was living at last accounts, but it was not expected he would recover. The *Whig* speaking of the horrible tragedy says:—"There seems to have been no provocation for this cruel murder; his sister was happily married to a respectable man, and there is nothing to account for the deed, except that from the day his sister left home to be married unknown to him, until the day of his death, he was in a strangely excited state of mind; and yet none of the witnesses spoke of his being out of his mind." The following letter was found in Waller's pocket:

"WALTER WOOLLARD,—

"I write these few lines to you to bid you good bye. Had you taken my advice that I gave you, things might have been different; but as it is I freely forgive you, as I hope to be forgiven by my Maker. When my sister came to me to ask pardon for her unholy marriage with you, I told her that I forgave, but that she was too late to save life. Again I say good bye. JOHN WALLER."

—San Antonio, Texas, is flooded with grasshoppers three feet deep.

—Official returns show that 1,014 persons lost their lives at St. Thomas in the late hurricane.

—Sketchley ("Mrs Brown") the well known English lecturer is coming to Montreal.

—Mrs. Blanchette, a passenger by the Grand Trunk, was robbed of $1,800 between Prescott and Montreal, Thursday morning.

—The Bill now before Parliament has had the effect of sending Commercial Bank Stock up to 20 to 25.

The House Last Night.

The debate on the Bill to disqualify members from sitting in both Houses was concluded at a late hour last night, and the result was as might have been expected the Bill was withdrawn. It seems to us that the House is wasting a great deal of time in useless discussions upon buncombe motions. If Mr. Blake and Mr. McKenzie want to show themselves off, they might take some other method of doing so. It's bad enough to compel members who want to go on with the business of the country to listen to their long-winded speeches, but to thus uselessly waste the time of the House, and subject the country to an enormous expense, simply to gratify their vanity, is paying too dear for the whistle. It's time they drew in their horns.

The Postage Law.

It appears after all, that the most objectionable feature of the new Postage Bill is to be retained. All along we have expressed the opinion that the proposed change in the law compelling newspaper publishers to pre-pay postage on all papers despatched from their offices, was never contemplated, that the correspondents who first alluded to it, must have misapprehended the intention of the Government. We did so simply because the proposed provision was most absurd, unjust, and impracticable, and did not apprehend there was the slightest danger that the Government contemplated the perpetration of such a manifest injustice. It was bad enough to deprive the Maritime Provinces of the great advantages which their leading men acknowledge the country to have received from the free circulation of newspapers, but to inaugurate a system which has no parallel in any civilized country in the world, and which is objectionable in the highest degree, is still worse; and if this be the character of the advantages promised by Confederation, it will not tend to increase their approbation of the new order of things. It will be received with less favor by the people of what was once the Province of Canada, for it imposes an unnecessary and unjust tax upon a class who are the least able to bear it, without producing the slightest advantages to the country. It consolidates a portion of the revenue, compelling a few to pay that revenue, which, under the present *regime*, is collectable from the whole people. What advantage such a system can be to the Department we cannot conceive. There is no complaint that the Government loses anything from papers not called for, and if there be a loss in this respect, it is trifling in the extreme. The Department could not lose anything, comparatively speaking, under the present system, for the man who takes a paper, is generally willing to pay the postage if he never pays the publisher. And in case he refuses to take the paper from the Post Office, it is the duty of the Postmaster to notify the publisher, who forthwith stops the paper, making the loss insignificant to the Department, while it falls heavily upon the publisher. This loss to the publisher would be still greater under the proposed system, for if the subscriber obtains his paper without paying any postage, he would be more apt to take it out of the office, and the publisher would thereby lose, not only the price of his paper, but the postage he has pre-paid. There is another very objectionable feature in this system which would work injuriously in country offices. Postmasters in the country are paid a per centage upon their collections. Take away from them the receipts of postage for newspapers, and you deprive them of an important part of their revenue, which would have to be made up to them by a direct salary paid by the Department.

Look at it in the light in which the publisher is more directly interested. If the proposed system be adopted, a daily paper which has a circulation of say 1,000 subscribers, would have to pay $1,000 a year postage; one with 10,000, $10,000, and so on. Take a paper published at $5 a year, and on which perchance there may be a profit of 50 cents a subscriber, the publisher is not only compelled to pay his profit to the Post Office Department, but loses 50 cents a subscriber in the bargain. It may be said in answer to this that the publisher can charge the subscriber the extra dollar. Any one knowing the precarious character of newspaper subscriptions, knows full well that such a thing is simply impossible. It is difficult enough to charge and collect sufficient to cover the bare cost of the raw material, and to attempt to add to this in the shape proposed is monstrously absurd. If the cash system were established, the case might be different. But the country is not old enough to carry out this system in the newspaper business, any more than it is in any other branch of business, and to ask newspaper publishers to agree to the proposed system is simply asking what one-half of them are unable to conform to. It is bad enough, in all conscience, that they should contribute from $2,000 to $5,000 a year in educating the masses, which nearly all of them do in giving a free circulation to their publications, but to compel them at the same to pay a direct tax to the Government of $2,000 to $5,000 more for the privilege of educating the people, is rather too much of a good thing, and we are very much surprised that the Government would attempt to inaugurate such an unwise, unjust and impracticable system. It is to be hoped the Postmaster General will yield to the wishes of those most directly interested, and strike out this objectionable clause. Far better do this than push it to a vote, for we feel assured, if the House is divided on this question, a majority will be found to oppose it.

A synopsis of the New Postage Bill will be found on the first page of to-day's issue.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 28th. 1867.

To-day the Government said, in reply to Mr. Abbott, that the question of closing the Carillon and Grenville Canals on Sundays, during the season of navigation, would be considered before the opening of navigation next spring.

In reply to a question by Mr. McConkey as to the intention of the Government in reference to issuing debentures to realize funds to pay off the Dominion indebtedness to the Bank of Montreal, Sir John A. Macdonald said the whole question would be thoroughly explained by the Minister of Finance when he again took his seat.

On the motion of Mr. Fortin, an address was passed to His Excellency the Governor General, praying for a return of the number of vessels owned in the Dominion of Canada on the 1st of July, 1867, with a statement shewing whether they are steamers or sailing vessels, whether they are seagoing, or river, or lake vessels, whether they are trading or fishing vessels, and also indicating their tonnage, their value and the port and the Province they belong to and the number of their crew; and for a return of the number of fishing licenses issued in the years 1866 and 1867, in the Provinces now forming the Dominion of Canada, in favor of the masters of fishing vessels of the United States of America, who applied for such licenses for the purpose of acquiring the liberty of fishing in the waters of the Provinces of British North America, with a statement shewing the amount of the fee of each license, the name, the tonnage, and the port of registration of each American vessel receiving such license; and also the name of the Provincial officer who issued the same.

The debate upon Mr. Blake's motion declaring that the Minister of Militia, Geo. Etienne Cartier, had no legal right to sit and vote in this House, was resumed, and continued till 6 o'clock, when, after another speech from the mover of the resolution, he withdrew his motion. The object was attained. The reporters sent forth the learned gentleman's oratory, and he is made to appear a useful member, when in fact the whole time of the House has been occupied since its opening with speeches and no work.

After the recess, Mr. Bellerose again brought up his Bill, preventing the rafting of timber within one hundred yards of any wharf, and urged its reading a second time, in order that it might be referred to a committee to report.—Mr. Bowell replied that the law already provided ample protection to vessels navigating our waters, and quoted from the statutes the clauses applicable. The motion for the six months hoist was then carried.

Mr. Mills moved his Bill to disqualify members from the Local Legislatures from sitting or voting in the Senate or House of Commons. He introduced the question with a few remarks, pointing out what he thought would be the advantages arising from its passage. He was replied to by Mr. Chamberlin, who argued that it was not the time to enact such a law, until we had found from experience that the present system works bad. He also argued that it would be well to have members in both Houses to prevent local jealousies from arising between them. Mr. Johnson of New Brunswick, supported the Bill and Sir John A. Macdonald opposed it, and argued that the House had pledged itself to give the new constitution a fair and impartial trial; there was now an attempt to change and alter the constitution, and that too by a member of the liberal party. This to him was strange, as he had, during the present session, heard invidious distinctions drawn between the liberal and conservative parties, but he found that the rights of the people were protected by the latter party as readily, and in this instance more readily, than the former. And as the present law would restrict the rights of the people in the selection of candidates, he, as a conservative, was too jealous of their rights to allow them to be infringed. It was true that New Brunswick and Nova Scotia had passed a law to prevent persons serving in both Houses, and it was for the local Parliaments to deal with this question, and to say who should hold seats in their House, and not for the Commons to restrict them. He shewed that when the Irish Parliament was in existence gentlemen held seats in that and the English Parliament at the same time, and that no evils arose from it. If, from experience, it was found to work badly, then change it, but not to commence theorizing before the Constitution had been put into working order. The people had a right to choose whom they thought proper, and until it was found to work evil he would oppose it.

He was followed by Mr. McKenzie, who was speaking when this letter was closed.

The ball given by the Speaker of the Senate last night was a brilliant affair, there being about nine hundred persons present.

Telegraphic News.

BY ATLANTIC CABLE.

PARIS, Nov. 28, noon.—The *France*, a Government organ of this city, has a long editorial this morning on the subject of the conference for the settlement of the Roman question. The writer says it will be impossible for the conference to maintain the present boundaries of Rome.

Despatches received announce that several battles have been fought in Candia, between the Turks and Cretans. Both parties claim successes.

LONDON, Nov. 28, evening.—In the House of Commons this evening, Ministers introduced a plan for a new income tax, at the rate of 1d in the £. The design of this tax, which is to endure for one year only, is to defray the expenses of the Abyssinian expedition.

The Seward-Stanley correspondence relative to the "Alabama" claims, was promised at an early date.

In reply to a question regarding the mail contracts between Great Britain and the United States, it was stated that the Government had contracted with the Cunard line for a year, at a fixed sum. The bids of the competing lines were adjudged unsatisfactory, but the subject could not be deemed settled, as negotiations on the subject were still pending.

PARIS, Nov. 28.—The evacuation of Roman territory by the French forces still continues. All the troops will have returned by Monday next.

BERLIN, Nov. 28.—The Prussian *Kreuz Zeitung*, of this city, has an editorial this morning on the conference for the settlement of the Roman question. The writer says that, with the exception of Austria, not one of the great powers of Europe has accepted the conference. The other powers have either, like Prussia, exacted explanations, or given evasive replies.

LONDON, Nov. 26.—Additional particulars of the disastrous inundation with which the Island of Luzon was visited last month are received. Besides great damage to the shipping and crops, whole villages were overwhelmed, and the loss of human life is computed at ten thousand.

Additional advices from China report that Hong Kong was visited on the 1st of October by a typhoon, which almost equalled in violence and destructiveness, the hurricane reported two or three months ago.

PARIS, Nov. 29, noon.—The bullion in the Bank of France has increased 1,200,000 francs.

LONDON, Nov. 29, noon.—American securities firmer and higher. Bonds 71¼; Erie 47⅜; Consols 95.

LIVERPOOL, Nov. 29, noon.—Cotton heavy; Uplands 7⅝d Orleans 7¾d; stock in port 463,000 bales, of which 42,000 are American. Other markets unchanged.

LONDON, Nov. 29, 2 p.m.—Consols and Bonds weak; Bonds 71; Consols 95.

LIVERPOOL, Novr. 29, 2 p. m.—Breadstuffs heavy. Corn declined to 47s 9d; peas to 44s 5d; Wheat to 13s 2d., for No. 2 Red Western and 16s 3d for California white. Provisions and Produce dull; Lard declined to 49s 9d; Bacon to 45s 6d. Petroleum to 1s 3d for standard white.

American Despatches.

NEW YORK, Nov. 29.—The *Herald's* Havana special says: We have dates from St. Domingo to the 20th inst. The rebel General Borrierbe was captured and shot. President Cabral and staff had left for Cibao, following General Bobadil, at the head of a column.

The funeral procession in honor of the Fenians recently hung at Manchester came off yesterday, and was a most imposing spectacle. About 5,000 Irishmen formed in a long column, four deep, and marched through the principal streets, attended by three hearses, each containing a coffin on which was inscribed the name of one of the executed men. The procession halted in Union Square, where orations were delivered extolling the heroism of the martyrs and the cause for which they died.

CHICAGO, Nov. 28.—Weston arrived here at ten this morning.

CROUP CURED BY SULPHUR.—The *Medical Gazette*, of Paris, states that M. Langaterle, of Paris, after observing the effect of sulphur on the odium of grape vines, was led to administer it in several cases of croup. He mixes a teaspoonful of sulphur in a glass of water, and gives a teaspoonful of this mixture every hour. The effect is described as wonderful. The disease is cured in two days, the only symptom remaining being a cough arising from the presence of loose pieces of false membrane in the trachea. M. L. says he has followed this plan in seven cases, all being severe, especially the last, in which the child was cyanotic, with protruded rolling eyes and noisy respiration.

CURE FOR SWEENEY IN HORSES.—The *American Stock Journal* gives the following linament which, it says, has been used with perfect success and never known to fail in any of the numerous cases of sweeney to which it was applied. The editor says it may be regarded as a certain cure, unless in instances of long standing, where nothing can successfully reach it: Alcohol 1½ gills; turpentine ½ gill; oil organum; oil wormwood ½ ounce. To be applied twice a day to the parts affected, carefully, as whenever it comes in contact with the skin the hair is temporarily removed. If the part becomes sore keep it well greased, and after a few applications of the mixture, drop off twice a day to once in two or three days, until the linament is used up.

Congress and the Fenians.

"THE WEARING OF THE GREEN IN THE U. S. HOUSE OF REPRESENTATIVES."

In the U. S. House of Representatives on Monday proceeded as the business in order, to the consideration, as a privileged question of the resolution offered by Mr. Robinson, (Dem., N. Y.,) in reference to the treatment of naturalized American citizens in Great Britain, and calling for the impeachment of Minister Adams.

Mr. Robinson addressed the House in an hour's speech, reviewing the recent events to which his resolution had reference. He said he intended to keep calling the attention of Congress to the question until a remedy would be applied. Within the last two years no American citizen had been allowed to visit Great Britain or Ireland without being subject to an insulting examination of their persons and effects.—Referring to the Abyssinian expedition he said that Napier was marching on the enemy, while Grant's sword was rusting in the scabbard and Farragut's fleet was firing salutes to the government against which it should be operating. Ireland, he said, did not belong to England. England had never conquered Ireland, and never would, for an inferior race could certainly never conquer a superior race. One half of the members of the House, he said, were Irish; fifteen or twenty millions of the American people were either wholly or in part of Irish blood, and in a short time there would be a hundred millions of men of Irish blood in this country. Then if England did not believe they would do as the donkey did among the chickens—take a dance and let every one look out for his own toes. (Laughter.) He concluded by quoting from Miles O'Reilly, a good Irishman, the following verse:

We are citizens twice over,
By the law and by the sword—
By adoption and by service,
But our claims are now ignored.
Say, Uncle Sam, is that your way?
And do you really mean
That you outlaw all faithful sons
Whose breath is of the Green?

The resolution was referred to the Committee on Foreign Affairs.

MARRIED,

At Stirling, County of Hastings, on Wednesday, 27th Nov., 1867, by the Rev. Alexander Ketchan, George J. Potts, M. D., of Belleville, to Agnes, fourth daughter of the late Alexander Stewart, formerly of Glasgow, Scotland.

By the Rev. James Preston, on Nov. 28th, at the residence of Merrick Sawyer, Esq., Belleville, Mr. William Johnson, to Miss Mary Louisa J. Lyon, of Belleville.

—The Fenians of New York are to have a grand funeral demonstration in honor of the Manchester "martyrs."

SPECIAL NOTICES.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one tea spoonful of Relief in a tumbler of water. Drink this before going out in the morning, and several times during the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.
If seized with Fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking Relief immediately, every four hours, also the Pills. A cure will be sure to foloiw. The Relief is strengthening, stimulating, soothing, and quietening; it is sure to break up the Fever and neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague, Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive. In all cases where pain is felt, the Relief should be used.
Relief 50 cts.; Pills 25 cts. Sold by all Druggists.
See Dr. Radway's Almanac for 1868. 178-2w-41 -

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:
Messrs. J. N. HARRIS & CO:
GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.
Yours respectfully, A. L. SCOVILL.
Sold by all Medicine Dealers.

Government Notice.

TENDERS in duplicate (marked on the envelope "Tenders for Works and Repairs for the Royal Engineer Department") will be received by the Senir Commissariat Officer at Montreal, until 12 o'clock, noon, on
SATURDAY, the 30th Instant,
for the performance of such Works and Repairs for the Royal Engineer Department as may be required, commencing on the 1st of January, 1868, and continuing in force until the 31st day of March, 1869, at
COBURG AND BELLEVILLE.

1. Excavator's, Mason's, Pavior's, Bricklayer's and Plasterer's work.
2. Carpenter's and Ironmonger's work.
3. Smith's, Iron and Brass Founder's work.
4. Plumber's work.
5. Slater's Metallic and Gravel Composition Roofing.
6. Painter's, Glazier's and Paper Hanger's work.
7. Supply and Repair of Stoves, Stove-pipes, &c.

Seperate Tenders are required for each Station.
Repairs required to be performed by the Purveyor's Department to be executed at the same rates as for Engineer services.
The Tenders may be made for each of the seven divisions of Trades in the Printed Schedule, but preference will be given to any one offering for the whole of the Trades at the Station.
The Tenders to state the rate per cent, below or above, or at the printed prices (for the whole of the services under each Trade) at which the party is willing to execute the same.
Forms of Tender and Schedule of Contract, together with any other information required, may be obtained from Mr. Hanlon, Clerk of Works, Dafoe Hotel, Belleville.
No Tenders except those on the printed forms will be noticed, and none will be received after 12 o'clock on the day fixed.
Commissariat, Canada,
Montreal, 22nd November, 1867.

POSTPONEMENT.

THE time for receiving the above Tenders is extended until SATURDAY, the 7th DECEMBER, at NOON.
Commissariat, Canada,
Montreal, 28th November, 1867.

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - - - - - $72,000.
Divided into 2,400 Shares of $30 Each.
Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 25 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $33.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.
There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.
The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.
In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.
The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.
BANK OF MONTREAL, Bankers. T. A. MITCHELL, Secretary and Treasurer.

Smoking in Prison.

The "Amateur Casual" writes to the London *Evening Star* that the first treat which prisoners give themselves when released is a pipe. An incident showing the strength of their attachment to tobacco was related to him by one of the officers of Portland Prison:

"Somehow a bit of tobacco and a pipe were smuggled in in a manner that made it the joint-stock property of three of the convicts, and it was treasured until there occurred a fair opportunity for its enjoyment. At last the long-looked-for time for the treat arrived, and then came the question how was the luxury to be fairly shared. One suggested six whiffs each till the pipe was exhausted, but he was a strong lunged villian, and his device was at once seen through—it was clear that he could 'pull' as much smoke in his six whiffs as could the others in ten. It was a nice point to decide, but presently one of the party, whose ingenuity somewhat exceeded his delicacy, hit on the exact thing. Two straws were procured, and possession of the precious pipe was tossed for. This preliminary settled, the trio sat down and the pipe was lit, the holder of it taking in his lips one of the straws as well as the pipestem. The other end of this straw the second man took in his mouth, as well as a tip of the second straw, at the further extremity of which sat the third man. Then the 'treat' began. The man with the pipe took a whiff, enjoyed the mouthful of smoke awhile, and then carefully blew it through the straw into the mouth of the second man, who, after taking toll of it, passed it on through the straw to the third man, who in consideration of what virtue the tobacco might have lost, coming to him, as it did, at third hand, was permitted to swallow it—a precaution rendered necessary lest the warden should get scent of the prohibited indulgence."

The Cheese Market.

(*From the Utica Herald, Nov.* 26.)

There are about a thousand boxes on delivery at the Little Falls market, Monday, 18th November, mostly from family dairies. Trade continues dull, and prices do not improve. The sales of private dairies run from 12½c. to 14c., the last figure only for a few fancy lots.

But few sales have been made of Herkimer county factory cheese during the past week. We quote the following sales:—Rodney Golden, at 14c.; H. C. Brockway's factory, 14c.; J. Baker's, 14c.; L. F. Brown's, 14c.; E. B. Fuller's, 14c.; H. M. Bliss' 14c.; J. W. Beckwith's, 14c.; J. Kenney's, 14c.; From the Frankfort factory, 500 boxes last week, at 15c. Geo. Davis' factory sold at 15c., all cheese made; also 400 boxes of Luke Snell's factory, at 15c. About 75,000 pounds bought last week in Oswego county, at 14c., mostly from Smith & Ingraham's, Gilbert's Mills and Pennellville factories.

We have advices from abroad down to November 2d. R. Macdonald, of Liverpool, says at that date that the imports of cheese for the week have been 11,085 boxes. More doing at 46 to 50s. for medium to good dairies and factories. Fine and extra quality brings 52 to 53s. Our London correspondents say there are very few English Cheddar which bring 80s., but the price is easily made for unexceptionable quality. Some Cheddars are selling as low as 42s. They add that the American cheese market has come to a stop for the last two or three weeks. The dealers are pretty well in stock, and decline to give the advanced prices required by the rise on this side (America.) They think by holding off that the factories will give way and that they shall be able to get in their winter supplies at 4s. to 6s. lower than at present demanded. They add that the English market can take all our make at present prices, 60s. to 62s. for best.

Another London correspondent says: "We have had a very quiet market in cheese this week, (November 7st.) but with small supplies, holders of fine qualities are very firm, at full rates."

It is our impression, that should the factories now give way to any extent, cheese would fall to two or three cents below present rates. We can not help thinking that the better course for factories, under the present depressed state of the market, is ship to New York, and hold in their own name. Or they could ship to England, through some reliable house, with instructions to hold cheese until certain rates are obtained.

—The Fenian State Convention in California has unanimously endorsed William R. Roberts and his plans for the redemption of Ireland.

—It is rumored in Fredericton that Messrs. Glazier, of Sunbury, and Beveridge, of Victoria, will be the new Senators from New Brunswick, Vice Messrs. Chandler and Todd, who have refused the appointment.

LOOK: THE DAILY LONDON ADVERTISER is published every evening, and sent by mail at **$4 00** per annum, payable in advance. It contains all the local and general news, the latest telegrams and market reports. As its daily circulation is the largest in Upper Canada, outside of the Toronto Press, advertisers who wish to reach the car of the West should take advantage of its columns. The *Globe* says of the ADVERTISER:—

"This excellent newspaper now appears in new type, and is one of the neatest papers in the country. The ADVERTISER is well conducted, and though not an old paper has for its daily and weekly editions a very large circulation—larger than any other journal published in this neighborhood. It is, therefore, a first-rate advertising medium."

READ: THE WEEKLY ADVERTISER is the best and cheapest paper in Upper Canada. Terms, **$1 25** per annum, in advance. The balance of the present year GRATIS! Splendid prizes to getters-up of clubs! Specimen copies and circulars sent on application. Send for Specimens! All letters should be addressed:

BUY YOUR TEA DIRECT FROM THE IMPORTERS!

Tea, Tea, Tea!

THE MONTREAL TEA COMPANY, 6 Hospital Street, Montreal, having just imported a large quantity of Green and Black Teas, beg to call the attention of the Trade, Hotel Proprietors, and large establishments generally to their list of prices. Buyers of Chests and Boxes of Tea will save money by getting it direct through the Importers.

All orders for 25 lb. boxes and upwards carriage free to any Railway Station in Canada. Buyers living beyond Railway Stations, will please send Post Office order, or enclose notes. The carriage will be paid to the nearest station, where there are express offices. Tea will be forwarded immediately on receipt of the order by mail containing money, or the money can be collected on delivery by express man. Cash collected in Montreal free of charge, and Tea forwarded for the same. Nothing less than 25 lb. boxes sold. Original packages Black Tea weigh, ¾ chests about 50 lbs. Chests do 90 to 100 lbs. Green Tea from 60 to 80 lbs. Teas not mentioned in advertisement can be had equally cheap. The Company are determined to take a stand in the Montreal market, every article may therefore be depended on as to quality and weight.

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS, QUEBEC, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS, OTTAWA, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 28 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3D1t-tf Assistant Commissioner of Customs.

TO THOSE LOOKING FOR MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauts I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address
GEO. D. WYCKOFF,
Lessee,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. WYCKOFF'S Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.
Madoc, November 19, 1867. 172tf

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying gauges and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home.—Instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (Sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with RELIABLE CORRESPONDENTS in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information of the **Gold Regions,** and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the DAILY INTELLIGENCER worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"BUSINESS NOTICES"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 3 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is **over 1,400.** With such a large and general circulation throughout this and adjoining Counties, the WEEKLY INTELLIGENCER presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion	0 50
Each subsequent insertion	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "BUSINESS NOTICES"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses, and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The DAILY and WEEKLY INTELLIGENCER can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.

Let there be Harmony in things Essential—Liberality in things not Essential—Charity in all.

Vol. 1. BELLEVILLE, COUNTY OF HASTINGS, DOMINION OF CANADA, SATURDAY EVENING, NOVEMBER 30, 1867. No. 181.

Sabbath in the Country.

The creaking wagon is in the shed,
The busy flail is heard no more;
The horse is littered down and fed,
The harness hangs above his head,
The whip behind the door.

His leathern gloves and hooked bill
To-day the woodman throws aside;
The blacksmith's fiery forge is still,
The wooden wheel of the weary mill
Sleeps in the mill-dam wide.

The miller's boat is anchored, where,
Far out the water-lillies sleep;
You see their shadows mirrored there,
The broad white clouds reflected clear,
Within the mill pond deep.

The barrow is in the garden shed,
Hoe, rake, and spade are put away;
Unweeded stands the onion bed,
The gard'ner from his work hath fled—
'Tis holy Sabbath day.

Upon the wall the white cat sleeps
By which the churn and milk-pans lie,
A drowsy watch the house-dog keeps,
And scarcely from his dull eye peeps
Upon the passer-by.

And sweetly over hill and dale
The silvery sounding church bells ring;
Across the moor and down the dale
They come and go, and on the gale
Their Sabbath tidings fling.

From where the whitewash'd Sunday school
Peeps out between the poplars dim,
Which ever throw their shadows cool
Far out upon the rushy pool,
You hear the Sabbath hymn.

From farm, and field, and grange grown grey
From woodlawn walks and winding ways,
The old and young, the grave and gay,
Unto the old church come to pray,
And sing God's holy praise.

The Pleasures of Old Age.

A man's circle of friends must be very narrow who cannot reckon amongst them some elderly person who carries his years lightly, and whose heart is gay in spite of the snow upon his head. There is no reason, indeed, why any man of good constitution should not carry a certain youthfulness with him into advanced years. Many do who were never particularly robust. Every now and then we meet with some one who astounds us by saying that at his next birthday he will be seventy. We should guess him about midway between fifty and sixty. Men of this sort are for the most part spare, lean men. The infirmities of age seem to be the inheritance of those who are—as Cæsar wished the men about him to be—fat. They have enjoyed the early period of life too well to have any healthy enjoyment of its close. Those who would live long, and retain youthfulness of body, should live sparingly. The majority of mankind kill themselves before their time by over-eating and over-drinking—more by the former, even, than by the latter. To a well-regulated mind, too, there is no reason why the evening of life should be irrepressibly sad. Some tinge of melancholy it must have. In truth, age has many privileges of its own, which give it a preference over youth. Mr. Souvestre thus treats this subject in his work on "The Pleasures of Old Age." His Roger says:

"'Learn that I regard it as the happiest time of my life.'

"And, as I shook my head,

"'Yes, the very happiest,' he repeated, striking the ground with his stick, 'the happiest both from a physical and a moral point of view.'

"'You forget the infirmities which accompany it.'

"'And you, my dear Raymond, do not think of the passions which it leaves behind. What more cruel infirmity than ambition, which keeps us day and night panting up that slippery path of success; than love, which makes slaves of us; than hatred, which turns us into tyrants; than idleness, which whispers into our ear, "Rest and sleep," while necessity cries in the other, "Awake and be doing!"'

"'But the diminution of our powers?'

"'Is compensated by the lessening of our obligation.'

"'So then, you are delighted at having lost your hair?'

"'I have a wig which keeps me warmer.'

"'To feel your sight growing weak?'

"'With my spectacles, I can see as well as at fifteen.'

"'And to have lost all your teeth?'

"'Zounds! they caused me suffering enough; now I have false ones, which save me from leeches.'

"'I could not help laughing.

"'You think I am joking! exclaimed Roger, impatiently, 'but I am not, upon my honour. Mankind are unjust toward old age; they expect from it the resources of another period of life, instead of using those which are really its own. The essence of the human soul is regret. In order for anything to please us, we must have lost it. In youth we weep for childhood; in manhood, for youth: in old age, for our departed vigour; and, because old age is the final step, we have not the opportunity to regret that.'

"'So that you regard the sors of opprobrium which cling to old age as an injustice?'

"'As a common-place, rather. Be on your guard, my dear Raymond, for common-place rules the world. It sufficient for a piece of stupidity to be repeated from father to son, to escape from all examination; it enters, in fact, into the domain of truth. Error would appear to resemble wine; if once bottled up in an axiom it is held to improve with time: the oldest errors are the most esteemed. People have affixed to certain words fatal epithets, which brand them at once with an indelible stigma. Mournful old age! Happy infancy. Joyous college days! why, they are so many absurdities and falsehoods."

QUEEN
INSURANCE COMPANY
CAPITAL, - - - - $10,000,000.
FIRE and LIFE.
LIFE DEPARTMENT.

THE principles on which this Company is founded contain all the elements required to develop the benefits of Life Assurance, and afford every facility to intending assurers.—One of the advantages secured by those who insure their lives with this Company is that the outside expenditure for Management is absolutely restricted by the Deed of Settlement to **Ten per Cent** of the Net Life Income. This most important restriction shows that the interests of participating policy holders are closely watched and carefully attended to by the Company. Attention is especially called to this point, as the proportion of premiums expended for Management Must Largely Influence Profits and Bonuses.

The next division of profits takes place in 1868, and all those who wish to participate in the profits should insure at once.

Daily Intelligencer.

BELLEVILLE, SATURDAY, NOV. 30.

THE FINANCE MINISTER.—Hon. Mr. Rose, Finance Minister, having been re-elected for Huntingdon, was yesterday introduced by Sir John A. Macdonald and the Hon. Mr. Cartier, and took his seat.

THE WEATHER.—Yesterday forenoon it was mild as early autumn. The rain-storm which commenced early in the day continued far into the night, and every one hoped it would continue for a day or two more. But by midnight it stopped, the wind veered round to the north, and the thermometer to-day cannot be far from zero. Winter may be said to have fairly set in, and a day or two of such weather will effectually close up the creeks, and rivers and bays.

FENIAN RUMORS.—The following is contained in the Prescott *Telegraph*: "We are informed by a gentleman from Ogdensburg, who has good opportunities of learning the facts, and who is thoroughly trustworthy, that several batteries of field artillery, as well as 30,000 stand of small arms, have been brought by the Fenians from different parts of the States this fall, and deposited at certain points along the frontier between Ogdensburg and St. Alban's. It is the opinion of the same gentleman that this movement of arms is a part of the Fenian preparations for a big raid on Canada in the spring. Our Government is doubtless acquainted with these facts, and will surely take such steps for the efficient defence of the country as the circumstances demand."

AGGRAVATED ASSAULT.—In the early part of May last, a man named David Baine, residing in Murneyville, had a quarrel with his wife Margaret, which resulted in a brutal kick given to her by the husband. She was advanced in pregnancy at the time, and the nature of the wound, along with other injuries inflicted the same night, produced abortion the next morning. She was attended by Dr. Hope, and subsequently by Drs. Dorland, Burdett, and Cannif. The two latter gentlemen treated her as having her thigh fractured, in addition to other diseases. The unfortunate woman lingered on and pined away in the midst of her six small children.—Her brother, who resides in Lanark, arrived here on the 6th inst., and removed the entire family; but the poor creature, exhausted by sickness and completely prostrated by disease, died at Perth, on her way homewards. Captain James, on tidings of her death having reached him, proceeded to Stirling, whither the husband had removed, and arrested him. He was remanded until yesterday, when the Police Court was crowded to hear the evidence, which was conclusive as to the assault and its nature, but the medical testimony being contradictory, on application of the County Attorney, the prisoner was again remanded until the 6th prox., that a post mortem examination may decide whether a fracture exists or otherwise. The prisoner was defended by Messrs. Dean & Gilbert. Mr. Coleman prosecuted on the part of the crown.

FROM COLBORNE.

(*By Special Telegraph to the Daily Intelligencer.*)

SCHOONER3 ASHORE.

PORT COLBORNE, Nov. 30.

The schooner "New Dominion," of Picton, went ashore early yesterday morning near the cut at Long Point. A tug has gone to her assistance from Dunnville.

The schooner "B. F. Davy," of Kingston, from Chicago with corn for Kingston, went on the reef east of the piers here last night. She is making only a little water, and it is thought she will be got off without much damage.

Weather cold and snowing.

Gold News.

From the Madoc *Mercury* of to day we obtain the following Gold Mining intelligence: "Blasting is being vigorously carried on at a new opening in the village, on Mr. F. Seymour's land, between the Police Barracks and the creek. A tunnel is also being driven into the hill on the Union Mining Co.'s property at Eldorado, where work will be steadily prosecuted during the ensuing winter.—The shaft near the marble quarry in this village has been named the 'Honolulu.'

"We learn from Mr. Aylsworth, P.L.S., that while engaged in running lines in the 11th concession of Marmora, on Thursday, he broke off some pieces of rock, in which, upon examination, some very fair-sized specimens of gold were clearly visible.—We also hear that a similar discovery was made, this week, in rock on the bank of the creek where the crushing-mill for the Barry mine, in Elzevir, is being erected.

"Messrs. Turley and Gilbert resumed operations at their crushing mill, at El Dorado, on Tuesday. Some of the tailings of the ore 'Eldorado' mine, which was previously crushed by them, has been subjected to amalgamation, and we understand that a very pretty 'button' of gold had been obtained, but its exact value had not been ascertained at the time our informant left. Both at this mill, and at the Reduction Works of Messrs. Scott & Taylor, there is ore enough on hand to keep them busy for some time to come."

Pitching into Great Britain.

Our neighbors across the lines are determined to have some *casus belli* with Great Britain. They entertain an old grudge against us. Against Canada, first, because she became an asylum for fugitive slaves, and next, because she afforded a retreat for fugitive Southerners. Against Great Britain, for alleged sympathy with the South, for declaring South and North belligerents, and for the depredations of the Alabama. Indeed the grudge dates back farther than 1861. It goes back to the days when Scott and Brock fought at Queenstown Heights, and still farther back to the days of the Revolution. There is a feeling of bitterness, if not of hatred, against Great Britain, in the hearts of a large majority of the native Americans, and this bitterness has been made more bitter and more intense by the events of the past few years. The imaginary wrongs inflicted upon the United States by Great Britain, during the war kept it alive, and the Fenian movement has contributed largely towards intensifying that hatred. It's no use to reason with them. No use to tell them that Great Britain did no more than the United States have done on more than one occasion; no use to tell them that the neutrality laws were not violated; no use to point to the column of 30,000 strong which went from Canadian soil to do battle for the North, as an evidence of our feeling towards the belligerents; no use to point to the action of the Canada Government in sending her volunteers to the front to protect the soil of the United States from invasion by her own citizens. It's like attempting to convince a woman against her will. They won't listen to reason, nor be convinced; they nurse their wrath to keep it warm, and every now and then it boils over. It boiled over the other day when the Manchester Fenians were executed, and at a hundred different points throughout the United States, the usual blood-and-thunder demonstrations took place. It would be of very small moment if these demonstrations were confined to Fenians and their sympathizers, but when we see such men as Judge Daly, of New York, A. Oakely Hall, Horace Greely, and Geo. Wm. Curtis, taking a prominent part in those meetings, and endorsing the proceedings and resolutions, which are full of bitterness and hatred against Great Britain, they possess a significance, which otherwise would not be attached to them. A number of Fenians who claim American citizenship are in British prisons, and it is claimed by these men that they are illegally imprisoned, and the Washington Government is demanded to take immediate measures for their liberation. Amongst the resolutions adopted at the New York Mass meeting, at which the gentlemen above named were speakers, is the following:

"Resolved, That should the Government of Great Britain refuse to make plenary reparation to the United States for the manifold insults offered to this republic in the persons of its citizens, and should that Power persist in ignoring the citizenship of those who have been naturalized by American law, and still continue to claim jurisdiction over them as British subjects, the President and Congress should remember that in 1812 their fathers fought to vindicate the rights of their country to receive foreign born immigrants into the great American family, and that from the issue which the infant republic did not hesitate to face, the full grown nation of to-day should not shrink, when justice and the interests of ten millions of her citizens demand the immediate and definite settlement of a matter on which the faith of the United States is already pledged."

What a pretty picture this nation presents to the civilized world. After allowing a military organization, whose avowed object is to make war upon Great Britain, to exist in open defiance of its own laws; permitting it to fit out and arm vessels for the invasion of a country with which it is at peace; conniving at the unhallowed invasion of our soil by this band of pirates, nursed and encouraged by its own Government; sending its own citizens to sow the seeds of revolution among peaceably disposed inhabitants; and when these men have been arrested and thrown into prison for shooting down the officers of justice in cool blood, and creating an armed resistance to the authority of the Government, we are told they are American citizens, that they are illegally imprisoned and must be given up. If such a demand be really made, we fancy, before they are given up, the United States Government will have an opportunity of "fighting again" to "vindicate" the so-called "rights of their country," and we fancy she will meet with a more overwhelming defeat than in the war of 1812.

FROM OUR OTTAWA CORRESPONDENT.

OTTAWA, Nov. 29th, 1867.

The debate upon Mr. Mills' Bill, to prevent any one sitting in both Houses, was continued for some time, when, as has been the case in most of the other questions of abstract principles raised by the Grits, after three or four hours, was withdrawn at the suggestion of the Hon. J. H. Cameron, who expressed a strong opinion against Ministers of the Local Parliament holding seats in the Commons, but thought the time inopportune to introduce the Bill, particularly as the question could be thoroughly debated when the Independence of Parliament Act is brought before them.

The Hon. J. H. Cameron moved the second reading of the Bill for the settlement of the affairs of the Bank of Upper Canada, and to refer it to the Committee on Banking and Commerce, which was opposed by Mr. Ferguson, on the ground that it relieved the stockholders from the double liability, which was denied by Mr. Cameron, who stated that he would not push the Bill until time was given to allow those who opposed it to petition against it. It was then read and referred, and the House adjourned.

To-day on the opening of the House, the reception of the petition of the Hon. Mr. Chapleau, claiming the seat for Kamouraska, was again brought up, and the Speaker said that having looked into precedents, he found that the Marsborough election case, in England, was exactly similar, and that in that case, a petition was presented and received, and sent to an Election Committee in the House of Commons; and he therefore recommended the reception of the petition. This was opposed by Messrs. Holton and Dorion; and sustained by Messrs. Cartier, Macdonald (J. A.), and Harrison, and after an hours' debate, the petition was received and referred to the General Election Committee.

The Hon. Mr. McDougall said he would on Monday next move the Committee of the Whole to consider the following resolutions for the incorporation of Rupert's Land and the North-Western Territory with Canada:

1. That it would promote the prosperity of the Canadian people, and conduce to the advantage of the whole Empire if the Dominion of Canada, constituted under the provisions of the British North America Act of 1867, were extended westward, to the shores of the Pacific Ocean.

2. That the colonization of the fertile lands of the Saskatchewan, the Assiniboine and the Red River districts—the development of the mineral wealth which abounds in the regions of the North-west—and the extension of commercial intercourse, through the British Possessions in America, from the Atlantic to the Pacific—are alike dependent upon the establishment of a stable government, for the maintenance of law and order in the North-western Territories.

3. That the welfare of a sparse and widely scattered population of British subjects, of European origin, already inhabiting these remote and unorganized territories, would be materially enhanced by the formation therein of political institutions bearing analogy, as far as circumstances will admit, to those which exist in the several Provinces of this Dominion.

4. That the 146th section of the British North America Act of 1867 provides for the admission of Rupert's Land and the North-western Territory, or either of them, into Union with Canada; upon terms and conditions to be expressed in addresses from the Houses of Parliament of this Dominion to Her Majesty, and which shall be approved of by the Queen in Council.

5. That it is accordingly expedient to address Her Majesty that she would be graciously pleased, by and with the advice of her Most Honorable Privy Council, to unite Rupert's Land and the North-western Territory with the Dominion of Canada, and to grant to the Parliament of Canada authority to legislate for their future welfare and good government.

6. That in the event of the Imperial Government agreeing to transfer to Canada the jurisdiction and control over this region, it would be expedient to provide that the legal rights of any Corporation, Company or individual within the same will be respected, and that in case of a difference of opinion as to the extent, nature or value of these rights, the same shall be submitted to judicial decision, or be determined by mutual agreement between the Government of Canada and the parties interested.

7. That upon the transference of the Territories in question to the Canadian Government, the claims of the Indian tribes to compensation for lands required for purposes of settlement would be considered and settled in conformity with the equitable principles which have uniformly governed the Crown in its dealings with the aborigines.

8. That a Select Committee be appointed to draft an humble address to Her Majesty on the subject of the foregoing resolutions.

Mr. Dorion asked if the correspondence would be brought down before the resolutions were referred. Mr. McDougall replied that they would.

Sir John A. Macdonald moved the second reading of An Act to authorize the apprehension and detention of such persons as shall be suspected of committing acts of hostility, or conspiring against Her Majesty's Government. Mr. Anglin objected to the provisions of the Act, and required it so changed, as to give power to the Governor General to suspend the *Habeas Corpus* Act in case of necessity. Mr. Dorion thought the Act should not be passed, unless there was necessity for it, and if there was, the Government should say so. Sir John A. Macdonald said there was immediate necessity for it.—The Government would not have taken the responsibility of asking for the suspension of the Act unless it was considered absolutely necessary. The Act was then passed. The proposition of Mr. Anglin, it will be seen, would effectually do away with the objects contemplated by a suspension of the Act. A raid might be made—disaffected men might be travelling the country sowing the seeds of disaffection, but could not be arrested and held in custody until the Governor had called his council together, and proclaimed the suspension of the Act of *Habeas Corpus*, whereby the whole object of the Government would be defeated, and a substantial advantage given to the Fenians.

Sir John A. Macdonald gave notice that he would, on Monday next, move the House into a Committee of the whole on the following resolutions, which being of an important character, I send them to you:

1. That for the purpose of constructing a Railway connecting the port of Riviere du Loup, in the Province of Quebec, with the line of Railway leading from the City of Halifax, in the Province of Nova Scotia, at or near the Town of Truro, it is expedient to raise and appropriate by loan a sum not exceeding *three million pounds sterling* bearing interest at a rate not exceeding *four per centum per annum*, upon the guarantee of the payment of the interest of such loan by the Commissioners of Her Majesty's Treasury, under the provisions of the Canada Railway Loan Act, 1867.

2. That it is expedient to charge the Consolidated Revenue Fund of Canada, with the principal and interest of the loan immediately after the charges specifically made thereon by sections one hundred and three, one hundred and four and one hundred and five, of the British North America Act 1867.

3. That it is expedient to provide for the payment by the Government of Canada by way of Sinking Fund of an annual sum at the rate of *one per centum per annum*, on the entire amount of principal money whereon interest is guaranteed, to be remitted the Commissioners of Her Majesty's Treasury by equal half-yearly payments in such manner as they may from time to time direct, and to be invested and accumulated under their direction in the name of four Trustees, nominated from time to time, two by the Commissioners of Her Majesty's Treasury, and two by the Government of Canada, such Sinking Fund and its accumulations to be invested in securities of the Provinces of Canada, Nova Scotia and New Brunswick, issued before the Union of Canada, or at the option of the Government of Canada, in such other securities as may be proposed by that Government and approved by the Commissioners of Her Majesty's Treasury, and to be applied under the direction of the Commissioners of HerMajesty's Treasury in discharge of principal money whereon interest is guaranteed.

4. That it is expedient to charge the Consolidated Revenue Fund of Canada with the amount of the Sinking Fund immediately after the principal and interest of the Loan.

5. That it is expedient to charge the Consolidated Revenue Fund of Canada with any sum issued out of the Consolidated Fund of the United Kingdom under the Canada Railway Loan Act 1867, with interest thereon at the rate of *five per centum per annum*, immediately after the Sinking Fund.

6. That it is expedient to continue the Sinking Fund until all principal and interest of the Loan, and all sums issued out of the Consolidated Fund of the United Kingdom under the Canada Railway Loan Act 1867 and all interest thereon are fully discharged, or until the Sinking Fund and its accumulations are adequate to discharge so much thereof as remains undischarged.

7. That it is expedient that the Government of Canada be empowered to raise, by loan, for the completion of the Railway, a further sum not exceeding *one million pounds sterling* (without guarantee by the Commissioners of Her Majesty's Treasury) and that the Consolidated Revenue Fund of Canada be charged with the money so raised and interest, immediately after the charges made thereon in pursuance of the foregoing Resolutions.

8. That it is expedient to provide that separate accounts of the monies raised under the foregoing Resolutions be kept by the Receiver General, and that all sums required for the construction of the Railway, and the carrying out of the purposes of the Act authorizing such construction, shall be paid out of such monies, and not out of any other fund—except that the Governor in Council may authorize the advance out of the Consolidated Revenue Fund, of such sums as it may be necessary to expend for the purposes aforesaid, before the said loans can be raised; such sums to be repaid to the Consolidated Revenue Fund out of the loans.

The House then adjourned till Monday next.

Editorial Summary.

—The Commercial Bank Bill has been finally revised by the Banking Committee.

—The election for Niagara takes place on the 5th December.

—The *Globe* says the company of the 17th Regiment which was to be sent to Cobourg, is to be retained at Toronto.

—An extensive gang of coin counterfeiters has just been broken up in the county of Carleton.

—A sharp Boston man has already made $3,000 by buying up tickets for Dickens' readings.

—Mr. Thomas C Dixon, formerly M. P. P. for London, Ontario, died at Houston, Texas, last September.

—Major-Gen. Stisted has obtained the good service pension of £100 a year, vacant by the promotion of Major-General French to the 80th Regiment.

—The walking mania, started in the States by Weston's walk to Chicago, has been given by several newspaper editors the imposing title of "Ambulamania."

—There are two Fenians and a Fenian sympathizer—Gen. Banks—on the new United States House of Representatives Committee on Foreign Relations.

—M. Chassepot, the inventor of the musket that bears his name, is at present in Lyons for the purpose of superintending the manufacture of 100,000 of those weapons ordered by the French Government.

Telegraphic News.

BY ATLANTIC CABLE.

LIVERPOOL, Nov. 29, evening.—While the steamship "Coubonlana," which plies between this port and Greece, carrying the British mails, was leaving her wharf at about noon to-day, an accident occurred which resulted in fearful loss of life. One of the boilers exploded with a report that was distinctly heard throughout the whole city. Thirty-three persons were killed outright, and many others injured.

LONDON, Nov. 29, evening.—It now seems that the statement that it will be impossible for the proposed Conference to maintain the present boundaries of Rome was not the utterance of *La France*, one of the Government organs of Paris, but of the St. Petersburg *Journal*, an official newspaper, and regarded as quite as good an authority usually on diplomatic questions.

BERLIN, Nov. 29.—The citizens of the United States in this city, held a festival yesterday in observance of the national thanksgiving day.—A banquet was given in the afternoon, at which some 170 American ladies and gentlemen were present, besides a number of eminent foreign guests and friends of America. Hon. George Bancroft was chairman and made a speech, which was replied to by Herr Forkenbeck, the President of the Prussian Chamber of Deputies. Both speakers gave eloquent expression to the cordial state of feeling existing between the American and German nations. The festivities concluded in the evening with a ball, which was a brilliant affair.

CORK, Nov. 29.—One of the armories in this city was entered last night by supposed Fenians, who carried off one hundred and twenty revolvers and ten Snyder rifles.

LONDON, Nov. 30, noon.—Consols 94¾; Bonds 71; Ill C 88½; Erie 47½.

LIVERPOOL, Nov. 30, noon.—Cotton dull and unchanged; sales 10,000 bales. Breadstuffs dull.

LONDON, Nov. 30, 2 p. m.—Consols 94¾; Bonds 71; Erie 47¾; Ill C 87¾.

LIVERPOOL, November 30, 2 p. m.—Cotton declined 3/4d; Uplands 7¼d; Orleans 7¾d. Red Wheat 13s 1d for No. 2; Lard 49s 9d; Bacon 44s.

American Despatches.

HAVANA, Nov. 29.—The birthday of the Prince Asturias was celebrated by a grand levee.

Prince Salm Salm is still waiting here for the arrival of the "Novara."

Private correspondence from Mexico says that Admiral Tegethoff, before leaving the capital, settled all the personal accounts of Maximilian, including a number of impositions.

Gen. Marquez is reported to be in Matamoras.

Accounts from Demarara to the 10th state that one hundred and eighty emigrants had arrived from the United States. They come as settlers, and will form a valuable addition to the population of the colony.

NEW YORK, Nov. 30.—A fire last evening originated in the japan house connected with the extensive pail manufactory of E. Faber. Loss $35,000.

By the failure of Sherman & Co., three hundred persons are thrown out of employment.

The anniversary of the Polish Revolution—Nov. 29, 1830—was commemorated last evening. Addresses urging those present to unite and organize, with a view to vindicating and maintaining the honor of the Poles in America, were made.

Henry Eckert, whose leg was crushed while saving a little girl from being run over by a locomotive, died in Brooklyn.

Edward Kearns was caught in the machinery of Campbell & Thayer's oil works yesterday and instantly killed.

Mary Anne Kay was burned to death yesterday, her clothing having caught at a bonfire.

NEW YORK, Nov. 29.—The steamer "Weser" brings European dates to the 19th.

The London *Times* says it appears that, in addition to the two million pounds in gold to be paid for Russian America, the United States have agreed to disburse one million and a half pounds for St. Thomas and St. Juan, with additional seven hundred thousand pounds, provided France will waive her claim to the island of Santa Cruz. It has been understood that the payment to Russia is to be made at the end of the present year.

WASHINGTON, Nov. 29.—The Senate has confirmed Horace Greeley as Minister to Austria, and Col. Horace Capron as Commissioner of Agriculture.

The President's message will be put to press to-morrow, and the prospects are that copies will be transmitted hence in advance of its delivery.

CLEVELAND, Nov. 30.—A heavy storm of wind has been raging since midnight, and it is snowing and freezing.

SPECIAL NOTICES.

TYPHOID FEVER.

This disease is not only cured by Dr. Radway's Relief and Pills, but prevented. If exposed to it, put one tea spoonful of Relief in a tumbler of water. Drink this before going out in the morning and several times during the day. Take one of Radway's Pills one hour before dinner, and one on going to bed.

If seized with Fever, take 4 to 6 of the Pills every six hours, until copious discharges from the bowels take place; also drink the Relief diluted with water, and bathe the entire surface of the body with Relief. Soon a powerful perspiration will take place, and you will feel a pleasant heat throughout the system. Keep on taking Relief immediately, every four hours, also the Pills. A cure will be sure to follow. The Relief is strengthening, stimulating, soothing, and quietening; it is sure to break up the Fever and neutralize the poison. Let this treatment be followed, and thousands will be saved. The same treatment in Fever and Ague, Yellow Fever, Ship Fever, Bilious Fever, will effect a cure in 24 hours. When the patient feels the Relief irritating or heating the skin, a cure is positive, in all cases where pain is felt, the Relief should be used.

Relief 50 cts.; Pills 25 cts. Sold by all Druggists.
See Dr. Radway's Almanac for 1868. 179-2w-41-

Read what Dr. Scovill says of ALLEN'S LUNG BALSAM:

MESSRS. J. N. HARRIS & CO:

GENTS—I make the following statement from a perfect conviction and knowledge of the benefits of ALLEN'S LUNG BALSAM in curing the most deep-seated PULMONARY CONSUMPTION! I have witnessed its effects on the young and the old, and I can truly say that it is by far the best expectorant remedy with which I am acquainted. For Coughs, and all the early stages of Lung complaint, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the lungs, there would be very few cases of fatal consumption! It also gives strength to the system, stops the night-sweats, and changes all the morbid secretions to a healthy state.

Yours respectfully, A. L. SCOVILL.

Sold by all Medicine Dealers.

GOD SAVE THE QUEEN.

PROSPECTUS OF THE
EL DORADO MINING COMPANY
OF MADOC.
(LIMITED.)

CAPITAL STOCK - - - - - - - $72,000.

Divided into 2,400 Shares of $30 Each.

Deposit on Subscription, $15 Per Share.

THIS COMPANY is formed, and proceedings taken for its Incorporation, under Chapter 23, 27, and 28 Vic., for the purpose of developing the mineral resources of three acres of land, being part of the Moore Farm, and a portion of the North-east quarter of Lot 17, in the 5th Concession of Madoc. It is situated about forty rods from the celebrated Richardson Mine. At present, there are two shafts sunk on the property about 200 feet apart, one 46 feet deep, and the other 35 feet deep. There is at the present time about 500 tons of ore already mined. The owners of the property have had one ton of this quartz crushed and amalgamated by Scott & Taylor's Mill, which returned $53.80 in Gold, which specimen can be seen at J. E. Ellis', on King Street.

There is no question whatever but that there is also a large quantity of Silver in the same rock, but as Scott & Taylor's Mill was not prepared to extract the Silver, it is not known how much Silver there is in the ore.

The projectors have determined only to sell sufficient stock to repay the advances, and to carry on the work satisfactorily. They have thereupon decided to sell only 823 shares of the value of $30 each, payable one-half, or $15, as above, on subscription, and the remaining $15 on the 1st of January, 1868. Out of the above sales, $10,000 is to be retained by the Secretary for working expenses.

In presenting this Company to the public, the Directors do so with confidence, inasmuch as there is no doubt (judging from the above test), that the returns on so small a capital will be excessively remunerative.

The Provisional Directors are as follows:

A. F. WOOD, late Warden of the County of Hastings.
RICHARD SPARLING, Managing Director and Superintendent.
T. S. McGLASHAN, of Madoc.
MAHLON BURWELL McGREGOR, of Madoc.
T. A. MITCHELL, of Madoc.
ALDERMAN VICKERS, of Toronto.
J. E. ELLIS, of Toronto.

McCLELLAN & McCLELLAN, Solicitors. A. F. WOOD, President.

Belleville, Nov. 20, 1867. 172-tf 40tf

Eggs by Weight.

A dozen of eggs is a little more definite quantity than a dozen of potatoes, but still a very indefinite quantity. A dozen of eggs from little, scrawny, ill-kept chickens, sell for the same price as a dozen from large, well-kept fowls, while the difference between them is as great as the disparity between the hens that laid them. Purchasers in the market take their chances for big and little, and each gets a fair average.—But it is not so with producers, and here is where the injustice occurs. The man who raises choice fowls and keeps them in good condition, sells large, rich eggs for the same price per dozen that is paid for others one third smaller. This operates as a discouragement to raising good hens, and as a premium on poor ones.

A writer in the Canada *Farmer* insists that eggs should be sold by the pound, as well as meat and butter, and gives the difference in the average weight of a dozen of eggs from different breeds of fowls, as follows: Common fowls, one pound and six ounces; Spanish, one and 9½ ounces; Gray Dorking, one pound and 10 ounces; Gray Dorking and Bramah, one pound and 14 ounces; Gray Dorking and Cochin, one pound and 15½ ounces.

These are the differences in the average weight from different breeds. Should we compare the poorest specimens of the poorest breeds, with the best specimens of the best, we would find a difference of fully one half, and yet all are sold at the same price. We buy and sell nothing at so loose an adjustment of quantity to price as eggs, except when we buy wood by the load. Even apples and peaches, when sold by number, have the price adjusted to the size. But big or little, an egg is an egg.—*Wisconsin Farmer.*

Remarks on Breeding.

The Rev. H. Berry, in his excellent Essay on Breeding, says: "A person selecting a stock from which to breed, notwithstanding he has set up for himself a standard of perfections, will obtain them with qualifications of different descriptions and in different degrees. In breeding from such he will exercise his judgment, and decide where indispensible or desirable qualities are wanting, and will cross with animals with a view to establish them.—This proceeding will be of the 'give and take' kind. He will submit to the introduction of a trifling defect, in order that that he may profit by a great excellence; and between excellences perhaps somewhat incompatible, he will decide on which is the greatest and give it the preference.

"To a farmer beginning improvement, the best advice is, to get as good a bull as he can; and if he has got a good one of his kind, to use him indiscriminately with all his cows, and when by this proceeding, which ought to be persisted in, his stock has, with an occasional change of bull, become sufficiently stamped with desirable excellencies, his selection of males should then be made, to eradicate defects which he thinks it desirable to get rid of. He will not fail to keep in view the necessity of *good blood* in the bulls resorted to, for that will give the only assurance that they will transmit their own valuable properties to their off-spring; but he must not depend on this alone, or he will soon run the risk of degeneracy."

France a Wheat Country.—According to the *Revue des Economiste*, the entire extent of surface appropriated in France to the cultivation of wheat, is two thousand eight hundred leagues. Of every hundred acres appropriated to cultivation in that country, forty are devoted to this grain.—It is asserted that the quantity of wheat produced in France, exceeds the aggregate product of the same grain in the British Isles, Sweden, Poland, Holland, Spain and Prussia. The annual consumption per head, on an average, in France, is between six and seven bushels; in the British Isles, between five and six bushels, in Spain, between four and five; Holland, between two and three; in Prussia much less, and in Poland and Sweden, comparatively little. Spain, next to France, is the greatest wheat growing country in Europe. Her soil is almost equally fertile, and abounds in those mineral ingredients upon the presence of which in the soil, the success of the wheat crop is in a great measure found to depend.

Our Receipt for Curing Meat.—To one gallon of water, take 1½ lbs. of salt, ½ lb. of sugar, ½ oz. of saltpetre, ½ oz. of potash. In this ratio the pickle is to be increased to any quantity desired. Let these be boiled together, until all the dirt from the sugar rises to the top and is skimmed off. Then throw it into the tub to cool, and when *cold*, pour it over your beef or pork, to remain the usual time, say four or five weeks. The meat must be well covered with pickle, and should not be put down for at least two days after killing, during which time it should be slightly sprinkled with powdered saltpetre which removes all the surface blood, &c., leaving the meat fresh and clean. Some omit boiling the pickle, and find it to answer well; though the operation of boiling purifies the pickle by throwing off the dirt always to be found in salt and sugar. If this receipt is properly tried, it will never be abandoned. There is none that surpasses it, if so good.—*Germantown Telegraph.*

Consumption like the Rattle-Snake, always gives warning of its approach. A hacking cough, dull pain in the chest, difficulty of breathing are the indications that there is more or less irritation of the lungs. If this be neglected, and go on until pustules are formed, followed by tubercles, which sometimes eat off the blood vessels, Death will be the result.—Allen's Lung Balsam will heal all the irritated parts, allay the inflammation, removing the phlegm and matter. Thus topping the cough and prevent fatal Consumption,

American Invoices--Discounts.

FINANCE DEPARTMENT, CUSTOMS, Quebec, 6th March, 1863.

IT is directed by the Hon. The Finance Minister, that hereafter Weekly Notices be published and furnished to Collectors of Customs, as to the rate of discount to be allowed on American Invoices, which is to be in accordance with the price of gold as represented by Exchange, at a rate equal thereto. Such notices to appear every Saturday in the *Canada Gazette*.

R. S. M. BOUCHETTE.

FINANCE DEPARTMENT, CUSTOMS, Ottawa, June 8, 1867.

IN accordance with the above Order, Notice is hereby given that the authorized discount is declared to be this day 28 per cent, which percentage of deduction is to be continued until next Weekly Notice, and to apply to all purchases made in the United States during that week.

THOMAS WORTHINGTON,
3D1t-tf Assistant Commissioner of Customs.

TO THOSE LOOKING FOR MINING LOTS.

HAVING secured the Mineral Lease for ninety-nine years, of Lot No. 10 in the 1st Concession of Elzevir, said Lot containing 150 acres, and belonging to Stauls I. Sager, I now offer Mining Leases to any person or persons upon the following terms:—The property will be divided into Five and Ten acre lots, and to those securing lots, there will be required in lieu of rent or royalty, one-fifth of the gross proceeds of such minerals or metals as shall be taken out. 2nd. Any person securing a mining lease for the said lots, will be required not to discontinue mining for the space of three calendar months at any one time, without the written consent of the Lessee.

The property is beautifully situated, and ores from the different leads have been sufficiently tested to warrant them in saying that it will prove itself a most valuable property.

Black Creek running through the property furnishes fine water power.

A Crushing Mill is being built, which will reduce the ore for those mining on this property. The charges for crushing will be very moderate.

To each person or persons securing a Mining Lease on this property, an acre of good timber will be given for mining purposes.

For further particulars, address
GEO. D. WYCKOFF,
Lessee,
Madoc.

GEO. D. WYCKOFF & Co.

ARE now ready to contract for the ERECTION OF MILLS for the reduction of ores on the most improved principles, cheaper than any one else in the country.

Orders for G. D. Wyckoff's Gold and Silver Amalgamator, properly attended to.

Parties wishing to dispose of, or buy Mineral Lands through us, can have their lands inspected, and ores tested, without additional charge.

Persons wishing to test their own ores can have the use of our laboratory, free of charge. E. H. Hale, the former assistant of Mr. Wyckoff, will be in attendance to direct their working.

WYCKOFF & Co.
Madoc, November 19, 1867. 179tf

Intelligencer Building,
Front Street, Belleville.

American Watches.

THE true value of Machinery applied to Watchmaking is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waltham Watch should be superior to any other. In the first place, at Waltham the Watch is regarded as only a machine, to be constructed, like any other machine, on mechanical principles. The factory is, indeed, little else than a machine shop, the principal work in which is not more upon watches than upon machinery to make watches with. If the watches are good, it is because the machinery is good. Of course, there must be no defect in the principle of plan or the movement, no mistake in the sizes or shapes of the pieces of which it is composed, nothing wanting in their properties, and no error in their positions. These points once thoroughly settled in regard to each part of every variety of watch, it rests wholly with the machinery constructed with infinite diversity of form and function, expressly for the purpose, to produce the finished pieces. The method established in every department is the reduplication of parts by mechanical means, and this is carried out on the system of the most thorough subdivision.

By means of multiplying guages and microscopes, tests and inspection for the detection of wear in cutting tools, and for faults and flaws in steel or stone, are made to accompany the work in every stage from beginning to end. As a necessary result, the Watch goes together a finished machine. Every part is found to fit properly in its place. Every pin may be pushed till it pinches, and every screw turned home,—instead of sluggish and feeble action, the balance, even under the pressure of the lightest mainspring, vibrates with a wide and free motion, and the beat has the clear ringing sound always characteristic of the Waltham Watch. The machine is a time keeper from the start.

This system of watchmaking is unknown in foreign countries, and is entirely original with the Waltham Company. The Company claim that by it they produce Watches that cannot be equalled for every quality which makes a watch valuable. Simple in plan, and correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is uniform to the minutest details, not easily damaged, easily repaired, and when repaired always as good as new.

There are different grades of finish in the different varieties of Watches made by the Waltham Company, as there are different sizes and shapes to suit all tastes and means; but every Watch that bears the genuine trade mark of "WALTHAM" is guaranteed to be a good one, and nobody need be afraid to buy it.

☞ EVERY WATCH FULLY WARRANTED.

For sale by all first class dealers in the United States and British Provinces.

The Daily Intelligencer

WILL appear about five o'clock every afternoon (sundays excepted) and will be furnished by Carriers at the rate of $5 a year if paid in advance, $6 otherwise. Mail subscribers $5 a year. $2 50 for 6 months; $1 50 for 3 months.

It will contain the latest telegraphic news up to the hour of going to press, including Cable despatches and the New York and Montreal Markets.

Arrangements have been made with Reliable Correspondents in Madoc, Bridgewater, Marmora and other points, who will furnish us with early and full information respecting the **Gold Regions**, and of matters of general interest.

Special attention will be paid to reporting the proceedings of Courts of Law, Councils, Public Meetings, &c., &c., and in short, neither pains nor expense will be spared to make the Daily Intelligencer worthy of public patronage.

RATES OF ADVERTISING.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, not exceeding six lines, 6 months	$ 5 00
Half Square, 6 months,	$10 00
One Square, 6 months,	$20 00
Two Squares, 6 months,	$30 00
Four Squares, 6 months,	$50 00
Notices of Births,	50
Do of Marriages,	50
Do of Deaths,	50

"Business Notices"—All matter under this heading, leaded or solid, 10 cents per line, measured by a scale of solid minion.

Advertisers contracting for any space not less than half a square, have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 7 cents per line for first insertion, and 2 cents for each additional insertion.

The Weekly Intelligencer

Is published every Friday Morning at $2 per annum if called for at the Office, or sent by mail; and $2½ if delivered by the Carrier, payable in all cases in advance. When not paid until the close of the year, 50 cents will be added to each year's subscription. No paper discontinued until arrears are paid up, except at the option of the Publisher.

Within the past three months its circulation has rapidly increased, and the number now on our Subscription Books is over 1,400. With such a large and general circulation throughout this and adjoining Counties, the Weekly Intelligencer presents unsurpassed advantages to advertisers.

RATES OF ADVERTISING:

Six lines and under, first insertion,	0 50
Each subsequent insertion,	0 12½
Above six lines (per line) first insertion	0 07
Each subsequent insertion per line,	0 02

☞ "Business Notices"—10 cents per line each insertion, measured as solid minion.

A liberal discount made to those who advertise by the year.

Advertisements for insertion must be delivered before 12 o'clock, noon, on Thursday to insure their appearance.

All advertisements without written directions inserted until forbid, and charged accordingly.

The Intelligencer Job Office

Is supplied with Power Presses, Hand Presses and possesses every facility for the rapid and neat execution of every description of plain and fancy printing, at prices as low as any other establishment in the country.

The Daily and Weekly Intelligencer can be had at the Book Stores in Belleville, and at Wilson's Drug Store, Madoc, and at El Dorado.

All orders by mail promptly attended to.
